

Children Cry for Fletcher's

CASTORIA

Kind You Have Always Bought, and which has been used for over 30 years, has borne the signature of and has been made under his personal supervision since his infancy. Allow no one to deceive you in this. Counterfeits, imitations and "Just-as-good" are but means to attract attention and endanger the health of infants and children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Indigestion, Wind Colic, all Teething Troubles, and all ailments arising from acidity. It regulates the Stomach and Bowels, soothes and softens the Food, giving healthy and natural sleep. It is the Children's Panacea—The Mother's Friend.

CASTORIA ALWAYS

Bears the Signature of

Wm. D. Galt

Kind You Have Always Bought

In Use For Over 30 Years

CAMBRAY GOT FIRE SCARE

Bucke Brigade Saved the Hamlet

The fire at Cambray on Wednesday afternoon did not assume the proportions it was feared it would at one period, and the loss is not nearly as bad as was reported.

The fire is supposed to have been caused by a bonfire in rear of Mrs. McIntyre's residence, the prevailing high wind carrying the embers to the frame residence, which burned like matchwood. In a short time it was a mass of flames, and it was impossible to save any of the contents.

A general conflagration looked imminent, as the sparks were flying in all directions, but owing to the brave efforts of a bucket brigade the flames were confined to the doomed building, although the brick residence of Mr. W. Webster caught fire—several times, and all arrangements were made to move the furniture from the house. W. Rogers, a member of the bucket brigade, put up a plucky fight in saving a workshop from destruction near the McIntyre residence.

The sparks were carried a long distance, and the fence on the farm of Harry Barrett, a half mile from Cambray, took fire.

Mrs. McIntyre had 91200 insurance on house and contents.

LITTLE LAD HAD NARROW ESCAPE

Wednesday afternoon a little lad named Harold Mooney, who lives at the corner of Cambridge and Melbourne-sts., had a narrow escape from being run over by Mr. Lindsay's hack near the corner of Kent and Cambridge-sts. The little lad did not notice the approach of the conveyance until he was knocked down. Fortunately, the wheels missed going over his body or he might have been seriously hurt. The driver of the hack picked the young lad up and took him to his home. He was out ten minutes after the accident. No blame is attached to the driver.

BEEKEEPERS HAD FIELD DAY

The beekeepers of Victoria County held their annual field day yesterday at Mr. James Storer's apiary on Durham Street West. About forty persons from the surrounding country who are interested in bees were in attendance and a very profitable time was spent.

Mr. William Agar, of the O.A.C., Guelph, spoke on "The Wax Press" and gave a demonstration of its use. He also demonstrated the shaking treatment for foul brood.

Mr. James Storer told the gathering about his method of making nuclei.

Mr. W. W. Webster, of Little Britain, opened a hive and showed the way to clip a queen. He also demonstrated the way to handle combs.

Mr. A. A. Knight, B. S. A., the local district representative of the Ontario Department of Agriculture, gave an address on the benefits of organization; also referring to foul brood.

SERIOUS ACCIDENT AT OAKWOOD

A serious runaway accident occurred at Oakwood on Wednesday evening.

Rev. J. U. Watt, who had been attending the Presbyterian Congress at Toronto, was returning from the railway station in company with Mrs. Watt and little child. When near the village the horse took fright at some poles on the roadside, and ran away, throwing the occupants of the buggy out on the road.

The little child escaped unhurt and Rev. Mr. Watt sustained several minor bruises and a shaking up. Mrs. Watt, however, was more seriously injured, sustaining a severe concussion of the brain. She was removed to her home and Dr. Rich of Lindsay was sent for. She is reported as being some better this morning.

WOMAN'S INSTITUTE OF WEST OPS

The West Ops Women's Institute held their regular monthly meeting on Wednesday, June 11th at the home of Mrs. E. H. Hopkins, with seventy-six ladies present.

After opening the meeting with the singing of the Maple Leaf, Mrs. H. Irwin gave a reading, and during the afternoon Mrs. A. Newman sang a solo. It was decided not to hold the garden party that had been proposed at a previous meeting.

