Prize List of the Poultry Show

The Prizes Were Widely Distributed by Impartial Judges

The poultry show for 1909 is over. It has been undoubtedly the best show of its kind ever held in Lindsay, and has maintained its reputation as the largest and best show outside of Guelph. The entries this year have been more numerous than ever before, being four hundred ahead of last year. Poultry exhibitors from far and near, showed their birds and many of those who showed at Toronto and other big cities claimed that the Lindsay exhibition was ahead of them all.

The judges were fair, and in every case the best bird won. The attendance at the exhibition has been very good and the authorities are well pleased with the result. Following is a partial list of the prize winners:

Buff orpingtons—Hen, 3rd. Mill and Cavanagh, South Oshawa.
Geese, African—Male, 3rd, female, 3rd. Adam Stockdale, Cameron.
Orpington, white—Hen, 3rd; cockerel, 2nd; pullet, 2nd and 3rd. L. B. Forsythe, of Stouffville.
Brahmas, dark—Cockerel, 2nd; pullet, 3rd; dorkins, silver gray, hen, 3rd; wyandotte, silver laced cock, 3rd; hen 2nd; wyandotte, golden laced, cock, 2nd; hen, 1st and 3rd; pullet, 3rd; wyandotte, white, cock, 3rd, hen, 4th, cockerel, 4th; wyandotte, black, hen, 2nd, pullet, 1st and 2nd; wyandotte, partridge, hen, 1st, cockerel, 2nd; jays, black, pullet, 1st; ducks, Rouen, female, 2nd, female 2nd; geese, Toulon, hen, 3rd; one pair of guinea fowl, 3rd; J. R. Hope, of Villiers.
Cochins, buff—Cock 1st, hen, 1st and 2nd; cockerel, 1st, 2nd and 3rd; pullet, 1st and 2nd. C. M. Deverell of Whitby.
Leghorns, white—Cockerel, 1st; white eggs, 1st; W. H. Copp, Lindsay.
Rhode Island Reds—Pullet, 2nd and 3rd, collection of pigeons, 2nd; brown eggs, 1st; T. J. Allen, Lindsay.
Leghorns, brown—Hen, 3rd, cockerel, 1st; pullet, 2nd; J. H. Clegg, Midland.
Brahmas, light—Cock, 2nd; hen, 1st; cockerel, 3rd; hen, 3rd; pullet, 3rd; cochins, partridge, cockerel, 2nd and 3rd; pullet, 1st and 2nd, langshans, black, hen, 1st and 2nd; cockerel, 3rd; pullet, 1st and 3rd; wyandotte, silver laced, cockerel, 1st; pullet, 3rd; wyandottes, golden laced, cock, 1st, hen, 2nd; cockerel, pullet, 1st wyandottes, buff, cock, 1st, hen, 2nd, cockerel, 1st; pullet 2nd; jays, black, hen, 1st, cockerel, 3rd; pullet, 1st; game, red—cock, 1st, hen, 2nd and 3rd; pullet, 1st; ducks, Pekin—male, 1st, female, 2nd; ducks, Pekin, 1908—male, 1st; female, 1st; ducks, Aylesbury—male, 1st, female, 1st, ducks, Aylesbury, 1908—male, 1st; female, 1st; geese, Toulon—male, 1st, female, 1st and 2nd; geese, Embden—male, 2nd; female, 1st and 2nd; geese, Embden, 1908—male, 1st, female, 1st; geese, African—Male, female, 1st; geese, African, 1908—Male, 1st, female, 1st; T. J. Cole, of Bowmanville.
Brahmas, light—Cock, 1st, hen, 1st; cockerel, 1st; pullet, 1st; brahmas, dark—cock, 1st; hen, 2nd; cockerel, 1st; pullet, 1st; cochins, buff—Cock, 3rd; cochins, partridge—cock, 1st, hen, 1st; cockerel, 1st; pullet, 3rd; leghorns, brown—cock, 1st, hen, 1st; cockerel, 1st; pullet 2nd Polands, silver—hen, 1st; cockerel, 2nd; pullet, 1st; Rhode Island reds—Cockerel, 1st; C. H. Wilson, Hawkeston.
Plymouth rock, buff—Cock, 2nd, hen, 2nd; cockerel, 2nd; pullet, 3rd; leghorns, black—cockerel, 1st; pullet, 3rd; minoras, black—cockerel, 3rd; polands, golden—cock, 1st; hen, 1st. Ernos Metherall, Little Britain.
Orpington, black—cock, 3rd; minoras, black—hen, 2nd; cockerel, 1st, pullet, 3rd; G. McGregor, Bobcaygeon.
Leghorns, buff—cockerel, 2nd, pullet, 1st; Sidney Higgs, Lindsay.
Wyandottes, black—cock, 1st, orpington, buff—cock, 2nd; hen, 1st orpington, black—hen, 3rd, cockerel, 3rd, pullet, 3rd; orpington, white—hen, 7th and 2nd; leghorns, s. c. white—hen, 3rd, cockerel, 2nd; pullet, 1st and 2nd; leghorns, s. c. brown—cock, 3rd; andalusians, blue—cock, 2nd, hen, 1st, cockerel, 2nd, pullet, 3rd; J. G. Waite of Wicklow.
Dorkins, silver gray—hen, 1st and 2nd, pullet, 1st; Plymouth rock, barred—cock, 1st and 3rd; cockerel, 1st and 3rd, hen, 1st, pullet, 1st; Plymouth rocks, white—cock, 2nd, hen, 2nd, cockerel, 3rd, pullet, 2nd; Rhode Island reds—cock, 3rd; bantams, buff cochins—hen, 3rd; bantams, white, cochins—cock, 3rd, hen, 2nd ducks, Rouen, 1908—male, 2nd, female, 2nd; geese, Toulon—male, 2nd, female, 3rd; minoras, black—pullet, 2nd; W. D. Chard, Wicklow.
Wyandottes, white—pullet, 3rd; orpington, buff—cockerel 1st; leghorns, s. c., white—cock, 2nd, hen, 1st, pullet, 3rd; leghorns, s. c. brown—cock, 1st, hen, 1st, 2nd and 3rd, cockerel, 1st and 3rd, pullet 1st and

