AEROPLANE FLIGHT IN FAR EAST

Manila, Feb. 21.—Aviator Bud made a splendid flight over the city today. This is the first time an aeroplane has flown in the far East.

Papa—"Well Johnny, and what did you learn at school to-day?"

Johnny, (after thinking for a minute—"Teacher was learning us guzzin-to.")

Papa—"Learning you what?"

Johnny—"Guzzinto. You see, two guzzinto four twice, and four guzzinto eight twice."

Children Cry FOR FLETCHER'S CASTORIA

COL. SAM HUGHES INVADES WASHINGTON SINGLE-HANDED WITH NO DICK TURPIN

By E. J. ARCHIBALD.
Washington, D.C., Feb. 20.—Colonel Sam Hughes has taken Sir Wilfrid Laurier at his word. The Premier told him that he would rely on him to defend the country in its hour of need, and the Victoria man incontinently packed up his bag and invaded the United States by a rapid front movement. He established his headquarters at the Willard, and is determined to hold it against all comers till he is ready to go home, which he says will be on Tuesday.

Col. Hughes is on the trail of a plot. He scents a mystery. He will unravel it, drag it from its lair, expose it to the light of day, and otherwise make it plain. What the plot is he refuses to say, or rather he refused to tell the representative how the plot was being worked out.

The plot itself is nothing else than the annexation of Canada.

A DELIBERATE PLOT.

"It is a deliberate plot to annex Canada, and it will come to a focus soon, if the present gang gets its way." That was all Col. Hughes would tell yesterday. He would not say whether he would call on Champ Clark or not. He said that he had not seen Mr. Clark up to that time and did not know whether he would do so. He was very anxious to learn the exact situation of affairs, but refused good naturedly to say what his plans were.

The representative was willing to arrange a meeting between the man who wants to annex Canada and the man who would not approve of such

action, but the latter did not appear anxious.

BENNETT WILL HELP

If Colonel Hughes is in Washington in order to collect ammunition against the bill in Canada, he will have no difficulty in finding it. There are many opponents of the bill here who would be glad to talk annexation or anything else that would hurt it. Bennett, of New York, for instance, would be glad to give him an interview that would make excellent campaign material. In order to keep up a face and to continue his campaign against the bill, that gentleman has placed his resolutions, reported adversely by the House Committee the other day on the House Calendar. It has not a chance on earth of being considered in regular order.

It is rather a pity that it should not come up, in one way, for a general discussion would show Canadians just how much real annexation spirit there is in this Congress and would go far to cure the professed uneasiness of some of them.

Washington, D.C., Feb. 20.—Col. Sam Hughes made his appearance at the Capitol late this morning, and wandered about both sides, meeting numerous members and chatting affably. Col. Hughes maintains his sphinx-like silence as to his mission here. Champ Clark is busy in the House, fighting over the rules, and Col. Hughes may not be able to see him, assuming that he wants to, till the present stress in the lower chambers is relieved.

TENDERS OF DOMINION BOND COMPANY ACCEPTED FOR LOCAL SCHOOL BONDS

On Friday last the Finance Committee of the Town Council, through its Chairman, Ald. Smale, called up the different bond houses and asked them to submit tenders for the town school bonds. Last evening several tenders were submitted, and the tender of the Dominion Bond Company, of Toronto, of \$50,808 for \$50,000 of 4 per cent thirty years school bonds was accepted.

DANGER SPOT AT THE CROSSING

Alderman Naylor at last night's Council meeting, referred to the icy condition of Lindsay-st. south at the G.T.R. crossing. There is a double track at this spot, and the engines in shunting up and down after filling up at the water tank caused a sheet of glare ice to form from the escaping water. The company kept two flagmen at this point who could sprinkle cinders or sand on it and he felt the Council should draw the Company's attention to the matter, as the spot was a dangerous one for pedestrians. The Clerk will write to the local G.T.R. officials on the matter.

FAST DRIVING ON KENT-ST.

