COUNCIL APPROVES OF MAYOR'S GRANT TO GARNETT FIRE FUND COMMITTEE

At a recent meeting of the Finance Committee of the council some discussion took place concerning the donation of \$10.00 to the Garnett fire fund. His Worship Mayor Wood. It was claimed by some that the grant should have been considered in council, as it was a rule of that body that payments over a certain amount could not be made without being sanctioned by the council.

When the matter came up in the committee report last evening, His Worship the Mayor vacated the chair and stated that he had assumed an undesirable position when he was appointed to dispense the town charity. He did not covet the job. There was no glory in it, and if there was, he did not want it, and would willingly pass it around. He had been appealed to as mayor of the town to contribute to the fund. He had given his mite as a citizen, and thought the town would not hesitate to contribute, as the family was completely burned out in inclement weather. The grant, he felt, was not enough, and he hoped the committee took that view in objecting to his action in the matter. He did not think it necessary to ask the council as an urgent appeal had been made to him for redress. If it was the rule of the council that no grants be made unless the consent of that body is obtained, then the appointment was a farce. The reflections cast upon him in the report, His Worship said, were uncalled for.

Ald. Smale said the action taken was not to affect the donation which was not in order, but the committee felt that the prerogative of the Mayor to dispense charity should be done cautiously. He should have assured the people interested in the fund that they could count on the council's help.

Deputy Reeve Dobson said that if the grant had been made with the sanction of the council, of if the Mayor had said he would bring the matter before that body everything would have been satisfactory. The money has gone out without the council's sanction, there being an established rule bearing on such matters.

Ald. Wood stated that when the council appointed a charity officer it should state the amount he was not to exceed. The case referred to was an emergency one. If it was necessary to go through the formality claimed, the town would have to appoint another member to dispense charity. If the council refused to pay the amount he would pay it himself.

Deputy-Reeve Lewis said he was not present at the committee meeting, but felt that no objection should be raised to the Mayor's action.

Reeve Babcock said the council ought to have every confidence in the Mayor. The situation which prompted the Mayor to make the grant was one calling for prompt action. A resolution introduced by Messrs.

Lewis and Babcock approving the grant was carried unanimously.
