

### Roofing Right Costs No Less —But It Is Far Cheaper

SOME shingle roofs keep out the worst of the weather if you patch them up every summer. They ought to last at least ten years, if they're well cared for.

Some metal shingles are made of pretty good IRON. They make passably good roofs for maybe fifteen years—IF you paint them every year—two coats.

BUT—these "Oshawa" Special Galvanized STEEL Shingles of mine are GUARANTEED to make a REALLY good roof for twenty-five years (and that means a NEW roof for nothing if they leak a single drop in all that time).

AND—You needn't ever paint an "Oshawa" shingled roof—the heavy galvanizing, the 28-gaugesheet steel, the four-way lock, makes paint needless. True these "Oshawa" shingles cost

about the same at the go-in as good cedar shingles or as ordinary metal shingles. (You notice nobody but me calls their shingles STEEL—metal is a handier word).

But my shingles are not only guaranteed for 25 years—in writing, with a new-roof-for-nothing penalty add \$250,000 back of my say—they are also guaranteed to be rain-proof, snow-proof, wind-proof, fire-proof and lightning-proof.

As a matter of cold fact, they are good for a century. How are you going to make weather-proof steel rust or rot?

Wouldn't it really pay you to send a postcard for a free book that tells the whole story in plain words? My shingles cover thousands of the finest barns and houses and public buildings all over Canada. Though the same 25-year guarantee goes with every roof, we've never been called on yet to make it good. Read the book, won't you?

### "Oshawa" Galvanized Steel Shingles

A New Roof for Nothing if this one Leaks by 1953.

We will send postpaid and free samples of Pedlar Art Steel Ceilings and Side Walls, of which we make more than 2,000 designs.

### Water Commissioners Discuss Extensions

Business Transacted at a Meeting Held this Morning

A meeting of the Water Commissioners was held in the Waterworks office, there being present the chairman, Mr. J. D. Flavell, Mayor Bezz, Superintendent Hammond and Mr. D. Sinclair.

Several applications for water service were read and granted, the expenses lately incurred were also discussed and on motion of Mayor Bezz, seconded by Mr. Sinclair, the secretary was instructed to pay them.

Mrs. Weldon, Bond-st., wished to have her house supplied with water, but as the pipe, which is only a half inch one, is now overloaded, the commissioners were in doubt whether to have a new six-inch main put in along Bond from Cambridge to Victoria-ave., or to connect by an extra hundred feet of half-inch pipe with the large church main. While the cost of the larger size of pipe for the greater distance would be more expensive, it was thought that a few more residents might be induced to have the water system put in and the supply would still be sufficient. It was urged, however, that the supply for Mrs. Weldon be taken from the church main, because considerable money had been spent already and that next year, as a new main would have to be constructed from Victoria-ave. to Sussex-st., it would be better to put in the two blocks of pipe at one time. Finally it was decided that the connection with the church main be made.

An application for a hydrant at the corner of William and Colborne-sts. was read and Mayor Bezz was instructed to bring the matter before the Council at their next meeting. A letter was then read from Mr. Bridge, of Philadelphia, saying that he would likely be in town on Thursday (to-day) and consult the water commissioners about the ozone process of filtration for this town.

Chairman Flavell thought that if Lurday gets filtration by this process it will be far cheaper now when in

the experimental stage than when large cities have begun to use it and the value of such a system realized. If the plant were installed sufficient time must be taken to find out the efficiency and cost before a comparison could be made with the present system.

The arrears in the water rates were read and the secretary advised what to do in some cases. Cutting off the water supply was the advice in some cases.

Mr. Richard Spiatt made complaint as to the inaccuracy of his account, which was rectified.

A citizen is to be sued for \$500 the cost of repairing done by the waterworks.

### Church Notes

**ST. ANDREW'S**  
Rev. James Wallace, M.A., B.D. occupied the pulpit at St. Andrew's church Sunday at both services.

In the morning he took his text from 11 Chronicles, 30, 5. "For they had not done it of a long-time in such sort as it was written." Hezekiah had just completed the restoration of the temple. He was interested in this great work of God, and was supported by a loyal band of followers. He still cherished the hope of uniting Israel, but he had some hard lines to obliterate that he knew not of. Some people, who are in favor of church unions have not thought of these things either.

There were many people who suspected Hezekiah's motives. There are always some men who will inquire the motives that form the basis. We can more readily excuse a man who has tried but a man who never made the attempt we cannot excuse. That which we have neglected to take vengeance upon us. If there is a loss of desire to do that which is right then we should strive all the more in that direction. It is a noble idea that we should be able to draw men unto us. The meaning of religion is not self salvation but self sacrifice. Christ desired that all men might be saved and if every one did his duty this would be accomplished.

