 is visiting Mrs. E. Z. Yerex this week.
 Mr. D. Yerex has installed electric lights on his rink this week. He has now 4500 candle power of light on his rink which lights it almost as bright as day. The St. Mary's hockey team, champions of Lindsay are coming out Friday night and a fast game is expected. Everybody come. Admission only 15c.
 Miss Clara Wallis is spending a few days with friends in Oakwood.
 Mr. D. Yerex happened with an accident this week, which almost cost him the use of one eye. While chopping wood, a chip flew up and struck him in the ball of the eye, cutting it, but not causing him the loss of the sight.
 Did anybody see or hear tell of the Cannington intermediate hockey team. Since last Thursday, no track can be got of them. Whether they have disbanded and pawned their suits, we cannot tell, but we hope for the best. On Thursday last they journeyed to our burg to play a game of hockey against the Britain Invincibles, and true enough, they found the Britainites were invincible. Our boys do not play professional, senior, intermediate or even junior hockey, but they play what you call drub hockey, that is they drub the other team, and that is what they did to the Cannington intermediates to the tune of 11-3, which is a worse beating than they received in any of their intermediate games. You see Cannington came out thinking that they were going to play a bunch of green hay-seeds, and that they would have simply a walk-over, but whether any of the hay seeds got in their eyes or what happened we cannot tell, but the lemon came for Cannington and it was bitter. The Britainites started right from the drop of the rubber and scored the first goal in about one minute. At half time score was 7-3 in favor of the home team. In the second half Cannington got a little discouraged, and began to rough it. Clarence Westlake, one of our boys got a bad cut over the eye. But the local boys being fairly heavy, held their own in the roughness. The score was 11-3. The game was the fastest seen in our burg and the attendance was 200.
 Following is the line-up.
 Cannington—Goal, Glasford; point, G. Halward, cover, Clarke; rover, T. Halward; 1. wing, Hodgson. T. Halward; 1. wing, B. Hodgson. Little Britain—Goal, Yerex; point, Ferguson; cover, Yerex; rover, G. Heatlie; centre, Everson; right wing, Westlake; left wing, G. Heatlie. Referee—L. Heatlie.

DEPUTATION INTERVIEWS J. H. McCLELLAN
REGARDING EMILY CREEK ROAD MATTERS

Tuesday a deputation, consisting of Reeve Cornell, Emily; ex-Reeve Tiers of Dunsford, and County Clerk McNeill, met Mr. J. H. McClellan, Superintendent of the Trent Valley Canal, in regard to repairs to the Emily Creek bridge. A claim for damages is made owing to the construction of the road had been increased by the raising of the water. The deputation asks the Government for a grant to assist in the work of repairing and maintaining the work. A grant of \$2,000 has already been obtained from the Dominion Government towards the work.
 Mr. McClellan pointed out that if any damage has occurred to this particular road, or any other road in this township by the action of the Dominion Government in raising the waters for navigation purposes, all those interested had to do was to fill a claim for compensation for damages in the regular manner. A valuator would be sent to inspect the alleged damage and if such has occurred the township will be compensated accordingly.
 The deputation was satisfied with the explanation made by Mr. McClellan and will follow his suggestions. The construction of the road will be proceeded with out of the appropriation made by the Ontario Government for that purpose.

