

**CASTORIA**  
For Infants and Children.

The Kind You Have Always Bought Bears the Signature of *Dr. J. C. Watson*

Use For Over Thirty Years **CASTORIA**

the latter branch will also have their pay put at \$75 per month instead of \$116.16, under the 1912 schedule, while brakemen will get \$70 instead of \$116.70.

Proportionate rates are established on the other local runs. For instance on the Belleville to Toronto run the pay of conductors will be \$135 per month instead of \$158.87; baggagemen \$80 instead of \$91.88, and brakemen \$75 instead of \$88.92. The most striking reduction of all is on the Pontiac-Casville run, where conductors will receive \$100 per month instead of \$188.76, the baggagemen \$70 instead of \$125.84, and the brakemen \$85 instead of \$125.84. The other reductions vary from \$10 to \$50 per month for conductors and \$5 and upwards for other trainmen. There are only two instances in which the new rates for local conductors are under \$100 a month, while the maximum for the local runs is \$135.

**15 YEARS A DYSPEPTIC**  
Forced to Live on Stale Bread and Porridge.

**"FRUIT-A-TIVES" CURED HIM**

AVONDALE, N. B., October, 19th. "I have been a great sufferer from indigestion for fifteen years. I was forced to deny myself all such hearty foods as beans, meats, potatoes and could not drink tea or coffee. For the past two years, I lived on porridge, stale bread, etc. I had treatment from two doctors, and tried nearly every kind of medicine, but got worse. "Finally I saw a testimonial of 'Fruit-a-tives' and concluded to give them a trial. I took nearly four boxes of 'Fruit-a-tives' and they have made me feel like a new man. I can eat all kinds of hearty foods without suffering, and am no longer constipated."

**LEMUEL A. W. BROWN.**

"Many people look on 'Fruit-a-tives' as a miraculous medicine. It has indeed performed what have seemed like miraculous cures in hundreds of cases of chronic indigestion, dyspepsia, constipation and biliousness. 'Fruit-a-tives' is the only medicine in the world made of fresh fruit juices and valuable tonics. 50c. a box, 6 for \$2.50, or trial size, 25c. At all dealers or from Fruit-a-tives Limited, Ottawa."

**LINDSAY DECREASES**

The Northern Division and the Peterboro-Toronto run conductors received \$95 in 1909; \$115 in 1911 and \$121.91 in 1912. They drop back to \$115. Baggagemen on this run in 1909 got \$60 in 1911, \$67 and this year \$75. They drop back to \$67. Brakemen in 1909 got \$55; in 1911 \$62, and for 1912, \$71.00. They drop back to \$62.

Similar reductions are shown in the pay in the Belleville and Lindsay runs, when conductors who received \$125 this year drop to \$100, baggagemen from \$75 to \$60, and brakemen \$70 to \$55.

In the mixed service of the north-

ern division, proportionate reductions are made. A conductor on the Lindsay-Toronto line in 1909 got \$90; in 1911, \$110; in 1912, \$167.48. He is set back to the \$110. Brakemen on the same run go back from \$111.65 paid this year to \$75, last year's figure.

**NOTABLE ADVERTISING CAMPAIGN**

The Post commences today the publication of a series of advertisements exploiting the advantages of advertising.

Ninety-three of the daily papers of Canada have each agreed to contribute 20,000 lines of space in aid of the movement.

The advertisements are well worth the attention of business and professional men. They have been prepared by the masters of the art of writing advertising, and are intended, not so much as models to be followed, but to inspire and enthuse all who read with a better idea of the possibilities and mission of advertising.

These advertisements will appear at short intervals and will be of most engrossing interest. They deal with the problems of the store, the factory, the household, of the retailer and the customer.

Be sure and read the whole series. If you miss one ask the Post to send you a copy. If you have a friend who would like to have read them, tell the Post his name.

Women are asked to read these advertisements as well as men. They will read good literature and good common sense, but in plain words.

