MAN REPORT OF THE PARTY OF THE

# CHILDREN

It is not necessary for us to speak any words of our own, for the facts given below are strong enough to convince the most skeptical as to PSYCHINE'S power to restore health. Mr. John Sykes, of Victoria Harbor, says:-"When Nellie was about 4 years of age, she had wasted away so much that she looked like a little skeleton. The doctor treated her for 2 or 3 months, but the child got worse, and the doctor said he could do nothing more. We called in another doctor who told us everything had been done and that the child could not get better. We decided to take the little thing to a Montreal doctor, who said her lungs were filled with pus and that she would have to undergo an operation if we would save her life. The next day he came, down from Montreal and operated upon her, but the operation was a failure, as he was unable to

get any pus from the lungs. "We were disappointed, and fully thought little Nellie was not going to get better, but it was cruel to let her suffer so. At this time we heard what a wonderful medicine PSYCHINE was for the lungs. We had been reading some of the advertisements in the papers of people who had been cured through PSYCHINE. We thought it would suit our little girl, and so decided to give it a trial. This we did, and after Nellie had taken the first bottle we saw an improvement. Gradually the little girl began to fill out, and by the time we had used 8 or 9 bottles, she was quite well That was two years ago and she is as well and robust to-day as the other children are. "We have a great deal to be thankful for.
We firmly believe little Nellie would never have lived if we had not heard of PSYCHINE.

where the tracks curved around an untenanted house. Both cars were going at full speed and crashed into each other with terrific force. An exploding fuse set the wreckage into a blaze which communicated with the house and completely destroyed it. ### Horse Bled to Death

Wm. McConnell, who resides a mile east of Omemee, lost a valuable nineyear-old horse in a peculiar manner on Saturday. He had accommodated a gentleman who had met with a mishap on the road by allowing him to put his horse in his stable over night The animal, in some manner, kicked Mr. McConnell's horse, inflicting nasty gash, from which it bled to death. It was valued at \$250.00.

There was one man supremely happy after the Acoose-Longboat race Saturday night, and that individual was Tom Flanagan, acting manager of the Salteaux. It was a triumph for him in more ways than one, as it has been his ambition to produce a runner capable enough to take the measure of the celebrated Onondaga since the latter broke awa. from him. "Who said that I couldn't train by the first week in April. a squirrel?" he remarked to the Globe "I think that this race shows conclusively that I know a lot more about the running game than many of the alleged critics. Acoose was conditioned by me for this race and ran under my orders throughout. He is a good Indian and I am convinced that he is the man to beat in the big Derby next Friday."

### BASEBALL

They were seated in the parlor and the lights were burning dim, He was a diamond hero-she a fan quite fair and trim,

But they knew not, as he opened up the game by murmuring "Love" That father was the umpire on the stairway just above.

'I like your form''-he led off first-"with me you've made a hit-You've got the curves, you've got the speed, and you are looking

Now, if with you, my turtle dove, I make a hit likewise, Won't you improve my single state, and make a sacrifice?"

'I'll never play too far off base," he whispered in her ear-"My salary whip has got the stuff,

to put 'em over, dear; Just give the signal for a 'steal' and I'll no longer roam, And when I slide into the plate, please call me safe at home."

'I've got to have the hope complete the maiden softly sighed; 'Show m? your batting average in

Mr. Bradstreet's guide; It takes a lot of speed these days, with cunning and intrigue. To win a battle now, and then within the Grocers' League.

'But give me errorless support' his heart here took a bound-... "Abd let me live in big league style and I may come around;

Unwrap the tangle from the dope, and you can cop the bet We'll play a double-header, pal, on any date you set."

with a happy sigh

He whipped a fast one round neck-the other was waist, high; But here the umpire butted in - she said, "Oh, father, please

Don't call him out, he's showing me the way they work the squeeze."

The old man gave an irate snort, by a large attendance of delegates. and said, "I'll help the fun

By showing him another play that's called, "the hit and run," He swung like Wagner at, his best-

a sole inspiring clout-, the umpire 'yelled "You're out !"

### BOBCAYGEON

(Special to The Post.) "Isn't it too bad Broad's brown mare is drowned?" This is the greeting your humble scribe met, as he jostled into the post office here to get the mail, and it was quite true for Mr. E. J. Broad's mare that had drawn the delivery rig, laden with the staff of life, to nearly every residence in this burg many and many times was in the bottom of Pigeon Lake, near Big Island. Mr. M. Nicholls and his brother Alf got the mare on Wednesday morning to take Mathew's traps to his spring trapping ground and reached it safety, but while Alf was returning to Bobcaygeon the horse and rig went into the lake with a plunge, and Alf, who is an active, young fellow, had difficulty to get out himself He got out and got the mare by the head, but the ice broke a couple of times, and he had to finally abandon the beast, so that both the rig and mare went to the bottom, and he, made his way to the village, to inform Mr. Broad his mare would not be on hand to draw the delivery waggon that afternoon. A subscription list is going round to help get another horse to draw the bread waggon.

At a meeting of the Board of Trade on last Tuesday evening a resolution was passed unanimously, asking the authorities not to fill in the chagnel at Little Bob bridge so that it would interfere in any way with the power owned by the village at this point. It was proposed to fill in 100 feet in the centre of the Little Bob river and make two spans of about 60 feet on each side, and this was thought would interfere with the water power here. If this done, it would be a serious matter the village, as their electric plant is run by this power, and a large part of it is yet undeveloped.
