SIMPSON HAS A BAD RECORD

It has been learned that the man named Burk, whom acting Chief of Police Short arrested for the theft of a pair of boots, is no other than J. Simpson, a noted thief well known to the Toronto Police force.

Officer Short has received a photo from the Toronto police, of Simpson, who is numbered as 674 B. in the rogue's gallery.

KICKED BY HORSE AT FENELON FALLS

Gazette: A young son of Mr. A. Robinson, of Fairhair, received a rather bad kick on the face Thursday morning. It appears that the boy was going from his father's house to Mr. Alex Connell's, his grandfather's, and while passing a little close to a mare and foal the mare kicked at him striking his left eye, and the left side of the face, cutting and bruising it considerably.

JOS. J. BELL LAID TO REST

The funeral of the late Joseph J. Bell was held from the family residence, 35 St. Patrick-st. Friday afternoon, and was largely attended by the citizens friends and relatives of the deceased. Members of the Canadian order of Oddfellows also turned out in large numbers to pay their last respect to their departed brother.

INCENDIARY FIRE ON DURHAM-ST.

Last night, shortly after eleven o'clock, a fire alarm summoned the brigade to a fire in an unoccupied cottage on Durham-st opposite the station. When the brigade arrived on the scene the blaze was making considerable headway in the rear of the house. A stream was brought into play from the hydrant at the corner of William and Durham-sts.

The fire was of incendiary origin. Several young men saw a suspicious character coming away from the house, and hurry along Durham-st. east.

FATAL ACCIDENT NEAR CANNINGTON

Gleaner:—Wednesday evening when Mr. and Mrs. Frances H. Burgess of lot seven Con. twelve, Brook, were driving down what is known as Gibson's hill, on their way to Mr. Daniel B. King's, the breaching on the harness broke, allowing the buggy to run upon the horse. The buggy top was up but in some way Mrs. Burgess succeeded in jumping out, and escaped with a few slight bruises. Mr. Burgess in his endeavor to control the horse, and to prevent it from running away, must have been thrown out, for when picked up, it was found that he was unconscious and severely bruised. He was taken to his home. Dr. Boyton, of Pefferlaw, was called, who found that his skull was crushed as well as his temple. The late Mr. Burgess lived from the time of the accident, which occurred a few minutes before eight o'clock p.m. until ten minutes to ten, or about two hours. He leaves a young wife, his aged parents, Mr. and Mrs. Wm. Burgess, and several brothers to mourn his death. His wife is the youngest daughter of Mr. and Mrs. Isaac Parliament. They were married about six years ago. He was a general favorite with all who had the pleasure of his acquaintance, and was only 34 years 2 months and 14 days at the time of the accident.

Shocking Death Saturday Lindsay Citizen Electrocutted

Mr. John McGillivray, of the Light Heat & Power Co., Met an Untimely Death—Was Working on the Line When the Unfortunate Accident Occurred—His Death Regretted by Lindsay Citizens

A deplorable accident occurred on Saturday afternoon about 2.30 o'clock when Mr. John McGillivray, foreman of the Lindsay Light Heat and Power Co. met an untimely death by being electrocuted on the top of a pole, near the corner of Kent and Angeline-sts. and opposite the Ross Hospital.

The unfortunate man with his helper, Mr. Ranson, was installing two transformers. He was working on the pole and had the guy wire wound twice around it leaving a long end, which turned over and grounded on a cable. Mr. McGillivray was killed instantly and it is estimated that about a thousand volts passed through his body.

Ranson, who was working in a tree nearby, thought he heard a slight groan, and in looking towards McGillivray noticed the unfortunate man dangling in death. He immediately threw himself from the tree, hoping to render what assistance he could but McGillivray had slipped down the pole within fifteen feet of the ground.

The remains were removed to Anderson & Nugent's undertakers, and later on were taken to the family residence, William-st.

The late Mr. McGillivray was born in Mariposa about forty-five years ago, and was a son of Mr. Neil McGillivray, who resides with him. The family afterwards moved to Fenelon Falls, where the deceased was employed as millwright. He worked in the Howry Bros. sawmills and was looked upon as a most capable workman.

In 1899 he accepted a position with the Light Heat and Power Co. and constructed the line from Fenelon to Lindsay. His eleven years' service with the company were marked by a faithfulness of duty combined with a thorough knowledge of the important work assigned to him.

The late Mr. McGillivray was survived by his wife, (who was Miss Elizabeth Wright of Fenelon Falls) two daughters, Mable and Gertrude, and his aged father, Neil McGillivray. He was a member of Faithful Brethren Lodge A.F. & A.M. Lindsay Lodge I. O. O. F. and the curling club. He was a valuable member of the fire brigade holding the position of Lieutenant in that organization. In religion he was a Methodist, being a member of the Queen-st. Methodist Church.

