Cures Woman's Weaknesses. We refer to that boon to weak, nervous

suffering women known as Dr. Pierce's Payorite Prescription. Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW Says. of Unicorn root (Helonias Dioica) which is one of the chief ingredients of the "Fa-

vorite Prescription":

"A remedy which invariably acts as a uter-ine invigorator " " makes for normal activity of the entire reproductive system." He continues "in Helonias we have a medicament which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading Indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhoea; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kid-neys; menorrhagid (flooding), due to a weakened condition of the reproductive system; menormen surpressed or absent monthly periody. Assing from or accompanying an abnormal condition of the digestive organs and appenic (thin blood) habit; dragging

senstions in the extreme lower part of the If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent

ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says: "It is an important remedy in disorders of the womb. In all catarrhal conditions * and general enfectslement, it is useful."
Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root: "In relation to its general effects on the ystem, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in

all debilitated states."
Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal: "Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhora (painful menstruation)." Dr. Pierce's Favorite Prescription faithfully represents all the above named inredients and cures the diseases for which hey are recommended.