**BILINGUAL SCHOOLS**

Dr. F. W. Merchant's long-looked for report on the bilingual schools was presented to the Legislature just before adjournment Wednesday afternoon, by Hon. W. J. Hannaf. The report is a lengthy document covering some eighty-one pages of a pamphlet. It goes over the whole course of instruction and study in the English-French schools, as they are styled, and gives an abundance of tabulated material. Dr. Merchant has adhered strictly to the terms of his commission. He has investigated and reported, but there is little recommendation. If a summary of the report could be given, it would be that "the English-French schools are, on the whole lacking in efficiency" and a large proportion of the children in the schools concerned have to meet the "demands of life with an adequate equipment in education." Many of the teachers have not a sufficient command of En-

dinning in an address at a public meeting held under the auspices of the newly organized Grange of Orono Saturday afternoon.

**UNJUST TAXATION THE CAUSE.**

Proceeding, Mr. Glendinning went into detail to show just how legislation has affected industrial conditions.

"When the policy of protection was first proposed we were told that domestic competition would keep down the price of manufactured products. That was the case for a time after the adoption of protection. Later on these domestic competitors combined, and competition was eliminated. What is the result? Take cotton goods as an example. There is today only one door by which purchasers can enter in buying cottons from Canadian mills. The result of this combination is that cotton goods cost the Canadian consumer more than they did at any previous time save during the American war. Meantime the combination which has used protection as a means of inflating prices has been paying 50 per cent. dividends on a large part of its invested capital.

"Implements furnish another illustration. So long as competition existed we could buy binders at \$100 or even less. To-day, with 'understandings' in effect, the price is around \$140. It is true binders have been somewhat improved in the interval but not much. In the case of the walking plough there has been practically no improvement, and yet there has been an advance of 40 per cent. here too.

**FREE STEEL FOR THE MANUFACTURERS-TAXED STEEL FOR CONSUMER**

"See how these manufacturers are favored by legislation. If a farmer buys building hardware, one of his raw materials, he is compelled to pay the full duty of around 30 per cent.; the manufacturer of binders is allowed to bring in his steel, under the rebate system, practically duty free. The manufacturer sells his finished product in the form of a binder at a price made artificially dear by protection; the farmer must sell practically all his products at a price fixed by world wide market value.

"Do you wonder, when all this is true, that artificially aided industries prosper amazingly while agriculture languishes?

**WHY AGRICULTURE IS IGNORED.**

"Time was when agriculture received more attention at the hands of the law-making authority. It was 36 years ago Thursday since I joined the Grange. During the interval I have filled, at different times, the offices of Master and Secretary of the Dominion body. At that time the Grange was frequently consulted in regard to pending legislation. That was because at that time we possessed an organization strong enough to make and unmake governments. The fact that our interests have since been neglected, is because, in the interval, farmers, with their noses to the grindstone on the work of the farm, allowed their organization to decline. If we wish to resume our old position, to secure our just rights, we must give to our organization even greater strength than was enjoyed in its palmiest days.

"We have just seen, in England, an indication of what can be accomplished by organization. There are a million coal miners. These million men, standing as individuals, would be absolutely powerless. By union they have been able to command for the moment the undivided attention of the most powerful government in the world, and the result is likely to be legislation fixing a minimum wage for underground workers.

**THE ONE OBSTACLE TO UNION.**

"The greatest obstacle in the way of union among farmers is in the existence of party prejudices. There is nothing of this kind among manufacturers and men of finance. See how these united almost to a man and voted in September last, not as Tories, but in support of what they considered their interests. They would vote on the other side to-day, quite as readily if they deemed it in their interests to do so. Farmers form the only class who place what they call loyalty to party first.

"You find the effect of all this right here. Here you are in the midst of what is perhaps the finest apple growing section in the world. Is there one of these growers who can show 5 per cent. on his investment after allowing wages for himself and the working members of his family? If this cannot be done here what must be the conditions in less favored sections? If you will think this over, and ask why, you will take the first step towards a betterment of existing conditions."