3rd; leghorns, s. c. buff—cock, 2nd, hen, 1st, cockerel, 3rd, pullet, 2nd; leghorns, s. c. black—cock, 2nd, hen 2nd; Rhode Island reds—cockerel, 3rd; bantams, black red games—hen, 1st and 2nd, cockerel, 1st and 2nd, pullets, 1st and 2nd; bantams, rose comb—cock, 2nd, hen, 3rd. Vickery Bros., Oshawa.
Bantams, buff cochin—hen, 2nd, hares, Belgians, 1st, rabbits, 1st; J. M. Ballantyne, of Bracebridge.
Plymouth rock, white—cock, 1st, hen, 1st, cockerel, 1st, pullet, 1st and 3rd; leghorns, s. c. white—cock, 1st hen, 2nd; Geo. K. Thompson, Whitby.
Plymouth rocks, barred—cockerel 4th, pullets 4th; orpingtons, buff; cock, 1st hen, 2nd, cockerel, 3rd and 4th, pullets, 2nd and 3rd. J. E. McIntosh, Whitby.
Plymouth rock, white—hen, 2nd; wyandottes, buff—cock, 3rd, hen, 1st, bantams, buff cochin—hen, 1st cockerel, 2nd, pullet, 1st, bantams, white cochin—cockerel, 1st, pullet, 1st. Bert Letts, of Lindsay.
Rhode Island Reds—pullet, 1st; Oliver Smith, of Lindsay.
Leghorns, s. c. black—cock, 1st, hen 1st, pullet 2nd; Rhode Island reds—hen 4th, eggs 2nd. W. L. Culbert, Little Britain.
Dorkins, silver grey—cock, 1st., cockerel 2nd, pullet 2nd and 3rd; houdans—cock 2nd, hen 1st, cockerel, 1st, pullet 1st; Rhode Island reds—hen 3rd. E. J. Wilson, Oshawa.
Rhode Island reds—cock 1st and 2nd, hen 1st and 2nd, cockerel 2nd, pullet 4th; bantams, black cochin—cockerel 2nd. J. P. Ryley, Lindsay.
Wyandotte, partridge—cock 2nd, orpingtons, black—cock 2nd, hen 2nd; leghorns, r. c. white—cock 1st, hen 1st and 2nd, cockerel 1st, pullet 1st, minoras, black—cock 1st; bantams, game—cock 1st and 2nd, hen 3rd, pullet 3rd; collection of pigeons—1st. Bottrill and Varcoe, Bowmanville.
Orpingtons, buff—cock 3rd, hen 4th Chas. Brereton, Bethany.
Brahmas, light—cockerel, 3rd, pullet 3rd; langshans, black—cock 1st, hen 3rd, cockerel 2nd; doudans—cock, 1st, pullet 2nd; Plymouth rock, barred—pullet 3rd; wyandottes, g. laced—cock 3rd; wyandottes, buff—cock 2nd; andalusians, blue—cock 1st, hen 2nd, cockerel 1st, pullet 2nd; bantams, black—cockerel 3rd; ducks, Rouen—male 1st, female 1st; female Aylesbury, 1908—male 2nd, female, 3rd; geese, Embden—male 1st, female 2nd; turkeys, w. Holland—male 1st, female 1st; dressed ducks—1st; dressed chickens, 2nd. Sam Snowden, Bowmanville.
Wyandottes, partridge—cock 1st, cockerel 1st, pullet 1st and 2nd; hamburgs, black—cock 1st; minoras, black—hen 1st, cockerel 2nd. Robson and Cunningham, Peterboro.

