Bruin And His Shadow

According to the old superstition, we are to have six weeks more of cold weather. Sunday Bruin was supposed to leave his lair and saunter forth with an abnormal strut. If he saw his shadow, back he would go for six weeks and then would follow a spell of weather that would play havoc with the coal bin and incidentally bring joy to the hearts of the curriers. He certainly could see his shadow on Sunday if he came out.

HE'S NOT AFRAID.

Rosid Amundsen Will Seek North Pole Next Spring. CHICAGO, Feb. 12.—Captain Rosid Amundsen, discoverer of the South Pole, made public further details of his projected North Pole trip in a statement at Madison, Wis., last night. "From San Francisco the Fram will sail north," he said, "heading in Behring Straits, and in the break-up of the ice beyond them next spring shall push in as far to the drift ice field as possible. When we get no further we shall establish ourselves, protect the ship by building an ice wall high around it, and send down for our five years' drifting. "We shall be equipped with a high power wireless plant, and with the peculiar Arctic adaptability of the etheric vibration, we can doubtless maintain communication with the United States for some time, possibly Alaska. "Should the drift not carry us directly to the Pole, it would be a great disappointment, but to gain against this I may make an aeroplane along. I know nothing of the art of aviation, but when my desire becomes known I hope some birds will volunteer to accompany the Fram to make the final dash to the North Pole with me."

BRIEFS FROM THE WIRES

A Turkish warship went ashore yesterday at Karaburun on the Black Sea coast. Her forepeak is full of water. Owing to an outbreak of smallpox drastic measures are being taken at Walkerville authorities to prevent the outbreak. The big car ferry International was put out of commission yesterday by breaking the ice in St. Clair River between Sarnia and Port Huron. Two battleships in this year's U.S. naval appropriation bill were determined upon yesterday by the House Naval Affairs Committee by a vote 14 to 7. John C. Thiel was sentenced yesterday morning at Regina to 18 months imprisonment for manslaughter. He was first tried for murder and the jury disagreed. Government ownership of controlled telegraph lines is again recommended by United States Postmaster-General Hitchcock in his complete annual report to Congress. Robert Connolly of Midland yesterday from the effects of a blow upon the head from an iron bar. Connolly's skull was crushed in, but he lived for nearly a week. Frank Raffaello, the murderer, has been relieved. Sheriff Aylmer, Sherbrooke, Que., received a telegram yesterday afternoon stating that sentence had been commuted to imprisonment. MUST HAVE LABEL. Foreign Dairy Products Must Be Country of Origin. OTTAWA, Feb. 12.—In view of the reported sale of New Zealand butter in Montreal, Toronto, Ottawa, and other places, the dairy commission by United States Postmaster-General Mr. J. A. Ruddick, draws attention to sub-section E, section 282, of the inspection and sale act, which reads: "No person shall sell, expose, or have in his possession, for sale any cheese or butter which is produced in any foreign country, unless the name of the country of origin is stamped or marked in legible manner upon the outside of every box or package which contains the same, in letters not less than three-eighths of an inch high and in a quarter of an inch wide." Merchants handling New Zealand butter will do well to see that provision of the law is complied with.
