MEETING OF PRESBYTERIAN ASSEMBLY DELEGATES FROM LINDSAY PRESBYTERY

Edmonton, Alta., June 5.—Edmonton in the hands of the Presbyterians of the Dominion. For two days delegates from the east and south have been discharging the General Assembly of the Presbyterian Church in Canada, and their wives, who have followed them to the prairie to spy out this new world in Alberta. The attendance was a record, and the docket of business will keep the most conscientious commissioner wide awake until the close of the session.

Delegates from the Lindsay Presbytery are: Rev. Mann, of Woodville; Rev. Kunkle, of Sonja; Rev. James Watson, of Sonja; H. S. Standerland, of Sonja; and Rev. J. G. McQueen, of First Presbyterian Church, this city, who was to-night, unanimously and enthusiastically elected Moderator on motion of Rev. Dr. Ephraim Scott, and Rev. Dr. R. Douglas Fraser, there were no other nominations.

LEADERS HAD BUSY DAY

The leaders of the Assembly had a very busy time to-day. The train was scheduled to arrive here at 7 a.m. but it was not until 2 p.m. that the C.P.R. train reached Strathcona. Several committees had to hurry their deliberations as a result, so it came about that the initial proceedings were carried out in true western style. The union question was almost unheard of on the Assembly train coming out. Unionists and anti-unionists and federalists seemed to regard the big question as taboo until the Assembly gets at it formally.

LOCATION OF OFFICES

The desire of the west to move the offices from Toronto to some point west of Winnipeg was a matter that gathered groups of easterners into animated discussion. That the far west is feeling its size and strength is quite evident, and that the men here feel that Toronto is too far away is equally patent, but Ontario would find a western church office further distant, and they are prepared to say this at any time.

The Home Mission Committee will present a report this year that will

MEN- YOU NEED NERVE

EARLY INDISCRETIONS AND EXCESSES HAVE UNDERMINED YOUR SYSTEM

The nerves control all actions of the body so that anything that debilitates them will weaken all organs of the system. Early indiscretions and excesses have ruined thousands of promising young men. Unnatural drains sap their vigor and vitality and they never develop to a proper condition of manhood. They remain weaklings, mentally, physically and sexually. How you feel? Are you nervous and weak, dependent and gloomy, specks before the eyes with dark circles under them, weak back, kidneys irritable, palpitation of the heart, bashful, debilitating dreams, sediment in urine, pimples on the face, eyes sunken, hollow cheeks, careworn expression, poor memory, listless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, premature decay, bone pains, hair loose, etc.

This is the condition our New Method Treatment is GUARANTEED TO CURE

We have treated Diseases of Men for almost a lifetime and do not have to experiment. Consult

mark a distinctly new epoch in this department of the work of the Assembly, while the Social Service and Evangelism Board promise a program that will call for serious consideration.

RETIRED MODERATOR'S SERMON

The annual sermon was preached by the Rev. Dr. R.P. MacKay, of Toronto, the retiring Moderator. Dr. MacKay has been for a number of years, the Secretary of the Foreign Mission Committee of the Church, and his sermon indicated his deep interest in this work. The address was a declaration of the needs of living faith to meet a world-wide need. The text was selected from Isaiah 21, 11-12: "The burden of Dumah. He calleth to me out of Seir: 'Watchman, what of the night? Watchman, what of the night?' The watchman said: 'The morning cometh and also the night: if ye will inquire, inquire ye; return, come.'"

MR. C.E. WEEKS WAS REMEMBERED

Advocate.—The members of the Methodist Church presented their late Sunday School Superintendent, Mr. C. E. Weeks, who is now a resident of Lindsay, with a handsome little souvenir of his connection with the school and church in the form of a beautiful writing desk, while Miss Amy Weeks was also given a neat little present by the Junior League of the Church. The presentation was made at a reception tendered to Mr. Weeks in the Church, held Friday evening last.

A large number were present, all of whom regretted the moving from among them of the genial and energetic gentleman, who, for the past fifteen years, had been so closely identified with the Church.