**Childs Play of Wash-day**

**Surprise Soap**

cleanses so easily that wash day is like child's play. There is nothing in it but pure Soap. It cannot injure the clothes and gives the sweetest cleanest results. To wash the Surprise way. Read the directions on the wrapper. You can use Surprise in any and every way.

**LINDSAY LIBRARY INSTITUTE MEETING ANNUAL SESSION HELD IN OSHAWA**

**DR. SIMPSON'S BROTHER IS ILL**

The Bowmanville Statesman says: The general public join us, we know, in expressions of sympathy with the family of Mr. D. B. Simpson, K. C., (brother of Dr. Simpson, of Lindsay) in his present serious and severe illness, and all hope that he may soon be convalescent. It has fallen to the lot of Mr. Simpson to have rightfully and properly earned the highest admiration for his legal ability and splendid administrative powers. This has brought with it heavy responsibilities which have entailed tremendous labor and work on his part. Never having been blessed with a too vigorous constitution the strain he underwent to take care of the vast and important matters entrusted to him proved too much. Nature has rebelled, and he is paying the penalty. Work, as work, it is said, never killed anyone; it is "responsibility that kills." This Mr. Simpson has had to assume to the limit. No one who entrusted their business matters to him ever had the slightest cause to think that even the smallest detail would be overlooked, or not fully considered.

Many rumors have been set about as to Mr. Simpson's trouble, and naturally have been much exaggerated. We are pleased to say authoritatively there are no present indications of any serious results. He is under the immediate care of Dr. Allen Baines with Dr. McPhedran as consultant. The latter is recognized as perhaps the very best diagnostician in Canada. Mr. Simpson went under an operation on Friday last under the hands of his old friend and that veteran surgeon, Mr. Cameron, M. D., from which complete restoration to health is anticipated. It should be known that the operation was not to remove any growth either malignant or fibrous. The operation is to be corrective simply. Doctor and surgeon expect that Mr. Simpson will be back again with us in a few weeks and that he will be entirely relieved, and the way will be paved for complete recovery and health. We are sure every citizen and other reader will join in wishing that his hopes may be realized to the full. Dr. Hazelwood, his physician here, reports Mr. Simpson doing very nicely at latest accounts.

**DR. SIMPSON'S BROTHER IS ILL**

Reformer: The annual meeting of the Lindsay District Library Institute was held here on Tuesday of this week. In the absence of President Burnham the chair was taken by Mr. D. Keith, president of the local board who welcomed the delegates in fitting terms and also called upon Mayor Gibson and Reeve Mitchell to do so on behalf of the town. They did appropriately and invited the delegates to a luncheon at Tod's in the evening.

The chairman gave an interesting review of the history of the local library. Following the nomination of resolution and nominating committees, minute addresses were read on various subjects, by a number of delegates and verbal reports given from their localities by others.

Mr. Nursey, Provincial Inspector of Public Libraries, gave a lengthy review of the standing of libraries in this district, and also made reference to the Act respecting public libraries.

Mr. Dickie, of Bracebridge, had for his subject, "Troubles of a Librarian in a small library." These he attributed principally to lack of funds, want of room, and the objections of those who contributed least to its maintenance.

Mr. Dolan, principal of our high school had "The school and the library" for his subject. He likened the librarian to the parent of a large family, the members of which, having grown up, were doing well in various avocations of life, so books belonging to a library found places of usefulness where distributed. A good deal depended upon the librarian in providing properly for the reading public. He would have assistance from the teachers in the selection and distribution of reading for their pupils, from works in the library. Schools have set lessons and debating clubs, the members of which may be aided in acquiring information therewith if disposed. Literature was one of the big problems of the day and reading is more prevalent than formerly. He approved of it being so, even if it included for the young, some fiction.

The question of the next place of meeting was brought up and Bracebridge, after several other places were mentioned, was selected.

