Oliver Wendell Holmes says there are two classes in the human race; those who go ahead and do something, and those who sit and enquire "Why wasn't I done the other way." We want you in the class of those who go ahead and do something by patronizing our sale.

## O'Loughlin & McIntyre

### OVERSEER BRADSHAW'S ANNUAL REPORT TO THE GAME AND FISHERIES DEPT

Overseer A. Bradshaw, of Lindsay, reports that it is pleasing to him to state that he has received valuable assistance from a great many people who wish to see the Game and Fisheries Act rigorously enforced, and lawbreakers properly punished.

Masking were not as plentiful last season in Sturgeon Lake, while in Scugog Lake they are said to have been more so. Bass were caught during the season in large numbers in their usual haunts. The new locks and dam, at Lindsay are finished, and it is a great convenience to those passing from one lake to another. There are three sets of lock gates, so there is likely to be a big traffic in the spring. When the fish come up to spawn in spring, they will be able to ascend when lockgates are being made. The new dam will be a great improvement in keeping the water up to a proper height, and will assist in preserving the fish in Scugog Lake during the winter months from the effects of severe frost, which in years has injured them badly.

HON. FRANK COCHRANE  
Minister of Lands and Mines.

There are two trout clubs in Lindsay, composed of some of the best citizens of the town, and they go out to places where they have fishing rights. Some of these gentlemen have asked him to say in his report that they would like to get the law changed so that brook trout would be caught from the 15th of April to the 15th of August, as in their opinion, the change would be better. There is no trout in his division, and he only reports what he was asked to do.

Partridge are found in their usual haunts, as plentiful as in olden times. That is, where conditions are the same as they used to be, and this is another proof that nature holds the balance when left to right herself. The wise forethought of those who restored those magnificent game birds to the people of this Province by the timely protection given for the past two seasons, is fully appreciated by all true sportsmen.

The change in duck shooting from the 1st to the 15th September was satisfactory to local shooters in that section, as shooting of snipe and plover was allowed on the 1st of September, and shooting at these birds often disturbed the ducks while, on their feeding grounds. Ducks were plentiful and sportsmen were well satisfied at their increase in numbers.

A good catch of muskrats was reported last spring, although the season was unusually short, only lasting from seven to eight days. Some local trappers secured over a hundred dollars' worth in that time, and this shows the immense value of these little animals when properly protected.

Mink, no doubt, with proper protection, will again become numerous, but it will take some time to do it. The mink skins were much valued, and what were taken netted good prices, \$7 being about the price received by trappers for a mink skin.

The law was fairly well observed during the past season. Only one breach came to his knowledge, and was a breach of Section 20 of the Game and Fisheries Act. He had the offender before F. D. Moore, K.C., who imposed a fine. A vigilant watch is all times necessary, and this is kept up.

He suggests a few changes in the Game and Fisheries Act, which, in his opinion, are for the better. protection of the game and fish.

That all winter fishing be prohibited and that the open season for trolling for maskinonge be from June 15 to November 1, and that the close

season should begin on April 1st, as the run of maskinonge was over last season before the close season, so for them began. Bass to receive the same protection as the lunge, so as to avoid trouble.

That frogs be protected for two years in all the waters of the Trent Valley Canal, and if this cannot be done, protect them for two years in Victoria.

That mink should be allowed to be caught from November 1st, and that they cannot be hunted with dogs in winter, this being the most destructive manner in which mink are killed. Trapping or shooting only should be allowed in killing them.

That muskrats should only be trapped in spring, and all fall and winter trapping prohibited in the Trent Valley Canal, and if this cannot be done, in Victoria County.

That no artificial light be allowed in hunting or killing game animal or bird protected by the Game and Fisheries Act in Victoria County.

### ARCHDEACON CASEY ATTENDED FUNERAL

Examiner: The funeral of the late John Scollard took place Monday from the family residence, Ennismore, to St. Martin's church, thence to St. Martin's cemetery for interment. The service at the church was a very impressive and solemn one, there being a large congregation, which included many friends and relatives from Peterboro, Lindsay, Young's Point, etc.

Solemn requiem mass was sung by His Lordship Bishop Scollard, a son of the deceased. Father McColl, Rector of St. Peter's Cathedral, Peterboro, was deacon, Father Phelan, of Lakefield, sub-deacon, and Rev. Dr. O'Brien, of the Sacred Heart Church, master of ceremonies. Those present in the sanctuary were His Lordship Bishop O'Connor, assisted by Ven. Father McGuire, Downeyville, Father Archdeacon Casey, Lindsay, and Rev. Fitzpatrick, P. P., of Ennismore.

