These meetings are free, and all ladies are welcome. Mrs. T. M. STEWART, Dis. President MISS F. S. MOYNE, Dis. Sec. Treas

DOUBLE SYSTEM OF FIRE PROTECTION IS ASSURED FOR KENT STREET

(Council) Mr. J. D. Flavelle, chairman of the Water commissioners spoke about laying the new fire system on Kent-st. The present pipes were found as far as could be ascertained and the number of hydrants now installed amply sufficient to satisfy the fire underwriters but it would be a far greater protection and prevent a holocaust should the other system burst.

It will cost between \$3000 & \$4000 to install, and those along Kent-st. should not have to pay all the rate on improvement but the town at large should assist. There would be three hydrants placed on the system. Mr. Flavelle said that the ones did not rest on the water commissioners as the old system was alright. It rested with the town whether it wanted to pay \$120. a year to doubly protect its main street.

Mayor Beal insisted that the commissioners were responsible since he believed the present system was rotten since it zig-zagged up Kent-st. to escape wells. However, if eight hydrants were sufficient why load the street with more. This addition gives additional revenue to the Water Commissioners.

Mr. Flavelle said it was absurd to say that, 120 a year for \$4000. Dep. Reeve Dobson liked the duplicate system but said that there were many citizens who have no fire protection or water service, who would have to pay.

Mr. Flavelle said that should Kent street burn it would mean a heavier tax on these very people anyway, besides nearly everybody is more or less interested in the welfare of Kent-st. and should appreciate its enormous value to the town.

Mr. James Boxall said that there was no other part of the water system put down as badly as that on Kent-st. and the matter should be thoroughly discussed before a decision is reached. The Mayor says the system is rotten so something must be done. The town and council should work hand in hand about it.

Dr. Vrooman.—The Mayor wanted the committee appointed to confer with the water commissioners to meet in the council chamber first and have everything agreed upon beforehand. It should not have been done. He thought it would be better to have the double system and be safe.

Dep. Reeve Dobson.—The committee were negligent not to meet the water commissioners as they should have. The Mayor asseverated that they should meet first as he proposed. They should use their heads and not their feet alone.

Why use 11 hydrants when 7 are sufficient Dr. Vrooman wanted the old committee disbanded so Ald. Babcock picked, the Mayor, Messrs. Naylor Lewis and McLory and Dobson to meet to-day at 10 o'clock.

A special meeting of the representatives from the town council and water commissioners met this morning that they might come to some understanding re the water main on the south side of Kent-st. There were present from the council, Mayor Beal, Ald. Naylor Lewis and Dobson, and from the water commissioners Messrs Flavelle, Brady, and Boxall, Ald. Naylor was chairman of the meeting.

After discussion it was resolved that an additional water main on the south side of Kent-st. was desirable, that three hydrants of large capacity and of modern construction should be placed on the south side of Kent-st with the understanding that the town would have the right of removing 3 of the hydrants at present on the north side of Kent-st. to another part of the system where hydrants may be needed.

CHANGE OF C. P. R. TIME TABLE

The C.P.R. morning trains leave 8 minutes later than usual, until further notice.

BORN

SHEA—In Ops, on Thursday, June 1st, to Mr. and Mrs. Albert Shea, South Ops, a son.

DIED

TUDOR.—In Lindsay, at the residence of his son-in-law, Mr. W. Price John Tudor, aged 82 years. Funeral private.

DIED.—At Sebastopol, Cal. May 30 Josephine Nugent, relic of the late Thos. Nugent, aged 78 years.

THE BLAZE WAS BOX CAR

This morning, about four o'clock, the fire team was called to attend a fire near the freight sheds. It was found that an empty box car had, in some mysterious manner become ignited, and was well in flame. On such a windy night a fire in as close proximity to the freight sheds and freight cars as this one would prove decidedly dangerous, but it was soon gotten under control. Any freight cars, that were thought to be too close, were moved away by the yard engine. The origin of the fire is unknown, but as there was nothing in the car, the cause is attributed to tramps.

More Drunks Than Ever

Montreal, June 6.—There was a very noticeable increase in the number of drunks brought before Recorder Weir yesterday. Out of a list of 84 names, sixty-one were for drunkenness.

Chief Campeau stated that since the early closing law had gone into effect, there had been a large number of "blind pigs" opened in the congested district of the city, and boarding houses were finding it profitable to lay in a good supply of liquor for consumption at greatly increased rates after the saloons had been closed for the night.