The nominating committee reported concerning the election of Mr. L. T. Barclay, of Whitby, President; Mr. J. Dickie, Bracebridge, as Vice-President; and Miss L. M. Hamby of Port Hope, as secretary. The executive committee consists of Miss Florence Edwards, Manilla; Mr. Andrews, Haliburton; Mr. De la Fosse, Peterboro; Mr. J. Early, Cannington; Mrs. E. J. Jacobi, Oshawa; and Mr. C. A. Laughey, chairman.

The committee on resolutions recommended, as calculated to better serve the interests of the institute, that the meetings in future be held in June. In view of the increasing demand of the reading public for fiction, the committee suggested some action be taken to increase the grant appropriated for it by the government. The report was adopted. As was the appointment of a special committee, to whom was entrusted the presentation of the request relative to an increase in the government grant for works of fiction, at the next meeting of the Ontario Library Association.

Splendid papers were presented and read by Mr. F. L. Fowke, Mr. Caswell and Mr. Burnham, but these will be printed in full so no further mention will be made of them here.

Mrs. E. J. Jacobi, the popular local librarian, efficiently performed the duties of secretary.

Mr. R. T. Gough, brother of Mr. B. J. Gough, is seriously ill in Toronto.

**MINDEN ELECTRIC LINE GETS CHARTER**

Toronto, March 6—The Lindsay to Minden Electric Railway Company bill was passed by the Railway committee this morning, giving the company power to extend its branches to Balsam Lake and Fenelon Falls, and also to charge tolls for the telephone and telegraph messages over their wires through these new districts.

Mr. J. H. Helm, of Port Hope, is in town on business today.

**WELL, WELL!**

THIS is a HOME DYE that ANYONE can use.

I dyed ALL these DIFFERENT KINDS of Goods with the SAME Dye. I used **DYOLA**.

No Chance of fading. Stays bright. Clean. Saves dye. Free Color Card and Booklet. Write to THE WINDSOR DYOLA COMPANY, 1111 Broadway, Toronto, Ont. (Mention 'The Post').

For sale at Highbottom's store.

**Dr. de Van's Female Pills**

A reliable French regulator never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse cheap imitations. Dr. de Van's are sold at 25c a box, or three for \$10. Mailed to any address. The Soborn Drug Co., St. Catharines, Ont. For sale at Highbottom's store.

**LOCAL GRAND TRUNK TRAIN MEN WILL HAVE THEIR PAY REDUCED**

Montreal, March 9—It is denied at Grand Trunk headquarters that there has been any breach of faith in regard to a re-arrangement of rates of pay to conductors and trainmen on branch line runs which is announced to come into effect on the company's system on April 1st. This re-arrangement has resulted in reductions to men on short local runs, who, it is claimed, were receiving wages out of all proportion to the rest of the employees of the system.

Mr. W. G. Brownlee, the general transportation manager of the Grand Trunk, in his circular announcing the reductions points out that the company reserves the right to change the rates and regulations upon giving thirty days' notice. He continues: "The rates of pay to trainmen in the schedule referred to, as applied to branch lines and other light runs, have resulted in such abnormal increases in certain directions, taking into consideration the duties and responsibilities involved, as compared with other and heavier runs, that it is felt an injustice to other employees and the company as well would be effected by a continuation of these conditions. It has therefore been decided to make the adjustments named on the following pages and re-established from April 1, in lieu of the rates in the schedule of January 1, 1912, the rates applying to particular lines specified in effect during 1911, which were very considerable increases over the previous schedule."

