For over half a century nembers of this firm have been engaged in manufacturing Woollens. Experimenting, studying, learning more about making blankets all the time. So our blankets are constructed to stand the test and are absolutely unshrinkable. Our blankets are the warmest for the least weight, because we use only 'he soft silky lambs' fleeze. Our blankets have the wearing qualities because the wool is skilfully carded, finely spus and closely woven. They are finished with a short soft napp which does not come off. Do not buy blankets with a lofty napp if you want it to wear or wash well. Ask your merchant for our goods. If not in stock send direct to our mills and

The following despatch in the Toronto press indicates that the people of Picton are fully alive to the benefits likely to be derived from the teaching of agriculture in the Councillor McFadyen gave notice of schools, and the fact should cause the citizens of Lindsay and Victoria County to congratulate themselves on being first in line to reap the advantages sure to follow as a kresult of the good work of Mr. F. H. Reed, B. S. A., who has charge of the class instituted by the Government in Lindsay Collegiate. The despatch