In the evening the Rev. Mr. Wallace took for his text St. Mark, 24, 6. "And she said, the head of John the Baptist."

John was a prisoner at this time in the hands of Herod. There were different reasons but if we are to believe the gospel of St. Mark it was because of his outspoken language in regards to Herod marriage. Herod respected John, but it was his wife who caused his arrest.

The great feast in honor of Herod's birthday was on and the young maid danced before the king. Some amusement had to be provided for the occasion and dancing was according

to the custom. Power can be used for wrong doing and selfishness and in this case this young maid used her power to this end. It is for us to ask ourselves whether we are going to use our power for elevating or degrading people. There are opportunities in the lives of all of us. Shall we ask for something that is mean or selfish or something that is high and uplifting

**ST. MARY'S.**  
Rev. Father Collins preached at both services Sunday, taking as his text, "We have brought the mighty from their seats." In an impressive discourse he pointed out to the congregation the great havoc wrought by the deadly sin of pride and urged upon them the necessity for the cultivation and practice of the great virtue of humility.

**CAMBRIDGE-ST. METHODIST**  
At the Cambridge-St. Methodist church Rev. J. P. Wilson conducted the services both morning and evening. In the morning he gave an interesting discourse from Acts 10, 33 in which Peter is found in Joppa, on the shore of the great sea in the first gentile congregation. "The bible relates how Peter had a strange dream of a sheet being let down from Heaven full of all manner of live things, from which Peter was taught the lesson that the love of God is greater than man's comprehension. Curious to relate, Cornelius, who was a gentile, pictured the same revelation at the same time that Peter had his dream. As a result of this Cornelius and Peter were brought closer together. As in this case when the rich and the poor meet together God makes a union but do not let the rich lose the society of the poor, lest they become hard and callous. Cornelius invited all the people to a gentile service. So should we go out into the world and invite other people into our church. The church cannot afford to lose the influence of a single member. By His grace may we walk in the footsteps of that first congregation and may we have the church as we would wish to have it.

In the evening the text was chosen from John 16, 32, in which he tells how the disciples forsook Christ and fled from him, leaving him alone. But every man with the help of God must be alone and self reliable and must live up to the responsibility thus entrusted him by God.

And this aloneness represents such a responsibility that we must determine our earthly destiny by ourselves only. Is there a man who asks himself how he ever got where he is now? The answer may be, circumstances, but so, it is entirely our own choice God has granted us a will and it is for us to control that will. Circumstance is a great thing but it is not the essential part in choosing one's earthly career. There is nothing more beautiful than to see a man living up to his earthly convictions, nor swerving from his course, no matter what the world may think or what other people may do. Every man must fight his own battle in life alone. Except with the ready aid of Christ, this isolation is entirely complete as far as other men are concerned for we must act and live alone.

**QUEEN-ST. METHODIST.**  
The pastor, Rev. J. R. Riel preached morning and evening to a large congregation. In the morning he took his text from Job 23, 10, Mr. Riel gave a short history of the severe conflicts through which Job was compelled to pass, but gave several illustrations to show that in the midst of the most severe trials Job still retained his integrity. In the evening the subject was, systematic and proportionate giving.

**Parkin's Yacht Out of Business**  
Crank and Connecting Rod were Broken while Going Through Locks  
Mr. Arthur Parkin had the misfortune on Saturday evening to have a serious accident happen to the engine of his gasoline yacht, which will put her out of commission for some time, until repairs can be procured from the makers. He was on his way through the locks and had started up the engine to move the boat when something went wrong with her machinery and the result is a broken crank case and a broken connecting rod.

**Business on the Railways Brisk**  
All the Available Cars are Now in Commission  
The Grand Trunk railway is very busy these days. There is a considerable amount of freight being shipped and all the cars available are being used. It is the same with the C. P. R. That line is also exceedingly busy. The freight hands are kept hustling all the time to handle the goods. When asked if they shipped much freight to the far east or west, Agent Anderson said it would surprise many of our citizens to see how much freight was shipped to these distant points. Both agents at the stations said there were quite a few tickets sold for Quebec during the past week.