Bishop O'Connor preached an eloquent sermon on the advantage of living a holy and pious life, since it means eternal happiness in the next world. He also referred to the example of the good Christian life led by the deceased and prayed that God may grant him eternal rest in the Kingdom of Heaven.

The pall bearers were Dr. Moloney, of Cornwall, P. P. Young and Capt. Scollard of Young's Point; Maurice O'Connor, Cornelius O'Connor and James Scollard, of Ennismore.

The next best thing to being rich is to have people think you are.

### SOCIALIST HATER TO FORM GOVT.

Paris, Feb. 28.—Jean Dupuy, a great enemy of the Socialists has been asked by the President of France to form a Cabinet.

### DIPHTHERIA IS SPREADING FAST

Baltimore, Feb. 28.—Another big hospital, church, home and infirmary have been closed in this city owing to an outbreak of diphtheria. The disease is spreading at Johns Hopkins Hospital.

### IMPROVE THE SCHOOLS

Superintendent Seath Lays Much Stress on a Good General Education

A good general education as an essential preparation for all vocations and a closer connection between the schools and the activities of life.

This is urged by Mr. John Seath, Superintendent of Education for Ontario, as a result of his study of foreign schools for eighteen months.

For industrial and technical education he recommends extension of the present provision for teaching household science and manual training and the establishment by boards of education and high and municipal continuation school boards of the general industrial school, the special industrial school and the technical high school or high school department.

For instructing workmen and workwomen he recommends the apprenticeship school, the evening school and the correspondence study school providing instruction partly by a staff of traveling teachers.

For agricultural education he urges further extension of nature study and elementary agriculture in primary schools, reorganization of the provision for agriculture in high and continuation schools and the appointment of a special departmental officer to act as director and inspector of primary and secondary agricultural classes.

Better adaptation of school courses to business life and provision for practical and better theoretical courses for the commercial specialists are recommended.

### TRIPLE LINKED BRETHERN IN CONCLAVE DEGREE WORK OF ORDER EXEMPLIFIED

Lindsay Lodge No. 100, I. O. O. F., has great reason to congratulate itself, and its members to be proud of their affiliation with such a successful and commendable institution.

Yesterday afternoon a lodge of instruction was conducted for the benefit of part of the lodges of that Order in this district and the session was attended by about 50 members hailing from Woodville, Fenelon Falls, Manilla, Bobcaygeon and Little Britain.

The degrees were put on by specially trained teams from the Lindsay lodge. The work was exemplified with that degree of correctness and impressiveness that was commended by all the visitors.

The paraphernalia and costumes used on this occasion have recently been purchased and were seen for the first time by the visiting brethren, are said to be the most gorgeous and up-to-date owned by any lodge in America, and naturally the Lindsay lodge are very proud of their equipment.

After the lodge work a very fine banquet was tendered the visiting brethren in the dining room of the lodge.

After lunch adjournment was made to the lodge room, where Bro. H. Middleton was asked to take the chair and he performed his duties in a happy manner. The toast, "Our King," was responded to with hearty response from 150 throats in singing God Save our King.

"Our Order" by Rev. J. Wallace, and Dr. White.

Mr. A. Mayes gave a solo. "Our visiting brothers," were responded to by Bros. Murchison and Bowles of Woodville lodge, Bros. Dickson and Suggitt, Little Britain, Bros. Wearing and Dickson, Manilla, Bros. Hickson and Braden, Bobcaygeon and Bros. Rutherford and Gould, Fenelon Falls, among whom were some good speakers, who expressed their appreciation of the kindness and excellent work of the Lindsay lodge.

Bro. T. Murtagh contributed a song. Bro. Neil McFadden responded very gallantly to a toast to the ladies.

Our Veterans, was responded to by Bros. T. Stewart, Pearce, Manilla, Geo. Mills and J. W. Anderson. The remaining lodges in this district will be tendered a lodge of instruction in March.

