Clothing as Fine as Can be Made

We're making a special feature this season of clothing for boys. The rule is not to consider anything good enough if it wears out too quickly...

Be as keen as you please for the money's worth. Don't take anything for granted, but investigate and compare.

OUR CLOTHING IS BEST

Because they are cut over individual patterns and guaranteed to fit. Because interlining as well as woollens are double shrunken. Because they have all the characteristics of fine tailoring.

We can show you more and newer fashionable cloths than anyone, and can promise such perfection of style and finish, as will tie your trade to us.

This store's purpose is to dress men better than they have ever been dressed—to provide such styles and patterns as will express the individuality of the wearer.

Gatlin, after disposing of his invention, moved across to the United States. He studied medicine and became a doctor and a very successful one at that. He wrote many times trying to induce his friend to join him, but Mr. Terrill always found something in the way.
