SEND IN YOUR SCORES

The Evening Post is prepared to publish scores by innings, together with the batteries of all amateur baseball games, and scores by quarters with the line-up of all lacrosse matches played by the Lindsay teams in this town or elsewhere, the approaching season. No matter of how little importance, the game may be, if the score is authentic, it will be printed by the Evening Post.

MIDLAND LEAGUE MEETING

The Midland Baseball League this year will be composed of four teams. Cobourg, Port Hope, Peterborough and Peterborough Athletics. This was the result of the annual meeting of the League held Friday afternoon in the American hotel, Port Hope, when all four clubs were represented.

Victors Again in Line.

The club was out for all the honors in sight, and all they want is a good manager. "Dick" Butler has been named in this connection, and The Evening Post begs to butt in with the remark that "Dick" is the best man for the job. The following players have been signed: J. Spratt, H. Williamson, R. Williamson, C. Pratt, D. Puffer, Wm. Spence, P. Spratt, F. Dennison, K. Touchburn, D. Spratt, G. Jobbitt.

Collegiate Football Team Organizes

The club will play as an independent team, that is to say, it will not become affiliated with any league, according to the expressed opinion last night. Games with local and out side clubs will be arranged, and a busy season is expected in consequence. The fee was named at 15 cents for members, and judging from the response in this connection last night, the club will be financially a success.

came up, namely, to hold the Annual Sports Day on what is generally known as Excursion Day. Nothing definite was arrived at in this matter, the proposal meeting both with favor and with opposition.

When somebody suggested the organization of a baseball team, the idea was hailed as a particularly bright one, and it is possible may be followed up by something more definite.

THE OFFICERS. Those who will guide the fortunes of the new organization are: President—Mr. Dunkley. Secretary—Mr. J. Bishop. Captain—D. McQuarry. Executive committee—W. Spence, G. Jobbit, R. Johnston, H. McLaughlin and C. Donald, secretary of committee.

NEW CLUB FOR PETERBORO. A second Midland League team has been organized in Peterboro. The new club is to be an all-Peterboro aggregation and calls itself the Athletics Baseball Club. Listen to what the Executive has to say: The idea before the club is to have a team composed of Peterboro players. Home brews will be given every chance in the world, and the officers believe there is enough material in the city to enable them to put a strong team in them in the league, one that will not only give a good account of itself, but will also be thoroughly representative of Peterborough. The new club should meet with every success, and will doubtless receive the hearty support of the citizens in their commendable move of having an all-Peterboro team.

It is understood that "Ebbie" Flaherty and "Fruess" Quinlan will be on the firing line of the new club, while "Dubbie" Shea, the former popular shortstop of the Peterborough club, who has been in Bradford for several years, will be brain of the team. Shea has secured a position in the city and is expected to arrive soon. The Athletics will support a resolution calling for a strict residence rule in the Midland League.

Odds and Ends of Sport.

The members of the Lindsay Whist Club congratulate most heartily and feel very proud of their fellow member, Major Eli Hodgins, who with his partner, Mr. Ryder of the London, Ont., Club has succeeded in landing the premier trophy, at the Canadian Whist League in Toronto last week.

These two gentlemen deserve a great deal of credit for winning the Hay trophy, competed for as it is by all the best whisters of Ontario.

It is understood that Major Hodgins is having it sent to the secretary of the local club and for a time it will be placed in the club room. The score: Canadian whist tourney results; Roy Trophy—Hodgins and Ryder, of London, won, 9-43; Beharrell and Connolly of Toronto, 8-89; G. Yery and Logan, of Hamilton, 8-14; Connor and Wilcox, of London, 7-29; Biggar and Shaw, of Toronto, 2-29; Coleman and Dr. Clary, of Toronto, 0-71.

SHAMROCK IV WAS LAUNCHED. Sir Thomas Lipton's new racing yacht, Shamrock IV, was launched to-day at Fife's yard at Fairlie, Ayrshire. The new yacht will be commanded by Capt. Sycamore, and is to compete in the British regattas of 1908.

A NEW LEAGUE. Kingston, Belleville, Ganouque and Napance have formed an Eastern Ontario League. They want two more towns.

A CHEAP MAN. Hans Wagner has finally signed with Pittsburgh at a rumored salary of \$10,000 for the season. He played on Monday.

WILL IT? Toronto open the regular season in Jersey City on Thursday. And the joyful part of it is that getting into fast company will put a stop to their getting licked by bush league nines.—Toronto Telegram.

HE NEEDN'T WORRY. So long as Tommy Burns can get \$10,000 per for licking softer things than postage stamps, he need not care for either financial stringencies or the highly colored criticisms of the colored vote.