The Post has been handed the following for publication.— We have on several occasions called the attention of the council and police to the fact that horsemen make a training ground for their horses on our streets, especially Kent-st. We are creditably informed that a lady with three small children came near being run down on Saturday at the crossing of Kent and Cambridge-sts. A number of people who saw the recklessness of the driver were indignant about the matter, and said he should be hauled up for fast driving. This was not the only fast horseman that was making Kent-st. a race course on Saturday, and our police take no notice of the people running to get out of the way. Private citizens do not wish to take such matters before the courts, and we would advise the powers that control the safety of our pedestrians to look into these complaints.

SOME RICH SALVAGE

The Dover boatmen are reaping a rich harvest in salvaging the cargo of the German sailing ship *Preussen*, which went ashore to the east of Dover several weeks ago. As much as \$100,000 has been saved by one family. The cargo includes bags of wax weighing about 200 pounds, and for these the boatmen get \$210 a bag.

DELICATE BUT POINTED

"What I object to," said the young woman who wants to vote, "is taxation without representation."

"If it's all the same to you," said the young man who is too bashful to propose directly, "I should be only too happy to represent your sentiments at the polls at every election."

HYDRO-ELECTRIC SYSTEM

Hon. Mr. Beck Says He is Well Satisfied With It

Hon. Adam Beck, in an interview, stated that during the past two weeks there has been no complaints of the Hydro-Electric system, and not one cent of damage to machinery had been incurred so far. All the machinery of the Commission and of the municipalities is still under test and has not been taken over yet. It had been reported that \$100,000 damage had already been suffered by the Commission and municipalities. Some defects developed during the tests of the machinery in different places, and the manufacturers had to make them good. At Berlin, a month ago, there was, he said, interference with the transmission line. At several other places there were minor troubles. "We had 18,000 insulators set up on our long line," said Mr. Beck, "and we have yet to have reported a single puncture or breakage from any of them. That is a wonderful record, for the usual percentage of such failures on a high voltage line such as ours runs at about eight per cent. The lines are working very satisfactorily. The operators, who at the beginning were unfamiliar with the current, are now working in concert, and that is aiding a great deal. I anticipate no trouble at all of a serious nature."

THE WAY HE HOLDS IT

After watching for some time an apprentice swinging his hammer in a most leisurely way, the manager of an engineering works approached and took the hammer from the youth, saying "Look here, my boy, when I see a man take his hammer by the end of the handle and strike proper blows like that, I think that man worth \$5 a week; but, when a man takes hold by the middle of the handle like this, I give him only \$3 a week, and he is dismissed whenever we get slack." "Please, sir," inquired the apprentice, "where ought I to hold it for my \$1 a week?"

A WONDERFUL MEDICINE FOR LITTLE ONES

Baby's Own Tablets are a wonderful medicine for little ones. They never fail to give relief to the baby when his stomach or bowels are out of order; when teething is painful; when any of the many childhood ailments seize him. What is more they are absolutely safe and cannot harm the youngest child. Mothers have the guarantee of a Government analyst to this effect. Thousands of mothers, through gratefulness for what the Tablets have done for their children, strongly recommend them. Mrs. E. J. Ward, Galt, Ont., says: "I have used Baby's Own Tablets for over two years and would not be without them in the house." Baby's Own Tablets are sold by medicine dealers or at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

OLD MEN OF THE SEA Peculiar roots picked up from the North Sea

SOLD!

The good wife looked up from her knitting. "And did you tell the house agent we wanted him to sell our house?" she asked. "I did my dear," responded her spouse. "And it's to be advertised to-day." She nodded. "I'm glad of that," she said. "This is such a dreadfully inconvenient house! The rooms are so small, the staircase so narrow, and the outlook so wretched! I shall be glad to leave it. And now, dear, let us look at the advertisements and see if there is anything to suit us."

MONEY AND HEALTH

Mr. Ghout:—"All my money cannot give me health, doctor." Dr. Bolus:—"No, perhaps not; but it is of inestimable value, nevertheless. It gives four physician great confidence."

FOOL LONG ENOUGH

He:—"I was a fool when I married you." She:—"Well don't you think it is about time for you to get over it? We've been married fifteen years."

