Maple Leaf	145
Myrtle	145
Ormond	200
Young's Point	175
Lang	51
Fraserville	51
North Dummer	110
East Emily	125
Trewern	175
Bensford	165
Cedarvale	80
Stony Lake	43
Cavanville	110
Crown	125
Norwood	170
Fleetwood	180
Oak Leaf	30
Brockley	76
Shamrock	125
Killarney	130
South Burleigh	40

All cheese on the board went at 11:51.

Collegiate Institute Teacher Resigns

Has Handed His Resignation to the Secretary of the Board of Education

Mr. A. W. Dunkley, classical master of the Collegiate has placed his resignation in the hands of the secretary of the Board of Education. He has accepted the appointment to a similar position on the Hamilton Collegiate staff.

Mr. Dunkley came to Lindsay from Orangeville at Christmas having been on the staff for seven years. While in Lindsay he has proved himself an excellent teacher and has been very popular with the students who will regret to hear of his decision to leave Lindsay.

An enthusiastic sportsman he did much for the cause of athletics among the L.C.I. boys playing hockey, football and other games with a great deal of skill.

Popular Mr. Dunkley was very popular.

A CONVALESCENT'S SAD CONDITION

Attack of Inflammatory Rheumatism Left Sufferer With No Appetite—Skin Peeled and Hair Came Out in Bunches—Bed Sores Developed—All Treatment Failed Until

A TRIAL OF CUTICURA PROVED SUCCESSFUL

"About four years ago I had a very severe attack of inflammatory rheumatism. I was taken very ill and was soon in a high fever. I did not leave my bed for four months, and during three of those months I could not move voluntarily, the pain was so intense. My skin peeled, and the high fever played havoc with the texture of my hair, which came out in bunches. I also had three large bed sores on my back,—two on the shoulders and one at the waist. I could have cried the first time I saw myself in a mirror. I had lost fully thirty-six pounds, and looked like a consumptive. I did not gain very rapidly, and my appetite was very poor. When I was able to get around, I had all my friends advising remedies, and all guaranteed "sure cures." I tried many, but they were of little help, and until I tried Cuticura Resolvent I had had no real relief. That gave me such an appetite that I felt half starved about all the time, and I immediately began to gain in weight, my complexion cleared, and I felt better. The bed sores went very soon after a few applications of Cuticura Ointment, and when I used Cuticura Soap as a shampoo and Cuticura Ointment as a massage, my hair began to regain its former glossy appearance. I am really all made over, and cannot say enough for the Cuticura Remedies. Mrs. Lavina J. Henderson, 138 Broad St., Stamford, Conn., March 6 and 12, 1907."

ITCHING DEVILS

Are little patches of eczema on the skin, scalp, or hands, which are instantly relieved and speedily cured, in the majority of cases, by gentle anointings of Cuticura Ointment, the great Skin Cure, preceded by warm baths with Cuticura Soap. This treatment succeeds when all else fails, and is pure, sweet, permanent, and economical.

Complete External and Internal Treatment for Every Form of Itch, Eczema, and Acute, Chronic, and Obstinate Skin Diseases. Cuticura Resolvent for the Form of Chronic Ointment Purely of Vegetable Origin. Sold throughout the world. Potter Drug & Chem. Co., Lowell, Mass.

Cuticura Ointment, Cuticura Soap, Cuticura Resolvent, Cuticura Book on Skin Diseases.

Meat Will Go Down When Spring Cattle Come on

Local Butcher Says When Grass Cattle Come on Prices Will Drop

In view of the advance in meat prices in Toronto and other places, local butchers were questioned by The Post as to the prospects here.

Mr. D. Adams said, "There is little prospect of higher prices in meat here. In fact there will be a drop in price before it goes up any more. Lamb is cheaper and pork is no dearer. Beef has been the same for some time, the better cuts especially, and when the grass cattle come in the price will go down. So far we have handled nothing but stall-fed stuff." Practically the same story was told at O'Halloran's, Primeau's and the other places in which inquiry was made.

Householders will be glad to know that any change is likely to be a reduction and not an elevation in price.

Suicide Occurs at Port Hope Was Formerly Employed There

W. Wallace of Toronto Drinks Carboic Acid and Crosses the River

W. Wallace committed suicide at Port Hope Wednesday morning by taking a quantity of carboic acid.

Wallace was employed at the Standard Ideal a year ago as a roustabout and came down from Toronto a few days ago in search of work. Unable to find any employment, he spent most of his time about the hotels, and it is said that he had been drinking quite heavily. He was given one night's lodging at the jail and during his stay here had no particular place of abode.

