## BOIL WELL WATER BEFORE USING IT

Sanitary Inspector Douglas has re- ernity homes. She told the girl quested the Post to advise our citizens to boil their well water before using it. This action is absolutely necessary, owing to the prevalence of tythoid fever in town. Some of the typhoal fever cases, it maderstoad, have been traced to the drinking of water from a certain well.

Miss Wiggins read a paper on "Women do not want the ballot" and Mrs. Mitchell read an article on the work of the "Travellers Aid" In regard to the travellers aid at the Union Depot, Toronto, the work is divided between a Deaconess of the Methodist Church and Mrs. Adams. of the W. C. T. U. Travellers Aid.

The deaconess meets the morning trains and Mrs. Adams the afternoon and late trains. The duties are many and varied. Mrs. Adams meets the incoming trains and endeavors to send unprotected girls to their destination safely. Again she may spend some time with a weary mother who has several little children and who may be ill and in difficulty.

# DESIRED BY PREMIER FISHER

London, June 6 .- According to the delayed report of the conclusion of Friday's proceedings at the Imperial Conference Premier Fisher moved that it was advisable in the interest of the United Kingdom and the dominions that efforts in favor of British manufacturers' goods and shipping be supported as far as practicable. He pointed out that other countries assisted their shipping in its competition with other shipping, both by subventions and contributions from

the national exchequer. Hon. G. F. Pearce, Australian Minister of Defence, said that the principal difficulty was in regard to certain treaties which were in the main with small countries. If the dominions by legislation desired to assist British shipping in the only way open to them, the United Kingdom might very well consider the advisability of denouncing the provisions which stood in the way of such action. Rt. Hon. Sidney Buxton, President

of the Board of Trade, said that the matter had been considered and the conclusion come to was that in the interest of British shipping all the world over the renunciation of parts of certain treaties might be undertaken if the end justified the means. It was not merely a question of denouncing treaties of trade elsewhere, which might be seriously adversely affected. Sir Wilfrid Laurier said treaties had to deal with were more those in existence long before the dominions had reached their present position, and were negotiated from the view-point of Great Britain alone. In recent years the Home Government had adopted the principle of not including the self-governing dominions in commercial treaties without first obtaining their consent. With a view to the matter being considered he would at a subsequent meeting move that the Home Government be requested to open negotiations with several foreign Governments having treaties which apply to the dominions with a view to securing liberty for the dominions which may desire to withdraw from such treaties without impairing them in respect to the rest of the Empire. Further consideration of the resolution was postponed until the sixteenth instant.

Premier Fisher moved that it was desirable that the attention of the Governments of the colonies be called to the state of navigation laws in the Empire and other countries, with a view to securing uniformity of treatment for British shipping and prevent unfair competition by foreign subsidized ships, to secure for British ships equal trading advantages with foreign ships to promate the employment of British seamen on British ships, raised their status and improve their

conditions. Rt. Hon. Sidney Buxton said that the Government would accept the resolution provided it read: "That it is desirable that the attention of the Governments of the United Kingdom and the dominions should be called to the desirability of taking effectual steps to secure, etc." As amended the resolution was unanimously carried.

Treaty Against Germany. Washington, June 5.-Enquiring whether the proposed British-American arbitration treaty is directed against Germany, Representative Hammill of New Jersey has introduced a resolution in the House calling upon the Secretary of State for an investigation.

Mr. Hammill bases his demand on At Fenelon Falls on Saturday in the alleged endorsement by United Sstates Consul-General Griffiths London, of a recent speech by Sir Edward Grey in the British Parliament, in which the latter intimated strongly that such was the aim of the treaty proposed by President Taft. Mr. Hammill characterizes Mr. Griffiths' endorsement as "offensive to the ma-

# VANCOUVER HAS

Vancouver, B.C., June 6 .- Four thousand men, representing all the building trades, quit work yesterday morning, but the city is not tide u; as the street railway men refused to join the strike.

However, matters are made serious by all the linemen of the telephone and telegraph companies going out. The teamsters are still working and will not strike.

There were no demonstration and no complaints at police headquarters. The wires of the street railway company were cut in the suburbs at 8 o'clock but were repaired by 8.30. The situation is serious, but not as bad as anticipated.