J. J. CARRICK, M.P.P., Port Arthur.

### BRIGHT OUTLOOK FOR OUR FARMS

The Minister of Agriculture Points to the Increasing Wealth of the Farming Industry

"I desire to dispell the impression, if any such exists, that Ontario agriculture is decadent, and to establish clearly the fact that far from being a source of pessimism, there never was a time when agriculture was so prosperous and the outlook so bright."

Hon. James Duff, Minister of Agriculture, in his annual report shows that in the twenty-one years from 1890 to 1907 there was a decrease in rural population of over one hundred thousand, but he points out that since then the tide has been running the other way, the increase in the past two years having been well over five thousand. But it is in the increasing wealth of the farming industry that the Hon. Mr. Duff finds special cause for congratulation. Both the aggregate and the average prosperity of the farmers are greater now than ever before. The crop statistics furnish the proof. In the five years from 1904 to 1908 the value of field crops increased \$22,772,887. Adding the increase from orchards, small fruits, live stock and dairying, the Minister finds that the annual output of the farms has increased by \$50,000,000, bringing it up to some \$250,000,000.

Compared with the average yield of the farms of the United States, Ontario has a big lead, and comparisons with the States of Iowa, Ohio, Illinois, Kansas, Indiana and New York show that Ontario leads every one of them except in the output of hay. Only one State shows a better return than Ontario in any grain. Illinois has a slightly higher average in barley and oats, but the difference is more than made up by Ontario's big lead in wheat.

The Ontario Agricultural College had the highest attendance on record, the number including the girls at the Macdonald Institute, aggregating 1,356. This included 975 men between sixteen and forty years of age. Those in the general course numbered 443, while those taking the short courses actually exceeded that number. At the end of the last term twenty-eight took the degree of B.S.A. and seventy-four the Associate Diploma. Of the 443 in the general course Ontario contributed 303, other provinces ranking as follows: British Columbia, 27; Nova Scotia, 11; Alberta, 9; Saskatchewan, 3; Manitoba, 4; New Brunswick, 2; Quebec, 2. From outside countries the record is: England, 26; South Africa, 12; United States, 10; Scotland, 6; Jamaica, 5; Ireland, 3; Wales, 2; Japan, 2; New Zealand, 2; Argentina, 2; Brazil, 1; East Indies, 1; France, 1; India, 1; Spain, 1; Germany, 1.

The total number of immigrants sent to farms by the Bureau of Colonization was 1,757, and by the Salvation Army 1,753. The latter organization brought out 2,713 other immigrants and 281 domestics. Other organizations contributed, and the total recorded additions to the population of the Province during the year amounted to 7,581.

Under the arrangement whereby the Province advances passage money to farm hands, loans of \$11,334.50 were paid. The success of the experiment is shown by the fact that already nearly seventy-five per cent. has been paid back.

### ABOLISH TAX EXEMPTIONS

C. R. McKeown Would Collect Even for School Property

C. R. McKeown, M.P.P., Dufferin, would abolish tax exemptions on not only churches and church property, but upon the buildings and grounds of universities, high schools, and public and separate schools throughout the Province. A bill to that effect has been introduced, but is directed principally at the private schools, which, according to Mr. McKeown, have been entering into competition with public institutions of learning. It will also require municipalities to adopt what Mr. McKeown considers a better system of bookkeeping with regard to public schools and their maintenance.

### SHE KNEW HIM

An old lady, accosted by an insolent beggar, gave him a penny. The beggar, holding the coin in his dingy palm, looked at it contemptuously. "What do you think I'm going to do with this?" he growled. "Oh, keep it!" said the old lady sweetly. "Keep it and give it to some poor beggar!"

### Rheumatism Cured To Stay Cured

Liniments of No Avail--The Trouble Must Be Treated Through the Blood

This article is intended as a talk to the man or woman with rheumatism who wants to be cured. Not merely relieved, not hal, cured, but actually cured. The most a rheumatic sufferer can hope for in rubbing something on the swollen aching joints is a little relief. And all the while the trouble is becoming more firmly seated. Medical authorities know now that rheumatism is rooted in the blood, and that while rubbing on liniments or hot fomentations may give temporary relief, they cannot possibly cure—you must go to the root of the trouble in the blood. That is why Dr. Williams' Pink Pills cure rheumatism. They make new, rich blood which expels the poisonous acid and the rheumatism disappears. There are thousands of former rheumatic sufferers in Canada to-day well and strong who thank Dr. Williams' Pink Pills that they are now free from the aches and tortures of this dreaded trouble. Mr. Joseph Luddington, New Harbor, N. S., says: "Some three years ago my wife was stricken with rheumatism and suffered so much that we despaired of her ever getting well again. At first she was able to get about, but in spite of all we did for her, she grew so bad that we had to lift her in an out of bed, and finally the pains grew so excruciating that we could only move her little by little with the sheet under her. Finally we were induced to get Dr. Williams' Pink Pills for her. I do not remember just how many boxes she took, but I do know that they were the first medicine that reached the disease, and that she continued to improve until she was again as well as ever, and could do her household work. To us it is simply marvelous what Dr. Williams' Pink Pills did for her, and we are glad to give this testimonial in the hope that it will benefit some other poor sufferer."