HON. S. H. BLAKE ON TRADE AND LOYALTY

Mr. P. C. Larkin, whose letter approving of the agreement in favor of freer trade in natural products between Canada and the United States, appeared in Saturday's Globe, has received the following note, with permission to publish it:
 Blake, Lash, Anglin & Cassels, Barristers, Solicitors, etc., Canadian Bank of Commerce Building, Cor. King and Jordan Sts., Toronto.
 Toronto, 18th February, 1911.
 P. C. Larkin, Esq., 11 Elm Avenue, Toronto:
 My Dear Mr. Larkin—I read with the greatest pleasure what appeared to me to be a most convincing letter from you in the morning papers of the day. It simply cannot be replied to. There has bulked up in my mind very largely a fact that I have not seen touched upon, and it is that nothing will go so far to make a people absolutely happy and contented and not look for a change as when they have work, reasonable remuneration and sufficient food and clothing. Now, anything that will tend to bring these results, will therefore be a vital element in Canada retaining its present position. Not only does Canada not look for a change from England to the United States, but it is absolutely distasteful to Canadians. If permitted to work on the lines that open to them such trade, business, and financial results as will conduce to their prosperity, then they will not think of any change of allegiance; but if they are thwarted in this respect, dissatisfaction will be introduced and change will be desired.
 It is always very repulsive to me to find that so many men are now beginning to place the integrity of the British Empire upon the low platform of tariff, trade relations, preference, etc. as if some little change in duty or some little rearrangement of tariff considered to be necessary in the interest of either England or Canada should never sever the ties of loyalty and degrade us to the low level of persons who desire to continue the union only because of some material advantage that may arise.
 With all best wishes, faithfully yours,
 (Signed) S. H. BLAKE.

RECIPROCIITY BILL
WILL PASS SENATE

Only Three Senators Now Oppose It, and They Will Probably be Whipped into Line This Week
 Washington, Feb. 21.—Canadian reciprocity to-day has a distinctly better chance of becoming a reality than ever before.
 The President's threat of an extra session, which neither Republicans nor Democrats want, coupled with his arguments and persuasive powers on recalcitrant senators and representatives, has practically won the fight.
 There are now only three senators who appear to be endangering the enactment of the bill. They are Senator Heyburn of Idaho, Senator Cummins of Iowa, the insurgent chief, whose eloquence contributed so largely to the unpopularity of the Payne-Aldrich tariff bill; and Senator Hale of Maine, who believes the injury to his State would be irretrievable if Canadian reciprocity became an actual fact.
 They are to be whipped into line this week, and friends of the measure believe that it will pass the Senate with a whoop in the closing hours of this congress next week.
 A most important Res wires conference took place at the executive offices last night. Those participating were Senator Burrows, acting chairman of the finance committee; Senators Smoot and Flint, members of the same committee; Senator Crane and Senator Cullom.
 These men are displaying what might be defined as a solemn enthusiasm over the Canadian pact—solemn because they deprecate the political exigency which compels them to stand by the executive in its advocacy of the measure.
 Senator Aldrich, chairman of the Senate finance committee, from his southern retreat, has been busy in behalf of the McCall bill, and it is due to no small measure to him that the Senate has been beaten down in the measure. He has kept the wires busy urging senators to get into line.

MANY OCCUPATIONS

The extraordinary number and variety of occupations pursued in the Old Country may be imagined from the fact that an Occupation Dictionary, privately printed for the Census officials' use, contained ten years ago as many as 16,000 descriptions of work. This year the dictionary is to be published for the first time. It is being carefully revised, and probably at least 2,000 occupation names will be added before it goes to press.

DRUGS
DIFFER

Many grades of them—good, bad and indifferent. We buy in the best markets—we get the good kind only. Quality is a specialty with us—not a side issue. But good drugs brought here are not expensive. Our profits are small and uniform. As good drugs as we sell cannot be had elsewhere for lower prices then we ask.

NEGRO ASSAULTED
THE MOTORMAN

Charles Anderson Beaten Up at Windsor—Was Probably Mistaken For the Conductor

Windsor, Ont., Feb. 21.—Motorman Charles Anderson, employed on the Ouellette Avenue line of the Windsor, Sandwich and Amherstburg railway, was found lying face downwards in a pool of blood on the floor of his car in an unconscious condition by Conductor Abraham Derbyshire late last night. It is thought that he was assaulted by some one who mistook him for the conductor and that the intention was to commit robbery. The affair took place when the car was at the end of the line. Conductor Derbyshire had just gone around the end of the car to change the trolley. When he came back he saw Anderson lying on the floor. As he came round the corner of the car he saw a colored man leaving by the front door, but the fellow vanished into the darkness before he could give chase.