FATHER CHADWICK DYING. Henry Chadwick, the "Father of Baseball," is dying at his home in Brooklyn of pneumonia. He is 83 years old, and was born in England. He is still the editor of Spalding's Baseball Guide and other baseball publications, besides doing work for the Brooklyn Eagle.

Beware of Ointments for Catarrh that contain Mercury. Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is too full to the good you can possibly derive from them. Hall's Catarrh Cure is made by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Ohio, by F. J. Cheney & Co., Toledo, Ohio.

It was an auto runabout. Until it struck a ruck; There was a crash And then a smash— And now it's auto truck.

Why I Recommend Dr. Williams' Pink Pills

The Particulars of a Remarkable Cure Told by a Presbyterian Clergyman—The Sufferer Brought Back From Death's Door

St. Andrew's, Manse, Cardigan, P.E.I., Jan. 1908. Though I have never been sick myself, and have not had occasion to use Dr. Williams' Pink Pills, I thought you ought to know of the remarkable cure they have wrought in Mr. Oiding's case.

During a visit to my home in Merigonish, N. S., some years ago, I was grieved to find our next door neighbor and friend, Michael Oiding, very low. "He is not expected to live," my mother informed me. "Band you must go over and see him, as he is liable to pass away at any moment."

Mr. Oiding had for years been affected with asthma and bronchitis, but now a complication of diseases was ravishing his system. He had been confined to his bed for months and was reduced to a skeleton. Though evidently glad to see me, he conversed with the greatest difficulty, and seemed to realize that it was the beginning of the end. He was daily growing weaker, his feet were swollen to twice their natural size, and the solid hand of death was upon his brow. "It's no use," he said feebly. "The doctor's medicine is not helping me and I am going down rapidly." I prayed with him as for a man soon to pass into eternity, and when I took his hand in parting it was the last time I expected to see him in the flesh.

Three years later while on another visit to my mother's Michael Oiding was seemingly in better health than I had ever seen him for, as I said:

he had always been ailing. In sheer desperation he had asked his wife to get him Dr. Williams' Pink Pills. They soon began to help him. His appetite and strength began to improve and to the astonishment of his family and friends he rapidly regained his health. Now, though the burden of well nigh four score years is upon him, he is able to do fair day's work, and is in the enjoyment of good health, even the asthma has ceased to trouble him, as in former years.

Mr. Oiding himself, as well as his neighbors and the writer of this letter, confidently believe that his rescue from the very jaws of death—seemingly so miraculous—is due under the blessing of God to the timely and continuous use of Dr. Williams' Pink Pills.

REV. EDWIN SMITH, M. A.

Burglars Attempt to Rob Wakely's Store Monday Night

Broke in Through Front Door and Ransacked Place But Missed the Cash—Robberies at Cannington Also.

Evening Post, April 21. The dry good store of Mr. Wakely Kent-st., was broken into last night. That it was an attempt at burglary cannot be doubted, in view of the facts as given the Evening Post by Mr. Wakely.

His statement was to the effect that some time last evening, presumably about twenty-five minutes to eleven, the front door was smashed in by two men who walked through the store out to the back, calling at the office on the way and made a diligent search generally.

THEIR SOJOURN WAS A SHORT ONE, HOWEVER. Mr. John McLaughlin, a hearing noises, behought himself that something might be amiss and took steps to see that Policeman John Short was invited to assist. John hurried but before he got there the men had cleared out. He saw what damage had been done, which was slight, and made further attempts to round up his men, but they had apparently left town.

MISSED THE CASH. "Did they get any money?" Mr. Wakely was asked of the Evening Post. "Outside of possibly a few coppers, nothing of any value was taken, that we know of at present," he answered.

AT CANNINGTON. The burglars made good their escape from Lindsay and where they went is unknown. But four stores were entered in the village of Cannington 17 miles northwest of here last night, and two men were seen driving in a buggy going east, about 3 o'clock this morning. The stores which they entered were R. L. Corlett's where they got clothing, C. D. Stone's boot and shoe store, the Matthews hardware store, and Wakely's general store. At each place more or less damage was done, and in the first two named, a considerable amount of goods taken. No trace of men had been found late this afternoon.

Indian Forecasts Second Winter

Could Tell Because he Saw Muskrats Rebuilding Their Houses—A Real Student of Nature.

Evening Post, April 21. The Indian, queer as he may seem, and unimpressing as he may look, has yet a quality or instinct that would gratify many of our desires. An inborn adaptability to prearrange matters for a coming change in weather; an instinctiveness that leads him to make these thoughtfully by careful observation of nature, as it lives and works about him, and a true sense of what they mean to him.

