James Creighton Slays on the body. Wife and Daughters

DEVOTED TO LATTER

Ghastly Sight for Neighbors-Murderer Well Connected.

(Special to The Free Press.)

Owen Sound, May 27.-A terrible triple murder was perpetrated here yesterday, followed later by the at man. tempted suicide of the murderer.

The victims are: Mrs. James F. Creighton, formerly of Ypsilanti, Mich., married a year ago, shot and throat cut; dead. Kathleen Chapman, her daughter,

aged 18, shot and stabbed, dead. Clair Chapman, her daughter, aged .16, shot and stabbed, dead, and

James Creighton, in a critical condition from a bullet in the head. The crime was revealed by the cries of the would-be suicide, when about six o'clock he appeared at an upper window of his home and called to a boy to proceed to the house of his brother, George Creighton, and tell him that something of a terrible nature had happened.

Soon another shot rang out and neighbors ran to the place. Creighton again appeared at the window and called to them that a horrible murder had taken place. He asked that they force open the doors. Communieation was at once held with the police authorities and Policeman An thony Shute, arriving in a few moments, the door was forced.

Upstairs, attired in his night shirt and lying across the bed, was Creighton, blood flowing from a bullet wound On seeing the men enter, he direct-

ed them to the rooms across the hall, where the most herrible sights that volver could be imagined met their gaze. Lying on a coach lay the body of Mrs. Creighton, covered with blood, terrible gash had been made in the throat and bullet wounds were visible on the unfortunate woman's head, besides several stabs with a knife on the upper part of the body, while to complete his gruesome task the murderer had tied a leather shoe string around her throat.

In another room lying on the floor | deed. was the mutilated body of her youngese daughter, Clair Chapman-Creighton's stepdaughter - aged 16 years. Her face was shattered almost beyond short distance, and her throat had

also been cut, besides numerous stabs Mrs. Coheen Allowed to Go on

Half-way out of the bed the corpse of the elder girl, Kathleen, hung. She had escaped some of the terrible mutilations inflicted on the younger sister, death having apparently taken place from the effect of the first shot. Both girls were in their night robes, which, with the bed clothing, were covered with blood.

The position of the younger girl indicated that a desperate struggle had taken place, probably after the shooting of the mother and elder girl, and that the poor girl had been overcome by the superior strength of her as-

sailant. Medical aid was summoned, and Dr. Cowper was speedily on the scene. He gave his attention to the wounded

Amid groans Creighton told the doctor that he had risen from bed shortly before 5 o'clock in the morning and committed the awful deed.

He said the revolver would be discovered under his wife's arm, while a heavy dagger was also found through

He would give no reason for committing the deed, but it is supposed that the meditated departure of his wife on account of domestic differences had weighed heavily on his mind. The murder of his stepdaughers cannot be accounted for, as he is known to have been devoted to them.

been resident of Owen Sound about a year. Mrs. Creighton, prior to her second marriage, was the widow of a man named Chapman, who resided in Michigan. The daughters, children of the first marriage, were well known and respected here and attended the Collegiate Institute.

The murderer after committing the crimes apparently went down town with the probable intention of purchasing poison, as he was seen standing in front of the window of a local druggist, but probably he thought he might attract attention, so returned home, and after staying with the bodies of his victims all day, he made an attempt on his life with the re-

An inquest will be held to-day. Creighton is under arrest, but his endition is critical.

Creighton is well connected, his father, who is dead, was Indian agent for many years at Cape Croker; his mother is still living here, aged 81. Creighton was addicted to drinking bouts when he would be very abusive. It is not known whether he had been drinking before he committed the

LOST FORTY DOLLARS.

Fortune-Teller Told A Youth That a Girl Was After Him

Suspended Sentence.

At 11 o'clock on Tuesday, in the County High Court, Anne Goheen appeared before Judge Harding on a charge of telling fortunes and was allowed to go on suspended sentence. It will be remembered that Mrs. Goheen was arrested some time ago and appeared before Magistrate Jack-

son. The charge was read by County Crown Attorney Devlin and was as follows: That Anne Goheen did on the 18th and 20th of April unlawfully undertake to tell fortunes, contrary to the criminal code, section 433.

Before Mrs. Goheen pleaded, Mr. Dearmid read the original charge upon which they elected to be tried, and stated that it was different to that read by the Crown Attorney. The original charge he stated was, that Anne Goheen had attempted to tell where certain stolen goods were to be found by dividing a pack of cards into three parts. The Crown Attorney said that the constable had had his | hall. About ten minutes later he was | Fletcher Mitchell at home. She had fortune told and that Mrs. Goheen | taken to the kitchen and was handed | two sons dead. One was pushed into had attempted to tell it. He cited a pack of cards. With Vines and Creepers

There are few plants that add so much to the attractiveness of the country home as vines and climbers. Verandas, summer houses, fences, rocks and old stumps of trees can be covered with vines with good ef-There are two classes of climbers that can be used for the purpose, perennial or woody, and anfinished she asked for 50c., but he nual. The former include Virginian creepers, Japanese or Boston ivy, various kinds of clematis, honeysuckle, Dutchman's pipe, wisarias, and so forth. In this short article, only the latter class, the annual climbers, will be dealt with.

The most popular of these plants is the swet pea. For variety of color, delightful perfume and continuity of bloom, it is difficult to surpass. The chief requisite to its successful culture are early planting plenty of moisture and good drainage.

An old-fashined flower that de serves a place somewhere about the home is the common morning glory, (Convolvulus major). To obtain the best results, the seed must be sown fairly early in spring, say from the middle to the end of March. The Janapese morning glory (Ipomaea imperialis), is larger than the ordinary kind and more brilliantly colored. The cypress vine (Ipomaea Quamoclit) and the moon flower (Ipomaea grandi-THE MONETARY TIMES THINKS | short supplies in all countries-and | they will not be exposed to the hot | tervening points were present.
