HALIBURTON

(Special to The Post.)
Bolender Bros. are shipping steadily poultry, geese, etc., in all sizes, also finer grade cement for making window sills, etc. They also have the powder or dust, which can be made into a cleaner for silverware, etc. This will eventually develop into an important industry, and Bolender Bros. are to be congratulated on their success. This material has lain in mountains here for half a century, and no one ever thought it worth while to make use of it. There is an unlimited quantity around Haliburton, and good indications of other materials that only want the man that knows how to come and locate and develop.
We had a flying visit from the Post representatives of Lindsay this week in their auto. We are pleased to see Lindsay and other people here and no doubt it will bind the friendships the more we see of those people.
