> Havana, Cuba, Jan. 31.-J. A. D. Mo-Curdy, the plucky Canadian aviator, who failed yesterday in his attempt to fly here from Key West, after completing 100 miles of the 110 mile trip, was the feature of the aviation tour nament here to-day.

The interest in the young bird-man was intensified when the report became current that McCurdy might make an attempt to fly back to the United States, starting from Camp

"The accident was entirely unavoidable," declared the aviator to-day, "and it only increases my desire to effect a successful conquest of the Floridan straits.
