OVER CROWDING IN POST OFFICE

The Post is in receipt of the following communication, from one of the town's leading citizens. It contains an excellent suggestion which is deserving of the serious consideration of the Post Office authorities. The Editor of The Post. Dear Sir: Will you permit a suggestion looking towards relief from overcrowding in our local Post Office, and the additional comfort and convenience of the citizens? In many towns the office is open to

box-holders from 6.30 a.m. to 9.30 a.m. or 10 p.m. This entails no extra work upon the employees, except, possibly the caretaker, and has the following advantages: 1-Boxholders leaving town by 7.15 train East, 7.40 C.P.R., or 8 Fire for Toronto could get the mail out before leaving town and workers could get their mail on the way to the city's duties. 2-Citizens of the town who have to attend meetings in the evening usually lasting to 9.30 could still procure the evening mail before 10 o'clock. 3-The many advantages accorded box-holders would be so evident that a great many more would secure a box and the crush at the window would be greatly lessened. 4-The knowledge that the mail could be had earlier in the morning and later at night would do much to lessen the disgusting crush which renders present conditions so objectionable than any change the Post Office can make in the available space of the present building. Trusting that a trial will be given this plan, which has worked so well in the neighbouring towns. I am, Yours Truly A BOX HOLDER.

YOUNG HOODLUMS ON WILLIAM ST. Last evening, a number of young hoodlums, ranging from 14 to 18 years of age made themselves most obnoxious to the proprietor and staff of the Chinese Laundry on William-st. They gathered in front of the premises, and threw fire crackers in the door, and among the laundered parcels on the sidewalk being satisfied with this proceeding the Celestials, they next proceeded to plaster the front with mud. It is a great pity that the young hoodlums were not arrested and an example made of them. Chinese residents are a reasonable abiding element of our population and are deserving of better treatment. A fire might easily have started in the parcels on the sidewalk through the recklessness of the young vandals.
