LINDSAY, FRIDAY, MAY, 24, 1912.

SOME HAVE GONE HUNGRY

If all the Conservatives who have recently secured jobs or contracts, or become members of companies bidding for government work, could be got together at once the company would be very numerous. But a still greater number of Conservatives who were promised rewards of one sort or another have not received them. And these are the lads who are beginning to make the lives of Conservative candidates and bosses miserable. News that an election is coming has reminded the hungry of their emptiness and the favors that have gone to others.

BONAR LAW'S NONSENSE

Mr. Bonar Law, leader of the Unionist party in Great Britain, gives expression to the idea that the Asquith government, in the reciprocity matter "went out of its way to try to make Canada an adjunct to the United States." Why, we wonder? Why should a British Government want to make Canada an adjunct to the United States? This is one of these conundrums which must be puzzling to plain people. Mr. Bonar Law does not answer it, so far as the cable despatches indicate. He simply hits the Asquith government with his good, solid kick and subsidies, leaving many of us in a state of unsatisfied curiosity.—Ottawa Journal, Ind. Con.

Mr. Bonar Law, of course, does not believe in any such nonsense. That is merely his idea of playing politics. It does not indicate greatness, or even good judgment as to the intelligence of the public.

ert every possible effort to place the Toronto Hydro-Electric system upon a sound basis and under expert economical management.

The Peterboro Examiner in commenting upon the situation remarks: "The fears of the News are justified. The conditions developed justify the Examiner's differentiation of public ownership and public operation—where it is municipal—of public utilities. In spite of every precaution—as experience has proved—municipal operation is bound to be a failure. If Toronto's Hydro-Electric system had been placed earlier in the hands of an independent commission, relieved of the bedevilling influences of municipal politics, there would be an assurance of efficient management, and efficient service at a cost regulated by the application of business principles. We have proved this in Peterboro with our municipally owned water works. From the beginning they have been managed by a commission entirely free from municipal control. The result has been success—a marked success, which the most reckless will not say would have been possible under municipal management. It is unfortunate that public ownership and moral control of public utilities should be discredited by the inevitably bad results that come from the civic or municipal administration. Public ownership is solely justified by results—efficiency of service and economical management. These it is admitted, cannot come from municipal or civic management, bound to be complicated by the intrusion of ward politics, with their elaborate implication of evil consequences."

TWO YEARS SUFFERING

Brought on by a Severe Strain—How a Cure Was Found.

Mr. Joseph Stevens, Rosemount, Ont., is one of the great hosts who continually sound the praise of Dr. Williams' Pink Pills and he has much reason to do so as they brought him from suffering to health, after he had spent much money and two years of time experimenting with other treatments. Mr. Stevens tells his experience as follows: "In the month of January, 1908, while working in a logging camp at Creston, B. C., I got my back badly injured. I suffered a great deal of pain and was almost helpless. I tried plasters thinking they would help me, but they were of no use. I took several medicines, equally without benefit. Then I was advised to try electrical treatment and did so for a time, but without getting any permanent relief, and it began to look as though I was going to be permanently crippled. Then I was advised to undergo treatment with a specialist at Spokane, Wash. After examining me he said that I was in a very bad shape and that the trouble was likely to result in Bright's disease. However, he told me that he felt sure he could cure me. At a heavy expense I was under his treatment for three months, but I did not get the least benefit. I was almost in despair; work was plentiful and wages good, but I could not work as I was quite unable to bend. I was in this condition for about two years, when my brother, who was with me all the time, care across one of Dr. Williams' pamphlets and read of the great work Dr. Williams' Pink Pills were doing. He urged me to try them, but I thought it would be useless to spend more money after all the other treatment had failed. He insisted, however, and got a dozen boxes of the pills and I began to take them. Before I had used a half dozen boxes, I felt relief and I continued taking the Pills until every vestige of the pain was gone, and I could raise my hands above my head and then bend until I could touch my toes with my fingers, something I had not been able to do for over two years. My cure was a great surprise to my comrades, and you may be sure I told them what brought it about. I am now as well and strong as any man in the country and I owe it all to Dr. Williams' Pink Pills."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

EDITORIAL NOTES

Who said that Liberalism was dead in Quebec.

All eyes are on Saskatchewan. We must increase the majority there.

An increase of seven seats for the Liberals in Quebec. That's Guo-in some.

The Conservative-Nationalists alliance fared badly in Quebec province Wednesday. The electors have got their eyes open.

Premier Borden visited Toronto this week. He apparently had a pro-

monition that there would be an avalanche in Quebec province on Wednesday.

