Pains or Cramps

"I carry Dr. Miles' Anti-Pain Pills with me all the time, and for aches and pains there is nothing equals them. I have used them for rheumatic pains, headache, and pains in side and back, and in every case they give perfect satisfaction."

HENRY COURLEN, Boonton, N. J.

Variety the Spice of Existence

A wise conducted newspaper is like a banquet, says an exchange. Everything is served up with a view to variety. Help yourself to what you want and do not endeavour to condemn the entire spread because pickles and onions may be included. Be generous and broad enough to select gracefully such reading matter from newspapers as will be agreeable to your mental taste. You, as an individual, are not compelled to swallow everything. We do not think alike, all of us, on every subject and it is a good thing, as it makes more variety, and variety is the spice of existence.

Training of Children

Children should be trained have at home as you would them behave abroad. It is the home fined to the athletic events of runlife which they act out when away. ning, sprinting, jumping, etc., but a In the actions of children strangers good game of baseball was played can read a history of home life. Something is wrong in those homes by an interesting football practice. where the little courtesies of speech are ignored in the everyday life. Scolding is never allowed; reproof and criticism from parents must have their time and place, but should never intrude so far upon the social life of the family as to render home uncomfortable. A serious word in rebuke in private will generally cure a fault more easily than many public criticisms. So teach the children to be high-minded, cheerful and loving and above all things to cultivate, a sweet disposition.

Longboat wants broken teeth out of my mouth so's I to make it 20 miles, but Ernie Hertberg, the Swede's manager, is holding out for fifteen. This difference, however, will soon be adjusted, It Longboat doesn't come to terms, Fred Meadows will be substituted for him. Longboat has been considered as an opponent for the Swede only because he has always been a good drawing card at Buffalo. Though it might not attract as big a gate, a match between Lfungstrom make a great deal the better race of the two. Then there is the 20 mile race at the stadium, May 7, and the Marathon Derby at Toronto May 24.

To the North

Minden Echo . There is no railway directly out of Peterboro City into the north country, although long Meadows at 15 miles, would years ago it was a Peterboro man who advocated a road into wgat is now the county of Haliburton. The project was considered too expensive for the small returns possible, and the agitation for even a wooden railway was abandoned.

Later, the Provisional County of Haliburton was formed that the people of the portion of the then new county should be in a position heavily burden themselves with payment of a railway bonus, that would assure them of a road from Haliburton to Lindsay, from whence they could reach other points.

Peterboro finally saw that Lindsay was getting a large portion of the ever growing trade from the north and now since a railway has been built through Lindsay to Bobcaygeon cutting off another slice from the Peterboro business, Peterboro may quite properly wake up to the need of a road out to some point that will give them a share of the trade now going elsewhere.

With this end in view, and possibly that a railway so built may uleim. ately be further extended into New Ontario, the Peterboro Review has published several letters, bearing on the desirability of such a road.

A recent article, in which appears a letter of "Lindsay Citizen," partly takes up the plan proposed by the Echo, and which receives our endorsation, because we believe a good trade would develop in forest and notice from President Murphy to join farm produce, besides the tourist trade, which would certainly become an important factor, for, if hundreds of people are now finding their way to the beautiful lakes of this north

Cruel Treatment

Bridgeport, Conn., April 11.-Lorraine Clark, 14 years old, a member of the freshman class of the local high school, is under treatment at a sanitarium in Brateleboro, Vermont, suffering from the effects of her initiation on Feb. 6 last, in one of the school secret societies.

According to the girl's story, she was made to drink on the night of the initiation a concoction, one of the ingredients of which was kerosene, and later made to eat macaroni which had been boiled in soap. After undergoing that part of the initiation, she says, she was tossed in a blanket.