A recent instance of the Indians' keen observation now perhaps blunted by long years of inactivity out of the wilds of his forefather's domains, but still making itself evident, was one relating to the sudden change of weather yesterday. An old, high cheek-boned, straight-haired trapper, darkened and weather-beaten by years of such work in all kinds of weather, was slipping around among the haunts of the muskrat when Inspector Bradshaw paddled up to ask as to the results of this season's trapping. The old fellow was quite non-committal and puffed away on a pipe as

continuing; "There was lots of money in the store all right, but it was where no burglars could touch it. They evidently figured, and correctly, too, on the fact that no banks were open yesterday. We had a big day on Saturday and another yesterday," said Mr. Wakely.

FRONT DOORS INSECURE. The successful attempt at entering the store through the front door emphasizes the fact, or rather goes to show, that such a thing is possible. The Evening Post was informed that the majority of doors along Kent-st., are just about as accessible as Wakely's in this regard. That it gives the police force very little chance to prevent such depredations when owners of buildings do not see to this matter was the opinion expressed by a good many business men this morning.

POLICE CALLED IN. Mr. John McLaughlin, a hearing noises, behought himself that something might be amiss and took steps to see that Policeman John Short was invited to assist. John hurried but before he got there the men had cleared out. He saw what damage had been done, which was slight, and made further attempts to round up his men, but they had apparently left town.

black as the darkest Mocha with serene satisfaction invulnerable to all enquiries. Finally an idea struck the veteran and turning half around pointed to some nearby rat houses. "Go in to have second winter," he muttered; "rat build much more house," and with a quick jerk of his left hand motioned towards a ripple in the water, it was a rodent with material for his home. "Sure nuff we have second winter," he repeated, and placing his chum, the black pipe, in his mouth, leisurely left his companion and glided on his duties. "Sure nuff, we did have second winter, and the very day that spring cooled off, the same old customer and his inseparable pipe swung round the bend, and saw ahead of him his previous day's questioner.

COMES TRUE. His jaws unloosed, the wrinkles spread like a stove radiating heat all over his furrowed face, and putting double strength into his strokes, bore down on his victim, the Fish and Game Inspector, smiling very confidently and chucking to himself. Making a similar sweeping motion with his hand as on the previous day, he said, "See! what I tell you, sure nuff second winter," and with a big, guttural chuckle, slid away.

There lay the marshes, dressed as in winter, hammocks of reeds here and there capped with snow, and moving among them the dusky, voyager part of Nature's work horse who but wishes to live close to that which makes this world beautiful.

YOU CAN'T HELP SAVING MONEY IF YOU DO YOUR SHOPPING HERE

It's a great pleasure and very satisfactory to deal in a store that treats every customer alike. This store is full of new Spring goods that appeal to all classes of people—the rich, the poor, the conomist, everybody that buys good goods, wants good styles, and have thier money go the farthest.

Dress Goods. Fine, French silk and wool Eoliennes, French Twine Voiles (plain and embroidered) self colored, French striped Dress Goods in all the fashionable shades. To go at, per yard, 85c and... 1.00 A good line of pebbie cloth Dress Goods in all shades for... 50c So much for the Dress Goods

Corsets. The next thing is Corsets. The secret of a good figure this year is a proper fitting corset. Slenderness is the proper clander, rather straight lines—that is, over the hips The waist, of course, round and small, as compatible with preserving the proportions. A full line of D. & A. Cropton's corsets at from 50c to 2.50

O'Loughlin & McIntyre CASH AND ONE PRICE.