JUDGE MABEE'S SUCCESSOR

In discussing a successor to Judge Mabee, the country is hoping that the man who may be selected, will be one wholly free from corporation influences. Judge Mabee firmly believed in a square deal for the public. When the railroads and other corporations learned how firm and how just he was, they abandoned attempts to inflict upon the people injustice, which might have perpetrated had the chairman of the Railway Commission been a weaker man. It will require a man of exceptional character to measure up to the standard set by the late, and widely mourned, chairman.

WINDJAMMING POLITICIANS

President Taft in a speech at Toledo on Friday, said he was tired of being lied about by Mr. Roosevelt. In the old days in most countries and in France today this sort of thing would be followed by a challenge to fight a duel. In the United States it is likely to be followed by some more aggravating statement from Mr. Roosevelt. Fighting with pistols was never good, but in its day and place it may have had compensations. It may have tended to check fighting with mud. The American people should put the two bellicose politicians in a ring where they could pummel each other until their unbridled tongues ceased wagging.

TURNING OUT WAR SUPPLIES

According to despatches from London received by newspapers on this side of the Atlantic, British factories are working overtime to produce reserves of war supplies and great stores of coal are being secured by the Admiralty. Everything is being done, it is further alleged that would be thought necessary if a war loomed ahead. There should be a chance in Great Britain to-day for a big slow speaking sure moving statesman like Salisbury whom his countrymen could trust and in whose good faith and strength other people would give confidence. The talkers seem to be drifting into trouble. Forearmed is forewarned and Britain is determined to be ever ready to repel an attack any nation might make upon her. There is no likelihood of the "tight little island" being drawn into war at present.

JAPANESE NAVAL ACTIVITY

The Japanese cruiser battleship Kongo has been launched at Barrow-in-Furness and is described as the heaviest craft of its class afloat. It is to be one of a fleet of four, has a

displacement of 27,000 tons and will carry eight 14-inch guns. A 12 1/2 inch gun is counted a heavy and deadly weapon, but in power will be far behind these Japanese monsters. It is not known what power Japan is preparing to meet, but the preparations are likely to be complete when the time comes.

The little Jap is becoming a powerful factor in the east and the naval activity displayed does not augur well for the future peace of the world.

FROM OUR EXCHANGES

A SHREWD GUESS

Brantford Expositor.—

We now know why Mr. Bourassa went off to Europe. He knew what was coming.

A WORD TO JUDGES

Ottawa Citizen.—

If the sacredness of human life is to be maintained, judges will have to deal with homicides in a rather more business like manner or Canadian law will soon cease to have any terror for prisoners of the stamp referred to.

THINGS HOPED FOR

London Weekly Star.—

There is no probability that the democrats, if successful in the election, will include in their programme removal of the tariff on farm products, which the Canadian conservatives have been promising as a better expedient of tariff reform than reciprocity.

SIR JAMES' HELPERS

Manitoba Free Press.—

The prime minister and the minister of education of Manitoba assert that the treating custom is a good thing as it exercises and encourages man's social instincts. It is to be hoped in the interests of Mr. Rowell, these gentlemen can be induced to take the stump for Sir James Whitney in the next Ontario election.

THE AID OF CHINA

Waterbury Times.—

Six powers, Great Britain, the United States, France, Germany, Russia, and Japan, have reached an agreement by which \$50,000,000 will be advanced to meet the present financial necessities of the Chinese Republic. It is believed that the application of a portion of this loan to the payment of the soldiers will remove the most serious menace to the new government.

POWER FROM COAL WITHOUT MINING

Some further particulars are given by the Literary Digest regarding Sir Wm. Ramsay's scheme for obtaining power from coal without the preliminary labor of mining. The plan is to put down a bore-hole until a coal seam is reached; to set the coal on fire by electricity, and to blow air down so as to enable the coal to burn. The gas produced by burning would be brought up from the depths by pipes, transformed into electrical energy at centred stations, and then distributed by wire over a wide area. In speaking of his proposal, Sir Wm. Ramsay says he has himself seen electrical energy carried over a distance of 80 miles in Indiana, and it is carried 200 miles in California. It is, indeed, being carried further than this in Ontario under the Hydro-Electric system.

The only difficulty in the way of putting Ramsay's scheme into effect lies in the possibility of carrying out the preliminary operation of reaching the coal seams by pipes, burning the coal and transforming it into gas while still in the bowels of the earth. If this can be done there seems no reason to doubt the truth of further statement that with this system adopted, all railways will be driven by electricity, that the same agency will be used for lighting and heating, and that the only case in which fuel will be required will be for the driving of ships, and this fuel can be provided in the form of oil.