Army Wanted for the 45th

The County Council Petitions Minister of Militia for Suitable Building

At last Friday's session of the county council Messrs. B. L. McLean and Dr. Gould introduced a resolution instructing the clerk to prepare a petition from the county council in session and have it forwarded to the Minister of Militia and Defence, emphasizing the great need of a proper armory for the storing of the arms and accoutrements of the 45th regiment, and recommending that the department of militia seriously consider its erection.

Inspector Bruce so Reports as to Victoria House of Refuge

"No county in Ontario has a better house of refuge."

"The best kept books in the province."

These complimentary statements were embodied in the report of Dr. R. W. Bruce Smith, government inspector of houses of refuge, read at a meeting of the county council on Friday. The report was a creditable one in every particular and the county representatives are very highly gratified at the conditions prevailing at the county institution.

Another very satisfactory report was received from the board of managers. It was somewhat lengthy, as it went into every detail in connection with the house.

The board of managers recognized the fact that additional labors had been imposed upon the clerk and treasurer in his capacity as secretary, of the board, and they recommended that he be given \$300 per annum on account of the extra duties involved. This was unanimously decided upon by the council. Dr. Gould, in referring to the encouraging reports received, spoke in eulogistic terms of the care and attention exercised by the county clerk and treasurer.

Mr. McNeillie, in acknowledging the county's kindness in making an increase in his salary, stated that he was now in his thirty-fourth year as an official of the county for twenty years as an assistant, and five years as county clerk and treasurer.

The report of Dr. Wood, house of refuge physician, was satisfactory in every detail.

At Thursday afternoon's session of the roads and bridges committee of the county council, Warden Jordan in referring to the level crossing disaster at Grimsby, suggested the advisability of the council forwarding a strong resolution to the board of railway commissioners, urging upon them the necessity of taking active measures to remedy the evil, and to compelling the railways to erect overhead bridges, or subways, or to place competent officials at these crossings. Victoria county, he said, had a number of dangerous crossings and he felt that the council should take cognizance of this matter, and act in conjunction with other municipalities with a view to remedying conditions.

The council will act in the matter today.