Saturday night there was much liquor sold on the streets and in the various dens of the city. The constables charged with seeing that the closing law is enforced, find it almost impossible to catch the illegal sellers. When the liquor is stored in houses, on these places being raided, the owner declares it was store there merely for his own use and he has to be set at liberty.

Constables declare that drunkenness has greatly increased in all parts of the city. One constable said, "We cannot catch the offenders in the act of selling liquor, but it is very easy for us to see by the number of persons who are found drunk that they are at work." The police claim also that many dens in the city where liquor is sold, are now more frequented than ever.

French Cruiser Goes Ashore

Halifax, June 6.—In thick weather at 6.30 o'clock yesterday morning the French warship "D'Estre" commanded by Capt. Prouhet, struck on George's Island, one of the forts in Halifax harbor. Six hours later she floated off without assistance, and having sustained no damage whatever, even her paint apparently not having been scraped. Offers were made of help from towing steamers and the Dominion Government's Marine Department but these were declined with thanks.

Capt. Prouhet of the D'Estre ordered the forward water ballast to be pumped out and the ammunition moved. The warship struck three hours before high water and she floated three hours after high tide, the water being at the same height when she slipped off as when she touched. Pilot John Hayes was aboard, having been taken on the outside the harbor.

George's Island is in the centre of the harbor. The only explanation for the accident is that the pall of fog and smoke hung so thickly over the harbor that it was impossible to see ahead and the pilot misjudged his position. He thought he was west of the island, whereas he was south, and in feeling his way up, going very slowly, he struck. A fog bell is on George's Island and it had been heard earlier in the morning, but the warship was carried to the westward, and in that position the sound was carried past and became undistinguishable on board. There will be an investigation.

Castro Reported to Have Sailed.

Havana, June 3.—The Cuban Government is in receipt of what is believed to be authoritative information from Spain that Cipriano Castro, the exiled former President of Venezuela sailed recently from Cadiz on board the steamer Legaspi, which is due here to-day, en route for Central and South American ports.

Castro is travelling incognito. It also believed he is carefully disguised, but is improbable that he will be able to escape the scrutiny of the Cuban officials, who will board the Legaspi here.

It is not known whether Castro desires to land in Havana, or whether the Government would try to prevent him. Secretary of State Squigly said yesterday that the Cuban Government had not been informed officially of the coming of Castro, and was not absolutely sure he was on board the boat. Therefore, the Government would not decide its course of action until it was finally determined he is on board the steamer. The conjecture here is that Castro does not desire to land at Havana, and that he will endeavor to conceal his identity here, and proceed on board the Legaspi and land at some port adjacent to Venezuelan territory, probably at Sanalia, Colombia.

WHITBY ACCEPTS SEYMOUR POWER

Whitby, June 5.—Whitby electors gave majorities to two important bylaws upon which they voted to-day. One was to ratify and agree with the Seymour Electric Power Company to supply power to the town. This was carried almost unanimously. The second bylaw was to establish a free library. In connection with the latter a keen contest was waged, the opposition being led by the Reeve of the town. The majority in favor of the by-law was 125.

AN AGED LADY INJURED SHOULDER

Mrs. James, an aged lady residing on Regent-st., tripped over a wire on her lawn, Friday evening, and dislocated her right shoulder. A local physician attended her injuries, and she is suffering considerable pain.

The town roller is attacking the William street road south of Kent-st. today. This street has been rather badly cut up, on account of a water main being laid, so that the roller was badly needed. Kent street has been greatly improved between Adelaide and Sussex-sts., and was a long wished for betterment.

NO CLOCK YET FOR POST OFFICE

(Council)

A letter was read from the Post Office Department in regard to the installation of a clock in the Post Office, saying that it was a matter that the Public Works department alone could deal with. It had been forwarded to them for consideration.

The public works replied that no appropriation had been taken in the estimates for the current year for this purpose, it would be impossible to meet the council's wishes in the matter. Senator McHugh and R. J. McLaughlin, K. C. are endeavoring to have the matter consummated satisfactorily for the town.

MILK BY-LAW FAILED TO PASS

(Council)

The milk bylaw also did not go through, on account of division of opinion. It included everyone who owned a single cow, and sold a quart or so to neighbors, to get rid of their surplus supply as well as the regular milk vendors. The tax was suggested as \$1.00 and finally 25c. not to burden people, but to include them under the act and have the stables and milk rigidly inspected. The matter was held over for the next meeting.

Zam-Buk is the best remedy known for sunburn, heat-rashes, eczema, sore feet, stings and blisters. A skin food! All Druggists and Stores. 5c.

