The marvelous new EGAN "CURATRUS" gives to the ruptured instant relief, rest and security where all others fail. It stops all irritation and restores every part to its natural position as soon as it is used and for all time and old style trusses are thrown away.

LOOSE ENFORCEMENT OF LICENSE ACT

Examiner: Loose enforcement of the license law is not confined to Peterboro. Since October 266 barrels and over 12,000 bottles of beer, 3252 bottles of whiskey and a great deal of other prohibited liquors have been seized by the provincial police during raids on "hiding pigs" in New Ontario, a total value of \$20,000. These figures show that there is something wrong with the enforcement of the liquor law in New Ontario. This deduction cannot be brushed away as a partisan opinion. Even a staunch Conservative journal, like the Ottawa Citizen, points out that with only one railway to carry illicit whiskey to the north, and that railway under government control, it should be possible to destroy the shameful illicit traffic in the new country. There may possibly be considerable "winking" among government railway officials.

Montreal Grain and Produce.
MONTREAL, March 12.—Cables on Manitoba spring wheat came weaker, owing to the prospects of increased shipments from the Argentine. The demand was much smaller and the prices bid were 3d to 4 1/2d lower, consequently only a few loads were worked for May's shipment. A steady feeling prevails in the market for oats, with a fair volume of business doing in car lots for local and outside account. An active trade continues to be done in flour for domestic account, but the demand from foreign buyers was quieter. Milling continues scarce and in good demand from all sources. A fair jobbing trade is passing in butter at firm prices, but the demand for round lots is quiet. Eggs are active, but easy at the decline. Provisions steady under a fair demand.

SURVEYORS BUSY NEAR COLLINGWOOD

Guelph, March 11.—Information has been received from a reliable source that surveyors have completed running a new line to Collingwood from a point named Baxter on or near the Toronto-Sudbury section of the C.P.R. The surveyors left Collingwood a few days ago for Guelph to continue their survey from this city to Beeton which is ten miles south of Baxter. For a considerable time there has been talk of the C.P.R. constructing a railway connecting southwestern Ontario with the Sudbury section of the road at a point north of Toronto. A year ago a line was surveyed from the neighborhood of Schawo on the Toronto-Windsor division to the Guelph Junction road a few miles south of Guelph. It seems as if the present work is being done in continuation of this line northeastward and at present this city is on a projected new railway which will undoubtedly be undertaken shortly, and in the future will become an important line.

GREENBANK MAN STRUCK IT RICH

Port Perry Star. Rev. and Mrs. George W. Stillwell, formerly of Greenbank, left recently for Swift Current, Athabasca, where they are making their home. He went to the Canadian Northwest from Sault Ste. Marie, where he took up a homestead, to which he recently received a title, having complied with all of the homestead laws. The homestead lay near the town of Swift Current, and low lies within the city limits. He has recently been offered a fortune for his property and has gone west to either close the deal or plat his homestead into city lots and handle the matter himself. His many friends throughout the country will extend their congratulations over his good fortune.

Mrs. W. A. Goodwin last evening celebrated her seventieth birthday with a progressive euchre party, Mrs. John McCrae winning first prize. On Friday morning Mrs. J. W. Moore, of Mr. Arthur Rountree, of Peterboro, paid a business visit to Lindsay on Tuesday afternoon.
