Farm Drugs

There is p actically nothing in the way of farm drugs and stock preparations we cannot supply. Our stock has to be complete, because we are favored with an extremely large farm trade which we bave won by keeping what is asked for, by courteous, appreciative service, and by fair prices.

We invite our county friends to make our store headquarters whenever in town. Leave packages, meet friends, make us useful.

LINDSAY, FRIDAY, JUNE 5, 1908

TORIES PRACTICALLY CONCEDE WEST VICTORIA TO STEWART

The Toronto News, which has been uncompromisingly Conservative durin; the campaign practically concedes the election of Mr. Stewart. It has made a careful investigation into the chances of the various candidates throughout the province, and al- haps not marked as such, the truth though its predictions have manifeste is leaking out respecting the dissenly a strong bias towards the Whitney sions in the cabinet. It has been government, it confesses tiself unable charged that there are members of to even imagine that Mr. Fox has a the government who have hampered chance of re-election. In its predic- and handscapped the minister tions as to eleven probably Liberal power in every way. These conscat gains it unhesitatingly places this ed originally to something being givridias. In another column the News en to Mr. Beck, for his amusement.

"Victoria, West - May be Liberal gain with Thomas Stewart defeating S. J. Fox, the sitting member, whose ma ority was 138."

This is, of bourse, no news to the Lineral party in this riding, but the action of the News in thus counting West Victoria as a probable Liberal gain shows how the leaders of the Conservatives view the situation here and it should prove a great encouragement to all of Mr. Stewart's fricuas. Renewed energy and untiring work should continue to be the order of the day to the end that the major ity for Mr. Stewart may be a la and desistre one.

THE ELECTION OUTLOOK

A careful study of the situation throughout the length and breadth of the riding, of West Victoria leads | conservative candidate in London, Lit the day's polling.

indications of a movement towards the Liberal candidate and evidences are everywhere cropping up of dissatisfaction with the do-nothing poi icy of Mr. Fox. Mr. Stewart's weil known ability his public spiritedness his high character and his eminent fitness in every respect to represent so important a riding as West Victoria, have gained for him, many friend, during the campaign now drawing to a close. Indeed so many have been the accessions to his stand ard of former supporters of his agponent, that a handsome majority is k-oxed for by his committee.

W-st Victoria is being watched from far and near in this fight and opinion is rapidly crystallizing in the chivi centres of the province that this riding will certainly return Mr Stewart. Even such strong supporters of Mr. Whitney as the Toronto World, and the Toronto News concede Mr. Stewart's probable elsetion, and when they go that fac it may safely be set down as a certain thing that the Conservative leaders in Toronto are looking forward to Mr. Fox's defeat, just as we at home 1.(く・・・・・・・・・・ 物経医

But it behooves every friend or supporter of Mr. Stewart not to re-Jax it the slightest degree the efforts that are now being put forth in his beharf, but to keep at it and keep at it until every vote is polled.

An! then we can cheer.

IT MISSES THE POINT

Whether wilfully or otherwise our Tory contemporary misses the point under discussion when it tries to excuse the action of the chairman of

Curtain was a Dominion government that it will be assured. empioyee, therefore Mr. Ross was justified in advising him to keep out, of politics, and that the present chairman of the board is in mercantile life, ergo, he may do as he likes.

But the real point under considera tion by the electors in this campaign is the fact that Mr. Whitney promised to take the administration of the license department entirely out of politics, and declared that any license officia! interfering in politsc would be summarily dismissed. And forthwith proceeded to carry out his promise to the extent of dismissing every Grit license inspector and every Grit commissioner.

Now we see a wonderful change in the scene. On the same platform with Mr. Whitney himself sat the present chaiman of the board of license commissioners from the same platform as Col. Matheson spoke the chairman of the board of license commissioners and night after night we read in the columns of the Warder eloquent speeches delivered by the chairman of the board of license commissioners, and he has not resigned, neither has he been dismissed. The point is that Mr. Whitney has not kept his promises.

WHITNEY CABINET CABALS.

Through the indiscretion of Mr. Beck, in publishing a letter which was meant to be private, though perand he put into the power scheme more energy than they desired.

Dr. Beattie Nesbitt' exploded :he first bomb which charged that "John ny Rockefeller's Boy" was plugging the power scheme. The Telegram and The World have not hesitated to say that the solution of the power scherae was the election of a sufficient number of members of the legislature were in its favor. Weat has been going on behind the scenes cannot be known, but it may be imagined from the revelation which Dr. Mearns, of Woodstock, has made. He is a liberal, was a candidate in the recent North Oxford convention, and is power man before a politican. He had occasion to write Mr. Beck accut the Woodstock contract, and to express at the same time the hope that Mr. Beck would be elected.