The circular then enumerates the runs on which the rates will be reduced to the 1911 standard. On the Eastern division, these include local runs to St. Hyacinthe, Massena Springs, Fort Covington, Belleville, Brockville, and the Lewiston. Three Rivers, Hemmingford and Kingston branches. On the Ottawa division it includes local runs to Swanton, Co-teau, Valleyfield, Madawaska, Golden Lake, Barry's Bay, Madawaska and Depot Harbor. On the Northern division local runs to Belleville, Peterboro, Lakefield, Lindsay, Whitby, Kinmount, Lorneville, Stouffville, Haliburton, Cobocook, Madoc, Allandale, Collingwood, Meaford and Lakefield branch. On the middle division local runs to Stratford, Durham, Kincardine, Owen Sound, Petrolia, Port Dover, Stratford, Tilsonburg, Gait, Elmira, Port Rowan, Warton and Palmerston. On the western division local runs to South Bend, West Bay City, Muskegon, Caseville and Pontiac.

**RATE OF REDUCTION**

As showing the rate of reductions, conductors on the Montreal, St. Hyacinthe run, who have been getting \$215 per month under the 1912 schedule, will receive \$100, as against \$75 under the 1909 schedule; while on the Lewiston branch, where the 1912 schedule gave conductors the big salary of \$174 per month, the \$100 rate will also be restored. Baggagemen on

**SOWING HIS WILD OATS REAPING A HARVEST OF SORROW**

How many young men can look back on their early life and regret their misdeeds. "Sowing their wild oats" in various ways. Excesses, violation of nature's laws, "wine, women and song"—all have their victims. You have reformed but what about the seed you have sown—what about the harvest? Don't trust to luck. If you are at present within the clutches of any secret habit which is sapping your life by degrees: if you are suffering from the results of past indiscretions; if your blood has been tainted from any private disease and you dare not marry; if you are married and live in dread of symptoms breaking out and exposing your past; if you are suffering as the result of a mispent life—**DRS. K. & K. ARE YOUR REFUGE.** Lay your case before them confidentially and they will tell you honestly if you are curable.

**YOU CAN PAY WHEN CURED**

We Treat and Cure VARICOSE VEINS, NERVOUS DEBILITY, BLOOD and URINARY COMPLAINTS, KIDNEY and BLADDER Diseases and all Diseases Peculiar to Men.

CONSULTATION FREE. Books Free on Diseases of Men. If unable to call, write for a Question Blank for HOME TREATMENT.

**HENRY GLENDINNING'S STRAIGHT TALK PRESENT DAY CONDITIONS AND FARMING**

Weekly Sun: When a merchant or manufacturer prepares to sell out he places a value first on his land, then on his buildings, next on his plant and finally on his good will; and he fixes the price to be demanded on the combined valuation.

"Whoever heard of a farmer getting anything for 'good will' when he sells out? He does exceedingly well if he gets the price of his land and buildings; frequently he does not get more than the cost without allowing a dollar for buildings or other improvements.

"I am executor of an estate which includes a 200-acre farm in Brock. There is on the place a fine brick house with modern conveniences, and an excellent barn with cellar accommodation for 5,000 bushels of roots. Everything else is in keeping. That property represents an actual investment by the late owner of \$23,000. I have been trying, without success, for over a year, to get \$12,000 for the place.

"Why the cause of the difference in values between farm property on the one hand and city property on the other? When farmers have answered for themselves they will have taken the first step towards removing the causes for the conditions that exist; they will have prepared the way for a reform in the legislation that is mainly responsible for the reduction in farm values, and loss of population in rural Ontario."

These were some of the most striking statements made by Henry Glendinning.

**Ladies of Culture and Refinement Use Salvia Hair Tonic. It Makes the Hair Beautiful.**

At last a remedy has been discovered that will positively destroy this pest.

That Dandruff is caused by germs is accepted by every sensible person. Dandruff is the root of all hair evils. SALVIA will kill the dandruff germ and remove Dandruff in ten days or money back.

Higinbotham, your druggist, guarantees it. It will stop falling hair, itching scalp, and make the hair thick and abundant. It prevents hair from turning gray, and adds life and lustre.

SALVIA is a hair dressing that has become the favorite with women of taste and culture, who know the social value of beautiful hair. A large generous bottle costs 50c at leading druggists everywhere, and in Lindsay by Higinbotham, the druggist. The word SALVIA, (Latin for Sage) is on every bottle.