On Saturday afternoon a Post representative accompanied the late Mr. McGillivray and Mr. Ranson along Kent-st. as far as Robson's grocery. The deceased talked and joked in his usual jovial manner and referred to the recent fires on Durham-st. and at Sinclair's Factory. On parting at the corner the unfortunate man remarked that when there was one fire there was generally three. "I might get a call any time" were the last words he

uttered. The funeral of the deceased took place from the family residence William-st. north at 10.30 o'clock. It was conducted by Faithful Brethren Lodge A.F. & A.M. and was largely attended by the members and the citizens. Funeral services were conducted at the house by Rev. James Wallace W. M. of Faithful Brethren Lodge, after which the cortege proceeded to the G. T. R. station when the remains were taken to Fenelon Falls. The members of the Fire Brigade all marched from the family residence to the station. The pall bearers were: Bros. H. Williamson, W. Warren, W. Ashley, W. H. Cresswell, F. Webster, Cambray, G. Pratt.

The floral tributes were many and were beautiful in design. The following is an incomplete list. Faithful Brethren Lodge, Masonic emblem, I. O. O. F. Lodge, emblem, Light Heat and Power Co. employees bank of lovers, Bell Telephone Co., wreath of roses; Sisters of Rebekah, an anchor, Fire Department, a wreath, Mr. and Mrs. H. Stoddard, spray; the bereaved family, a pillow; Miss Edmonds, a spray, Mr. W. E. Reesor, spray, Mr. and Mrs. Crawford, wreath, Corona Lodge, I. O. O. F. Fenelon Falls a wreath, Machine Telephone Co. a spray, Miss Paton, spray, Mr. and Mrs. Nicholls, spray, Mrs. Bullied, spray.

GOOD ADVICE ON CIVIC BEAUTIFICATION

A western exchange gives good advice to citizens in the following short snappy suggestions. They may well be taken to heart by citizens of Lindsay.

Plant a tree. Make ours a spotless town. Cultivate the backyard. Join the Horticultural Society. If each individual householder keeps his own yard clean plants trees shrubs and flowers and sows grass seed on his own lot, there will be no cause to complain about the appearance of the city as a whole.

Get the habit of NOT walking across the city boulevards and of NOT throwing waste paper on the streets. Get the habit of regarding the city parks and boulevards as your own property and do what you can personally—and encourage others to do likewise—to keep them looking their best.

SERIOUS ACCIDENT TO PETERBORO BOY

A very serious accident occurred Tuesday night about half past seven to little John Begley five years of age, son of Joseph Begley, Charlotte street, when he fell from the second story of a new house which is being completed on Frederick-st., and although the extent of his injuries is not known fully, the doctors think that his arm is out in the socket in the shoulder and that there is concussion of the brain. He is in St. Joseph's Hospital, whence he was conveyed in the Dan Spence ambulance last night, and at six o'clock this morning he was still unconscious.

The children in the neighborhood are in the habit of playing in the new house, and Tuesday night, accompanied by some others, the young boy was in the second story of the house. He climbed out through one of the windows on to the scaffolding, and fell to the ground, alighting, it is supposed, on his shoulder. Nobody but one lad saw the accident. Two doctors were immediately summoned, and after the unconscious lad had been brought to his home where an examination was made, he was taken to the hospital.

An examination at the hospital revealed the shoulder bone to be broken. At three-thirty Wednesday afternoon, the patient was still under chloroform. Review.

FORMER LINDSAY CITIZEN TAKES LIFE PERSONAL FRIEND OF JOE CHAMBERLAIN

The following despatch from Hamilton refers to a man, who was a former resident of Lindsay. He was employed here about two years ago and boarded at the Y.M.C.A. He left Lindsay in the summer of 1909 for Hamilton, where he had secured a position. During his residence here, he became greatly interested in examining the clay thrown up during the excavations made at the pump house for the new filters, installed by Mr. J. Howard Bridge. It was similar, he claimed, to that found in the Kimberley diamond mines, South Africa and he believed at the time, that diamonds could be found in this district. Ellis was a man of splendid education, and an interesting conversationalist. The despatch is as follows:

Hamilton, June 1.—W. A. Ellis, a man about 50 years old, and a native of New Zealand, committed suicide in Harvey Park this afternoon, by taking cyanide. Despondency over ill-health, and loss of his wealth, and position is indicated by notes found on his person, as the cause of the deed. Newspaper clippings, which were found on his person indicate that he at one time was a man of considerable prominence in the old country, having campaigned on several occasions with the Right Hon. Joseph Chamberlain. He had also apparently been wealthy, but had lost all his money in a patent right swindle, and in speculation. He was an expert chemist, and was supposed to possess the secret of preserving eggs for a year or more. Ellis was a Mason and a Spiritualist. In a letter to his friend, Thomas Spaven, he expressed his intention of holding communion with the latter after death, if possible, promising to use in his spiritual return to earth the name of Imbera Nem de Phime, under which he had done considerable writing. Ellis was not widely known here, the only information obtainable about him here being gleaned from the clippings found on his person, and from Mr. Spaven. He has a brother living in Birmingham, England, who has been notified of the man's death. No inquest will be held.