A MODEL NEWSPAPER

Cannington Gleaner: The Lindsay Post, in its last issue published a cut of The Post's new home on William-st., Lindsay. The Post invites all its subscribers and friends, to call and inspect the premises and machinery. There is a treat in store for all who can and will spare the time to make a visit to this modern print shop. None but those who visit and inspect a newspaper office, have the least conception of the amount of money invested and energy necessary to produce a model weekly paper like The Lindsay Post.

—Thos. Dobson is chairman of Hamilton Board of Education.

THE COMMON APPLE A GREAT SOURCE OF HEALTH

The Juice of the Ordinary Apple is One of the Best Things in the World For Keeping the Blood Pure.

Few people there are but enjoy a ripe, juicy apple. But how many realize that it is a medicine as well as a treat?

Apple juice has a very marked effect on the kidneys, increasing their power to throw off the waste products of the body, called urea, and thus prevent Rheumatism, Sciatica, Neuralgia, and similar troubles that come from poisoned blood.

Similarly, other fruits stimulate the action of the liver and bowels—others of the skin. Combined, they keep the blood pure—the body clean and healthy.

To get this effect, however, one must eat a great deal of fruit, or better, eat a little fruit and take "Fruit-a-tives."

"Fruit-a-tives" are tablets in which the juices of ripe fruits, with their medicinal value intensified, are combined with valuable tonics. They act directly on Bowels, Kidneys and Skin and put them in perfect condition—thus ensuring the thorough elimination of all waste matter and poisons from the body. Trial box 25c. Regular size 50c.—6 boxes for \$2.50 Fruit-a-tives Limited, Ottawa.

Discarded Their Poor Old Mother

Heartless Conduct of a Family Towards Their Maternal Parent

A sad case of base ingratitude on the part of children toward their aged mother was unearthed at the session of the finance and assessment committee of the county council on Thursday, and when the facts in connection with the affairs were laid before the members, expressions of surprise and condemnation were heard on all sides.

An old lady aged 94 years is at present in a local institution, having been placed there by heartless and ungrateful children, who apparently have forgotten the care and solicitude, to say nothing of the love, bestowed upon them by that same white haired mother in their early youth. It appears that she had been buffeted about among her children, who are, it seems, tired of her. No provision has been made for her maintenance in the local institution, and while the management have been most kind to the aged lady, and while they have not decided to turn her out, still they are not bound to maintain her. She is not a resident of the county and therefore cannot be admitted to the House of Refuge as an inmate. According to the correspondence before the committee the lady has a daughter in Haliburton and Peterboro counties.

She formerly lived in Norwood and is well known in the village. It was decided by the members to appoint the Warden and county clerk a committee to make investigations regarding the case and in the meantime the old lady will be placed in the house of refuge.

Got a Hundred

At a meeting of the committee on finance and assessment on Thursday afternoon a grant of \$100 was made to the Victoria poultry and pet stock association.

The members all felt that it was doing a good work in its efforts to further and improve this great and growing adjunct of the farm.

Wednesday afternoon, at 1.30 the score card was used on an aged bull belonging to the Ops Agricultural Society and three bull calves, one a seven months old calf belonging to Jas Casey, of Valencia, a six months old one of Isaac Moynes, Cambray and an eleven months old calf of Jas Cayley's of Ops.

After all had formed their opinions of the animals Prof. Day pointed out and discussed the points of the big bull first. He summed up by saying that it was a good strong all round bull which, although not as good as it might be, would look immensely better when fattened and fitted up for show purposes. He said he had not spared his criticism as he knew it was in a sense a public property, and he would be hurting no person's business in particular if he discussed it freely without prejudice.

In dealing with the calves next he compared the three, remarking particularly on the good all round qualities of that owned by Mr. Casey.

These animals were then led off the stage and four fine steers, belonging to the House of Refuge, driven on. After these had been looked over by the audience Prof. Day gave a short talk, in the course of which he said although he preferred certain breeds himself for certain purposes, yet others might get better results with other breeds and that the kind of cattle best for each farmer was the kind the farmer himself liked best and could get along with best. To make a success of cattle, though, the farmer must study the strong and weak points of the breed he chooses and must learn the weak points of his herd in order to guard against them. The meeting broke up at about four o'clock.

