## ORIENTALS vs. C.L.S.

Last Tuesday the C.L.S. met the Orientals in a clean game of ball, with the Orientals pulling out victorious by the score of 9-2. A large crowd was on hand and were enthusiastic through the entire game. "Bob" Fee's braves played fine ball, holding an backing one another up. Douga played a star game, securing 2 hit off Duck, and scored once.

Moynes made a two-bagger and a one-base hit and scored 2 runs. O'Neill and Primeau also played fine ball, picking up some red-hot grounders in Eastern league fashion.

The C.L.S. were first up. O'Keefe put a nice grounder to Cain, who picked it up and landed it into McHugh's mit. O'Neill sent a beauty to McHugh, who fell over the ball, allowing O'Neill to reach his destination. Spratt was caught at first, but Cain who followed, poked a dandy out to left field, bringing in O'Neill.

The ball was too small for Fee, as it always went above or below when he hit, and after three twirls he went back to the bench disheartened.

The Orientals could not get any farther than second.

The teams met again in the second innings and did not score, but in the third the C.L.S. did not come near first base, and the Orientals broke the tie by scoring 2 runs, Anderson and Dusty being the heroes.

In the fourth the C.L.S. "duck-egged," but the Orientals got another one chalked down for them by the two-bagger hit of Moynes, who was brought in by the big hit of Dougan.

In the fifth innings the C.L.S. had a blank, but Cain and Fee did the grand march to first. The Oriental scored 6 runs, the horde being Dougan, Dusty, Calder, Moynes, Long and Miller.

Jack Primeau, the first man up for the C.L.S., scored another run in the 6th innings, but Duck, Killen and O'Keefe were killed at first, leaving the victory to the Orientals.

**WIDEAWAKES vs. ORIENTALS.**

Last week the Orientals met the Wideawakes in a very interesting and snappy ball game, with the teams well matched, but the Wideawakes whitewashed their opponents by the score of 4-0.

A very large crowd was on hand and left well satisfied after the exhibition. The Wideawakes played splendid ball, and the Orientals gave them some hard chases.

Workman, for the Wideawakes, played a beautiful game, securing a home run, which means "the hat," and a three-bagger, besides scoring twice.

Cinnamon made a two-bagger. Mezzies and Calder for the Orientals played a star game, the former with three put outs and Calder with the same honors and no errors.

At the end of the second innings the score was a tie, but in the third, Reeds, the Reaboro pitcher, lost his control and before he realized what was happening the Hill Head team had secured a tally of 13 more. The Reaboros could only manage to secure 2 in their half of this innings. Umpire Hickson then called the game on account of darkness.

**The Line Up.**

E. O. Hart	catcher	N. C. Hart
W. Moore	1st b.	P. Hawkins
T. Arkwright	2nd b.	R. Reeds
H. MacNeven	s.s.	T. Hawkins
B. MacNeven	3rd b.	F. McMann
S. Reeds	pitcher	J. Hickson
J. Crown	r.f.	C. Deyell
C. Reid	c.i.	G. Reeds
K. Reid	l.f.	L. Jones

Over-confidence in their ability defeated the Reaboros.

Return match to be played in Reaboro on July 28.

The coaching of "Manvers" Hickson and "Powles" Corner" Hart helped to upset the Reeds.

E. O. Hart pitched in the second innings, and put the Hill Head bunch out as fast as they came up.

Reeds "Applegate" curves did not trouble his opponents, who batted his delivery freely.

Umpire Hickson rendered his decisions much in the same manner as he toots the whistle on his engine—in prolonged vibrations.

**HIGHLANDERS vs. EXPRESS 9.**

Tuesday the Express Nine and Y.M.C.A. Highlanders met again in an exciting game of ball, in which the Express nine pulled out again victorious.

There was a large crowd on hand who left well pleased after the exhibition, and "Dick" Butler's decisions were to the satisfaction of all.

The pitching of Starr was the feature of the game, and the Express nine could do little with his delivery.

On the other hand, MacDonald pitched a fine game, but not like the last one with the Victors.

Henley caught for the Y.M.C.A. bunch, and when the change between him and Martin took place a great difference was made in the playing of the Highlanders; and he did certainly get them down to a good game at first, Martin playing a good game at first, and caught some awkward throws which came from different parts of the field.

It was in the second and fourth innings that the Express nine did the trick, batting Starr pretty hard and picking many out to short and left field. MacDonald got his share in the field. MacDonald got his share in the field. MacDonald got his share in the field.

**Summary.**  
Hit by pitcher—Martin. Two-base hit—MacDonald. First base on balls—off MacDonald, 3; off Starr, 2. Struck out—by Starr, 5; by MacDonald, 2. Double plays—fly caught by Williamson to Dennison. Umpire—Butler.

