THE POWER THAT DRIVES THE HUMAN FACTORY
Dr. Williams' Pink Pills Helps the Blood and Makes You Well

The human body is the busiest factory in the world. There is no eight hour day, no slack season, no holidays, no cessation of labor at any time. Day and night work is being carried on in the workshop of your body, and it never ceases until the engine—the heart—stops forever.

The factory of your body has its motive power, without which it would have to close down at once. That motive power is the blood, healthy rich, red blood which keeps your whole system efficient and which drives away all diseases that may attack it.

Good, red blood is the chief controller of every action; the source of all the energy you possess. It builds up every substance of your muscles, nerves, sinews and flesh. It removes the waste and poisonous products constantly created in your body, which if allowed to remain set up disease and weakness of every kind. Good blood gives energy and vitality to the nervous system, besides regulating the function of the stomach, intestines, liver, kidneys and other organs of the body. Briefly, on the purity and richness of your blood the health of your whole body depends.

Often the blood begins to fail and becomes thin and poor in quality. It becomes loaded with waste matter, and charged with poisons. Then it is that the motive power of your bodily workshop goes wrong, your physical machinery becomes disorganized, and you fall ill. You become anaemic, maybe the nerves break down, or you begin to suffer from indigestion, neuralgia, general debility severe headaches, pains in the back or side, rheumatism, or even paralysis.

In all failures of the blood Dr. Williams' Pink Pills are the best known remedy. These Pills actually make new, rich blood, which brings health and energy to every part of the body. Thousands and thousands of people, not only in Canada, but all over the world, testify to the truth of this statement. The following is a bit of proof. Mrs. Fred Stricker, jr., Moosefield, Ont., says: "A few years ago I was a physical and nervous wreck; I had pains throughout my whole body. I had no appetite and my stomach felt as if there was a big lump in it. The least exertion would make my heart beat violently, and I would be attacked with trembling spells, and such a weakness that my breath would come in gasps. I was under a doctor's care for nearly two months, but got very little relief. I then tried other remedies, but with no better results. Finally I decided to try Dr. Williams' Pink Pills and this was the first medicine that reached the root of my trouble. After taking the Pills for a few weeks I was much better, and by the time I had taken ten boxes I was entirely recovered. I now always keep the pills in the house and if I feel the least worn out take an occasional box and feel all right again."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.
