

Roofing Right Costs No Less —But It Is Far Cheaper

SOME shingle roofs keep out the worst of the weather if you patch them up every summer. They ought to last at least ten years, if they're well cared for.

Some metal shingles are made of pretty good IRON. They make passably good roofs for maybe fifteen years—IF you paint them every year—two coats.

BUT—these "Oshawa" Special Galvanized STEEL Shingles of mine are GUARANTEED to make a REALLY good roof for twenty-five years (and that means a NEW roof for nothing if they leak a single drop in all that time).

AND—You needn't ever paint an "Oshawa"-shingled roof, the heavy galvanizing, the 28-gaugesheet steel, the four-way lock, makes paint needless. True these "Oshawa" shingles cost

about the same at the going as good cedar shingles or as ordinary metal shingles. (You notice nobody but me calls their shingles STEEL—metal is a handier word).

But my shingles are not only guaranteed for 25 years—in writing, with a new-roof-for-nothing penalty and \$250,000 back of my say—they are also guaranteed to be rain-proof, snow-proof, wind-proof, fire-proof and lightning-proof.

As a matter of cold fact, they are good for a century. How are you going to make weather-proof steel rust or rot?

Wouldn't it really pay you to send a postcard for a free book that tells the whole story in plain words? My shingles cover thousands of the finest barns and houses and public buildings all over Canada. Though the same 25-year guarantee goes with every roof, we've never been called on yet to make it good. Read the book, won't you?

"Oshawa" Galvanized Steel Shingles

A New Roof for Nothing if this one Leaks by 1933.

We will send postpaid and free samples of Pedlar Art Steel Ceilings and Side Walls, of which we make more than 2,000 designs.

How to Produce Pure Seeds

PRICES MAY BE HIGH

Shortage of Crop Likely to Produce that Effect—Clean Out Noxious Weeds

In view of the probable shortage in the supply of clover seed again this season prices are likely to rise pretty high. It will pay farmers who are fortunate enough to have good pieces of alsike and red clover to utilize them for the production of seed as far as possible.

In order to obtain the best prices it will be necessary to clean the crop in the field as far as possible of those forms of noxious weed life which will affect the purity of the seed. To do this at the least cost it is necessary to sow clean seed on a clean field, as hoe crop ground or bare fallow. It will not require much time then to clean out the weed life which may be present. Growth on the killed out places should be mowed with a scythe and thin fields if too weedy to spud or hand pull should be cut green for hay. Even very bad fields at not more than a cost of \$1 per acre could be dressed so that there would be little danger from weed contamination.

The weeds which should receive the closest attention are Ribgrass or Turk's-head which in red clover fields is best discovered a few days after mowing has gone over the field. A hoe or spade will easily destroy them. Cut red duck should be pulled and carried to the fence. Gatch-fly or sticky cockle should be pulled, as should any other weeds likely to become a bad impurity. If farmers would do this generally it would increase the value of their seed. Now is the time to get busy, in the alsike fields. Timothy should be topped in alsike. A new weed just appearing in this locality is bladder campion or bell weed. Look out for its first appearance. It is a bad one.

Stock Judging Competition

New Department to be Inaugurated at Lindsay Fall Fair.

A five stock judging competition a new department in connection with the Central Fair is to be inaugurated at this year's exhibition. General rules which are applicable apply to this department. Judging will include three sections with two classes in each. Beef and dairy cattle; sheep and swine; and horses. Twenty five cents entrance fee will be charged and entrance is limited to persons twenty five years and under. Twenty five minutes is all that will be allowed for judging and giving reasons on each class of animals. In placing the awards judges will allow seventy points for proper placing and twenty points for proper reasons.

It will be seen that the idea in holding such competitions is to get the young men interested and able to qualify as judges. For that reason alone it commends itself to every right thinking farmer. The idea was first suggested locally by Mr. F. H. Reed, B.S.A. while the contest next fall is expected to be very keen.