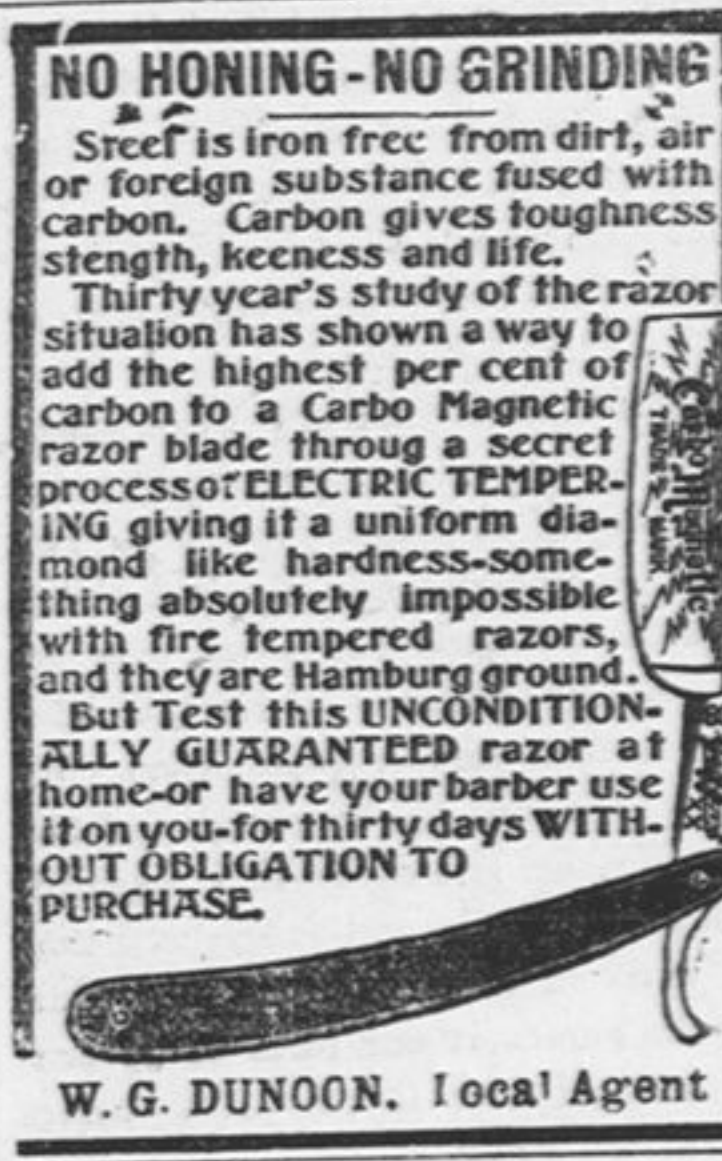

JACK O'BRIEN: RECORD BREAKER. Champion Rat-catcher of These Parts Again Distinguishes Himself—Sets New Mark. Evening Post, April 21. Jack O'Brien has created a record for a muskrat catch this season. Jack is a veteran at the game, and annually secures a large number of pelts, but never before has approached the record he reached last Saturday night, when after three weeks' trapping, he had a pile of 452 skins to his credit.

The pelt of the fur-bearing rodent is valuable. Forty cents apiece is what Ed. Armstrong, Fleury and other buyers in town pay, providing that they are in good condition. Thus the industrious O'Brien will have something like \$170.00 for this three weeks' labor. In these stringent times that neat little pile of greenbacks would be welcome to most anybody, and Jack is to be congratulated on his success. O'Brien had been trapping with Bob Baxter, on the east creek at Cross Creeks. Baxter secured 200 skins, which by the way is no mean feat. Single handed O'Brien performed the feat of snaring the 425 rats, and it would be safe to say that this record has not been equalled in this vicinity in a good many summers. O'Brien expects to secure 150 more before the season closes.

Mothers Feel Safe With Baby's Own Tablets. Mothers who have used Baby's Own Tablets say that they feel safe when they have this medicine in the house, as they are a never-failing cure for the ills of babyhood and childhood. And the mother has the guarantee of an government analyst that this medicine contains no poisonous opiate. It is always safe. Good for the new born babe or well grown child. Mrs. Alfred Suddard, Haldimand, Ont., says: "I have used Baby's Own Tablets for constipation, vomiting and restlessness, and have found them a no other medicine can equal the Tablets for little ones." Sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Funeral of Mr. Hamilton. Evening Post, April 21. A large number of sympathizing friends and relatives attended the funeral of the late James Hamilton, which took place this morning from the family residence, Kent-st., to the Grand Trunk station for interment at Peterborough. A service was conducted at the home by the Rev. J. W. Wallace, minister of St. Andrew's church, of which the deceased was a member. Among those who were present were: Messrs. A. Jackson, R. W. McNeillie, A. Robertson, Thos. Stewart, R. Ross and Dr. Erross.

CASTORIA. The Kind You Have Always Bought. Bears the Signature of Dr. H. H. Plummer. Their was once a famous athlete, whose record was hardish to beat; On a circular track He could see his own back, So nimble was he on his feet.

NO HONING—NO GRINDING. Steel is iron free from dirt, air or foreign substance fused with carbon. Carbon gives toughness strength, keeness and life. Thirty year's study of the razor situation has shown a way to add the highest per cent of carbon to a Carbo Magnetic razor blade through a secret process of ELECTRIC TEMPERING giving it a uniform diamond like hardness—something absolutely impossible with fire tempered razors, and they are Hamburg ground. But Test this UNCONDITIONALLY GUARANTEED razor at home— or have your barber use it on you for thirty days WITHOUT OBLIGATION TO PURCHASE.

W. G. DUNOON, Local Agent. A Good Lubricant. For vehicles and machinery will soon be wanted and the one which gives most general satisfaction is PURE CASTOR OIL. Many people are not aware that an imitation oil, so-called Commercial Castor Oil is frequently offered for sale and which has no castor oil in its composition, being made by the action of chemicals on other cheap oils. Now, there are different kinds of castor oil as there are kind of grain, all equally pure, any one of which can be taken medicinally if desired, and it is the cheapest of these that we offer you as a lubricant at a price almost if not as cheap as the imitation oil.