**Notes on the Game.**  
Henley made a dandy back-stop for the Highlanders last night.

Dennison played a star game on third base, with 2 errors and 1 put-out.

MacDonald didn't pitch the game like he did with the Victors.

Pollock, formerly of the Lindsay Red Skins, let everybody hear his sweet voice while supporting the Express nine.

"Sammy" Ferguson gave the word of encouragement to his braves last night.

**GOLF.**  
The Lindsay golf team have challenged the Sturgeon Point team for a game of golf Thursday afternoon next, with 14 men a side. This will be a fine game, as both teams are well matched. The line-up will be issued later.

**WALKING.**  
Jimmy Reynolds is arranging a bet of \$500 against \$1,000 that he can make the trip to Toronto and return in 33 hours on September 10th.

**LACROSSE EXCURSION.**  
Great interest is being taken in the opening game of the Trent Valley Lacrosse League which takes place in Lindsay next Thursday, when the Peterboro team will endeavor to take a fall out of the twelve representing Lindsay.

**KELLEY NOT RELEASED.**  
Rumors are flying concerning a coming big change in the Toronto Ball Club, but President McCaffery is very reticent concerning them.

**STADIUM PRICES DOWN.**  
London, July 20.—The Olympic Exhibition Committee last night agreed to make a reduction of 50 per cent. in the prices of most of the seats for the Olympic games in the Stadium, beginning to-day.

**WILL ROW IN OLD BOAT.**  
Henley, July 20.—The Canadian oarsmen were all on the river this morning. The eight, four and pair are getting more used to their boats.

## Forest Reserves Supply of Timber

INTERESTING INFORMATION BY CANADIAN FORESTRY ASSOCIATION.

A forest reserve is not an area of forest land where no trees whatever are allowed to be cut. The object in setting aside the land for the reserve is not to prohibit cutting altogether, but rather to regulate the cutting and generally to treat the forest so that a continuous crop of timber may be taken off the area, instead of having it cut over once or perhaps twice and then left waste.

Experience in other lands has demonstrated that such a continuous crop of forest trees can be grown, and the setting aside of forest reserves is one of the first steps taken in the introduction of such a policy in this country.

The primary object of a forest reserve is thus to provide for a perpetual supply of timber. Another important object of the reserves is to protect the water supply, both the domestic supply for towns and cities and also the supply to be used for the generation of power.

The effect of forests at the headwaters of streams is to regulate the flow so as to make it constant throughout the year—not a torrent in spring and a nearly dried-up stream-bed in the heat of summer.

In hilly and mountainous regions the cutting off of the forests has often led to the washing away of the soil. This has made it impossible for the forests to grow again, and moreover has led to the silting up of the rivers in the valleys, which made necessary the expenditure of large sums in dredging them out again.

Some reserves are important as well in furnishing recreation for the people, but the two essential objects of the reserves are those of providing for a perpetual crop of timber and of protecting the water supply for power and domestic use.

## President Tells of His Trip to Europe

HEAD OF THE ONTARIO AGRICULTURAL COLLEGE HAS RETURNED HOME.

Guelph, July 20.—President C. C. Creelman, of the Ontario Agricultural College, has returned from a trip through Europe. He went to study agricultural conditions in the old world.

In reply to the one important question as to how Canada ranks with the European countries in advanced agriculture, Mr. Creelman stated that there were some departments in which Canada ranked ahead, and in others they could take lessons from the Europeans.

What surprised him most, he said, in all the countries visited, was the thoroughness of the system of farming with comparatively small farms and with every foot of available land. They have, too, a better system of arranging their crops, and in some of the countries visited land used for thousands of years was still fresh and fertile through the use of fertilizers and the proper arrangement of crops.

Asked in what departments of agriculture Canada excelled, the president explained that Canada held the great advantage in the use of machinery, which is, of course, to some extent necessary where there are such large farms.

In England, and particularly Italy, as well as the other countries visited, Mr. Creelman explained that machinery was not used on account of the cheapness of labor. Two men could be employed in England, he said, for less than one here, and in Italy he mentioned one place where he had seen a ten-acre field being dug with spades.

**MONSTER PICNIC.**  
A monster picnic will be held on the Agricultural grounds at Victoria Road on Monday, Aug. 3rd. Sports of all kinds will take place, including baseball and lawn tennis tournaments. Several valuable articles will be drawn for, including a lawn mower, given by Myles Haygarth, Victoria Road, a ton of coal by W. Coad, Kirkfield, and a gold locket by Rev. Father O'Sullivan. Admission to the grounds 25c., meals 25c. extra. The public are cordially invited.

## YOUNG LAD NEARLY CUT IN TWO BY A BAND SAW ON SATURDAY

HORRIBLE ACCIDENT HAPPENED NORTH OF HALIBURTON—BOY WAS WORKING WITH HIS FATHER—EYE WITNESS INTERVIEWED BY REPORTER.

