SPORTING NEWS.

CRICKET GOLF TENNIS

C.L.S. vs. Wideawakes. A good crowd of "fans" were at the baseball match Wednesday expecting to see a fast game of ball, and they were not disappointed, for a good game was played. The feature of the evening was a Workman's home run. The C.L.S. have a good bunch in the field, but their battery is not strong enough.

In the first innings the C.L.S. made a pretty good showing, but did not secure a run. The Wideawakes were next to bat and Hopkins fanned, Cinnamon and Workman then made hits and Nesbitt made an assist and brought in a run. T. Hopkins failed to make connections with first. Williams then made an assist and got out. In the second innings a forced run was made, Carew was on third and Moynes and Grey on second and third when Cinnamon came to bat. Cinnamon was passed to first on balls and Carew came home. Nothing sensational happened in the third or fourth innings. In the fifth "Pete" Spratt made a drive out to left garden, but Gray secured it and Nanny Nesbitt thought he got to first, but McHugh had the ball waiting for him.

In the sixth innings Carew made a drive out to centre field and "Pete" Spratt secured it. The seventh innings was a series of loose plays for the Wideawakes. "Bill" Cinnamon taking it as a joke to see the C.L.S. reach third and get out. The eighth and last innings was played a little better than the seventh, but the Wideawakes didn't work hard owing to the game being such a cinch for them.

The game was umpired satisfactorily by "Dickie" Butler, although "Bill" Cinnamon laughed at some of "Dickie's" decisions against the Wideawakes.

The following is the score of the game: Wideawakes. 1 3 5 1 0 0 1 0-11 C.L.S. 0 0 0 0 0 0 1 2-3

GIANTS vs. EXPRESS NINE.

The Y.M.C.A. Giants and the Express nine met last Friday in a five innings game of ball. The Express nine were first to bat, and McMahon who was first to bat, fanned. New-son then came up and reached first base, but was put out. McDonald was next, and he was out on first base.

The Giants were up next and Fee fanned. Stacey and Workman reached first, but Gray was put out, leaving Anderson to fan. In the second innings O'Keefe made a pretty hit out to centre garden, but Stacey looked after it and O'Keefe was put out. The Y.M.C.A. Giants made several good plays. Stewart made a hit in this innings, but it was of no use to him. In the third and fourth innings the Express nine began to over-steady all over the field and several runs were secured in these innings, while the Y.M.C.A. did not secure any. In the fifth play became steadier, and the Express nine began to bat Steward, and the game closed with a strike out by Stewart.

MARIPOSA LEAGUE.

The second game in the Mariposa league was held Monday. The game was played between Oakwood and Valentia, and resulted in a victory for Valentia. W. Graham, of Lindsay, umpired the game and Valentia scored 10 runs, Oakwood 4. In the first innings Oakwood scored one run, and in the second Valentia scored three. In the fourth, Valentia scored seven, and in the seventh Valentia scored three. The line-up was as follows:

- Valentia. V. Suggitt, p. N. Hicks, c. W. Found, 1st. W. Thompson, 2nd. H. Thompson, 3rd. J. Casey, ss. W. Suggitt, l.f. F. Hood, c.f. C. Found, r.f. Valentia-10. Oakwood. M. Hicks, p. B. Jewell, c. H. Perrin, 1st. F. Perrin, 2nd. Thornydyke, 3rd. H. Brown, ss. L. McGinnis, l.f. McLeod, c.f. Campbell, r.f. Oakwood-4.

SUNDAY BALL GAMES.

We understand that Chief Vincent has decided to "go after" boys who play ball on the Sabbath hereafter. It has been the custom of a number of lads to engage in games in retired portions of the town, and in future a close watch will be kept on the offenders.

NEW MANAGER.

Mr. C. B. Thompson has been elected manager of the Victor baseball team.

TENNIS.

The boys at the Collegiate are getting in some good practise at tennis this weather, and they will soon be ready to play games with different players.

THE RING.

Sydney, N.S.W., May 28.—The syndicate which is arranging for the visit

to Australia of "Tommy" Burns, the heavy-weight pugilist, has deposited \$10,000 to bind the match between Burns and Lang, the Australian boxer. The fight is to take place at Sydney in August. The syndicate also has the option of arranging two additional fights for \$7,500 each.