ADJOURNED INQUEST AT PETERBORO

Peterboro May 19—The coroner's inquiry into the death of James Peters assistant fishery inspector, on May 3, was adjourned. The evidence showed that Peters met death by the upsetting of a canoe, in which was also Robert Thirbeck. The latter, when rescued, was standing waist deep in the water, and the rescuers swore he had been drinking. Doctors who performed the post-mortem reported that Peters died from drowning, and that there were no marks of violence on the body. The inquest adjourned, pending an analysis of Peters' stomach.

Mr. F. D. Kerr, of Peterboro, is in town today attending the High Court of Justice.

OBITUARY

MRS. JOHN BEATON

In the House of Refuge, Friday May 17th., Mrs. John Beaton, aged 70 years. The late Mrs. Beaton was a former resident of Mariposa Township and a Protestant in religion. She is survived by her husband who is at present in the House of Refuge and also two sons, of Toronto. They were present at the funeral which took place Saturday evening at 4 o'clock to the Riverside cemetery.

ETHEL M. RUTTAN

The sad death took place in Lindsay, on Sunday, of Ethel Maud, the beloved daughter of David Ruttan, at the early age of 22 years, after only seven weeks' illness.

The deceased young lady had been engaged in office work at Peterboro, but was obliged to return to her home, owing to illness. She was a great favorite among her associates, and friends, who will greatly deplore her death.

The late Miss Ruttan is survived by her parents, three brothers, and two sisters. They are David, Fred and Gordon; Miss Lake, of Peterborough and Lillie at home.

The funeral will take place on Tuesday from the family residence, corner Elgin-st. and Victoria Ave., at 10.15 o'clock and proceed to the G.T.R. station to the 10.45 train. Interment will take place at Peterboro.

NELSON GOHEEN

Lindsay lost on of its earliest settlers on Sunday, when death claimed the late Nelson Goheen, who passed to his reward at the ripe age of 80 years, 5 months and 11 days.

The deceased was born in Ireland, and with his parents came to this country when he was a child. The family settled for a time at Port Hope, but afterwards moved to this district.

The deceased has been a resident of Lindsay for seventy years, residing in the East Ward all that time. Often has he narrated interesting incidents of the early history of Lindsay when many an early settler like himself worked heroically to hew out for themselves a home in Canada's virgin forest.

The late Mr. Goheen is survived by his wife and four children: James, John and William Goheen and Mrs. Joseph Lytle, of Lindsay. Besides, he has a number of brothers and sisters living. He was the eldest of a family of sixteen and was an Anglican in religion.

The funeral will take place from the family residence, 4, St. Patrick-st., on Tuesday, May 21st., at 2.30 p.m. to Riverside cemetery.

PETERBORO CHEESE BOARD MEETING

Review.—At the meeting of the Peterboro Cheese Board Wednesday morning in the Bank of Montreal, Chambers there were only 914 cheese boarded. Mr. G. A. Gillespie bought the whole offering at 13 1/2 cents per pound.

The business of the adjourned annual meeting was also dealt with. The election of officers took place resulting in the re-instating of all last year's officers, including the President, Mr. W. G. Switzer, who requested to be relieved of his duties.

On motion of Messrs. Cook and Morton, it was decided to allow the buyers as well as the sellers to become members of the Board on payment of the annual dues. It was also decided to hold meetings every two weeks during the summer months of July and August as usual, and to take no action in the matter of holding weekly meetings during those months.

Mr. and Mrs. T. Bellairs, of Haliburton, were in town today on business.

Dr. de Van's Female Pills
A reliable 1-inch regulator; never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse all cheap imitations. Dr. de Van's are sold at \$5 a box, or three for \$10. Mailed to any address. The Sobieski Drug Co., St. Catharines, Ont.
Sole agents at Haliburton:—

For all kinds of Granite and Marble Monuments. Get prices and see designs.

R. CHAMBERS, Prop.

APPOINTED SUPT. OF PUBLIC WORKS

Mr. Nicholas Brady received word this morning that his brother, Mr. Patrick Brady, a prominent citizen of Sault Ste. Marie, Mich., had been appointed Supt. of Public Works. Mr. Brady held this position for many years, but owing to politics he was laid off last year. The city fathers were so well pleased with his work, that he was re-appointed to the position.

Mr. Brady has filled many positions of prominence at the American Soc. He was customs officer for a great many years, and has also served the city on the Aldermanic Board. He left Lindsay about 34 years ago, but is still remembered by many of our citizens, who will be pleased to hear of his success.