Dr. Williams' Pink Pills are sold by all medicine dealers or will be sent by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

THE DUCHESS OF NORFOLK

One of the great ladies of England, who has resumed her place in the exclusive social circles since King George's accession to the throne. During the reign of King Edward a number of these old families held aloof from the smart set on account of the large foreign element that went to make it up. The Duchess of Norfolk, Newcastle, Buckleugh, and Wallington are a few of those who have flung open their doors and will entertain on a magnificent scale during the coming season.

### BORN

HIGGS.—In Lindsay, on Sunday Feb 26th, to Mr. and Mrs. Bert Higgs, a daughter.

BREEN.—In Lindsay on February 25 to Mr. and Mrs. J. R. Breen, William-st., a son.

SCULLY.—In Downeyville, on Feb. 26th, 1911, to Mr. and Mrs. W. Scully, a daughter.

### BAD ACCIDENT TO FARM HAND

An English farm hand, employed by Chas. Armstrong, who resides on the fourteenth concession of Manvers was the victim of a serious accident the other day. While working on a straw stack he accidentally slipped and fell to the ground, breaking his hip in two places. A local physician attended him.

### SOCIAL DANCE AT BOBCAYGEON

Last evening the young people of Bobcaygeon held a delightful social hop in the town hall, which was attended by a large number from the village and surrounding points. About a dozen guests from Lindsay attended the function, among them being Mr. J. O'Halloran, Miss Lema Shannon, Dr. Shannon, Mrs. Carroll, Miss M. Fitzpatrick and Mr. D. Fitzpatrick.

### MYSTERY OF MISSING JEWELS

New York, Feb. 28.—The theft of Mrs. Marvin Drummond's jewels, still remains a mystery. The detectives believe that high class thieves have organized a crusade of plunder against wealthy victims to coronation.

### FAMOUS BRITISH ADMIRAL

Tells What Zam-Buk Did For Him

Many famous persons have testified to the great value of Zam-Buk, and amongst the most recent is Admiral Rodney M. Lloyd. Writing from the Royal Navy Club, Portsmouth, England, Admiral Lloyd says:

"I have found Zam-Buk most reliable for healing cuts and abrasions; while for the relief of skin irritation it is invaluable."

Another famous user of Zam-Buk is Mr. Frank Scudamore, the War Correspondent, who supplied Canadian papers with their despatches during the Boer war. Mr. Scudamore says:

"Some poisonous dye on my under-clothing came in contact with a small ulcer on my leg and blood poisoning set in. Inflammation, pain, and swelling followed. My medical man's treatment did not seem to do any good, as ulcer after ulcer broke out until my left leg from knee to foot was one mass of sores. I had seventeen deep ulcers at one time. I could not put my foot to the ground and was really in a pitiful state. A friend advised Zam-Buk, and I applied this herbal balm. It was really wonderful how it soothed the pain and aching and gave me ease.

"I continued with it, leaving off all other treatment, and at the end of a week's treatment my leg was not like the saddle. A few boxes of Zam-Buk healed all the sores, and bit by bit new, healthy skin covered the places which had been so deeply pitted and scarred by ulceration and blood poisoning. The limb is now perfectly healthy and with no marks of the old ulcers. For this splendid result I have only Zam-Buk to thank."

Zam-Buk is a sure cure for cold sores, chapped hands, frost bite, ulcers, blood-poisoning, varicose sores, piles, scalp sores, ringworm, inflamed patches, babies' eruptions and chapped places, cuts, burns, bruises, and skin injuries generally. All druggists and stores sell at 50c box or post free from Zam-Buk Co., Toronto, upon receipt of price. Refuse imitations and substitutes.
