France Will Grant Pensions Her Aged Workmen.

After Long Opposition Agreement Has Been Reached-Minimum Pension to Be \$72-Workmen to Pay Two Per Cent. of Their Wages-Employers Also Contribute a Like

Amount to the Fund.

Paris, March 23 .- Finding that the continued opposition of the Senate to the workmen's old-age pension bill, passed by the Chamber in 1906, promised to postrone indefinitely the realization of this social reform which the Eadical, wing of the French Republicans have been promising for years, the Chambers have finally consented to the principle of a compromise, and have voted a resolution serving rectice on the Government and the Senrite that this compromise must become law before the expiration of

By the terms of the bill workmen contribute two per cent. of their wages during a period of thirty years, thus creeking a fund from which the workman thereafter is to receive an annual minimum pension of \$72. The state is to contribute only when the forced savings of the workmen de not create a fund large enough to furnish a pension of that amount. Upon the promulgation of the law it is proposed to grant annual pensions to all workmen over sixty who have worked thirty years, and then gradually increase the scale of pensions of those "graduating" each succeeding year until at the end of thirty years all will receive at least \$72. The Mability after the scheme is in "permanent" operation is fixed approximately at \$68,000,000. The Chamber has agreed to the principle of absolutely limiting the Government liability for the presto \$20,000,000 annually.

FLEW ALMOST TWO MILES.

Aeroplane Makes Successful Flight Carrying Two Men. Paris, March 23.-Following a re-

cord-breaking; performance of Friday in flying a mile and a half in his aeroplane, Henry Farman, Saturday made another spectacular flight at Issy, covering two and a half kilometers, a little less than two miles, in 3 minutes and 21 seconds.

Later, incompany with Leon Dela-grange, he entered the latter's aeroplane, which moved over the ground at the rate of about 30 miles an hour, and then went into the air making a short, but highly successful flight. This is the first time that an aeroplane carrying two persons, has made a successful flight, and the aeronauts were enthusiastically cheered by thousands of people who had gathered. These accomplishments are hailed with delight, as they are considered as having demonstrated that the problem of aerial navigation can be definitely solved, especially the ques-

tion of equilibrium. Wasen Case of Suicide. Chatham March 23. - As the locality was out of his jurisdiction, Coroner R. V. Brayoff this city did not conduct the inquest into the death of Fred Maunday, keeper of the St. Ann's Island, Mitchell Bay. Instead he notified the crown attorney at Sarmea, and Commer Macdonald of that town investigated and finds that Maunday committed suicide. Maunday had been found dead in his home early Friday morning by his wife, with a bulleti-m his breast.

Tried to Burn Barracks.

Stratford, March 23. Charged with attempting to set fire to the Salvation Army barracks, Fred Bryant, aged 3, married, was locked up-yesterday.- He caused consternation on the street by gathering a crowd around him and publicly denouncing the Army, saying that he had been brought out to this country by the Salvationists and then cast aside. He openly confessed that he had entered the barracks, turned on the gas, flooding the rooms and setting fire to the building in two or three places. The building parrowly escaped destruction on Francy night.

AT THE CHURCHES LAST SUNDAY

Evening Post of March 23 REVIEW SUNDAY.

Yesterday was a noteworthy day in the annals of the Cambridge-st. Methodist Sunday school. The occasion of the past quarter were gone over. were the addresses given by Secretary W. H. Cook, of the Y.M.C.At. and Miss Limbert. Both held their hearers steadfastly throughout, and with themi!" a great deal of good was done.

The evening singing at the Cambridge-st. Methodist church was especially worthy of note. The choir's singing was first-class, aswell as the hymn singing by the congregation, A couple of quartettes, sung by members of the choir, were really fine. and brought but a great deal of favorable comment.

AT ST. PAUL'S. St. Paul's church also had something out of the erdinary last levening. No less than fourteen were admitted into the Brotherhood of St. Andrew. Special anthems were sunz and the whole service was one well calculated to be of great benefit to the members of the congregation.

Bishop Scollard North

Spoken of as the Next Archbishop of Toronto Province.

It is rumored, says the Toronto Star, that His Grace, Rev. D. O'Coapor, C.S.B., D.D., has decided to resign his office as Archbishop of the Province of Toronto.

The decision, so it is reported, has been arrived at after careful consideration, and proceeds from a desire for a less arduous life than the onerous duties of his office allow. His Grace is something of a recluse, and prefers meditation. He has, as far as ossible, refrained from participating in public functions.

A representative of The Star called to see his Grace this morning and was accorded a brief interview. The Archbishop smiled a little when the representative unfolded his mission.

"I have nothing whatever to say in the matter", he said, and wished to know where the report originated. Should Archbishop O'Connor retires Dishop Scollard, of Sault Ste. Marie, is mentioned as a possible successor. Bis Lordship comes from the Diocese of Peterborough, his parents residing at Ennismore, in that county.

The Lindsay man attempted to parley with the men, but two uplifted clubs persuaded him to adopt another course. He puts his hands in his pocket and took out the \$3 he had. In handling it over, and while the attention of the robbers was attracted towards the money, he whirled around and was away like a shot. He was parsued some distance, but was too fleet of foot for his pursucrs to catch him. By this promptness he saved a valuable gold watch. One of the highwaymen was tall and the other was short and of medium build. They wore heavy caps and had turned up collars. Many suspicious characters are hanging around the outskirts, being driven there by hard times to gratify their desire to plunder. From their speech they were clearly Canadians.