BAY OF QUINTE FAVORS CHURCH UNION QUESTION WILL BE DISCUSSED TODAY

Port Hope, June 1.—The committee on Church Union, on the Bay of Quinte Methodist Conference to-day, presented a report recommending the basis of union proposed by the Joint Committee of the Presbyterian, Methodist and Congregational churches. It was reported that in this conference, eight districts voted in favor of union, three made no expression of opinion, and one voted against it. The proposition will be discussed tomorrow.

The Church property Committee will report on applications for permission to sell the old Lonsdale Church and to erect a new Church at Emney Hill, and to sell the site of the old Methodist Church at Lindsay. Dr. A. C. Crews, Toronto, presented a report on the Methodist Book Room showing that its turnover for the year was \$700,000, an increase of \$78,000 over the preceding year. In the near

future, it will probably be necessary to secure larger premises, but no immediate change was contemplated. No offers had been made for any property as a site.

The following officers were elected: President, Rev. G. W. Clarke, Port Hope; Secretary, Rev. W. R. Rogers, Millbrook; Assistant Secretary, Rev. S. C. Moore, Trenton, and ex-Magor J. J. Mason, Bowmanville; Journal Secretary, Rev. A. Irwin; Statistics, Secretary, Rev. R. A. Delve; Reporter to the Christian Guardian, Rev. John W. Clary; Conference Letter-Writer, Rev. Richard Duke.

The Laymen's Association pledged itself to use its influence to increase the circulation of The Christian Guardian, and elected the following officers: President, Mr. Henry Pringle; Vice-Presidents, T. H. Everson, and W. H. Hooper, Secretary, T. Wicket.

LINDSAY'S REPRESENTATIVES ON OCEAN SERGT. RUSSEL HENLEY HEARD FROM

The Post is in receipt of another letter from Mr. Russel Henley, the Post's representative on the coronation contingent. He writes as follows:—

Quebec, May 28, 911 As I was in the city to-day I thought it the best chance to write Everything is fine here, and we have a good camp, though awfully hard work. There are sixteen lines of tents six tents in each line, and the men are distributed everywhere. Some tents have six men and some three. Four rows of tents to each Company, besides a cook and mess tent. The officers are quartered a long way from the camp down at the store houses.

There are about seven buildings here altogether but the grounds are small. Our Company, "B" is the largest of the lot, 82 men. Our Capt. is Major McHardy, and our Lieutenants are two men from Ottawa. Sergt. Legg, of Toronto barracks, is drill instructor, and he is a "corker" to make you work. We drilled yesterday afternoon from a quarter past two till a quarter past five with two rests of about five minutes. Everybody was supplied with big bit bags, helmets, tunics, two pair of boots, suit of khaki service clothing, water bottle plate knife, fork, spoon and cup and button-stick. The helmets are Worsley style with cloth puggery, that is thick strips of cloth wound round for about four inches, each round lapping the other by about a half inch.

I am in a tent with Mitchell and Prestige and three other men from London Two of the fellows came in drunk the other night and rooted up everything but the tent-pole.

We are using Ross rifles and bayonets, and the drill is mostly rifle drill and marching. We are allowed out of the camp every night and we can stay as long as we like. The contingent marched to St. Matthew's Church of England in Quebec this morning for church parade, in full uniform. We crossed on the ferry and got back to camp about 8.15 this afternoon. Our initials and names in full were all

taken this morning, and in England each man is going to be presented with a medal from the king. The ceremony will take place the day after the coronation. Lord Kitchener will present the medal and the Princess of Wales, Queen Mary and Queen Alexandra will pin on the medals. Each man was given an invitation and to a well Canadian banquet at London and particulars of the presentation of medals was on the back of it.

The first thing they did in camp was the medical examination. The Dr. said we were fine, only some had to be vaccinated.

The men here are a good crowd and the drill is fine. There is a company of Gordon Highlanders from Toronto and they are great on parade. At the church parade this morning they were pretty swell, with white leggings, Scottish kilts, and big fur topped caps.

Well I must close for now as it is getting nearly time to start back to camp. I get to bed just as soon as possible these nights and am mighty glad to get there too.

COULDN'T GET TO CORONATION

Bobcaygeon Independent: Sir James Whitney has gone to England, to attend the coronation. Mr. Adolphe Smiff, the man who writes the leading articles for this great journal, received a very pressing invitation from George to be sure and come over for the fandang, that the string of the Palace lath was always outside for Smiff, and the spare room always aired, but the old dog could not go. The fishing season opens on the 15th for one thing, and for another, the potato bugs are sitting around the garden fence watching for the taters to come through.
