have not made the rapid strides which I would like to see in this glorious institution. I have great reason to feel proud of L.O.L. No. 935, with the increase of membership for the past two years, knowing that at that time the Lodge was in a weak state; but it shows what can be done when members get to work with their shoulders to the wheel. I would recommend the various lodges to be very particular in getting the lecturers correctly and well acquainted with the ritual, that the candidates may be instructed in an impressive, perfect and uniform manner.

During the year I have met with you in your different lodges except one, with whom I fully intended to meet, but was prevented from doing so by circumstances over which I have no control. I have joined you in your celebrations and amusements, and am always ready to participate in anything that will tend to the upbuilding of our society.

Partiality has no place in my breast. Be a brother's hand rough or smooth, we belong to the same brotherhood, have taken the same obligation, and, no matter what he wears, we have a right to extend to him the right hand of fellowship. Always bid a hearty welcome to all visiting brethren to your lodges. think we are too much isolated and each lodge seems to live too much to itself.

I will always think of the pleasant meetings we have had together throughout the district. I wish to thank one and all for the assistance and kindness shown me in my official capacity.

To discharge the duties of District Master is a great deal harder than the average member imagines-more particularly when the lodges are many miles apart. I feel as much interested in the different lodges, as I do in my own business, and I am always ready to do anything that will further the interests of our association. I went as your representative to the Supreme Grand Lodge of B.A. T tried to watch over your interests and the interests of the Society in general to the best of my ability. I was there to help in what you considered the interest of the society-restoration of the purple of the purple and blue degrees.

There are people who are opposed to our celebrations because they do not understand them. We do not parade to aggravate our Roman Catholic fellow citizens, not to celebrate a victory of Protestgnt over Roman Catholic, but to commemorate that great event which gave civil and religious liberty to Protestant and Roman Catholic alike, and to remind ourselves and our children of the grest reformation brought about by the victory of King William at
