The Bank of Montreal has been identified with the progress of Canada for nearly scentury, and with the business interests of Lindsay for over half a century. It has ispt pace with the progress of the century and to-cay stands among the great and strong Banks of the world, with substantial capital and reserves and large assets. Is is equipped to undertake every kind and description of Panking business, both domestic and foreign, to furnish Travellers credits, and drafts negotiable in any part of the world where Banks exist, to accept for collection items on any point, and to ters, the other third can be sprayed.

conduct, in fact, any transaction coming within the sphere of Banking. Referring to the Savings Department, accounts may be opened with the deposit of one dollar. It is remarkable how savings accumulate, and no better advice can be offered to those, who are able to lay aside a little from time to time, than start a Savings Bank account. In due course it places the possessor in the comfortable on the trees. position of being at least comparatively independent, and free from the necessity of sking favors of anyone. It is always a good thing to have something laid by for the may day, that may come at any time without warning, so I would suggest to those the wisdom of commencing at once, to plant the seed from which may be iscressed later on the goodly fruit of financial independence.

As the season for spraying is rapidly approaching, we find many of our growers dreading the work of applying the lime sulphur wash. In the preparation of this mixture, if there is no boiling plant nearby, and the grower wishes to prepare his material cheaply and effectively, he can make a plank box, about three or four feet wide, from five to seven feet long, and 12 inches high, Socure a sheet of boiler plate, that will project a couple of inches outside of Fasten the box to the sheet iron securely by means of screw through drill homs.

A fire place can be built of bricks so that the boiler plate will rest brick-work. Leave open at end and put in two or three lengths of store pipe. Limbs or brush can be used for firing. The above makes cheapest place for boiling lime and sulphur. The back end of the box can be lowered a little, and a large faucet put in to run the diquid out of the pan. For fifty gallons of mixture, put 15 gallons of walter in the pan. Bring to a boil, and, add 22 pounds of good fresh lime. Have 18 pounds of finely ground sulphur mixed to a paste previously in hou water gardless of price, of course within Pour this on the limes

EASTER THOUGHTS. It is with glad and cheerful hearts that we greet the bright Eastern morn, for it is always bright why, the sun really dances, the children say, (if you are only up in time to see it). And why shouldn't it? All nature seems to know and rejoice in the fact, for has not "Christ risen from the dead and become the first fruits of them that slept," and our hearts leap with joy to know that the whole world has a risen Saviour. Angels, Joy, Victory, Bliss, Service and Praise, are watchwords belonging

essentially to the Ressurcation Day. Easter, the Paschai feast-Easter, from Ostara, (in German a goddess worshipped by the Leutonic family of mankind); she was patroness of light and spring. The year A.D., 68, or thereabouts, has been named as the time of the formal institution of Easter. This name. Easter, with some small variations in the several languages and dialects by the nations of Teutonic descent, was given to the iestival kept in commemoration our Saviour's Ressurrection,

Easter is a movable festival. 'It is always the first Sunday after the full moon which happens to be upon or next after the 21st day of March, and if the full moon comes upon a Sunday, Easter day is the Sunday af-

New they cannot be legally enforced, but have become voluntary and have acquired the name of Baster offerings: view to making the latter one of the

WHAT HASTER TEACHES.

The lesson of Easter is always the same hopeful one. It is the hurial of the seed, that the flowers may aprian forth; it is the burial of all that is carthly, and the resurrection of all that is spiritual. It is the happiest day of all the year, because it is the one that fells the most of that gracious virtue, 'Hope'. I think every, one should think over this and make some resolutions in honor of the resurrection of Jesus Christ, who was born, suffered, died, and rose again, for you and for me. He did this for is the intention to open branches in you and for me, and each one of as has a loving right to Him - a sight soon as business and capital will to go to Him with our troubles, and the principal places of the west as rever to fear that we will be sent It is understood that Col. An Important New Grand Trunk Line

Company is Perepared to Build Branch From Kingston to Ottawa.

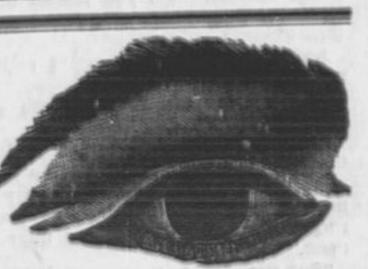

The announcement was made yesterday that the Grand Trunk Railway Company intends, in the near future, to build a new direct dine, connecting Ottawa with Kingston. The need for this line has been felt ever since the Grand Turnk obtained an entrance to Ottawa by getting control of the Canada Atlantic Railway. The object of the line is, primarily, to give the company a short route be-

At the present time the best route