Tuesday evening he visited one of the local drug stores and purchased an ounce and a half of carboic acid, stating that he wished to use it for killing bugs. He took up his quarters for the night in an old sleigh in the driving shed of the Queen's hotel, and soon afterwards swallowed the poison. He was found by the hostler at the Queen's next morning at five o'clock and he had been dead several hours. Coroner Aldrich was called and decided that an inquest was unnecessary. The remains were taken in charge by Mr. Alf. George and arrangements for the interment were made by local members of the union.

Deceased was about forty-five years of age, five foot six inches in height, dark moustache and partially bald. He wore a dark tweed suit, black sateen shirt and cravat. It is thought he has a wife and family living in Toronto, and an effort is being made to locate them.

Friday Night's Excursion

Ladies' Aid of Cambridge St. Methodist Church Score a Success

The members of the Cambridge-st. Methodist Ladies' Aid felt amply satisfied with the moonlight excursion held Wednesday in Fenelon Falls. Over 225 "kidds, paters and maters" and other folks were on board the Esturgeon when she pulled out, ready to take full advantage of the enjoyment of the evening. Although the moon was discernible, it failed to shine to any degree of excess, but the "twinkle, twinkle, little star" did the very best it could. Some delightful music was rendered by the Sylvester band on board the boat and at the "quant Cataract Village," and it was certainly much appreciated by everyone. On returning to town, it was easy to judge from the remarks of the passengers, that it was an assured fact that a most enjoyable evening had been spent.

Story of the Lindsay Jail

The Provincial Inspector's Report

Details of Business Transacted at the County's House of Entertainment

The fortieth annual report of the Inspector of Prisons and Public Charities, Dr. Bruce Smith, of Toronto. Just to hand, shows some figures in connection with the Lindsay Jail. There are 40 male and 28 female prisoners admitted during the year, against 34 and 7 respectively in the previous year. The number of those admitted for drunkenness was an increase of four. For the last twenty years the average yearly has been about five. During the year there had been one insane or feeble minded prisoner. For the year ending Sept. 30 1907 the number committed was 31 two of whom were under sixteen years of age. In each case it was their first experience, so they paid. One got his for felonious assault. Four for counterfeiting and passing counterfeit money, two for destroying or injuring property, and six for being drunk and disorderly. Ten of those committed to the Lindsay jail were married men of family and twenty-one were not. Four of them could neither read nor write, seventeen said they were temperate and fourteen intemperate. It cost

Bridge Will Lay Down in its Tracks

Bridgetender Mills Has His Doubts as to the Present Structure

Bridgetender George Mills thinks it is about time that a new bridge was built to replace the old one on Wellington-st. He fully expects that the present one will lay down in its tracks some of these days and quit working. He thinks that the town council should wait upon the Government at Ottawa and ask for a new bridge as it requires constant repair to keep the present one in working order.

Lightning Destroyed All the Household Furniture

Peterboro Man Suffers Severe Loss Through Electrical Storm

Tuesday afternoon about 3:20 o'clock, lightning struck the residence of J. Pierce, who is employed by the Erection Carpet Co., Peterboro, and resides on Wescott street. At the time Mrs. Pierce and child were in the house, but were not injured.

The lightning struck the rear of the house and set the interior on fire. A large amount of upholstered parlor and other furniture and most of the other contents were completely destroyed and much damage was done to the interior of the house.

The fire brigade was called and had to be summoned by phone as the call box nearby, No. 14, was put out of working order by the same stroke

There Is Ice For Everybody

Grop Harvested Last Winter Quite Enough to Go Around

Housekeepers who have been wondering whether the ice crop would last out or not may rest assured that there will be enough to go around, according to what Mr. J. Reynolds, ice dealer, told The Post to-day. The price as everybody knows is a little stiffer than last year but he said there was no doubt but what there would be lots to go around. More people use ice every year and that is one problem ice men have to face.

Lightning Melts a Pipe at Peterboro

Woodwork and Much Damage is Done to Interior of Shop

Still another freak of the lightning is reported. During the storm on Tuesday last its costly playfulness was made evident at the premises of Mr. H. T. Millard, who conducts the bicycle repair and sales business, Peterborough.

At about 11:30 o'clock the lightning ran down an electric wire to the interior of the shop and melted a section of gas pipe over which the wire crossed. The piece melted was about six or eight inches in length and the drops of molten matter that fell from it alighted on the top of the silent salesman in the store, leaving innumerable blotches on the glass.