Mr. Weeks, in reply to the address presented him, spoke feelingly

SHE FAINTED WITH THE AGONY

"Fruit-a-lives" Cured Her Kidneys

MOUNTAIN, ONT., DEC. 14th, 1910

"I desire to let the world know the great debt I owe 'Fruit-a-lives' which saved my life when I had given up hope of ever being well again.

For six years, I suffered from dreadful Kidney Disease. My legs and lower part of my body were fearfully swollen. The pain in my side and legs would be so bad that I would faint with the agony.

Five different doctors attended me and all said it was Kidney Disease and gave me no hope of getting well.

A kind neighbor visited me and mentioned the case of Mrs. Fenwick who had been cured of a sickness like mine. I took 'Fruit-a-lives' and in a short time, I began to feel better—the swelling went down—the pains were easier—and soon I was well.

I have gained over 30 pounds since taking 'Fruit-a-lives'—and my friends look upon my recovery as a miracle."

(Miss) MAGGIE JANNACK

"Fruit-a-lives" are sold by all dealers at 50c a box, 6 for \$2.50, trial size, 25c, or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

of the close friendship which had followed his connection with the church and its people and hopes the tie will not be entirely severed.

COMMITTEE SESSIONS OF COUNTY COUNCIL BUSINESS TRANSACTED WITH DESPATCH

Wednesday, June 5

PRINTING COMMITTEE

The Printing Committee met at 2.00 with Reeve Richman presiding. Reeve Dobson wanted to know why the cost of printing had gone up and Warden Steele said it was on account of the higher cost of production, through increase of labor cost. If there was a hold up they would get the work done outside the county, but it did not seem that way at all.

Accounts for printing were then read and passed.

Accounts will be paid to all parts of the county by cheques payable at par at certain points. Thus no risk will be run of losing money through the mails.

An assessor's guide book was purchased for the benefit of the assessors.

COUNTY PROPERTY

The committee on County Property at 2.30.

Mr. Lewis, in connection with painting the doors and windows of the court house, said the work should be done, since it is 14 years since it was done before. It would cost presumably \$175.00.

Mr. Dobson wanted a good paint used.

Messrs. Davitt and Babcock moved that the painting be done. It was carried.

In what manner do you intend to have it done.—Mr. Dobson.

Dr. Simms wanted tenders asked for and let a good painter supply the paint. It was suggested that tenders be taken for the work and the chairman have control of the paint and materials. This was added to the motion.

Mr. Bottum wanted painters from the whole county to tender.

Warden Steele said two coats were necessary.

The extension of the heating system to the gaol will have to be deferred if the county rate is to be lowered. The cost, \$1000 would raise the rate.

Mr. Michael wanted the matter left over, and he was seconded by Mr. Robertson. This was done.

The caretaker and wife find that a great quantity of coal dust comes through the floor upstairs when coal is being unloaded. As the single ceiling of the cellar is the floor above, it would be better to seal the ceiling.

In regard to flooding of the cellar, the electric pump was found to be satisfactory.

A metal ceiling or plaster was proposed. Mr. Bottum told of a paper sheeting costing only \$25 a thousand which may be got in different lengths. It is used for cottages and walls extensively. The floor will be sealed under the direction of the chairman.

In some counties the gaoler and

turnkey are supplied with uniforms, and the question of equipping them here was considered.

Mr. Dobson moved it be left until fall, but Messrs. Varcoe and Devitt's motion that it be not considered was passed.

It cost \$23.21 to put in a bath for the gaoler.

A brick floor in the court house has been replaced with cement which is much cleaner and more sanitary.

Another radiator has been placed in Judge Harding's room in the court house and one changed in the registry office.

The electric pump motor was burned out through the power being shut off at the Falls on Sunday, which necessitated an expenditure of \$37.00.

When the power is reduced or shut off and comes on gradually, the effect is sometimes disastrous to a loaded motor.

The bill for the Warden's gown was found to be \$50.

The ashes will be placed upon Colborne street, north of the gaol.