The act was injudicious. Dr. Meiro as a liberal, was ot endorsing the to a confident belief that the elec- hoping for his success personally, and tion of Mr. Thomas Stewart on Mod- in 'iew of what Mr. Beck had telihim day next is one of the certainties of The information was that Mr. Beck had had a great burden of anxiety In every polling division there are for months, that though the go: ernment was alleged to be behind him, he was so worried he really did not know where he was, and dail; expecied the scheme "to go up in the air" Hence the desperation with which Mr. Beck and his commission worked. Hence the desire to get as many municipalities under contract as possible. Hence the letter to Dr. Mearns about Woodstock's power, and the compliment about Mr. Beck's election, as defeat with Dr. Maurne meant the end of the power ques-

> M . Beck did not anticipate this development of the case. He might have expected something to follow, however, when he gave out a letter which on its face would not be understood, and the explanation which tells, in the words of Mr. B-ck of cabinet cabals and cabinet di

EDITORIAL NOTES.

Five more days of honest wor then cheers for Mr. Stewart, West Victoria a probable Liberal

ga., so says the Toronto News. The surest things on parth are

death, taxes and Stewart's election. The Toronto News practically concedes West Victoria to Stewart Sure .!

Even the Tory Toronto World classes West Victoria as a probable Liberal gain. Very probable, indeed, Sam blake expresses his satisfaction Sheep's Night Cure. These soothings cipient fires; and it is now annually

While it is true that West Vic-

argues that because the late M: between now and hext Monday night

One would imagine from the remarks of Mr. Fox and the Warder that only Conservative Senators are hereafter to be allowed to take the stump on behalf of their party. Sir Mackenzie Bowell, the Conservative leader in the Senate, frequently apresrs at Conservative meetings, and only the other day he advocated the election of the Tory candidate in West Hastings. But when Senator McHugh sp: he on behalf of Mr. Stewart at Murphy's School House Saturday night the Warder and Mr. Fox held up their hands in holy horror. Such is Taryism.

Don'ts for Canoeists

In Rod and Gun are found the following hints for safe canoeing, by J. E. Klotz;

Don't stop on the deck of a carne Don't sit on the deck when padding

Don't sit in the middle when pagdling alone, unless an expert. Don't put youn togs in the stain

the canoe may leak. . 1 Don't let the upper hand grasp a 1y. thing but the top of the padile. Don't waik into the cance upright but 'sneak" in, bent foward, grisping the gunwhales as you move forward

Don't run your canoe high and cry on a stony, rocky shore and then walk out of it.

Don't kneel and attempt to paddic without partly sitting on a thwitt. Don't when alone, use the back thwart without a weight in the to. Don't turn your whole body to look behind, simply "rubberneck." Learn to paddle with one knee, the

one a pole the side you are paidling on up off the bottom and foot for-Don't let a lady step into a canoe

without steadying it at the stern or gunwhac. Don't forget to turn the canon bot

tom ".ue up for the night. Don't let a canoe rest bottom side up on its ends. Don't leave it upside down where a guit of wind would turn it over

and possibly damage it. Don't leave it upside down in the sun without covering it. Don't sit on, it when it is curned

over and on the shore. Don't fidget if you run on a submerged log or rock. Don't drag it to shore. Lift it till The stern touches the shallow bor

Don't stand up in it where the wa:-

teen feet long. Don't paddle in white caps or choppy sea. Don't try to land in a river with

the Low pointing down stream. Ben't i'nd your cance so that the gunwhale is less than five or six is ches from the water. Fon't get your hands less than the

ty inches apart on the paddle, stnerwise ; ou will soon tire. Do.'t paddle and then back wat ::;

learn to "feather." L'on't get excited if you are upsit, SIEK to your paddle and canoe. Don't run rapids except with an experi in the stern. 1 . Don't try to sleep with a cano: turned over on level ground, prop

up in some way. Always step in the centre and gat out over th side of the end; in get ting out you may bark your shin. on the deck.

Do:'t portage till the canoe well balanced over your head. Keel your canoe under cover in saf : high and dry spot over winter

Don't change places on the water

WEDDING BELLS

CONNELL-MALLOY.

A very pretty wedding took place at Downeyville Wednesday morning when Mr. John Conneil,, son of the late Ecnnis Connell, was married to Miss Lizzie Malloy.