Clearing Up Carew's Mill Site

Scrap Iron and Charred Wood Gathered up—Engine Room Needs Repairs

A score of workmen are speedily changing the appearance of the burned mill of Mr. John Carew from a scene of perfect chaos to one of regularity, that is to say, regular piles of scrap iron and neat little piles of boards and timber. The old structure of the mill, or what was left of it, has been all pulled down and the charred timber cut up for wood. The machinery is being taken part and the good sorted from the bad. There seems to be very little good, however, and generally speaking, the whole outfit is a candidate for the scrap iron heap.

The tearing down process has not been accomplished without the usual slight accidents attendant upon such operations and one or two narrow escapes from falling bricks and other things are reported. It will be weeks yet before the debris is all cleared away. The engine room and a lot of repairing should the mill be rebuilt. The bricks have become loosened partly in consequence of the fire and partly through the workmen having to tear out a corner in order to remove some parts of the machinery.

Good Work for the Town

Deputy-Reeve Eyres Secures a Reduction in County Rate

Now that the smoke of battle has cleared away, it is well that we consider some of the good work done by the town's representatives at the recent meeting of the County Council. Mr. Jordan and Mr. Eyres put forth a strenuous effort to have justice done to the town in the matter of the income and business tax and did their best to have them eliminated so far as they applied to the county rate. Notwithstanding the stronger arguments, however, they utterly failed in their endeavor, not only in so far as it related to Mr. Eyres' resolution to memorialize the government to have these taxes abrogated as regards the whole county, but also to the town alone.

After the motion was voted down, it came out in discussion that in Ops there was not a dollar collected for either income or business assessment. Mr. Eyres saw the golden opportunity staring him in the face, and he made haste to seize it.

Mr. Eyres at once pointed out the gross injustice to Lindsay which was caused by such a condition of affairs, and he pointed out that here every diligence was exercised to see that assessments were fair and equitable. In Ops, to his personal knowledge, a building at Reaboro which was assessed at \$500 had recently changed hands at \$2,500, and that, too, without exacting any business tax. The business tax in that case would have been \$1,500. Cheese factories also and stores were allowed to go scot free. Mr. Eyres contended that the farmers were in justice entitled to pay a tax on goods they sell as the merchant to pay on what he bought. He cited a case where a farmer sold enough clover seed off ten acres to pay double the purchase price of the land. The other members finally saw the point, and thanks to Mr. Eyres' persistence, threw off \$100,000 in Lindsay's business tax.

Lost Three Fingers At The Falls

Victor Chambers Loses His Digits while Working with Saw

Victor Chambers son of Mr. Edward Chambers, of Fenelon Falls, met with a painful accident on Wednesday, as a result of which he will be badly maimed for the remainder of his life.

It seems that he was in the act of making a picture post card holder on a band saw and in some way came in contact with the saw, and had three fingers cut off and the tips of the others sliced off the remaining ones.

Dr. Wilson was called and the injured hand dressed. Chambers is employed at the Grand Trunk station under the superintendence of Mr. Sutherland, station agent.

Drowned at Dorset Lake on a Drive

Man Named Truscott Loses His Life on the old Gilmour Limits.

News reached The Post of a sad drowning accident which took place Saturday at Dorset Lake.

It seems that a man named Truscott was working on a Drive on Dorset Lake in the old Gilmour limits when he fell into the water and getting under the logs was drowned before anything could be done to extricate him.

Truscott lived at Bury's Green and was well known and generally liked and his death is much regretted. The unfortunate man's brother was in town last evening and was much grieved at the news which had been conveyed to him.

Boy Found Torpedo Had Narrow Escape

Wanted to Hear it Go Off and was Badly Burned

Victor McGlynn, a South ward boy, found a torpedo, the kind used by the Grand Trunk, and wishing to "hear it go off," at once set to work with a stone. It went off all right and in doing so dealt severe injury to the lad, the powder flying into his face with some suddenness burning it rather badly. He might have been killed, as railwaymen say, had he been directly over the explosive when it went off. He is recovering as well as can be expected.

Rub tincture with lemon peel to brighten them.

EAT ORANGES

IF YOU WANT TO KEEP WELL

Careful tests have proved beyond question that orange juice has clearly defined medicinal virtues. Those who suffer with indigestion—are compelled "to diet"—and that after eating oranges regularly, no palpitation. There is no distress, no palpitation. Where there was a tendency towards constipation, the eating of oranges regulated the bowels.

In skin troubles, those who began the morning meal with an orange were noticeably improved.

There is, however, a quicker way to get better results. This is to take one or two "Fruit-a-tives" tablets at bedtime in addition to the juice of an orange before breakfast the next morning. "Fruit-a-tives" are the juices of oranges, apples, figs and prunes, in which the medicinal action is many times intensified by the special way of combining them. Valuable tonics are then added.

Take the juice of an orange before breakfast—take "Fruit-a-tives" at night—and you will quickly be rid of Indigestion, Stomach Troubles, Constipation and Biliousness. "Fruit-a-tives" are sold by all dealers at 50c a box—6 for \$2.50. Sent on receipt of price by "Fruit-a-tives," Limited, Ottawa.

Joseph Wilson Passed Away

Was Caretaker of the Market for Twenty Years

Joseph Wilson, for twenty-three years caretaker of the market building, died at his home Cambridge-st., about eight o'clock last Thursday. Without doubt he was one of the best known men in Lindsay, while throughout the long term in which he served the town he held the esteem and respect of those with whom he came in contact. He was 60 years of age on the 12th of July last. Born in the township of Emily, he had always either lived in that vicinity or in Lindsay. It is twenty-six years since his family moved here. His father and mother, Mr. and Mrs. Samuel Wilson, both came from Ireland in 1822. The family included Matthew, W. H., of Lindsay, Samuel of San Francisco, Robert, of Rochester, Isaiah Wesley, of Sault Ste. Marie, and Mrs. Robert Wilson, of Peterboro.

The late Mr. Wilson married thirty-two years ago Miss Eliza Ann Reynolds, daughter of Mr. and Mrs. Robt Reynolds, of Lindsay. The family consists of Misses Annie and Ada at home, Wesley, of Winnipeg, and Robert at home.

The funeral took place on Friday at 3 o'clock to Riverside cemetery.

Death was due to the effect of a stroke of paralysis sustained last Friday evening. For the last two days he had been unconscious. He was formerly an Orangeman but of late years had severed his connection that order. He was a member of Cambridge-st. Methodist church.

Summer Camp at Peterborough

An Excellent Time Promised for Those Fortunate Enough to Go.

Arrangements are practically complete for the summer camp of the Peterboro, Port Hope and Lindsay Young Men's Christian Association. The camp will be held at Sandypoint situated about twenty miles north of Peterboro, on Clear Lake, which is a beautiful expanse of water, five miles in length by two miles wide, and is the beginning of the famous Kawartha Lakes. It has a beautiful sandy beach for swimming; good fields for baseball and other athletic games. Boating facilities are unexcelled and for the disciples of Isaac Walton, a rich treat is in store.

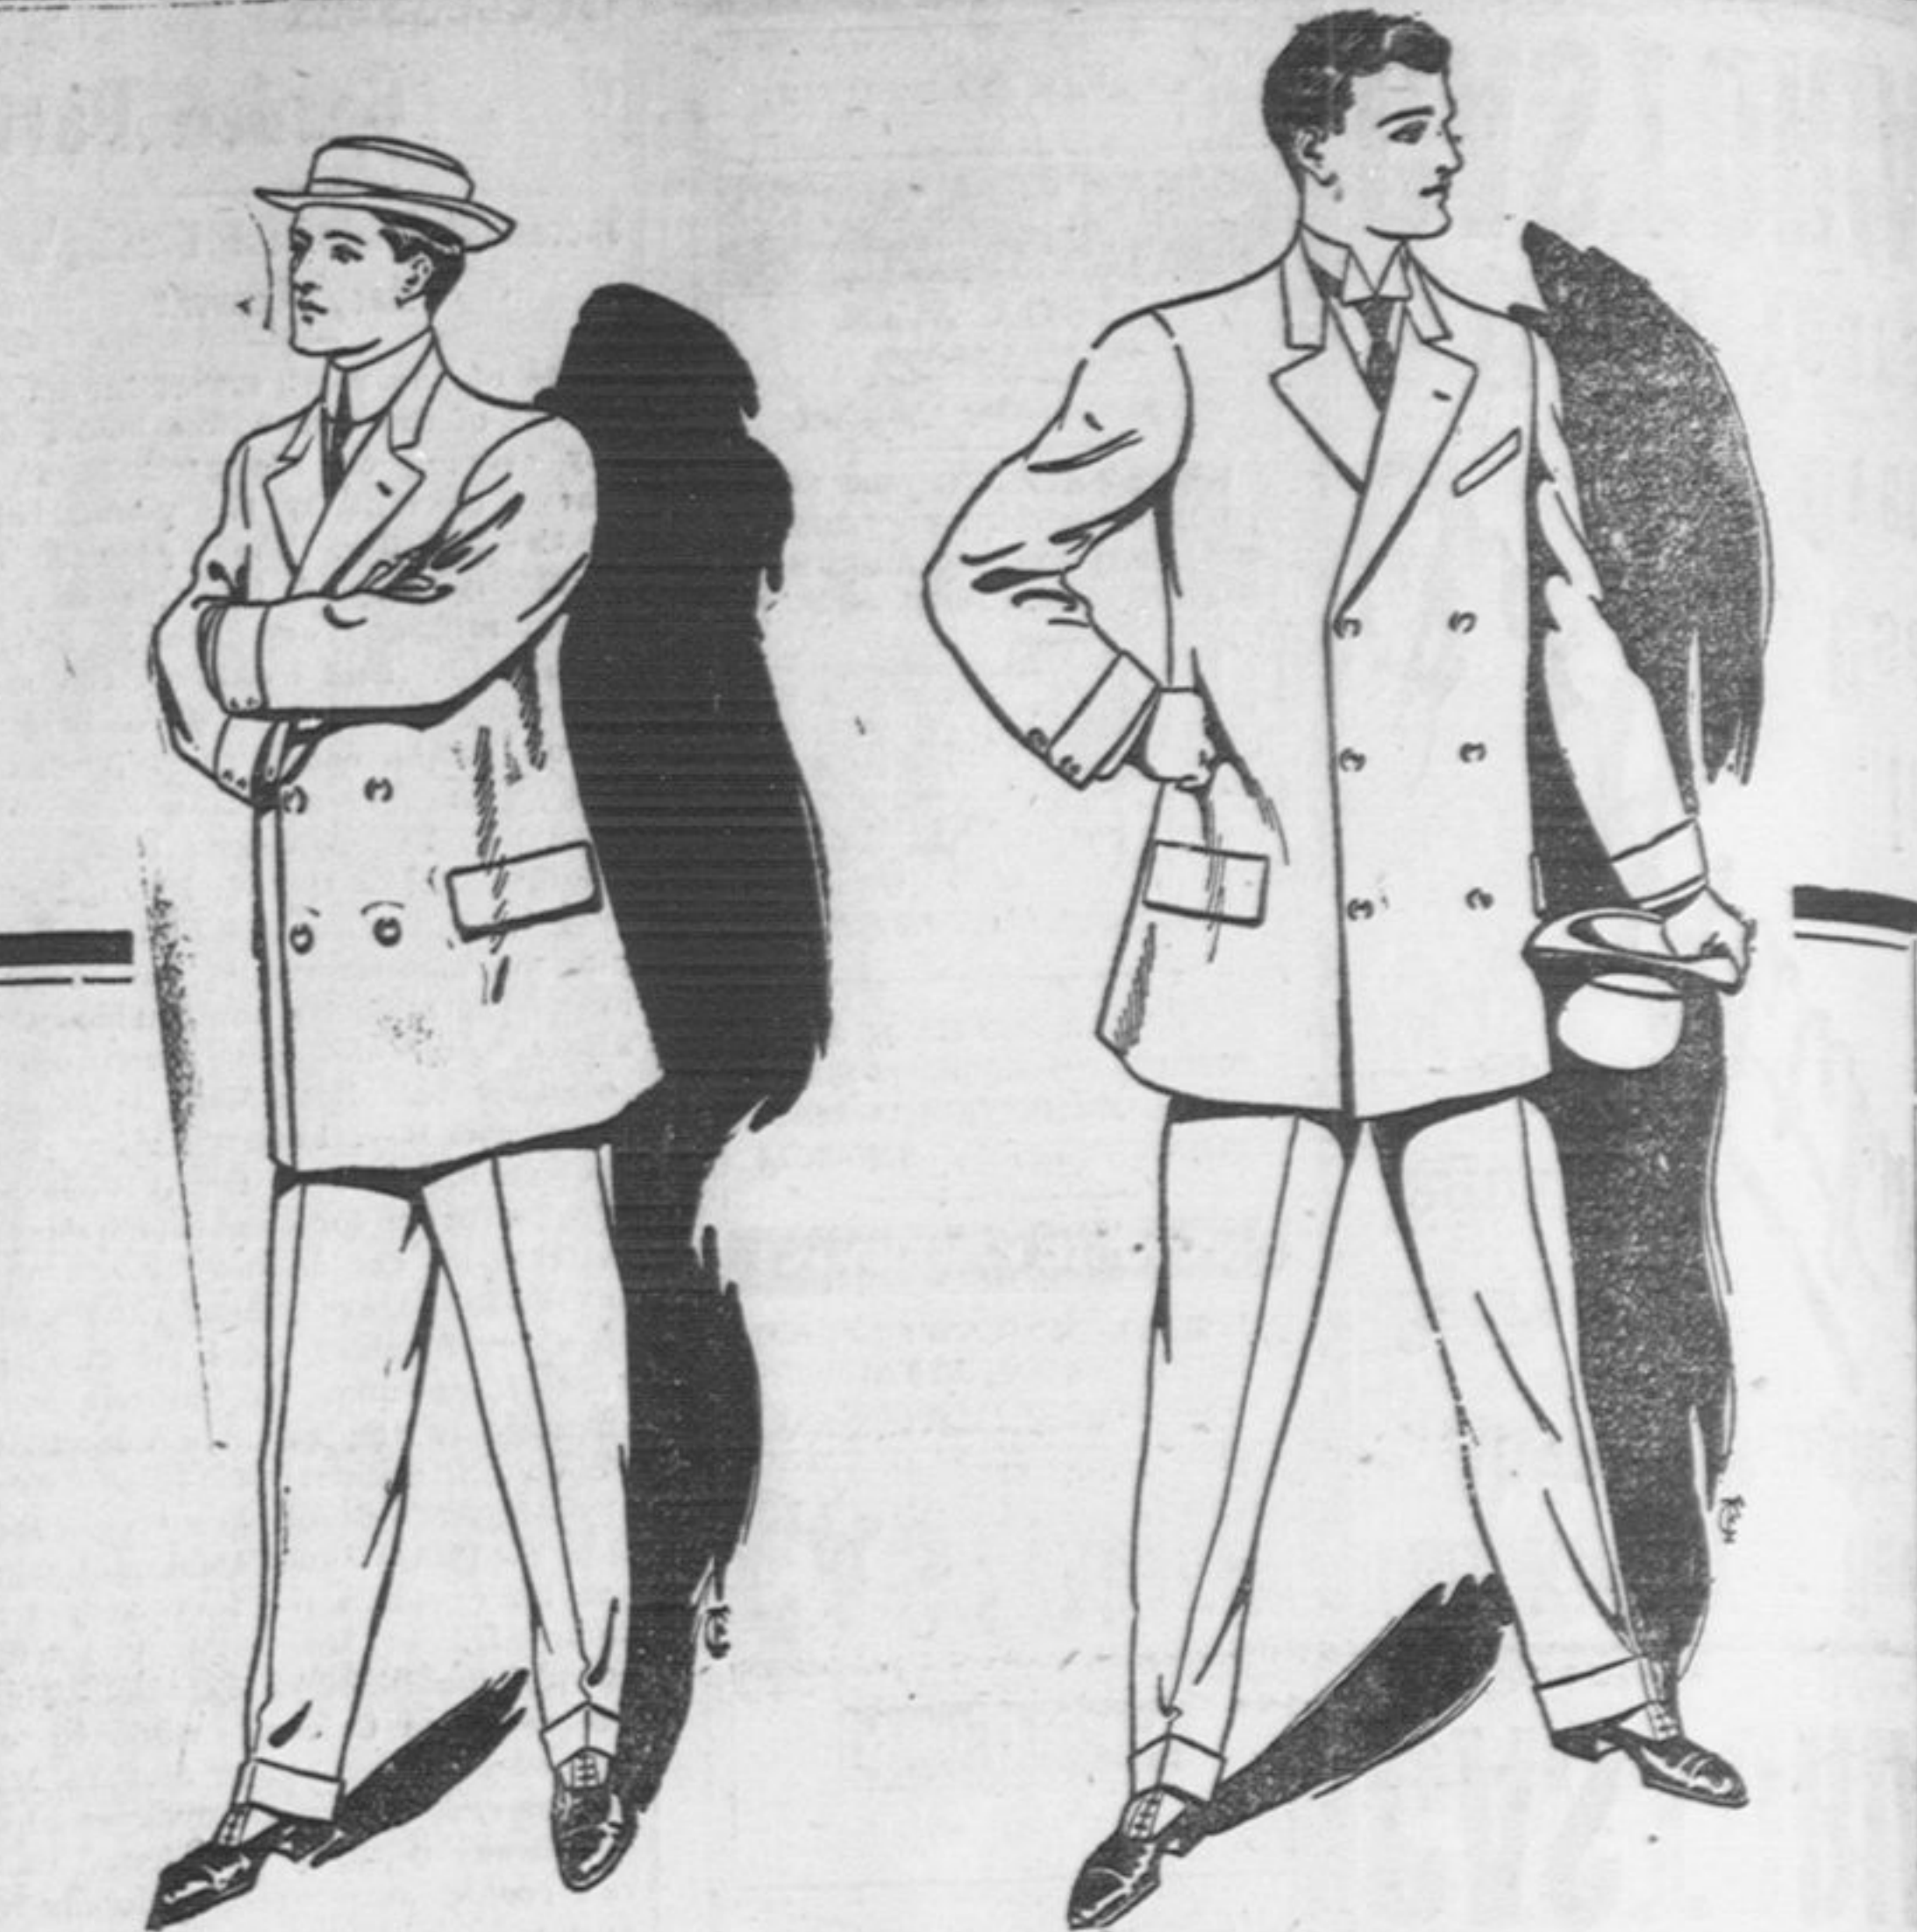

THOSE WHO CAN GO

It is open to any member of the Y.M.C.A. in Peterboro, Port Hope and Lindsay or any non-member approved by the local Secretary under 17 years of age, whose application is in before the 8th day of July. One dollar of the camp fee is required when application is made, payable at each association.

The camp will be in charge of Mr. H. C. Wright, gen. sec. Peterboro, Mr. E. A. Frowde, Phy. Dir., Peterboro, Mr. Wm. R. Cook, Gen. Sec., Lindsay, Mr. J. P. Reed, gen. sec. Port Hope, and a staff of senior leaders.

Following the usual custom many special features are down on the program and as good a time as on any previous year is confidently expected. The cost is not too great to prevent any one going who can manage his holidays at that time. The boys' camp will be held from July 15th to July 28th and the senior from July 31st to August 14th.

Improvements which have been in course of execution to the Ops swing bridge are now nearly completed and the bridge certainly presents a finer appearance than formerly. The dangerous approach has also been remedied.

The lines of this model betoken that conception of the designer's art that marks their distinction between ordinary and extraordinary a fitting style for general use.

\$10.00, 12.00, 15.00

The skeleton coat is a garment for none but the most clever tailor to attempt. No other so taxes the skill and foils the unskillful. Ours command complete respect.

\$2.00 to 8.00.

Colored Hat Bands will be more popular this summer than for several years past. Our assortment is very complete. 35c to 75c.

Pepper Twins Are Making Good

Southern Papers Speak Well of Two Lindsay Boys.

The Chattanooga News has the following to say of the well-known Pepper twins, who are doing excellent comedy stunts in Tennessee:

"The Pepper twins, of Lindsay, are a bunch of hot stuff. When they first appear in Dutch regalia it would make a pile of saur kraut take a back seat, and their songs from the "Ladland," dancing and other Dutch delineations would make Bismark open his eyes. They close their tern in kilties, dancing the Highland fling and singing popular Scotch airs. They are the ideals of the matinee girls, who think they are the cutest things in kilties that ever came from Bobby Burns' land."

If a speck or a splinter gets into the eye, simply life the eyelid and blow your nose, and the particle is forced out.

Parish Workers' Garden Party

A Pleasant Evening Spent at the Residence of Mrs. Warner.

The pretty house and grounds of Mrs. Warner, Bond-st. was the scene of a very pleasant garden party last evening given under the auspices of the Parish Workers of St. Paul's church. The weather was almost perfect and this probably had much to do with the unqualified success attending the function. The grounds were prettily decorated for the occasion and a most enjoyable social evening was spent. Ice cream and cake were served during the evening.

The program consisted of the following numbers; Instrumental solo, by Miss Morson; song, Miss Leary; instrumental trio, Misses Ross and Flavelle; song, Mr. McAlpine; instrumental solo Miss Paalen; song, Mr. Vincent; instrumental solo, Miss Ross; song Mrs. Walters. Judge Harding occupied the chair.

Ross Brown Killed Saturday Morning

Four Year Old Son of Isaiah Brown Falls Off Load of Hay.

Ross Brown, the four-year-old son of Mr. Isaiah Brown, Lindsay-st. South, was almost instantly killed on Saturday about 11 o'clock. While attempting to climb on a load of hay he lost his footing and fell backwards, breaking his neck. Drs. Burrows and Brown were quickly summoned, but the feeble spark of life had fled.

Ross was the youngest of a family of three and would have been five next 29th of October, had he lived. Mr. and Mrs. Brown are grief stricken and can hardly realize that their little boy, playing such a short time ago about their house, is now lying dead. The sympathy of the entire community is with them in their sorrow.

The death of the little fellow remains one of the brightest and most promising young lives in Lindsay. He was always looked upon as a very clever boy and unusually active. It was this activity on his part which partly was responsible for his death, for had he not attempted a feat beyond his strength he might still be in the land of the living.

His little playmates at first hardly realized what had happened. Later they gave vent to their grief in tears that went to the heart of all near-by. Coroner Dr. Burrows deemed an inquest unnecessary, being of the opinion that the death was purely accidental.

A Brilliant Pupils

The Lindsay Collegiate Institute may again be justly proud of her pupils, Miss Felicia Graham, of East Oakwood, an ex-student of the Lindsay school, has graduated with honors from Toronto University and has received the degree of B.A. with specialist standing. This is a brilliant success, as Miss Graham is a year and a half obtained her second class certificate and matriculation in Lindsay. The Post offers congratulations.

Knot Tied On Rice Lake Tree

Curiosity Now in Possession of a Peterborough Man.

Mr. Jack Hayes of Peterborough, curious in the pine knot line. It was given him about two years ago by Captain Copperwaite. The latter a number of years ago when the pine was merely in its infancy tied a knot in it. It grew of course and so did the knot. He came across the tree two years ago and cutting it up so as to include the knot brought it to Peterboro. It is as perfect as possible. The pine grew on Mackinac Island Rice Lake.

Bruised is Knee Hurt Hauling Truck

Young Man Has Narrow Escape From Serious Accident

Master C. Robinson met with a slight mishap at the G. T. B. station on Thursday, coming out of the station, however, with no other injury than a badly bruised knee.

While hauling a heavily loaded truck on the station platform, a some unaccountable manner one wheel struck a snag, throwing the handle to one side and upsetting the truck rather abruptly upon the platform. However, after rising to his feet it was found he had sustained no other injury than a contusion to his knee.