The reduction through the new scale of prices of electric light was \$5 in three months over last year or almost one third.

the grand jury and not by the police magistrate, and this will add heavily. The Collegiate costs \$1800 more per year than in 1908 and the inspection of schools \$880. Even county council costs \$700 more than it used to. Nearly \$5000 in grants is given to various societies and purposes. It is estimated that \$2000 will cover actual requirements of the roads and bridges of the county. The total to be levied for this year is estimated at \$38,391.41. Last year \$39,842.86 was raised. The rate was 2 1/2 mills last year and \$1600 will be saved or 1-10 of a mill this year. A government grant of \$2000 may still be secured through Col. Hughes. The motion of Messrs. Michael and Devitt to make the rate 2 4-10 mills was carried.

The new law in regard to hospitals is that tubercular cases must be admitted and cared for and claims up to \$1 a day can be obtained from the county. If they do not receive the patients, the hospital will receive no grants from the government.

The deputation that waited on the government with others from all over the Dominion was very small, but fairly successful, according to Warden Steele and Reeve Morrison. Reeve Bottum spoke of unfavorable weather as a detriment.

The Warden and Reeve Morrison had held out that the hospitals which they were advocating should be built and maintained by the government entirely. Hon. Mr. Hanna was not agreeable to this plan and insisted that counties help pay.

A change in the law makes it compulsory for anyone committed to the House of Refuge to stay there until properly discharged at the end of his term. If a man works away part of the time and then comes back in the winter and will pay \$2 a week he is admitted and let go when desired. Since the last session of the council seven inmates of the house have died. The preaching of the gospel at the house was discussed, and the present irregular system of service was objected to. The ministers of town had difficulty in getting out until very late in the afternoon on account of Sunday school and other engagements.

In regard to an incurable from South Verulam, who had finances but could not be admitted, he was sent up to a home for incurables and finally died, leaving \$172 to pay for funeral expenses. Mr. Devitt wanted half pay by the county, but Mr. Dobson said the town of Lindsay had to pay entirely for small pox cases, so why should not Verulam pay it all?

Mr. Devitt explained what he was up against. If he had known that he was going to die in a week a nurse would have been hired at much less than \$172. The funeral expenses were considered most exorbitant as a similar case cost but \$135.

Mr. Michael said it would be better to maintain a ward for incurables and supply a doctor and a nurse.

Mr. Graham was of the opinion that a per cent. should be fixed to be paid by a municipality if such cases arise.

In the future 40 per cent. of the cost of such cases will be borne by the county, through the motion of Warden Steele and Reeve Varcoe being carried.

On the motion of Graham and Richman \$50 will be given as an additional grant to the Children's Aid Society.

A request by the National Sanitarium Association for a grant raised a brisk discussion, concerning the merits of this institution. \$25 was granted on the motion of Reeves Tolmie and Dobson.

At ten o'clock this morning the council met and the number of motions put indicated the nature and amount of business for the remainder of the session.

The entire council will make up the equalization for 1913 on the motion of Reeves Devitt and Mulligan.

A grant toward the rebuilding of Nichol's bridge in the township of Somerville will come up at the Roads and Bridges Committee.

The Emily Agricultural Society desires a grant.

Reeves Richman and Simms are after a grant towards the repairing of the bridge over the north bay of Balsam Lake.

Messrs. Dobson and Babcock made the preliminary move for a grant from the county to Lindsay Central Fair.

A grant towards the repairing of Lancaster's bridge between Victoria and Peterboro county is desired.

Reeve Robertson read the report of the Printing Committee, and Reeve Graham that of the County Property.

The council adjourned until 10 a. m. Friday.

Electric Restorer for Men

Restores every nerve in the body to its proper tension; restores vim and vitality. Premature decay and all sexual weakness averted at once. Phosphorus will build you new cells. Price \$2.50 per bottle for 25c. Mailed to any address. The Sobell Drug Co., St. Louis, Mo.

PRIMARY STEP IN ROADMAKING IS THOROUGH SYSTEM OF SUB-DRAINAGE

The following letter was read at last night's meeting of the council: To the Mayor and Council:

Gentlemen,—As I understand the paving of one or two streets in the town will come up for your consideration in the near future, I beg leave to submit a few remarks, in the hope that they may be of some little use in arriving at some decision.