Mr. H. Bryant was the victim of a horrible accident on Saturday morning. He and his father have been running a portable saw in the district of Haliburton since last spring, and some few weeks ago they moved their saw down to a small place called Lochlin, about 8 miles from Haliburton. Since arriving at that place the saw had not given the best of satisfaction, so they decided to bring it to Craig & Austin, at Kinnmount, where they had it repaired.

As soon as it was fixed they brought it back to a farm house within two miles of Lochlin, where they set it up to cut lumber, and it was here the accident occurred.

They had just set it up and father and son were complimenting each other on how nice it worked, when the boy leaned over the saw to examine a box. While in that position, some of the stakes that were holding the machine to the ground gave way, and the belt running from the machine to the engine being very tight, causing the sawing machine to give a lurch, bringing the saw

against the boy's shoulder. There were several other parties present who witnessed the accident. One of the parties remarked to The Free Press this morning that he never saw such a horrible scene in his life. The saw entered at the boy's right shoulder and took a downward course, severing the right lung as it went, and almost cutting him in two. Those standing around went after a doctor as quickly as possible, but the boy had passed away before he arrived.

The unfortunate victim lived for 45 minutes after the accident, which only added to the horror of the affair, and to make it worse he was conscious for about 35 minutes.

The father was nearly frantic, he tried to stop the flow of blood and do everything he could for his boy, but it was of no avail. The son spoke several words to his father, which the grief-stricken parent answered, but they were inaudible to the parties standing around.

The deceased was removed to his home some few miles north of Haliburton.

## "RAINBOW STOCKINGS, SAH, ARE MOST TERRIBLE WEAPONS"

"MAN IS NOT HIMSELF, SAH, WHEN HE LOOKS AT THEM," SAYS GEORGIAN ADVOCATE OF "NO BLANDISHMENT" BILL.

New York, July 18.—Major Culpepper Pickney, a friend of Representative Glenn, of Georgia, who drafted the law to "protect men from the wiles and blandishments of women," arrived here to-day on the Savannah line steamship City of Atlanta, to confer with women of note in the north on the subject of the famous Georgia enactment.

"We are not here to cause women any trouble," said Major Pickney, as he stepped ashore from the steamship. "On the contrary, sah, every right-minded woman will help us in our fight against peek-a-boo waists, V-cut bodices, open-work hose and elbow sleeves. These rainbow stockings I have seen, sah, are the most terrible weapons a woman can use. A man is not himself, sah, when he looks at these rainbow affairs, and many a home has been shattered merely because an otherwise good and dutiful husband was tempted into gazing with more than ordinary admiration at those brilliantly hued creations.

"What the Glenn bill especially aims to prevent is having a man tricked into marrying a woman with a great head of chestnut tresses and a peaches and cream complexion, both of which come off in the seclusion of

her boudoir. Nor does it seem fair to have a man trapped into marriage by a graceful figure and curves that the envy of her "women friends, but which, in the solitude of her new-found home, prove to be false."

"Will Georgia also pass an Act protecting women against false square shoulders that come off when a man lays his coat aside?" the Georgia delegate was asked to-day by a trim young woman who was a passenger on the City of Atlanta and who had overheard the Major's conversation on the pier at the foot of Spring-st.

"You are not from Georgia, evidently, madam," gallantly spoke the Major. "In Georgia men do not have false shoulders put into their suits. In Chatham county, the home of the famous Oglethorpes and the Chatham artillery, the men are all naturally square shouldered as, in fact, they are throughout the south, madam."

"But we are very willing to enact any law in Georgia that will protect fair women. Let us know in what way we can protect you. Women in Georgia have already succeeded in taking away the one soothing prop of the Georgia gentleman, since it is now against the law in Georgia for a gentleman to take a drink, madam."

## BOSS CASE STRENGTHENS THEORY THAT BRAIN IS NOT MIND'S SEAT

MAN WHO SHOT HIMSELF THROUGH THE HEAD IN FULL POSSESSION OF FACULTIES—GIVES MINUTE DESCRIPTION OF FEELINGS TO DOCTOR.

(Detroit Free Press.)  
Charles W. Boss, 681 Ferdinand-avenue, who shot himself through the head on Tuesday morning, was still alive and in full possession of all of his faculties at a late hour last night, being able to talk freely with Dr. W. A. Harper, his attending physician, to whom he made known his wants and gave a minute description of his feelings.

The case is proving an extraordinarily interesting one to Dr. Harper, who is a strong advocate of the theory, supported by some of the best surgeons in the world, that the mind is not located in the brain, and is not, in fact, in any way connected with the brain, except as a governing force. Dr. Harper feels that Boss's ability to think clearly, and to put his thoughts into perfectly rational speech, is proof of the truth of his contention.

