

SARNIA CAPTURED GILLIES TROPHY FLAVELLE CUP FOR MEAFORD RINK

Continued From Supplement.
NO KICKS COMING.

Rev. J. Wallace together with President F. J. Carew and Mr. J. D. Flavelle is a member of a committee of three appointed to deal with "Complaints and Appeals". This is the only committee which has had no work to do up to date as there has been the utmost harmony and good feeling among the curlers and nothing but praise is heard for the Club's Big Bonspiel. The 'spiel is an assured success from every standpoint. Rev. Wallace is vice-skip for Mr. J. M. Knowlson's rink which played yesterday in the Flavelle competition.

IN FAST COMPANY.

Mr. J. R. O'Neill played lead on the celebrated Southampton rink today, owing to the non-arrival of one of the quartette. Mr. O'Neill played a good heady game.

McAULEY'S CLOSE CALL.

The great Southampton Skip, McAuley, the hero of the St. Thomas Bonspiel, had a narrow escape from defeat this morning at the hands of Skip Field, of Cobourg. It was a ding dong battle all the way through but Mac nosed out ahead in a 13-12 score.

GREAT IS ROCHON.

The great Max Rochon, of Winnipeg, arrived last night and got into action this morning on ice No. 1, with Snow's quartette (Lakeview, Toronto). A big crowd watched the battle, but the westerner had an easy time of it in a 19-9 score.

TRANSFER OF CURLING STONES

The coldest job is the one held down so efficiently by Mr. B. F. Reesor, who volunteered to see that the curling stones were all transferred from rink to rink at the proper times in order that the games might go on without delay. He and the carter, Mr. Herb Workman, travel under a schedule as elaborate as those issued to the driver of a mogul engine on the main line of a railway. They have the time, the place and the man who curls on their list, and they pick his stones out from nearly a thousand others and transfer them from the rink he last played at to where he next curls some hours later. It looks like an easy job till you get a glance at the schedule and have stayed out in the cold all day from dawn till after dark handling curling stones weighing about half a hundred pounds each and with the thermometer twenty and thirty below zero. They're thankful anyway there is no danger of becoming prostrated with the heat or suffering from sun stroke. A few frozen ears or fingers, more or less, is neither here nor there.

GREAT STAYING POWERS.

Some curlers can stand game after game of the most grueling kind while others are all in down and out after

a couple or three games in one day. Skip McAuley, of Southampton, probably takes the medal for hardness. Before coming to Lindsay he was on the ice playing steadily for twenty five hours in order that he might finish up at the last Bonspiel and attend this. It is said he wore his rink out completely and that another rink had to be gotten together to accompany him here. He plays a game that is well worth watching and has hung some pelts on his belt at this bonspiel also.

FLAVELLE WON OUT.

Two crack rinks met yesterday afternoon in the Flavelle-Corcoran game in the Gillies competition and crowds lined the sides of the rink to see the play. It was hard fought from start to finish and was filled with thrills for the spectators. The stocks were repeatedly placed in one rink's favor only to have the whole arrangement changed in a couple of shots and the opponent scoring. The last score. Flavelle 12. Corcoran 11, illustrated how close the play was throughout.

TIES AT ELEVENTH END

Ties on the eleventh were popular this afternoon. Orillia and Colborne were in the fashion as well as the Meaford Pillgrem and Keene. On the twelfth end the ties broke, Orillia 12, Colborne 11, Pillgrem, Meaford, 13, Keene 12.

(From Saturday's Post)

The great Lindsay Bonspiel will soon be an event of the past. The semi finals are on this afternoon in both competitions. Skip Pillgrem, of Meaford is the only man to land in the finals in the Flavelle competition. If Braden's lucky star follows him in his contest with Harstone, Toronto, (12.30 draw) he will play off with Pillgrem for the Flavelle trophy.

At 2 o'clock this afternoon Sarnia and Parry Sound were fighting it out in the Gillies competition, with the play about equal. Skip Harstone and Skip Braden were at it hammer and tongs in the Flavelle competition, with the plucky youngster leading. Skip Little will play the winner of the Sarnia-Owen Sound game and Skip L. V. O'Connor meets Skip Braden after the latter's fight with Skip Harstone.

SKIP BEALL'S DEFEAT.

It was very unfortunate that Lindsay had to lose one rink last night in Gillies Competition and particularly when it was one of the three strong rinks that had come undefeated in that trophy to within sight of the

cup. It was inevitable, however, that skips G. A. Little and Geo. G. Beall should meet sometime during the game if undefeated by outsiders and there was this consolation even in the defeat that the victory was still kept in the town.