The bride looked very pretty in copenhagen silk. Miss Josie Hickey was bridesmaid and Mr. Thos. Crowley was best man. The groom's gift to the bride was a gold bracelet, to the bridesmaid a gold brooch, and to the groomsman a gold stick pin. After the ceremony the happy soupie went to the home of the brides motuer where about thirty guests were writing and sat down to a lainty dinner. The bride received, many presents, among which was \$10 in gold from Mr. Simon Connell, brother of the groom, and \$10 in gold from Mrs. Simon Connell. sis

ter of the bride. Mr. and Mrs. Connell left on the evening train from Omemce to spend a week travelling through Western Ontario. On their return they will re_ide at Downeyville.

centres, all with rich looking borders and locked Nottingham Curtains, Brussels Net Curtaius Swiss Tambour Curtains, Bobbinette Curtains, Muslin Curtains, Tapestry and Chenille Curtains

Canadian Forestry Association

Press Bulletin No.5--- Forest Fires and Rallway Construction

Railway construction has too often meart forest destruction. Immense are the benefits that the Canadian Pacific Railway for example has conferred on Canada, it is never theless true that during the construct tion of that railway millions of doilars worth of timber were dest:); et through fires originating along its right of way. And fear is now felt that the building of the Grand Trunk Facific-running as it loes in many districts, through dense forests of valuable timber-may give rise to

further destruction. The New Brunswick authorities, accordingly negotiated with the cutto. niesof the Domision with a view to the adoption of a system of efficient patrol along the lines for the pu: pose of detecting and putting out in-

and westward up to a compararely short distance from Winnipeg. But when the troops went through in 1870 on their way to Fort Garcy to put down the first Riel rebellion the country was badly burned; and in 1882 Sa while the railway was being constructed the work of destruction was finished. Even in 1884 it was possible to walk through unburnt forest for a distance of one hundred miles east of Lake Superior.

Through the Bocky mountains and west into British Columbia a similar work of destruction went on lutances of extensive destruction can be instanced around Cammore, B. C. and also on the sucres of backing Ellorge Lake, where green to esta safely. were converted by fires during railway constituction into barren wastes and these are by no means isolated

Of late years more attention has been paid to this problem. Mr. J. R. Booth, himself a lumberman of wide experience, in building the Cuiadian Atlantic, placed such restrict. tions on his contractors in regard to burning brush and setting fires generally that no fire of any consequence occurred during the construction of the railway; and this in spite the fact that the road ran through uable pineries of the Provinca. In Northern Ontario along the lines of ern Ontario railway which also runs in many places through valuable timber no serious fires have occurred,

Disagreament as to Duties of Committees---Board will not be Represented at Teachers Association

A serious disagreement as the duties of certain committees threatened at the Board of Education last night. It was Dr. White who stepped into the breach, so to speak and assisted by Mr. Flavelle and the others succeeded in pulling through

It was all about the report of th "visiting and reports committee" read by Mr. Staples, the chairman, the report omitting, in part, what the committee had done and thought necessary, and recommending that the management committee do certain things in regard to fixing up to: school buildings. Dr. White's idea was that Mr. Staples withdraw his report insofar as the infringed on the duties of the management committee what was then one of the most val- or that something similar be done to fix matters up satisfactorily. Tus was finally done. The management acre "experimental farm" to occumittee are still busy figuring on | north of the hospital, and \$25 their estimates but Mr. J. W. Ande. - be spent in advertising his ciass son promised to have them all ready next winter. The board agreed in for special meeting called for two give Mr. Reed what assistance the weeks from last night. New blackental railway have also adopted reg- | boatds, maps, and other equipments strictest confidence, any questions Forty years ago there was a solid ulations governing their employees have been found necessary and the

Mr. J. D. Flavelle occupied the at last night's meeting in the serce of Mr. Thomas Stewart I meeting was very late in strar or ing to the absence of several me bers but finally Mr. J. G. Edward came along and at 8.26 the means

began. Communications were read Mr. J. C. Harstone showing them? bersnip at the Collegiate Institute be 229, with an average for U month of May to be 191. The par lic school has a membership and an aveerage of S16-a pers

tage of 91. Mc. Harstone wrote the board in ing that the board be represent at the meeting of the Teacher? sociation in Guelph on Friday men ing rext. It looked however, is the board will not be officially repo sented, as no one could ap

spare the time. The new maps for which the of \$60 was granted have cost \$5 but they are thought to be

worth that amount. Mr. F. H. Reed, B.S.A., of the partment of Agricultire, appeared fore the board asking for funds wan'ed money to fence the
