

SOMETHING VERY SPECIAL

Is the news herewith of the visit of MR. FRANK PEMBER, representing the widely known

PEMBER ART HAIR STORE

of Toronto. The store that makes the fashion in hair goods. Ladies who would view the daintiest and most alluring hair pieces ever shown here, beautiful in quality, beautiful in design and beautiful when worn, will see this display. Nothing like it elsewhere, and the prices are most reasonable.

Gentlemen who are losing or who have lost their hair will be interested for business and social reasons in the Pember Toupees, the most skillful and natural hair pieces ever devised. Cannot be told from natural growth when worn. Priced very reasonably.

Advice upon hair and scalp troubles free. Don't neglect to see this display.

Lindsay, Benson House, Monday April 4 Peterboro, Oriental Hotel, Tuesday, April 5

Scugog Open To Sturgeon Lake

Warm spring weather is having its effect on the ice on the numerous chains of waterways throughout the province.

The Scugog River is now open to Sturgeon Lake and the latter ice is unsound. Already many canoes can be seen filled with trappers and their traps, and catches of size equal to those of previous years are common. Game and Fishery Overseer Bradshaw daily visits the haunts of the game and prevents any infractions of the law if contemplated.

Obituary

ETHEL STELLA DICKERSON.

The many friends of Mr. and Mrs. George Dickerson, 43 Melbourne-st., will sympathize with them in the death of their infant daughter Ethel Stella, who passed away this morning, aged one year and eight months. The child had only been ill one day death being caused by convulsions.

The funeral will take place Wednesday afternoon at 2.30 o'clock to the Riverside cemetery.

Improvements to Horn Bros. Mill

Horn Bros. are making more improvements to their mill. On Saturday Williams' Bros, contractors tore down the south end of the main building and will replace it with a heavier wall, and the probabilities are that another storey will be added to the building to make room for the new plant which is expected in a few days.

Settlers' One Way Excursions

To Western Canada, April 5 and 12 via Grand Trunk Railway System from stations in Ontario, Kingston and west to principal points in Saskatchewan and Alberta. Particular attention is called to the fact that low rates apply to certain points on Grand Trunk Pacific Railway, a new territory full of golden opportunities. Secure tickets and further information from Grand Trunk agents, or address J. D. McDonald, D.P.A., G. T. Ry., Toronto, Ont.

A Good Medicine For The Spring

Do Not Dose with Purgatives - A Tonic is All You Need

Not exactly sick - but not feeling quite well. That's the way most people feel in the spring. Easily tired, appetite fickle, sometimes headaches and a feeling of depression. Pimples or eruptions may appear on the skin, or there may be twinges of rheumatism, or neuralgia. Any of these indicate that the blood is out of order, that the indoor life of winter has left its mark upon you and may easily develop into more serious trouble. Don't dose yourself with purgatives as many people do, in the hope that you can put your blood right. Purgatives gallop through the system and weaken instead of giving strength. Any doctor will tell you this is true. What you need in the spring is a tonic that will make new blood and build up the nerves. Dr. Williams' Pink Pills is the only medicine that can do this speedily, safely and surely. Every dose of this medicine helps make new blood which clears the skin, strengthens the appetite and makes tired, depressed man and women bright, active and strong. Miss Mary Baker, Tancook, N. S., says: "Dr. Williams' Pink Pills have been a great blessing to me. Last year while I was attending school I became so weak and completely run down that I thought I would have to give up going to school. I was affected with dizzy spells and would fall down at any time. I got a half dozen boxes of Dr. Williams' Pink Pills and before they were half gone I felt my strength returning. By the time I had used them all, the dizzy spells were completely gone, and I was enjoying good health."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

April Storm and Weather Forecasts

According to Prof. Hicks Next Month Will be Stormy

A regular storm period extends from the 2nd to the 6th. As shown by the storm diagram, this period is still under the influence of the Earth Mercury and Mars disturbances. It will come in by rising temperatures, falling barometer and growing cloudiness over the western sections by 2 and 3rd, and during the 4th and 5th these conditions will pass eastward attended by storms of rain, hail and forceful winds. In northerly parts of the country, late snow squalls and heavy sleet will be natural and probable.

A reactionary storm period is central on the 8th, 9th and 10th. Moon passes over the celestial equator on the 8th, new moon falls on the 9th, and moon's perigee on the 10th. The indications are that very unsettled and threatening weather, will continue from the preceding period, and that renewed storms, with low barometer, high temperature thunder and wind will prevail generally on the 7th and touching the 8th, 9th and 10th. Excessive warmth at this time, with much humidity and mugginess, will insure heavy hail storms in many localities, with possible tornadoes. Careful observers in every locality may easily determine whether such storms are approaching them, long before they strike. Remember the dates and carefully note prevailing conditions and gathering storm clouds. Do this habitually at all storm periods. Rising barometer and change to, very much cooler with frost will come from the 10th to the 13th, progressively from west to east. The 6th and 12th, central on the 9th, is a marked seismic period. We still urge all the people everywhere to watch for earthquake reports, and see how many are reported outside of the seismic periods laid down in this Almanac.

A regular storm period extends from the 14th to the 19th, central on the 16th. This period will bring low barometer and return of energetic storms on or near the 15th, 16th 17th and 18th. The Mars influence will disappear after the middle of April, and warmer, settled, spring-like weather may be expected. But the first half of the month will bring much of the Mars rawness, and the boreal fluster, following the "Eastern storms" will give a wintry touch to much of the storm and weather in the first half of the month. Very cool nights will be natural from the 18th to 20th, with frost to the northward.

A reactionary storm period is central on the 21st, 22nd and 23rd. On and touching the 22nd the temperature will rise suddenly to very warm the barometer will fall rapidly and storms of thunder, rain, hail and wind will touch many places in their quick transition from east to west. The barometer will react to higher, immediately behind these storms, bringing a sharp drop in temperature, but the change will be of short duration. Allowing three days on either side of Sunday the 24th is another seismic period, in which current telegraph reports will probably tell of earthquake phenomena in various extremes of the earth. The earth is now practically away from the perturbing influences of both Jupiter and Saturn, hence we believe that earthquakes will subside to a minimum during the next few years.

Traveller Cuts His Throat

St. John, N.B., March 29.—A man named Lars Anderson, with \$67 in his pocket, was found dead with his throat cut and a razor in his hand in a room in the Carleton House at noon yesterday.

He arrived from Tacoma, Wash., on Saturday with a ticket for Liverpool, but was too late to catch the Empress of Britain. He was about 35 years of age.

Could Be Happy With Either.

Windsor, March 29.—A civic contest between Walkerville and Windsor for location of the new Canadian factory of the D. M. Ferry Co., burned out in Windsor last Friday, is now being waged.

St. Lawrence Is Free.

Montreal, March 29.—It is expected that by to-day the ice will move out of the River St. Lawrence, as the