GOLF.

The local golf grounds are now in excellent condition, and the club is larger than it ever was before. New members are being added each week, and the club will soon compare favorably with that of the clubs in larger towns, and in the cities. Many of the golfers are practicing every afternoon, and it is hoped that the players will soon be proficient enough to meet other towns. It has been the custom in the past for a representative-body of the Lindsay Club to play the members of the clubs in the nearby towns and cities, and it is hoped that within a few weeks the golfers will have a chance of meeting some of these clubs.

LACROSSE.

Lindsay is going to have a lacrosse team in the town this season after all. Some time ago Lindsay received an invitation from Peterboro asking them to join the Midland Lacrosse League which was just then being organized. The invitation came too sudden for the local stick handlers, and the town was unrepresented at the organization meeting in Peterboro. However, the lacrosse fever is now beginning to sweep over the town, and by the end of next week it is learned that Lindsay will have one of the finest intermediate lacrosse teams in central Ontario. Three good players, who have been on the lineup of one of Toronto's best teams, have signed, and all those wishing to join should hand their names into Mr. G. A. Little. A meeting will be held some night this week in the local Y.M.C.A. and the officers will be elected.

LONG BICYCLE TRIP.

Peterboro Examiner: A bicycle trip to Kimmount, a distance of 45 miles, in the hot summer sun, is no mean undertaking. Last Sunday Mr. Roy Penrose and a young friend named Soward, Perry-st., set out on this journey at 6.30 a.m. They arrived in Bobsaygeon at 10.45 a.m., and after a rest of several hours, continued on their way at 1.15 p.m. They arrived in Kimmount at 4.30 o'clock and could have made better time, although the roads were sandy in some places.

THE TURF.

W. J. Davis, (2.06 1-4) holder of the world's trotting race record for three consecutive heats, was sold Wednesday at Reading, Mass., for \$1,200 to Paul Connelly, of Philadelphia.

While this noted gelding accomplished his remarkable feat at Columbus only three years ago, and is a candidate for the \$50,000 American Trotting Derby next August, buyers were afraid of taking chances at bidding, as last season he was not raced on account of an ailing ankle. When shown on the sale ring he was apparently sound.

New York, May 30.—In a blinding rainstorm, Keene's great horse Colin, which was declared to be hopelessly broken down two days ago, won the \$25,000 Belmont Stakes at Belmont Park to-day. He was added at the last moment, and never did the great horse receive such a salvo of applause as after the race. Thursday the racing world heard with deep regret that Colin had bowed both front tendons, but was in a measure prepared to see him under colors to-day. He won by a neck in a driving finish.

Ontario Motor League to Revive Old C.W.A. Signboard System.

Toronto, May 29.—The cycling days are recalled by the latest plan of the Ontario Motor League, adopted at a meeting of the directors yesterday. This is to appoint special hotels in different towns throughout the province which will be recommended by the league to its members, for their accommodation when on tour. The details of the scheme have not been worked out as yet, but it is probable that special signs will be issued to the hotels that are appointed, similar to the signs that were given out by the old C.W.A. The efforts of the league will be directed towards securing the best possible hotel accommodation at reasonable prices.

A special run for Toronto members of the league will be held to the Caledon Mountain Trout Club, Caledon, Ontario, on Saturday, June 13th. The annual outing for the orphans of the city will be held on Thursday, June 25th.

We've raised the dear old pennant high Above the old baseball town, And we should very dearly love To see the brilliant color of Those who can take it down.

DAMAGED BY LIGHTNING.

Thursday's electrical storm did considerable damage in the country round about. At Woodville, a man was hit by a bolt and badly stunned; at Beaverton rain and hail fell in torrents; and at Fenelon Falls lightning struck and demolished the chimney on Mr. Wm. Heard's hardware store.

59 4-5 seconds. He beat the time made by James D. Lightbody, of Chicago, for the same distance at the Olympic games held in Athens in 1906 by 5 3-5 seconds.

If the D. Beland, who competed in the Olympic trials at Montreal on Saturday is the professional sprinter who made his headquarters at Peterboro, not so long ago, he is no more eligible than Shrubbs would be. —Globe.