Miss E. Chapman, a government representative, gave two excellent addresses on "A country girl, her possibilities and needs," and "A way to a man's heart," which were very much enjoyed by those present. Between the two topics, the president asked Mrs. Frank Webster, who had been district president of West Victoria for a number of years, Mrs. Milne, president of the Lindsay branch, and Mrs. H. Eyres, of the Cameron branch to say a few words. The meeting closed by singing God Save the King, after which refreshments were served by Mrs. E. H. Hopkins, Mrs. T. Hazelton, Mrs. P. Murphy, and Mrs. A. Newman. The next meeting will be held at the home of Mrs. R. Sanderson on Thursday, July 10th.

CONCRETE BRIDGE W. CROSS CREEKS

The committee of the County Council appointed to take action in the matter of the West Cross Creeks bridge met on Friday afternoon. After inspecting the structure they decided to erect a new bridge of reinforced concrete. The structure will be 38 feet long, with 20 inch beams, and will be similar to a concrete bridge now being constructed in Mariposa.

A sub-committee to complete details was appointed, consisting of the Warden and Reeves Robertson and Varcoe. The members of the committee were Warden Bottum, and Messrs J. J. Devitt, W. McWatters, I. H. Fee, A. J. Varcoe, J. Robertson.

Mr. James Byrne, who had charge of the work of repairing the East Cross Creeks bridge has completed the job.

TELEPHONE CO. LAYING CONDUIT

The staff of men employed by the Bell Telephone Co. in the work of installing their wires underground on Kent and William-sts., started laying the conduits this morning. Judging from the business-like system adopted by the Company in this undertaking, it will only be a matter of a short time until the work is completed.

A. L. CAMPBELL ARRIVES HOME

Mr. A. L. Campbell, another one of the local round-the-world trippers, arrived home from Toronto by auto on Sunday, and today is busy shaking hands with his host of friends. Lorne is the picture of health and in response to the hundreds of enquiries stated that he never felt better in his life. It is unnecessary to state that he enjoyed the trip. He is warm in his praise of the courtesy of the captain and crew of the S. S. Empress of Russia, and the different C. P. R. officials.

MAKING PROGRESS ON ARMORY

Contractor Bogue is making splendid progress on the armory. He has been favored with ideal weather in his operations, and if these conditions continue, the structure will be completed in a short time. The foundation has been finished up, and the men are now ready for the stone-work.

MARRIED

LATIMER-SANDERSON—At Peterboro', on Tuesday, June 10, 1913, by Rev. J. N. Clarry, B.A., pastor of St. James' Methodist Church, Rev. Herbert J. Latimer of Victoria Road to Bertha Sanderson, daughter of Mr. and Mrs. R. J. Sanderson, Peterboro'.

FINISHING LOWER END OF CANAL

Toronto Firm Gets a Big Contract

Ottawa, June 11.—After twenty years of more or less continuous construction work the finishing touches are now being put on the southern portion of the Trent Valley Canal. A contract has just been awarded by the Government to Roger Miller & Sons of Toronto, for the lock gates on sections three and four of the canal, thus completing the outlet to Trenton on the Bay of Quinte from Lake Simcoe.

Tenders will be called shortly for beginning the work on the northern section of the canal from Lake Simcoe to Georgian Bay, via the Severn River. The total expenditure on the canal so far has been about \$11,000,000. It will cost another \$5,000,000 to complete it and give a continuous six to seven foot waterway from Georgian Bay to Lake Ontario.

It is understood that the contract awarded to Messrs Roger Miller & Sons of Toronto, is for the construction and erection of 40 double-lock gates on the Trent Canal and a point of 40 miles further up the Canal. The contract price was said to be \$250,000. The work will commence at once and the contracting firm expect to complete the entire contract by the autumn of 1914. The completion of these gates will mean the completion of the canal so far as the forty miles affected are concerned.

Messrs Miller & Sons are preparing to put up a plant at Trenton to carry on the construction work. This plant will be transferred from the present headquarters of the firm at Sault Ste. Marie for the purpose and will be kept steadily running till the work is completed.

GREAT ANIMAL ACTS WITH CIRCUS

A German dog and monkey circus is a feature animal act with the Barnum and Bailey circus this season. In this strange company of actors is found the laughing attraction of the age. They give a performance that lasts for half an hour and ends with a little melodrama in which dogs and monkeys play all the parts. The play finished with a fire scene.

The villain, out of hatred, has set fire to the hero's house. An alarm is sent in. The fire company, composed of dogs, with a miniature but complete fire fighting equipment, responds. The captain of the brigade mounts a ladder and rescues a poodle from the second story of the cottage. The villain is thrust into jail by an ape policeman, and all ends happily.