Although the gas was turned off at the meter there was some left on the pipe and when the lightning melted the pipe combustion resulted and some of the woodwork was burned. A man who was passing at the time received such a shock that he was thrown from the pavement into the road. Thinking the place was on fire he went into the hotel next door for help, but no sign of any blaze could be seen when he had summoned assistance.

Only the night previous lightning burned out the motor in Mr. Millard's shop and he had to have the motor removed.

Ghild Scalded To Death

Port Perry Infant Meets Awful Death at Its Parents' Home

A tragically sad event took place at the home of Mr. and Mrs. Rogers, who live about three miles south of Port Perry, one day last week. Their infant child placed a little box beside a tub of scalding water, and in attempting to climb upon the box turned over the tub and was severely scalded. Everything was done to relieve the suffering of the child, and, if possible, save its life. All efforts were fruitless. The little one died in a short time and was buried last Sunday. The sympathy of the whole neighborhood goes out to the bereaved parents in their sorrow.

Interesting Figure from Peterboro

An Octogenarian Attends the Funeral of the Late Mrs. Flavelle

An interesting figure at the funeral of the late Mrs. John Flavelle Thursday was that of Mr. James Stevenson, ex-M.P. of Peterboro. Mr. Stevenson was in the hardware business in Peterboro sixty-two years ago when Mrs. Flavelle came out from Ireland with her husband and he was one of the first friends of the newly arrived family—a relationship which was maintained throughout all the intervening years and only terminated on Tuesday last when Mrs. Flavelle passed away. Mr. Stevenson was one of the first mayors of Peterboro and his business like grasp of affairs won for him the hearty good-will and support of many a political opponent. After that for many years he represented West Peterboro in the House of Commons, though of recent years he has ceased to take any active part in politics, his years, now reaching 86, rendering him less active than formerly.

If the pipe from the sink in the scullery becomes clogged with grease your down strong boiling water the last thing at night, and in the morning flush the sink well with cold water.

Very Enjoyable Excursion

Masonic Fraternity Out on a Pleasure Hunt on Board the Esturgeon

The excursion on the Esturgeon last Thursday under the auspices of Faithful Brethren Lodge, A. F. & A. M., was a grand success from every standpoint.

There were about 130 ladies and gentlemen on board, and they thoroughly enjoyed themselves. The evening was a delightful one and the pleasure of the occasion was very materially enhanced by a number of excellent selections from the Sylvester band.

The boat left the town wharf at half-past six, and after a pleasant sail of about two and a half hours, McConnell's Island was reached. The island was lit up with torches and roman candles for the occasion. A pleasant stay of three hours was made, during which lunch was served and the time was enlivened by the band.

Returning the party left the island at eleven o'clock, reaching home at about half-past one.

Settlement Was Reached

The Suit of the Port Hope Brewing and Malting Company Withdrawn

The case of the Port Hope Brewing and Malting Co. against George Hudson Burton which was to have come up in the non-jury sitting before Mr. Justice Britton was called off, the parties having settled the dispute between themselves.

The plaintiffs claimed the sum of \$282.45 together with interest and the costs of the litigation. This case was transferred to Lindsay by Mr. Justice Anglin, with the consent of the parties concerned.

It seems that in 1904 the defendant had bought several shares of stock from this company and had paid part of the money for these shares. It was when he bought the shares that 20 per cent interest would be paid annually and the company would not combine with any other companies in the same business. These conditions he alleges were not fulfilled, and thus he reasons he is not legally bound to pay the balance due the company. The sum of \$282.45 is the balance claimed by the company.

The case is a very interesting one. C'Connell & Gordon, of Peterborough are for the plaintiffs; T. E. Gordon of Bracebridge, for the defendant.

Boosy Fish Is Captured

Bruce Griffin Gets Maskinonge Near the Brewery.

Mr. Bruce Griffin hooked a tempting looking lunge Thursday near the Lindsay-st. bridge. The near proximity of the brewery probably accounts for the lunge being snipped with such ease. Whatever the reason, a number of ardent fishermen could be seen dangling their legs over various positions of advantage waiting patiently for that "which never comes."

If boiled water is poured several times from one jug to another after it has cooled it will not have that flat taste that it usually possesses.

NO HONING—NO GRINDING

Steel is iron free from dirt, air or foreign substance fused with carbon. Carbon gives toughness, strength, keeness and life. Thirty year's study of the razor situation has shown a way to add the highest per cent of carbon to a Carbo Magnetic razor blade through a secret process.