Lindsay Will Have A Live Gun Club

Many moons ago—perhaps twenty or more—Lindsay could boast of a live Gun Club, but it went the way of all unprogressive concerns. Some of the men at the head of it removed elsewhere after a few years, they were not replaced by others of the right sort, and dissolution came. From time to time of late years attempts have been made to re-organize the Club, but without success until last Thursday. Despite the downpour of rain a goodly number of town sports gathered in the Simpson house parlor to discuss matters connected with the proposed Club, and great unanimity was shown. The following officers were chosen:

- President—Major Hodgins. Vice-President—J. V. McNaulty. Sec. Treas.—Aird Flavell. Field Officer—Fred. Greene. The officers were appointed a committee to draft a constitution and by-laws and have same ready to present at a full meeting of members and supporters, to be held at the Simpson house next Monday evening.

It was decided to fix the membership fee at the low figure of \$1 in order that all lovers of the gun may feel able to join and help the good work along. Few towns in Canada have better material for a Gun Club, or better shots, and it is felt strongly by the leading spirits in the movement that with proper organization and good working rules, trap shooting at clay pigeons will attract many lovers of the shotgun to the weekly meetings.

The question of suitable grounds will be discussed at the general meeting next Monday.

Lindsay Schools Will Close Early This Year

DATE OF ENTRANCE EXAMINATIONS—NEW EXAMINATIONS TO BE TRIED.

The Collegiate Institute will close on the 19th of June, and will reopen on Thursday, September 3rd. The examinations begin on the 23rd of June, and end on the 16th of July. The dates for the examinations are fixed as follows: For entrance to Model School, June 23rd; High School entrance, June 24, 25 and 26. The Normal School entrance examinations and Junior Matriculation, July 29, and Scholarship Matriculation, July 2. The Education Department have changed the names of the examinations extensively. What was the old District Teachers, is now the Model School entrance; and what was the Junior Teachers is now Normal School entrance. The pupils are busy "plugging" for their exams now, and they are anxiously waiting for the time to come that will test their knowledge.

The Public Schools will close on the 26th of June, though the term will practically cease on the 23rd of June as the two upper forms leave school on that date for their examinations. During the last three days of public school examinations will be held for promotion from one class to another.

The Installation of Archbishop McEvay

CEREMONY WILL TAKE PLACE IN ST. MICHAEL'S CATHEDRAL.

Toronto, May 29th.—The consecration and installation of Archbishop McEvay will take place in St. Michael's Cathedral here on Wednesday, June 17. Mgr. Sbarretti, the Papal Delegate, will chant the pontifical high mass, and the ceremony of consecration will be taken by Bishop Dowling, of Hamilton.

A number of addresses will be read after the mass, and it is expected that all the Archbishops and Bishops of Canada and many from the United States will be present. In addition there will be nearly 200 priests.

HARROWING CORN.

The practice of harrowing corn before and after it has come up is by no means common throughout the country. Some are afraid of tearing the corn out and doing more harm than good should they put the har-

The Farmer and His Work

THE ACTION OF RENNET ON MILK KEPT IN RUSTY CANS.

In the 24th annual report of Wisconsin Experimental Station some valuable work has been done regarding the effect of different metals on the action of rennet in milk. The effect of rusty cans is summed up as follows:

Milk kept over night in very rusty cans may require from 3 to 40 minutes longer to coagulate than milk that is kept at the same temperature, the same space of time in cans free from rust. It was shown that milk placed in a rusty pan for 8 hours at 88 F. required 25 minutes to coagulate and contained .171 per cent. of acid, while the same milk kept at the same temperature for the same length of time in a vessel free from rust coagulated in 19 minutes and had .176 per cent. of acid.

The reason for a slow or retarded action of rennet which cheese-makers often experience may possibly be attributed to some extent at least upon the action of acid or iron at least upon the action of iron in rusty cans, and not entirely to the amount of acid salts present in the milk as was formerly supposed. Milk with more than 2 per cent. of acid is considered unfit to be made into cheese. At the same time it may be quite possible to accept from patrons, milk which really has developed more than 2 per cent. acidity, but which cannot be revealed by the acidimeter because the acid is partly neutralized by the iron of the can.

