Poor Quality of Coal Supplied by Contractor—How Matters are Managed in Peterboro—Mr. Sinclair Asks a Few Questions.

Evening Post, of March 10
The regular meeting of the Board of Water Commissioners took place in the Waterworks office, William-st., yesterday afternoon at 4 o'clock. Those present were Chairman Flavelle, Messrs. Brady and Sinclair, Mayor Begg and Sec-treas. Rea. The minutes of the last meeting were read and confirmed.
The report of the boiler inspector of the Canadian Casualty and Boiler Insurance Co. was read. Everything was right except that a few leaks, dropping water on the boiler-plate, needed fixing, and a better compound to keep the scale from forming in the boiler should be used.
A newspaper clipping of a strike in the coal regions, sent by Boynton & Co., and predicting a higher price for coal, was read.
The new member, Mr. Douglas Sinclair, then said he had heard it reported that the coal contract had been given to outside firms when the tender of town firms was only a couple of cents higher per ton.
The tenders of the competing firms were then gotten out by Sec. Ray, and on comparing them it was found that the town firms were 25c. higher than the accepted tender, and besides, the Lindsay people wanted to have the Board attend to having the coal pass the Customs and also charged 45c. per ton to unload it, when it could be done for 30c.
In the case of A. J. H. Ware, of whose water rates Davey wanted to be relieved, as Ware had had to move on account of arrears of rent, the Board decided they could do nothing.

Mr Pratt, engineer at the pump-house was granted a four days' leave of absence, provided he secured a competent substitute to fill his place. He goes to Brampton to represent the Lindsay lodge of the Woodmen of the World. Mr. Ashwell will be the substitute.

POOR QUALITY COAL.
Mr. Pratt also brought before the Commissioners a report on a couple of tests of the coal used at the pump house. One test showed 168 lbs. of cinder and 204 pounds of ashes left when 1500 pounds coal were burned. Another showed 137 pounds cinder and 183 pounds ashes from 1400 pounds coal. In closing he asked that a report be made regarding the woodmen in the winter if was

An Indefatigable Agent for Good

Great Work Being Accomplished by a Colporteur.
Mr. Geo. Buskin, agent and missionary of the International Evangelical and Colportage Mission, is making his 25th annual visit to Lindsay in behalf of the work of disseminating biblical literature through the north and western districts of the Dominion.
For 35 years Mr. Buskin has been engaged in the good work, first in the Muskoka and Parry Sound districts, later in the Lake Superior districts, and has supplied biblical literature in 23 languages, numbering 44,000 copies which have been taken account of, and many thousands that have not been recorded, and has published 50 editions of books and facts for the work in 5 languages, the last being a dictionary in the Ojibway and English language for the Indians.
The work has no denominational limit. The donations of Lindsay last year in its behalf was \$15.00, sickness hindering his visits among the friends. The Depot continues at 202 King-st. E., Toronto Ont.

St. Mary's Beloved Pastor Given Address and Purse

Returned From the South on Friday Last Fully Restored in Health—Congregation United in Expression of Esteem and Gratitude.

Evening Post of March 9
When it became known among the parishioners of St. Mary's a few days ago that Venerable Archdeacon Casey, their highly esteemed pastor, had recovered his health after a stay of some weeks at Virginia Hot Springs, and that he would be with them on the following Sunday, there was unbounded joy manifested, and steps were at once taken to exhibit in a tangible form, the high place occupied by the Archdeacon in their esteem. The measures then set on foot had their culmination yesterday after high mass. Just as the people were about to disperse after the final prayer, a deputation of gentlemen advanced to the sanctuary rail, where Fr. Casey was standing, and presented him with an address and a wallet containing a handsome sum in gold. The address, which was read by Mr. L. V. O'Connor, in a clear voice that penetrated to every corner of the edifice, was as follows:
Ven. Archdeacon Casey, Parish Priest, Lindsay.
Reverend and Dear Father,—It is with feelings of extreme pleasure, and satisfaction and of profound gratitude to Almighty God, that we are assembled to-day, to welcome your return to us, noting as we do your restoration to health and vigor. It cannot be denied but that your people feel deeply depressed and seriously concerned after your announcement of some weeks ago that your medical adviser had counselled your immediate departure to some quarter where you might secure complete rest and special treatment. Your request, made at the time, that we should pray for your speedy recovery, met with a ready and sincere response, and great indeed is our joy to find that our petitions have been favorably heard.
We feel assured, dear Father, that it would be a waste of words to say that you are dear indeed to the hearts of your people. Your unflagging zeal in the interest of all things spiritual in your parish has been such as to weld a life-long bond of unity and affection between you and us.
Our wants and our welfare during your absence have been supplied and provided for, earnestly, unceasingly, and thoroughly, by our much beloved Curate. Too much commendation cannot be given to Father Collins for his administration to the affairs of the parish since your departure. Despite these facts, separation from your fatherly guidance, though but for a short period, has brought to our minds in an especial degree the sympathetic bond which ever exists between a zealous priest and his people. Many of us feared that your anxiety to resume the work of the parish prompted you to a premature return; hence our suggestion, forwarded to you, that you prolong your stay in the south, so that you might recuperate and take the rest that was certainly due you after years of labor amongst us.
That your people exult at having you once more with them can be readily ascertained by a view of their countenances, and that you may be spared to them for many a year, is

Post Office Improvements. Some badly needed changes are about to be made at the post office. There will be two wickets for general delivery, thereby greatly expediting the handing out of mail matter and preventing the crush that is inseparable from the present arrangement. One wicket will be numbered from A to L, the other from M to Z, and citizens should make in a point to apply at the right one in order to avoid jostling and delay. It is expected the improvements will be used for the first time next Monday morning.
