NESTLETON.

(Special to The Post)

The roads in this section are in a bad condition, but the snow is gradually disappearing from them.

J. Veale has gone to Illinois, U.S., to attend his brother's funeral.

Quite a number have tapped, but little syrup is in view yet.

A very successful entertainment was held at Caesarea on St. Patrick's evening. The proceeds were in behalf of the Women's Missionary Society.

Our skating rink is a thing of the past for this winter, but not before the young people of the neighborhood had thoroughly enjoyed themselves. Several games of hockey were played this winter, and the boys distinguished themselves by always being on top.

The latest addition to the rink was the Pro. hockey team, but as they were a little late in getting started, they did not have a very full season. It seems too bad they did not get going in time to enter the O.H.A., as there is little doubt they could make the Canadiens or Wanderers take a back seat. Murhead, as rover, was the fastest man on the ice, and his cork screw rushes were always very effective. Wm. McLaughlin and Isaac Heaslip on the wings certainly showed some class in stick handling, while Dirk Philp at centre was always on the job. In the defence Wm. Porteous and David Fallis were all that could be desired, and the brand of hockey they put up was on the gilt-edged

type. Sam McLaughlin in goal is certainly worth mention and although a little done up on one leg, never failed to stop the red hot ones. The boys will be in a lot better shape next season as they will go into training sooner.

Several new houses will be erected in Nestleton this summer. Some have already got part of their material on the ground ready to commence operations as soon as spring opens.

MILLERSMITH.

(Special to The Post)

Millersmith, March 8.—A deep gloom was cast over our community when Mrs. Hugh Elliott passed over the river of death. During the past two weeks she was suffering from neuralgia, which developed into congestion of the brain. In spite of the careful skill of the physicians and

nurses she quietly passed away on Saturday evening. Mrs. Elliott was formerly Miss Florence McIntyre of Argyle, and has only been married four years. Since she has been in this district her pleasant disposition has won her a way among all who had the pleasure of meeting her. As a church worker her moral influence and willingness to help was greatly appreciated. We feel it a great loss to lose such a mother and neighbor. The many wreaths and sprays which decorated the beautiful casket goes to show the place she held in the hearts of the people.

The funeral took place on Tuesday to Emily cemetery and was well represented by the surrounding community, as well as friends and acquaintances from Argyle. Rev. M. E. Wilson, of Pontypool, Rev. Mr. Young, of Argyle and Rev. Mr. Woodger, conducted the services, and spoke very highly of Mrs. Elliott as an earnest worker in church circles. Great sympathy is felt for Mr. Elliot and three small children, who are left to mourn her loss.

Millersmith, March 15.—The construction of the new road across the marsh and Emily Creek is drawing to a close owing to the recent thaw. One layer of clay and gravel has been placed on the old road and the bridge is ready to be laid. Mr. John McMullen, Wm. Patrick and Wm. Herlihey are foremen, and have done good work since commencing.

Mr. Reggie McMullen, teacher at Grass Hill, spent Sunday at home.

A new piano arrived at Mr. J. D. Kennedy's on Monday.

A pleasant evening was spent at the home of Mr. and Mrs. Ben White on Tuesday. The night was spent in dancing and card playing and proved a very sociable evening.

Miss Macdonald and Miss Eva Kennedy spent Saturday in town.

SWARMING TO WEST

J.P.R. Expects an Unprecedented Rush of European Immigration this Year

Calgary, Alta., Mar. 21.—General Passenger Agent C. B. Foster, of Winnipeg, who is in the city on a regular visit, said that he expected the swarm of immigrants from Europe passing over the C.P.R. main line to total from 600 to 1,000 a day. So far the immigration figures have been far heavier than last year, Mr. Foster states, "And train load after train load of new comers poured westward last week. The rush from the United States has hardly started yet, so far the majority being from the Old Country, but we expect a large number from across the border this season."

CANNED EVIDENCE LOST

Putrid Eggs Under Seizure in Chicago Go Up in Smoke

Chicago, Mar. 21.—The United States Government lost 764 cans of evidence in the fire which destroyed warehouse "B" of the Monarch Refrigerating Company, at 40 East Michigan Street. The fire is still burning and is likely to smoulder for several days.

Richard McGrath, Employed at Cattle Yards, Will Probably Die

Toronto, Mar. 21.—"I've done it now," shouted Richard McGrath, commonly called "Andy," under a sheep pen at the city cattle yards this morning, as he slashed his throat with a jack-knife. Temperature For Baking

The temperature of flour at the time of working has an important influence on the baking. Expert bakers realize this, and always aim to have their flour at a uniform temperature. Flour should be warmed for fully twelve to twenty-four hours before using, as flour absorbs heat naturally, and cannot be forced. When yeast is added to cold flour it is chilled before it has a chance to begin work.