The American Publishers Want Cheaper Print Paper.

Washington, June 6 .- Public hearings on the Canadian reciprocity bill were concluded by the Senate finance committee yesterday, representatives of the American Newspaper Publishers' Association and of the Associated Press being the last to

appear before the committee. Secretary of State Knox, at the request of Senator Bailey, had been asked to explain to the committee to-day whether the Root amendment to the paper section of the bill providing that it shall not be in force until the President is satisfied and has issued a proclamation to the effeet that paper and wood pulp are being admitted free into all the provinces of Canada, is in full accord with the agreement, as understood by the commissioners from both countries, who prepared the treaty. On Wednesday the committee will take up the bill in executive session to discuss

committee action. Both Herman Ridder, until recently president of the American Newspaper Publishers' Association, and Melville E. Stone, general manager of the Associated Press, testified yesterday, in answer to queries from various Senators, that in their opinion no effort had been made by the newspapers of the country to present only one side of the reciprocity argument, to color their reports on the question or to suppress any facts which were of news value. Bruce Haldeman, president of the Publishers' Association, and F. B. Noyes, president of the Associated

Press, also appeared. The chief interest which the newspapers of the country have had in the matter, Mr. Ridder told the committee, is their desire to free themselves from the paper manufacturers' trust, which now, he added, has the publishers at its mercy. The readers of the "On June 18 the Building Trades | country would benefit by cheaper pap-Council will hold a big meeting in er, as well as the publishers, he dethe City of Montreal, with a view to | clared, because the money saved on exposing the disgraceful methods em- paper could be used to furnish a larg-

"But would not have favored the measure, he said, "if I had not thought it would be of benefit to the country as a whole independent of my interest in it as a newspaper publisher."

When Mr. Ridder attacked the paper trust, which, he said, limited the output, fixed the price and told a publisher where he must tuy his paper, both Senators McCumber and Bailey, opponents of the bill, declared that if there was such a trust they wanted to see it presecuted by the Government. Mr. Ricer insisted, in answer to numerous questions, that any amendment to the bill would, in his op nion, endanger and probably kill the measure, and that therefore he was in favor of seeing the bill ! passed exactly as it come from the House.

Mr. Stone testified that no instructions had been sent out to Associated Press correspondents as to Canadian reciprocity, except that they lead been speed. and setting at defiance the told to send any important matter connected with it, because of the general interest of the subject. He was questioned in detail as to the Asso- indulged in right along on this thorciated Press service by a number of Senators. bliss on an acre lot were pictured and the cupidity of possible purchasers was excited by holding out the ultimate hope that in the future the western trend would swing the city's centre into the hen runs and piggeries, out of which present purchasers could make money. To such invitations buyers responded so readily as to provide within a few days the original subdivider with sufficient cash to make his second payment.

Between this subdivision and Winnipeg there are scores of others being placed on the market at good prices, but on very easy terms and the public-that part willing to pinch themselves to scrape together about \$10 per ... month-are coming in The money at present being put into this class of propesty is very naturally giving the bankers and officers of financial concerns . some anxiety. They foresee times when so many of the citizens will be hard pressed to keep up their payments on property that will not be any better than farm land for many 6 p m. years. But so startling have pro-. fit of the more fortunate been during the lgst few years that little difficulty is experienced in persuading the wage earner and the small investor to put up a small amount of cash monthly on property that he never sees. Nor does he realize that Winnipeg city limits are already bordered by a subdivided area sufficiently large to accomodate a number of cities of the same size.

Mr. Editor,-

Dear Sir: I was pleased, indeed, to read ratepayers and citizens' letter the Post, re purchase of water power. It is a very important question and the citizens should have all the information possible before voting day. Last year, if you remember, a proposition was submitted by the Electric Power Co, and at the request of the acting comm ttee the proposition was withdrawn, pending the negotiation being carried with the Light, Heat, and Power Co., with the promise that they would be given an opportunity of presenting it again. Now, I think in all fairness to those people, and in justice to the members of that committee, this promise should be fulfilled, and as chairman of the committee, I would ask the citizens to give those people an opportunity of submitting their offer before the pub | gers may be, and wind lic meeting is held, and it enable them to discuss it with full knowledge of all the facts be-