"I have made quite a study of the relationship of the human brain and mind," said Dr. Harper, "and I have seen and heard of many cases that go to show them to be distinct from each other, but I do not know of any case that illustrates the fact more clearly than this one does."

"Mind is a force, not a physical part of the body, according to my theory, while the brain is merely the organ through which the mind works, just as a dynamo is merely a clever contrivance of wires

and other things which, when electrified, produces force and action. When the force of the mind is exerted on the brain, it works just as the dynamo works from the electric force which passes through it.

"Old physiologies, and some of the new books, teach that the mind is located in the frontal lobe of the brain, but the frontal lobe has been removed, without impairing the mentality of the person from whom it was taken. I myself have removed portions of the brain, and have seen no deterioration. Sometimes we find a case where the patient can write but cannot speak, though he can write his thoughts on paper. The speech centres are in the brain, and they may be destroyed by a bullet or from some other cause, while we find the strange force called the mind, still working as well as ever."

"In my mind, the mind is merely a force, with no particular location, which functions the brain, but is not subject to destruction, merely because the brain is destroyed."

Boss's remarkable grip on life has amazed Dr. Harper, who declares that the patient has not shown one bad symptom as yet, though the nature of his injury makes all speculation as to his recovery entirely futile.

"It does not seem possible that he can recover," said Dr. Harper, "though the absence of any bad symptom would seem to give him a chance for his life."

## Beyond the Veil And Back Again

"DO NOT FEAR TO DIE," SAYS WOMAN WHO WAS "DEAD" A WHOLE HOUR.

New Britain, Ct., July 15.—To all appearance Mrs. William McNulty was dead for one hour. This is admitted even by her physician, Dr. Thomas Mulligan, a hard-headed, unemotional person who seeks only scientific facts. He says hers was a remarkable case of suspended animation; the more remarkable because while her body seemed to have become but a shell of clay, her mind was active.

"Oh, I have been far away," she sighed, when speech was restored to her. Do not be afraid to die; I have never experienced such a blessed sensation."

Psychologists, spiritualists, those who seek to raise the veil from what has been the unknowable, can study these facts.

Mrs. McNulty, about 60 years old, is as estimable as unimaginative; she loves her family and her home, her friends and neighbors esteem her highly. She has been ill. While seated in a chair she became unconscious; her family, intensely alarmed, hurried a messenger for Dr. Mulligan, who has been treating her.

**Seemingly She Had Died.**  
On examination the physician found that she had ceased breathing. He detected a faint pulse at her wrist, but quickly that disappeared; her heart had stopped beating; seemingly she was dead. Her mourning family began to arrange for the funeral.

But Dr. Mulligan was not perfectly convinced that he had lost his patient. He sent for strong current and applied a very strong current to the apparently lifeless woman.

Seventy minutes had passed since she had lost consciousness, when the muscles of the neck twitched slightly. Dr. Mulligan continued to apply the current; in five minutes more Mrs. McNulty made a deep inhalation, then breathed faintly, but regularly, then she regained consciousness.

**Saw Friends Long Dead.**  
Mrs. McNulty was asked where she had been and whom she had seen. She answered quite rationally that she had seen many people, some old, some young, among them her mother and a relative who had been dead 30 years. She said she spoke to these and was intensely delighted with the conversation.

She was asked if her journey had been pleasant and she answered that it had, and in describing a place where she had been she said it was beautifully illuminated, not by the sun, moon or stars, but by most peculiar light, remarkable for its beauty and brilliancy.

**AMERICAN ATHLETES IN ENGLAND ARE SORE**  
ABOUT THE WAY THEIR PROTEST AGAINST TUG-OF-WAR METHOD WAS DISMISSED.

Detroit Free Press: A serious controversy has arisen between the American athletes and the British Olympic Association. America's chief cause of complaint is the arbitrary manner in which their protest against the flagrantly unfair method of conducting the tug-of-war was dismissed. Even unprejudiced spectators present at today's meeting was convinced that the Americans were justified in refusing to go on with the event.

The United Kingdom has the teams entered in the tug-of-war made up of the police of the city of London. Liverpool and its metropolitan forces. The drawings brought the American and Liverpool teams into the arena first. The Americans wore ordinary street shoes, complying with the rule which says: "No competitor shall wear prepared boots, shoes or boots or shoes with any projecting nails, tips, springs, points, lugs or projections of any kind. A competitor shall make any hole in the ground with his feet or in any way before the start."

When the Liverpool police appeared it was noticed that they were wearing enormous shoes, so heavy in fact that it was with great effort that they could lift their feet from the ground. The shoes or boots, were enormous calf affairs that could not be any stretch of imagination be called ordinary shoes. In addition, they had steel rods around the heels.