Here's The Secret

You frequently hear of how well our garments hold their shape, no matter how hard usage they are given. The secret of their shape-retaining qualities is no secret at all; it is simply a matter of hand tailoring, good canvas, the best of hair cloth, fine linings, and careful inspection, a complete mastery of the details of fine tailoring, and a determination to see that they are incorporated in every garment that bears the "Progress" or "20th Century" Brand label.

LET US SHOW YOU THE EXTRAORDINARY VALUES WE ARE OFFERING IN THESE GARMENTS AT

\$15.00

M. J. CARTER Clothier and Furnisher.

PETERBORO OPINION ON L.C.I. GAME

The Peterboro Collegiate Institute had to come from behind to win the return game with the Lindsay Collegiate ball team at Riverside park, on Saturday afternoon, but when they did get under way they cut loose with a vengeance, drove pitcher "Tubby" Williamson to the woods and the engagement ended 19 to 5 in favor of the local students. Before the aviation event referred to, the Lindsay team was running along smoothly in front with the score of 5-0 in their favor. Stan Cresswell pitched fine ball for the winners striking out ten while Williamson had nine fans to his credit and Brown, who succeeded him, two. The fielding feature was contributed by Roy Dixon, the local third baseman, who leaped into the air and pulled down a sizzling liner with one hand. There was a good crowd of fans present and they seemed to enjoy the game which was umpired most satisfactorily by Mr. J. J. Thompson.—Examiner.

The Lindsay Collegiate team did not show any real reason in their game here with the local Collegians Saturday afternoon, at Riverside why they should have defeated the latter 16-7, in Lindsay, one week previous. Though the visitors got away to a good start in the early part of the fray, scoring three runs in the first innings, but they failed to keep up the pace. In fact they seemed to be a very ordinary gang in comparison with the good work of the homesters. Of course, the pitching had a great deal to do with the result. Cresswell, the local dispenser had speed, a variety of shoots and plenty of control, never passing a man during the game, and striking out ten Lindsay men. "Tubby" Williamson didn't have much the locals couldn't solve once they got started, and he was forced to retire in the eighth in favor of Brown, who didn't have very good control.—Review.

HYMENEAL

SHORT-ANDERSON. The home of Mr. and Mrs. Donald A. Anderson, Mariposa, was the scene of a very pretty wedding, when their third daughter, Maggie E. became the wife of Mr. Wilford E. Short, son of Mr. and Mrs. Hm. Short, formerly of Kerr Robert, Sask. The bride entered the room on the arm of her father, who gave her away. She was becomingly attired in a beautiful gown of cream silk mull, trimmed with lace and insertion, while Miss Alice Anderson, cousin of the bride acted as bridesmaid, wearing a gown of blue silk, over white, both carrying bouquets of flowers. Miss Katie Anderson, sister of the bride played the wedding march, and Rev. Mr. Konkle, of Sonya Presbyterian church, performed the marriage ceremony. The groom was ably supported by Mr. Jim Anderson, brother of the bride. The groom's gift to the bridesmaid was a brooch, in the form of a star set with pearls and gold cuff links to the best man. The happy couple left for Mariposa station, and then took the train for Toronto. The presents were both numerous and costly including a gold watch from the bride's parents. On their return they will reside in this vicinity.

DIED IN IDAHO

Mr. M. Myles, of town, received word this morning that his brother, H. Montgomery Myles, of Idaho, died a few days ago. No particulars accompanied the message, however.

BEWARE OF LAND SHARKS

Editor of The Post.—Sir,—As it has been reported supposedly for a set purpose, that I am one of the many, who have been blindly investing in such wild-cat speculation, kindly permit me to inform your readers, that there is not a grain of truth in the said report.

A year ago, while in Winnipeg, a friend there, (a high official in talking), advised me to be very careful, should I be considering a purchase in that city or its suburbs. To buy while on the ground, to me appears very

risky business to the initiated, while to buy such lands or lots from strangers, who now scour the country, on their paper plan representations will surely bring disappointment and later regret.

I have so little confidence in the business and in the majority of the sellers, that they are not allowed on the farm, if known as such.

Just one instance will show the possible and probable outcome of blind buying. An acquaintance who secured two lots in Chicago Suburb some two years ago, considered himself lucky when the first years taxes were only \$12. The second year local improvements ran taxes up to \$56.00 and that was paid, but when the third years tax bill was largely over \$100 he let go and the lots with previously paid taxes, went up in tax sale smoke. Why! Oh why will people trust absolute strangers who give promise of wonderful increase of values in a few months or a year while in instance after instance the careful saved dollars,—their all—are talked out of them by most plausible but misleading representations.