The game was watched with keen interest by a big crowd who applauded from time to time as particularly good plays were made. The battle was fought out on ice number six and although the scoring was one-sided the amounts chalked up each end were nearly all ones with an occasional two.

The winning rink is necessarily a good one to have put it over on the Beall aggregation who have beaten all their opponents in the Gillies competition till last night.

SKIP MCGIBBON IMPROVING.

Everybody will be glad to hear that Skip McGibbon who dislocated his shoulder Friday by a bad fall on the ice is able to be around again and was feeling first rate this morning. He watched the games at the Curling Rink all morning.

PORT HOPE'S GREAT VICTORY.

The Matthews-Blackwell Cup and the jewellery that goes with it were distributed this morning at eleven o'clock at the Curling Rink at the close of the Orillia-Port Hope game in which Graham, of Port Hope, defeated McNab, of Orillia, by the score of 13-8.

The beautiful, large trophy, a silver curling stone, supported on top of three stacked brooms, was handed to Skip Graham, personally, and the four watches were given one to each man on the rink. The Cup will be held for one year only and must be played for again next year, but the watches are permanent prizes.

The second prize went to the Orillia rink skipped by Mr. MacNab. Each man received a valuable gold locket. Third prize, four gold watch fobs, was won by Skip Hamilton's Fergus rink.

It was appropriate that Skip Snow of Toronto Lakeviews, should get the blankets, which were the fourth prize in the Matthews-Blackwell Competition. All the winners were highly pleased with the prizes and expressed themselves in uncertain terms as having had a very enjoyable time at the bonspiel. Every moment had been well employed and they hoped to

come back again to Lindsay in the future for some friendly games.

One of the winning skips suggested that if possible the Matthews-Blackwell Cup should be held in the future for yearly competition the Midland or Trent Valley rinks, say Lindsay, Peterboro, Orillia and Port Hope. The suggestion seemed to meet with the approval of all the others present.

The winning game between Orillia and Port Hope was a good one and both rinks' scores were close together up to the ninth end when Graham started to draw ahead. He made three twos in succession and followed it on the eleventh with a three, but on the twelfth, which was a particularly closely fought out end, McNab scored one. The final score was McNab, of Orillia, 8. Graham, of Port Hope, 13, giving Graham the Cup.

O'CONNOR'S VICTORY.

Skip L. V. O'Connor was in rare form in his battle with Germond of Oshawa. The local skip got an early lead and maintained it to the close. The game, which was in the Gillies competition, was a fine one to watch. Score by ends:
O'Connor 22xxx411321-16
Germond x111111xxx-4

FLAVELLE DEFEATS RULE.

Everybody was wildly excited over the Collingwood-Lindsay game last night in which the Flavelle rink defeated Rule on the thirteenth end after a tie on the first twelve. Rule scored three, the first end and one the second. The Lindsay men then took a hand and got a credit of two. Then Rule got a one and a three the next two ends. Flavelle's three in the sixth end put them on a more equal basis, and when he chalked up three twos in succession, he was only one behind on the eleventh end. This he obtained in a whirlwind of play in the twelfth end.

The thirteenth end which Flavelle and Rule, of Collingwood, played to break the tie on the total score of the previous twelve was a cracker-jack. Not one of the first five rocks sent up the ice came within the rings, two were too fast and landed in the discard. Two others were lightly short. The one of these nearest the rings belonged to Lindsay. The last of the five was Collingwood stone and went right through the house. Dick E. Iler played the first rock

that stayed put, landing it on the second ring about a foot in front of the button. Rule's men tried to dislodge it but missed his aim and went to the boards. Butler then placed his next stone well inside the ring and six inches in front of his previous one. The Collingwood man next tried a running shot in an effort to throw both Butler's out but could not put up the beef to do the whole trick. However he took Butler's front stone which landed in the outer ring back of the tee. His own rock stopped in the ring.

The Flavelle man's first rock still lay shot on the button. Flavelle's vice then overshot and went through the house. The following Collingwood rock also took a through ticket after taking a forward Collingwood stone from in front of the rings.

The next Flavelle stone was a beauty and ranged itself nicely alongside Butler's stone and close to the button. Flavelle now lay two.

Rule's next shot, a running one, took it out but there was one of Lindsay's still closest to the tee.

J. D. Flavelle's own stone now landed beautifully five inches in front of the ring as a guard.

Rule's last shot was a runner, but failed of its mission and went through the house.

The game was Flavelle's by one shot. Score By End:
