

LINDSAY, ONTARIO, FRIDAY, APRIL 3, 1914

Vol 14

If you deal in values—you'll appreciate the Ford. Its simplicity—its economy—and its dependability give it a value that cannot be measured by its price. The Ford is the one car that has "made good" in world-wide service.

Six hundred dollars is the price of the Ford runabout, the touring car is six fifty, the town car one hundred—f.o.b. Ford, Ont. complete with equipment. Get catalog and particulars from

FIVE WOLF SKINS BROUGHT TO MINDEN

Marmora, March 26.—Mr. Freeman Trumbull brought five wolf-skins to Minden, where he made application for the Government bounty, having disposed of the animals within a short time. Wolves are said to be quite plentiful in Anson township this winter, and are killing off the deer.

INDUSTRIAL SCHOOL RATES AMENDED

The Industrial Schools Act is to be amended by an Act introduced into the Legislature Thursday by Hon. W. J. Hanna. Under this where the maintenance of a child is not otherwise fully provided for, the municipality in which the child resided for one year last preceding his admission to the school shall pay 30 cents per day towards the cost of maintenance. Another section provides for the payment of 30 cents per day for each actual day's stay in an industrial school. This is to be paid quarterly by the Provincial Treasurer to the Industrial School Board out of the moneys appropriated for the purpose by the Legislature. The Villa is getting nearer to the danger of John Bull catching him.

ENJOYED SOJOURN IN SUNNY FLORIDA

Mr. and Mrs. Isaac Deyell Have Returned Home

In excellent health and spirits, Mr. and Mrs. Isaac Deyell arrived home on Monday after enjoying a delightful four months' sojourn in Sunny Florida. In conversation with a Post reporter this morning, Mr. Deyell, (who by the way, has gained ten pounds in weight) gave some interesting information as a result of his visit to the south. They visited Mr. Deyell's cousin at Eustis, a town about 150 miles from Jacksonville, and about forty miles from the coast. Eustis is a popular resort, with a population of about 1500 in summer and about 3000 in winter. The soil in and about the town is sandy and as a result fertilizing has to be carried on to a great extent. It costs a dollar a tree each year for fertilizing orange trees. The orange trees were in bloom when Mr. and Mrs. Deyell left for home. When gathering the fruit, they are not picked off the trees, as many suppose, but cut off. The oranges this year are small, the white flies playing havoc with them. The climate at Eustis was grand, said Mr. Deyell, the temperature ranging from 40 to 80 degrees. The frost hurt the bean crops somewhat, but they were picking strawberries in Eustis and would continue to pick until May. Mr. and Mrs. Deyell met Mr. James Fox, a brother of the late Mr. S. J. Fox, of Lindsay. He has a plantation there and left these parts forty years ago. Mr. Fox sent with Mr. Deyell a quantity of grape fruit to Mr. and Mrs. Geo. Matthews, Mrs. Terry, Mrs. Fox, Mr. and Mrs. A. Bradshaw, and Mr. M. O'Halloran. In referring to the highways of Eustis Mr. Deyell stated that they were building automobile roads of pine needles on top of the saw-logs for forty dollars a mile, which would last for two years. Mr. and Mrs. Deyell were at two fairs while away, and when it was learned they were Canadians, they had the freedom of the place. One thing, which impressed Mr. Deyell was the deportment and good manners of the children of Eustis. They would put our youngsters to shame, said he. Half the population of Eustis is black, and they are kept down. The people were most liberal in giving away roses and in gratuitously giving the use of their autos. Mr. and Mrs. Deyell are being warmly welcomed home by their many friends.

WEDDING BELLS

On Wednesday a quiet but pretty wedding was solemnized at the home of the bride's parents, Mr. and Mrs. Wm. Kean, Gamebridge, when their daughter, Jean Robinson, became the bride of Mr. D. W. Walls of Beaverton. Rev. T. A. Symington officiated. The bride was given away by her father. Mr. and Mrs. Walls left on the evening train for Toronto, Montreal and other eastern points. The bride travelling in a smartly-tailored suit of sponge, with hat to match.

WEDDING BELLS

A tribe of Indians, lost for 187 years, found near Montreal.—Morning paper. Some wilderness!

Dr. Morse's Indian Root Pills

are not a new and untried remedy—our grandfathers used them. Half a century ago, before Confederation, they were on sale in nearly every drug or general store in the Canada of that day, and were the recognized cure in thousands of homes for Constipation, Indigestion, Biliousness, Rheumatism and Kidney and Liver Troubles. Today they are just as effective, just as reliable as ever, and nothing better has yet been devised to

LEGAL LIMITS TO MUNICIPAL DEBTS

An Important Feature of High Class Securities

It is a remarkable fact, but none the less true, that a very large proportion of the investors in the securities of Canadian municipalities are ignorant of some of the most fundamental principles concerning that form of investment. Ordinarily speaking, there is no reason why the investor should concern himself with the questions as to the legal limit of a municipality's borrowing, and how close the municipality has approached to that limit. The bond dealer can generally be depended upon to see to it that the municipality does not approach too closely to the legal limit. The investor has learned to regard the municipal offerings of Canadian and Ontario cities particularly as absolutely above suspicion, and for that reason is unconcerned as to the complicated questions of municipal finance.

As a matter of fact, the writer believes that there are only two municipalities in Ontario that have ever defaulted on interest payments, and both of these, of course, paid up later. However, it is a matter of fact that United States municipalities have repeatedly defaulted, and the reason no doubt has been that the apathy of investors has permitted the municipalities in question to exceed the limit of borrowing set by principles of sound finance. The legal limit that is placed upon the borrowing powers of a municipality is intended solely for the protection of the investor, and if the investor ignores this limit in considering the relative issues of various municipalities, he is to blame if the municipalities indulge in overborrowing.

It is not to be suggested that Canadian cities will ever indulge in a riot of reckless borrowing such as has characterized the United States at various times. However, it is in the best interests of all that the investor acquaint himself with the facts of the case. For that reason it is worth while stating the limits that have been set in the various provinces.

TWENTY MILLS IN ONTARIO

The borrowing rate in Ontario is fixed by reference to the annual rate which a municipality is allowed to raise for the purpose of paying all debts and obligations, whether for principal and interest on debts or for the general expenses of running the municipality for the current year. The Municipal Act further provides that the municipality shall in each year assess and levy on the whole rateable property within the municipality a sum sufficient to pay all debts of the corporation, whether of principal or interest, falling due within the year, but shall not assess and levy in any year more than two cents in the dollar on the assessed value of such property according to the last revised assessment roll, exclusive of rates for school purposes, and rates levied to pay for local improvement debts, charged against property benefitted by such latter works.

The effect of the above provision is that a municipality is restricted to imposing a rate of not more than two cents on the dollar on all the rateable property within its limits. The amount so raised is applied in paying the general running expenses for the year, and in paying interest on its debenture debt, and any instalment of principal which may fall due, or providing the annual amount required to be paid into a sinking fund required to require its straight term debentures, and if cannot incur a debt if the annual levy to pay the interest and instalment of sinking fund in respect of such debts will increase the rate beyond two cents on the dollar. In estimating the annual levy the amounts required to pay local improvement debts secured by rates on property benefitted and debts incurred for school purposes are excluded. It is consid-

BANK BALANCES ARE UNCLAIMED

Amounts To the Credit of Lindsay Depositors

The report on unclaimed balances and unpaid drafts and bills of exchange of the Dominion of Canada for five years, and upwards prior to Dec. 31, 1912 as compiled by the Department of Finance of the Government is to hand. The following unclaimed balances have been standing in the Bank of Montreal to parties whose last known address was Lindsay: Hannah & Co., W. and Co., \$11.14; Mutual Life Association, \$6.95; Jones, W. & H., \$116.75; Hunter, R., \$48.90; Brown, S. H., \$13.05; Haines, B. S., \$30.12; Roche, James or Johanna, \$5.71; O'Neill Mrs. Mary, in trust, \$6.81; Burke, B., \$457.88; Clark, Francis, \$8.30; Henderson, R., \$47.60.

NEW RESORTS ON STURGEON LAKE

Snug Harbor on Drummond's Bay in Sturgeon Lake between Lindsay and Sturgeon Point has been surveyed into a large number of lots for a summer resort. The owner, Mr. Francis Brien, who is well known to many Lindsay people, who always admire his large farm in passing up and down on the steamer, has cut about fifteen hundred feet of the shoreline of the prettiest part of the bay into some twenty-six lots. It is understood a number of Lindsay people including Mr. T. J. Tilly have already purchased lots there.

Another new summer resort is Esturion Park, the property of Messrs. W. T. C. Boyd and his brother, M. M. Boyd, of Bobcaygeon. The property is close to Bobcaygeon and the C.P.R. passes right by the rear-most lots. The new resort is a very pretty one and should prove popular especially to those who could travel back and forth on the train. One feature out of the ordinary is that all the streets are called "parks." There is Lake Shore Park on the front and Balm Park, Cedar Park, Oak Park, Juniper Park, and Pine Park, leading away from the water.

"Greenhurst" the summer colony owned by T. W. Thurston, boasts of Hazel-st. on the water and eight side streets with four lots between streets. Wharf accommodation is also provided for.

"Thurstonia" is owned by H. J. Thurston. This well known resort is at "Treaty Rock" where Champlain covenanted with the Indians. Amest, fronts the water and six other streets are surveyed inland.

BRECHIN HOTEL FIRE CENSURE

Jury Finds Necessary Precautions Were Taken

Beaverton, March 25.—The adjourned inquest by Coroner Grant of Beaverton into the cause of the fire at the Brechin Hotel and the death of Mary McCauley, Dennis McCauley, John McCauley, and Jane Callahan, on the 17th of March, took place today at Brechin, J. E. Farewell, K. C., County Crown Attorney, being present, and after a full and searching investigation regarding the whole matter, the jury brought in the following verdict: "We the jury find that Mary McCauley, John McCauley, Dennis McCauley, and Jane Callahan came to their deaths on Tuesday, the 17th day of March, 1914, in the Brechin Hotel, by suffocation, and being burned to death. We find the cause of the fire is unknown. We further find that all necessary precautions were taken by Thomas McCauley in regard to the safety of guests and the travelling public at the said Brechin Hotel, and from the evidence produced no censure or blame can be attached to any person." Thomas McCauley is still in a serious condition from burns and shock, and was not able to attend the investigation.

MILITIA OFFICER ASKED TO DRILL ORANGEMEN

Barrie, March 27.—An incident illustrating the interest some of the country Orange lodges are taking in the Ulster affair occurred in the north end of Simcoe county recently. One of the smaller country lodges made a proposal to an officer of the 25th Regiment that he should come out and train the Orangemen of that lodge so many nights a week, offering to pay him whatever price he asked for the work. The officer, however, promptly declined to do so in a matter of this kind.

SATURDAY MARKET

Most things were bought up at an early hour this morning at the market. Prices were butter 30c., eggs 20-22c., cream 30c. With the approach of spring and roads not so good, the attendance of products is gradually dropping off from the large number that have been there many Saturdays during the winter.

DIED

REA—On March 26th, 1914, at her late residence, 29 Montrose avenue, Annie Alice, beloved wife of Wellington Rea.

CHAIRS

...for any room in the house...

for people with all sorts of chair-whims.

Priced to sell to people who would "wait awhile" if the prices were not extremely low. Come in and have a look.