MORMONS IN ENGLAND

Liverpool is Very Much Disturbed Just Now Over Their Activity in that City

At the present time Liverpool is very much exercised at the activity of the Mormons in that city. It may not be generally known that the Mormons have been established in England for the past eighty years or so, and that they maintain a regular staff of missionaries there. During that time they are said to have converted some 125,000 Britons to the faith. Their headquarters in London are at Tottenham, where they acquired the Markfield Hotel some three years ago. There are pretty well a thousand of the sect in London alone. There are about forty missionaries in London, working by house-to-house visitation, and as many as fifteen converts have been baptized at one time. These baptisms have taken place in different towns, the public baths usually being called into use. House-to-house visits are made, tracts being left at first, and afterwards interviews are solicited. A year or two ago it was announced that 27,856 of these calls were made in six months.

The gentlemen who gave these figures also stated that there were 200 tract distributors in the United Kingdom, who disposed of 2,000,000 leaflets in the twelve months, and that one steamship company received \$60,000 in fares every year, thanks to the journeys of Mormon missionaries and converts. The Elders at Utah and other places call for volunteers to work in God's Vineyard, and young men respond to the "call," maintaining themselves during their travels on their own private means.

QUITE SAFE

Two Irishmen were moving some kegs of powder, when one noticed that the other was smoking, and the following conversation ensued: "Look here, ain't you got any better sense than to be smoking whilst we're handling these kegs of powder? Don't you know that there was an explosion yesterday, which blew up a dozen men?" "Faith, but that could never happen here." "Why not?" "Because there's only two of us on this job."

MILITARY RIVALRY

"Ma father's a sejer," said a little Scottish lassie to her playmate. "And so is my father, too," replied the other. "Ah, but ma father's been in the war, and he's got a hale lot o' medals; and he's got the Victoria Cross, and the King pinned it on wi' his ain hand," said the first.

Dr. de Van's Female Pills

A reliable French regulator never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at 25c a box, or three for \$1. Mailed to any address. The Scotchell Drug Co., St. Catharines, Ont. Sold at Higginbotham's store.

PRETTY AT-ROME FROCK

For afternoons at home we show a clever design for a gown to be made of soft, supple material. In this instance it is a Nattier blue marquisette over self-tone satin. The corsage is in draped fichu style, over a chemise and stock of allover lace corresponding to sleeves. Chiffon velvet a shade darker than the marquisette outlines the fichu, forms cuffs on sleeves and borders the slashed tunic on skirt. The tunic is joined near bottom with a large jet ornament.

MONEY AND HEALTH

Mr. Ghout:—"All my money cannot give me health, doctor." Dr. Bolus:—"No, perhaps not; but it is of inestimable value, nevertheless. It gives four physician great confidence."

FOOL LONG ENOUGH

He:—"I was a fool when I married you." She:—"Well don't you think it is about time for you to get over it? We've been married fifteen years."

WAKELY'S

AGREEMENT WILL PASS THE SENATE

Washington, Feb. 21.—Representative McCall informed President Taft today that the Reciprocity agreement would pass the Senate before March 4th, thus obviating the necessity of an extra Session.

KING GEORGE HOLDS LEEVE

London, Feb. 21.—His Majesty King George has the first levee of his reign at Buckingham Palace to-day.

WINDSOR NEGRO'S SAVAGE ASSAULT

Windsor, Feb. 21.—Motorman Chas. Anderson was beaten into insensibility by a negro thug last night. He was attacked in the car and was evidently mistaken for a conductor.

CASE AGAINST J. R. STRATTON

TORONTO, Feb. 21.—Special—The case against Messrs. Stratton and Warren, in connection with the Trust and Guarantee Company's dealings with the Farmers' Bank was continued this morning. The examination of Hughes-Charles, former manager of the Bank of Commerce at Peterboro, went to show that in conversation with Mr. Stratton, the latter had testified for an eighty thousand dollar loan to Farmers Bank, "everything the Farmers Bank had, including Farmers' notes." Hughes-Charles thought Mr. Stratton must have known money was raised on notes of subscribers. Travers, testifying, said he blamed the Farmers' Bank crash on the continuous opposition of the Bankers' Association.

Children Cry FOR FLETCHER'S CASTORIA