Whereas the town has never yet entered upon the primary step towards good roads and consequently has never yet enjoyed what would have been the result of having made the primary step, it seems to me that the first money you spend in roadmaking should surely be spent in making that primary step. The primary step in any kind of roadmaking, whether it be ordinary clay, macadam or costly pavement, is to put the subsoil, which is to support that road, in a perfectly dry, solid conditions, the only means of which in clay soil, is through sub drainage.

Therefore I would say that if such streets as Bond or Cambridge street, or any other street or part of street in the town, received thorough sub-drainage, there would be no need for any pavement on such streets. In fact clay as it is, properly supported by 6 or 7 feet in depth of perfectly dry subsoil will constitute a very satisfactory road until such time as it is desirable to apply road metal. The cost of providing thorough sub-drainage from the head of Bond street to the river could not exceed \$1,000, and with careful engineering would cost much less.

Should you contemplate any such work in the near future, I would be pleased to make the necessary surveys and submit plans and estimates etc., at a fair charge, which would be a percentage on the contract price of the work.

Yours truly,
OLIVER SMITH.

THE TOURIST AND EXCURSION TRADE AND ITS IMPORTANCE TO A TOWN

The announcement made in the Post that a summer hotel would likely be built at Sturgeon Point either this year or next has caused considerable talk among our citizens. The consensus of opinion seems to be that a hostelry of this nature on Sturgeon Lake would be one of the greatest advertisements this town and district could have.

There is no denying the fact that our importance as an excursion and tourist centre has not been receiving the importance which it deserves. This is partly due to the fact that we have made no effort whatever to induce excursions to visit our town, and also because we have not had for some years a boat which catered directly to the excursion and tourist trade.

Years ago Lindsay was the Mecca of a great many excursions. At that time many steamers plied our waters and Sturgeon Point boasted of a hotel. Conditions have changed, however. Other towns, realizing the importance of the excursion and tourist trade, have reached out for it every year and we have the spectacle every season of excursions passing through our town for other nearby centres.

The Post had a conversation with a prominent Orillia gentleman some weeks ago, and this question was discussed. That gentleman stated that Orillia had been quick to realize the value of the excursion trade to that town. Whenever a representative of a society, church or manufacturing concern visited that town with the object of running an excursion there, he was immediately taken in hand, and made acquainted with the town's advantages and attractions. In nearly every instance the excursion came to Orillia, and a civic reception committee met the people at the train and tendered them an official welcome. The people went away delighted with the reception accorded them and Orillia's hospitality spread broadcast.

The merchants of Orillia profited greatly from the excursions. The people spent their money freely, and the merchants made them feel at home in their stores.

Peterboro, Cobourg, Port Hope, in fact all the towns try to induce excursions to visit them, but in Lindsay there is no effort made in this respect.

The people of this town, if they only bestir themselves, can make Lindsay the greatest tourist and excursion centre in the district. Thanks to the late Liberal Government, which took the initiative in the dredging operations, the river Scugog is now being cleared of incumbrances and will in a short time be perfectly safe for large vessels to navigate. Then the proposed hotel at Sturgeon Point will likely be built in the near future. These two important operations ought to encourage our citizens—and more especially our town council—to bring Lindsay's importance as a tourist centre before the world. Get a line out for excursions. The tourists are bound to come if the railroads boom this district, as they say they will, if proper accommodation is provided. Our merchants know the value of Sturgeon Point as a business bringer. Hundreds of dollars is left in Lindsay every year, which will be largely increased if the hotel is erected and if our importance as an excursion centre is persistently proclaimed.

Children Cry FOR FLETCHER'S CASTORIA

The Lindsay Planing Mill

Having taken the business back into my own hands I am prepared to turn out the work as in former times, and ask the continuance of the patronage of my many customers, as has been during the past forty years I have been in business here.

All accounts, either due or owing Williams Bros., will be collected and paid by myself.