There are many novel trained animal features with the Barnum and Bailey circus. There is a brass band of elephants, and a complete baseball team of elephant ball players, Berzac's comedy horse circus, a troupe of wonderful Hungarian horses and a barnyard full of educated roosters, geese and pigs. Comedy is added to the show by a company of fifty clowns, buffoons, jesters and fools engaged to make people laugh. It is said they are earning their salaries.

Howls of merriment are evoked by these artistic rib-tickers. They are the best of Europe's exponents of the latest and highest class farcical hilarity. They chase the wrinkles of worry from the brow of care. They plunge the most sedate into fits of the giggles. Time worn slap-stick tactics and inane horse-play of the overworked clown of past years are never resorted to by these artistic buffoons. They have had the best training in schools of legitimate comedy. They are pastmasters in the art of making people laugh. Not many years ago one of them was a jester in the court of the Shah of Persia. Several of them have played leading parts in the Drury Lane Christmas pantomimes at London. Others are from the comedy theatres of Paris, Berlin and St. Petersburg. Many of our own stage burlesque stars are to be found among them.

The circus comes to Lindsay on June 21st.

BORN

O'NEIL—At King's Wharf, Emily, on Friday, June 13, 1913, to Mr. and Mrs. J. L. O'Neil, a daughter.

WOODVILLE ELECTRIC LIGHTING PLANT

Woodville Advocate.—Final arrangements have been made for the purchase of Mr. Adam Dobson of his interest in the electric lighting plant of the village, and the matter of submission to the people of the necessary by-law was taken up at the regular meeting of the council Monday evening. The vote will be taken on Tuesday, 15th of July.

POLICE LOOKING FOR ABDUCTOR

Woodville Advocate: A provisional detective and the constable from Sutton were in town Friday on their way north in the endeavor to locate one, Vanburen, who is wanted on a charge of having abducted from her home a fifteen year old girl by the name of Rose Thompson.

Vanburen, who is a married man, with a family of children, induced the girl to leave home with him on Sunday the 1st inst., when the father of the girl swore out a warrant for his arrest.

The couple are supposed to have gone north, having been seen in Beaverton on Monday. At time of going to press the couple have not been located.

CIRCUS AGENT PRAISES POST

"You have got one of the brightest and newsiest little dailies I have seen in my travels," said a Barnum & Bailey circus representative Saturday. "It compares favorably with some of the daily publications in many American centres. The value of The Post as an advertising medium was impressed upon me by an old showman who had previously visited this town with circuses and theatrical attractions. We are, therefore, using your columns more liberally than has been our practice heretofore, as we believe we will get good results. Your merchants are good advertisers in your columns, which is a tribute to their enterprise as well as to your paper."

ALL EYES ARE ON LINDSAY

Peterboro Times: The little town of Lindsay is nothing if not enterprising. They are paving their principal streets and installing a modern system of public illumination. The town has accepted the offer of the Seymour Power Company to install 18 magnetite lamps on Kent and William-sts., south to the G.T.R. station and on Lindsay street north to the C.P.R. station via King or Queen street, at their own cost, the power company to supply free current for three years, and that the question be submitted to the ratepayers for their sanction at the coming January elections.

These magnetite lamps are the "last word" in street lighting. Lindsay seems, not only to have enterprise, but to have made a good bargain in her lights.

Na-Dru-Co Dyspepsia Tablets Quickly Put Disordered Stomachs Right

It's a revelation to the chronic dyspeptic to feel no discomfort after a hearty meal, when that meal is followed by one Na-Dru-Co Dyspepsia Tablet. He is hardly prepared for the almost magic relief which the tablet gives him from the various discomforts to which he is accustomed after eating.

Na-Dru-Co Dyspepsia Tablets sweeten stomachs that are sour—relieve stomachs that feel as if a stone had been swallowed—stop heartburn—and give the needed assistance to stomachs that are weakened.

Containing in themselves the active principle needed for digesting every kind of food, Na-Dru-Co Dyspepsia Tablets enable even the weakest stomachs to get the good out of what is eaten, preventing the accumulation of undigested food and gas. With a little help for a while, the digestive organs recover their strength, do their work properly, and your troubles are over.

Don't go on suffering! Get a 50c. box of Na-Dru-Co Dyspepsia Tablets from your druggist today. National Drug and Chemical Co. of Canada, Limited, Montreal.
