O'Loughlin & McIntyre
 CASH AND ONE PRICE.

Vapo-Cresolene
 Established 1879
 Whooping Cough, Croup, Bronchitis
 Cough, Grip, Asthma, Diphtheria
 Cresolene is a boon to Asthmatics
 Does it not seem more effective to breathe in a remedy to cure disease of the breathing organs than to take the remedy into the stomach? It cures because the air rendered strongly antiseptic is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is invaluable to mothers with small children.
 Those of a consumptive tendency find immediate relief from coughs or inflamed conditions of the throat.
 Sold by druggists. Send postal for booklet. LANSING, MEXES CO., LIMITED, Agents, Montreal, Canada.

Grain Shipments.

Ottawa, Dec. 29.—The Trade and Commerce Department states that of the crop of 1908 there were shipped from Port Arthur and Fort William up to the close of navigation on Dec. 12: 43,935,596 bushels of grain, as compared with 23,422,497 in the corresponding period of last year. Wheat shipments amounted to 36,017,483 bushels, as against 20,545,850; oats, 5,963,201, as against 2,040,629; barley, 1,450,864, as against 578,523; and flax, 517,213, as against 317,493 bushels.

Of the season's wheat output from Port William and Port Arthur, 593,374 bushels were carried in Canadian vessels and 12,418,109 in foreign vessels to United States ports.

Canadian vessels also carried 1,186,196 bushels of wheat to Buffalo, so that in all 13,604,682 bushels of Canadian wheat, or a total of 16,286,157 bushels of grain, found their way to export points via United States route.

Future of Labor.

New York, Dec. 29.—"In the future, labor is to rise still higher. The joint stock form opens the door to the participation of labor as shareholder in every branch of business. In this, the writer believes, lies the final and enduring solution of the labor question. Nothing can stand against the direct management of owners. We are only pioneers whose duty is to start the movement, leaving to our successors its full and free development as human society advances."

These are striking statements found in an article by Andrew Carnegie in the January number of The World's Work. The article is taken from Mr. Carnegie's new book, "Problems of To-Day."

To Extend St. John Harbor.

St. John, N.B., Dec. 29.—Hon. William Pugsley, Minister of Public Works, has intimated to the city that if it and the C.P.R. will surrender to the Government control of the harbor property they own along the harbor front, the Government will at once begin dredging work along the lines of further extension of the harbor facilities. The city is willing, and it is believed the C.P.R. will be.