School has re-opened once more and is now in full operation under the able direction of Mr. McQuary. Hauling logs and drawing marsh hay are the order of the day here now.

THE TROUBLE LIES HERE ?

DID IT EVER STRIKE YOU

That your irritable disposition is due to kidney trouble? You get no rest by night and your work by day is too much for you. Those dull backaches nearly distract you. No wonder then you feel irritable and out of sorts. No one whose kidneys and blood are clogged with uric acid poison could be different. The remedy is DR. ROOT'S KIDNEY AND LIVER PILLS. They will put you right in a short time. The price is within your reach, namely 25c, although worth a dollar a box. Put up in a dainty tin box, they are sold by all druggists or postpaid from DR. ROOT CO., Spadina Ave., Toronto. 6 boxes for \$1.25. Send for free sample.

Agriculture was Again Discussed

Prof. J. Zavitz, J. Lockie Wilson and G. A. Putman Were the Orators

At the meeting held on Thursday connection with the short course, three very able and instructive addresses were given.

The chair was occupied by Mr. Victoria Agricultural Society, who lost no time in introducing the speakers of the evening.

Prof. Zavitz was the first speaker, who discussed the subject of experimental work on the farm and pointed out a variety of methods which the department had introduced in this connection.

Mr. Lewis, of Verulam, one of the most successful of the competitors in the competition, said if he had sowed the grain earlier by four days in one case he would probably have secured another prize. In parts on Ontario the land is not cultivated sufficiently. It should be plowed in the fall and carefully gone over in the spring again. The output of Ontario farms has doubled in 15 years, and there is plenty of room for development yet. We do not realize the extent or resources of our province. The blending of the races gives us a splendid people too.

Mr. J. Lockie Wilson, superintendent of fairs, was the next speaker. He alluded to the prizes won by Victoria County at the Chicago World's Fair, and said the agricultural classes, six of which had been established in the province, had been marvelously successful. He delivered a strong panegyric on Canada, and elicited much applause.

Supt. Putman, in the course of an address, said that the young men were the class who had to be impressed with the desirability of improved farming. The farmers do not believe all they are told about scientific farming. They want demonstrations to prove the usefulness of newer methods. The speaker dwelt on farmer's institute clubs for some time. He spoke on the large membership and the vast work being done by the woman's institutes and the information on cooking and housework disseminated by these meetings was a splendid feature of these women's institutes. The homes are made more comfortable and homelike through the influence of these institutes, and the children are induced to stay at home.

Short Courses— Judging Cattle

Farmers Get Some Valuable Information at Wednesday's Session

Wednesday afternoon, at 1.30 the score card was used on an aged bull belonging to the Ops Agricultural Society and three bull calves, one a seven months old calf belonging to Jas Casey, of Valencia, a six months old one of Isaac Moynes, Cambray and an eleven months old calf of Jas Cayley's of Ops.

After all had formed their opinions of the animals Prof. Day pointed out and discussed the points of the big bull first. He summed up by saying that it was a good strong all round bull which, although not as good as it might be, would look immensely better when fattened and fitted up for show purposes. He said he had not spared his criticism as he knew it was in a sense a public property, and he would be hurting no person's business in particular if he discussed it freely without prejudice.

In dealing with the calves next he compared the three, remarking particularly on the good all round qualities of that owned by Mr. Casey.

These animals were then led off the stage and four fine steers, belonging to the House of Refuge, driven on. After these had been looked over by the audience Prof. Day gave a short talk, in the course of which he said although he preferred certain breeds himself for certain purposes, yet others might get better results with other breeds and that the kind of cattle best for each farmer was the kind the farmer himself liked best and could get along with best. To make a success of cattle, though, the farmer must study the strong and weak points of the breed he chooses and must learn the weak points of his herd in order to guard against them.