This is an important matter. To make the highest quality of cheese and butter it is necessary to have all dairy utensils in good condition and free from rust. The quality of the milk depends a great deal more

rows on to the corn field after the corn is sown. In no way can we cultivate quicker or to better advantage than by the constant use of the harrows on to the corn fields early, soon till it attains the height of three or four inches.

The harrowing should be done during the centre of the day. The sun will then have wilted the corn so that it will be tough and will not break off readily when struck by the harrows, besides, the small weeds will meet their finish when disturbed during the bright sunlight. Get the harrows on to the corn fields early and keep them there until the corn becomes too high. It is one of the best and one of the easiest methods of cultivation.—Canadian Dairyman.

EFFECTIVE REMEDY FOR CROWS.

Each year as the season advances corn growers are to their wit's end to stop the depredations caused by the crows upon their corn. There are many ways of combating these destroyers of young corn. Some keep them in check by means of scarecrows of different kinds, ranging from string strung around the field, to bright colored rags, shining tin and dummy representives of man. These are all more or less effective, depending upon the individuality of the crows and their past associations.

An effective remedy, however, that will meet all cases alike is the following: Procure from your druggist a few grains of strychnine. With the point of a small knife, break open the small end of a few fresh hen eggs place a portion of the strychnine in and mix the contents of the eggs with the strychnine by means of a toothpick or other suitable instrument, carefully seal up the openings, with some wax, or paste pieces of white

paper over the holes. Before you retire at night, place these eggs in the corn field, staking them in order that you may be able to find them the next day. Before you have arisen the next morning, the crows will be on hand in the corn fields, and will readily partake of the dainty that you have provided. Make an early trip to the field and you will find your enemies, the crows, stark and stiff upon the cornfield, or not far from it. Gather up the eggs that remain in order that stock may not be poisoned. The writer has tried this remedy and knows whereof he speaks. It is an effective one, besides it is a great satisfaction to be able to walk out in the fields and quietly pick up the crows that before were so exasperating.

Held Enthusiastic Meetings in Galway

TWO PETERBORO POLITICIANS PASS THROUGH TOWN SATURDAY MORNING.

Mr. T. E. Bradburn, M.P.P., and candidate for the local House for West Peterboro, accompanied by Mr. J. H. Burnham, B.A., the Dominion candidate for the same constituency, arrived in town Saturday morning and registered at the Simpson house. These two Peterboro politicians have been holding meetings at Swamp Lake and Union Creek, Galway.

Mr. Burnham, when seen this morning by a Free Press representative, stated that the meetings at both places were well attended. At Union Creek house and in the C.M.B.A. hall at Swamp Lake, Mr. Burnham stated that the people in that vicinity were perfectly satisfied with the Whitney administration, and are also satisfied with the Whitney system of administering colonization roads. The Whitney Government, he claims, has given the settler everything in, on and above the ground.

Mr. Bradburn is the popular editor of the Peterboro Review and has many friends in Lindsay and adjoining vicinity.

Mr. Bradburn stated that he was confident of being elected, and was sure of a big majority.

THE DAYLIGHT STORE.

Clothing With Character

We've searched the markets—tested the productions of all the reputable Clothing manufacturers—taken great pains in making selections, and we are now prepared to offer our trade "Clothing with Character," and at prices that will be perfectly satisfactory.

If there was better Clothing made or if money could secure better Clothing, we would have it.

The Best is None Too Good For Our Trade.

- If you want a Suit at \$8.50, 10.00, 12.00, 15.00 or 18.00. If you want a Spring Overcoat at \$10.00, 12.00 13.00, 15.00 or 18.00 If you want a new pair of Trousers at \$1.50, 1.75, 2.00, 2.50, 3.00, 3.50, 4.00. If you want a School Suit for boy, \$2.50, 3.00, 3.50, 4.00 and 5.00.

Come Here for the Best

We will give you Clothing that will not make us ashamed to look you square in the face the next time we meet you. We'll give you Clothing that will cause you to think well of us and make this your clothing store.

One and the Same Price for Everybody.

If you want a Clothing Store to tie to and bank on, we ask your patronage.

LANG & MAHER, Clothiers and Furnishers to Men Who Know.

Peterboro and Lindsay. East of Benson House.

OBITUARY NOTICES

JAMES FARRELL, OPS. The funeral took place on Saturday of James Farrell, one of the oldest residents of the township of Ops. The deceased was born in County Cork, Ireland, and came to this country when a young man. He was Reeve of Ops in 1874. He leaves one son and five daughters to mourn his loss.

