

Just Eight Days More and Ford's Will Close

WE ARE DRIVING PRICES DOWN AND GOODS OUT

There have been lots of sales but none have equalled this—because we close up our business on Saturday night, August 1st—because we are determined to reduce this stock as much as possible—because of the remarkable bargains on new and desirable goods for summer, autumn or winter wear—because nothing has escaped the reduction wave and you can save up to 50 per cent. on everything you buy—because it will sell at cost price rather than at a rate on the dollar to one who will buy us outright—because if you were a merchant you could not buy as cheaply, as we are selling now, direct from the makers or wholesale houses.

Now for the final clean-up. Come prepared to buy liberally for the savings are big and you will find opportunities enough. All these lines selling at wholesale and less.
