DOCTORS AFRAID TO OPERATE

Could Not Remove Stone From The Bladder. Gin Pills Enabled Him To Pass It.

JOLIETTE, P. Q. "During August last, I went to Montreal to consult a specialist as I had been suffering terribly with Stone In The Bladder. He decided on an operation and was assisted by another doctor. They said the calculus was larger than a bean and too hard to crush, and that they could not take it out.

I returned home suffering greatly, and did not know what to do, but was recommended by a friend to try GIN PILLS. I bought a box and found relief from the pain at once. I took a second and third box of GIN PILLS after which

He told me the calculus was reduced in size, still he could not relieve me of it, although he tried for two and a half hours. I returned home and continued to take GIN PILLS as they reduced the pain very much, but I did not expect they would relieve

the stone on October 3rd, and am now a well man and very happy. I am sending the stone to you so that you can see for yourself what a great work GIN PILLS did for me. GIN PILLS are the best medicine in the world and because they did so much for me, I will

recommend them all the rest of my life".

J. ALBERT LESSARD.
Isn't it wonderful? Just think of these simple pills, that even children can take, being able to perform what the greatest specialists in Canada could not do. Surely, the days of the miracle have not passed away, as long as we have Gin Pills. These wonderful pills dissolve stone in the bladder or kidneys because they are a natural solvent for uric acid, which causes calculus. If GIN PILLS are not sold in your neighborhood, send us 50c. for a box or \$2.50 for 6

GLORY OF THE EMPIRE WOULD SUFFER ECLIPSE WERE INDIA ALLOWED TO GO

Take India with her population of 315,000,000 out of the British Empire," he says, "and the glory of the latter would suffer an eclipse, while 'finis' would be written upon the most splendid pages of British history."

Mr. Preston adds: "The retention of India has an important bearing on Britain's further control of Egypt, and on the safety of Australia, New Zealand and South Africa. Her reveaues make possible with no cost to Great Britain the retention of some 75.000 British troops on her soil, to say nothing of twice that number native soldiers, who can be drawn upon at a moment's notice, if Imperinterests necessitate. The Imperial Treasury will be weakened some extent by the naval display attendant on the Royal tour, the various municipalities throughout dia, notably Bombay and Calcutta, will have large bills to meet, while the ruling Princes have taxed themselves heavily to provide the magnificent native encampments, were the pride of the Durbar, as well as to procure the Royal equipages used at other times, and the outfitting of the gaily colored retinues, which always heralded their proach. If there was no other object in view than the making of an appeal to the Oriental love of lavish display, the vast expenditure necessitated by Coronation Durbars India could not be defended. But, as Lord Curzon puts it, "they meant to be not a panorama or procession, but a landmark in history of the people and a chapter in the ritual of the State." viewed, not only is the absence King George from Great Britain at this time amply justified, despite the critical situation at home, but any reasonable outlay is defensible which will convince the Indians that the English are in their country to stay and will satisfy the longings of people, who know nothing of high principles of government, or of written constitutions, but are accustom-

"Hardly second in interest to the Durbar itself," says Mr. Preston, "was the work of preparation by the Public Works Department, the credit for which is largely due to Sir John Hewett, and there was no surprise when his name appeared prominently in the Durbar honor list. Not only was the laying out of the walks and drives most beautiful, but the postal and telegraphic arrangements, the nomenclature of the roads, lighting policing, etc., were carefully attended to. By oiling the roads the dust nuisance was entirely prevented. Even a government dairy farm had been provided to ensure a proper supply butter and milk. "There was no considerable function in connection with the Durbar program which was not carefully rehearsed beforehand, usually in the mornings, and as early as 5 o'clock, the campers were often awakened by the music of the bands as they led the soldiers to this work. For the largerfunctions it was necessary for the spectators to start about two hours in advance of the advertised hour for beginning in order to make sure of getting through the crowded thoroughfares in time.

"There were busy days during the entire visit of Royalty. Morning, afternoon and evening seemed to be fully occupied with functions of one kind or another and when there was no other excitement polo and box ing matches filled in the blanks. How their Majesties outlived it all is a

CHILDREN'S SHELTER FOR THE COUNTY

Yesterday afternoon a meeting the Children's Aid Society was held in the council chamber at which arrangements were made for special services to be held in the town churches the coming Sunday. Mr. J. J. Kelso will speak at the Cambridge street Methodist church in the morning and St. Andrew's at the evening service, after which he give an illustrated address in the which they occupied during the State Academy ol Music on "A Waif." This entry, the motor cars which they meeting will not commence until the evening church services are over. The Queen street Methodist chuech pulpit will be occupied in the morning an the Baptist in the evening by Rev Hugh Ferguson, Stratford.

THE OBJECT Of these special services is to intensify the interest of the people this distrist in the work of the Children's Aid Society and start a campaign for the erection of a Children's Shelter for Victoria County. The object of the Sunday evening mass meeting is to awaken the interest rather than to raise money.

The company will commence business and the vessels must be and delivered by that time. The company is capitalized at \$1,500,000, and the plant will cost when completed, close on \$500,000, and will be largest of its kind in the world.

The buildings of the company Prince Rupert are of reinforced concrete built at one end of the harbor. and will be fitted up with the most modern machinery.

The storage capacity will be fourteen million pounds of fish freezing capacity of 110 tons

In an interview Mr. Collins With the completion of the G.T.P. fish from the Pacific Coast will put in the eastern market three days quicker than now. This he explains by the fact that the greatest proportion of the fish is caught near Prince Rupert and thence has to be taken to Vancouver and Seattle for ship- ity.

The establishment will give ployment to 500 men, none of will be Japanese. White men and Indians only will be employed.

The remaining directors of company are: Andrew Kelly, president of the Western Canada Flour Mills, Winnipeg; James Carruthers of Montreal, grain exporter, and Grier Starrett, former manager of the New England Fish Company.