HANNAH CLARRY JOLIFFE. Hannah Clarry, wife of Wm. Joliffe, passed away at the residence of her father, Mr. J. Clarry, last Friday. The deceased had been ailing for about two years and had been married one and a half years.

About three weeks ago she was removed to the Ross Memorial Hospital suffering from pneumonia. She was there a day when the doctor pronounced her disease as consumption, and she was then removed to the residence of her father in the south ward. She was then put in a tent and remained there till she died.

The deceased leaves behind her a husband, father, mother and five brothers. She was an adherent of the English church. The funeral will leave the family residence for the Riverside cemetery this afternoon at 3.30 p.m.

MRS. W. H. HAMMOND. The unexpected demise of the wife of our former Waterworks Superintendent, Mr. W. H. Hammond, which occurred on Sunday last, is deeply regretted by a wide circle of friends by whom the deceased was greatly beloved for her many estimable qualities. The bereaved husband and little daughter have the sympathy of all in their affliction.

Mrs. Hammond's maiden name was Araminta Dusty, daughter of Mr. Charles Dusty, a former well-known citizen of Uxbridge. Coming here 12 years ago, she quickly made friends, whose esteem she retained until the end. Her love for her little daughter, Alma Victoria, born two years after coming here, was absorbing, and when her health gave way about two years ago, necessitating a long stay in Peterboro hospital, her solicitude for the child is believed to have lessened her chances of final recovery. Up until a week previous to her death the family physician, Dr. Wood, had strong hopes that the coming of summer weather would mean an increase of strength and renewed health.

Interment took place at Riverside cemetery on Tuesday. Among the relatives and friends present from a distance were Mr. and Mrs. Chas. Flewell, of Toronto, Mr. and Mrs. Ben. Flewell, Mrs. Roundtree, and

Mr. Joseph Reeves, of Uxbridge; Mr. M. B. Williams and Mrs. Hammond of Cobourg.

Merry Wedding Bells.

HIGGS-SHELSON. A pretty but quiet wedding took place last Thursday at the home of Mrs. Shelson, Kent street, when Rev. C. H. Marsh united in marriage Herbert Higgs and Josephine Shelson. Only the immediate relations of the bride and groom were present. Mr. and Mrs. Higgs left that morning on the 9.15 G. T. R. train for their honeymoon, which includes a visit to Toronto and other cities.

Get off the centre of the stage, Come step aside; The spotlight soon will flicker off The gay June bride.

BIRTHS. BRYANS—In the East Ward, on Thursday, May 28th, 1908, to Mr. and Mrs. H. Bryans, a daughter.

HOLLAND—On Thursday, May 28th, 1908, to Mr. and Mrs. Holland, Genlag street, a daughter.

KNIGHT—At Lindsay, on Thursday, May 28th, 1908, to Mr. and Mrs. R. Knight, a daughter.

BARR—At the Cottage Hospital, Wellesley-st., on Tuesday, May 26th, the wife of Rev. R. Fordyce Barr, Whiteby, of a daughter.

SULLIVAN.—At Lindsay, on Wednesday, May 27th, to Mr. and Mrs. Sullivan, a daughter.

MILLAR.—In Lindsay, on May 27th, to Mr. and Mrs. I. Millar, a daughter.

SHYNE—On June 1st, to Mr. and Mrs. Dennis Shyne, of North Ops, a son.

COUGHLIN—In West Ops, on May 19th, the wife of Michael Coughlin of a son.

PARKER—On the 27th, in Bobcaygeon, the wife of Chas. Parker, of a daughter.

RICE—On the 27th, in Bobcaygeon, the wife of J. M. Rice, V.S., of two daughters.

DEATHS. DIED—In Lindsay, on Thursday, May 28th, 1908, James Farrell, aged 83 years.

KNIGHT—At Lindsay, on Thursday, May 28th, Edith Snelling, infant daughter of Mr. and Mrs. L. B. Knight.

RICE—On the 27th, in Bobcaygeon, infant daughter of J. M. Rice.

COAD.—At Oakwood, on Monday, Elizabeth Ann Coad, wife of George J. Coad.