**Storing Hay Crop to Best Advantage**  
When Hay Should be Taken into the Barn—Quality of Aroma  
Hay that is put into the barn in so dry a condition that it will not pack well, will not make fodder of first quality. Hay should be taken to the barn with just that amount of moisture which will allow it to settle compactly when trodden down. Such a condition can scarcely be described, but is well known to all of us who have had years of experience in making hay. This desirable condition will be approached more accurately where the hay has been cooked and allowed to sweat over night. When taken

### "FRUIT-A-TIVES" CAN BE HAD IN 25c. TRIAL SIZE

AS WELL AS IN REGULAR 50c. BOXES.

Everybody Can Afford To Give These Wonderful Tablets a Trial at Least And Prove Their Value.

"Fruit-a-tives" or "Fruit Liver Tablets," the wonderful medicine made from the juices of ripe fruits, have scored a remarkable success. The demand for them has grown in four years till it now extends from the Atlantic to the Pacific. Druggists at first bought them in lots of one dozen boxes—to retail for \$6.00. Now it is no uncommon thing to receive orders from wholesalers for 100 gross lots (14,400 boxes)—to retail for \$7,200. There is only one reason for this great success—they cure sick people.

But still there are homes where "Fruit-a-tives" have not been tried—homes where they still suffer from Constipation, Biliousness, Kidney Trouble, Skin Diseases, Neuralgia, Rheumatism and kindred painful and weakening ailments—often because they have not cared to risk 50c. to try "Fruit-a-tives" when other medicines—supposed to cure—could be had for 25c.

This last objection to trying "Fruit-a-tives" has now been overcome. We have put out a new trial size to retail at 25c. The price no longer stands in the way. Get a trial box and see for yourself that "Fruit-a-tives" will help you.

If your dealer has not the 25c. trial size, let us know. Give us your name and address and we will send you a booklet—free—containing valuable recipes and stories of what "Fruit-a-tives" have done. Fruit-a-tives Limited, Ottawa, Ont.

from a window or from the earth either by hand or by means of a hay loader, it is difficult to tell just what amount of moisture it contains or what condition it really is in. After being cooked for a time and then exposed to the air in flakes, any superfluous moisture which the hay contains is soon diffused in the air and the hay becomes in an ideal condition for hauling.

A quality that is little reckoned with by the casual observer is the aroma of hay. The aroma though, an unweighable quantity, is of real value in rendering hay more palatable. All are agreed that green colored, sweet smelling hay is much to be preferred to the bleached, straw like product, which is too often made. The aroma is best preserved in hay by getting it into the barn as quickly as possible and preserving it from exposure to dew and rain.

Personally, we always prefer to salt the hay when drawn to the barn, though some of our best authorities upon hay making talk against this practice. It has been our experience that salt renders the hay more palatable and should the hay be stored in an unfavorable condition, it tends to prevent the formation of moulds and mildews, and checks fermentation.

If it is necessary to feed new mown hay, it should be fed with caution. The stock are particularly fond of it and are inclined to eat too much. The new mown hay is laxative and therefore should not be fed to hard working horses, as their flesh will become soft through its use. Not until the sweating process has been completed in the mow and the whole whole mass cooled off can new hay safely be fed.

All the Available Cars are Now in Commission

The Grand Trunk railway is very busy these days. There is a considerable amount of freight being shipped and all the cars available are being used. It is the same with the C. P. R. That line is also exceedingly busy. The freight hands are kept hustling all the time to handle the goods. When asked if they shipped much freight to the far east or west, Agent Anderson said it would surprise many of our citizens to see how much freight was shipped to these distant points. Both agents at the stations said there were quite a few tickets sold for Quebec during the past week.

**Pym House Sold to Toronto Man**  
Transfer Takes Place on August 3rd—Mr. McCrohan New Proprietor  
The well known and popular hotel, the Pym house, on Saturday last, was sold to E. O. McCrohan, of Toronto. Mr. McCrohan is well known to the travelling public, having for a number of years kept hotel in Oshawa, and is well spoken of. He will take possession on August 3rd.

Pym Brothers are still owners of the building.

**Forestric Services at Cambray**  
Rev. M. Tompkins Delivers an Interesting Sermon

On Sunday evening the Independent Foresters of Cambray, held their annual church parade. There was a large attendance of the members who were joined by a goodly delegation from Lindsay and Hartley. The brethren marched in a body from the lodge room to the Metho-

dist church, being marshalled by Chief Ranger Maxson, of Lindsay. When the members were seated they, together with the congregation, filled the church to its utmost capacity and all were exceedingly well pleased with the services, the singing being excellent and the sermon apropos, interesting and impressive.

Rev. Mr. Tompkins, in opening his discourse, extended a warm welcome to the members of the order before him. He expressed his hearty appreciation for the work done by the order in succoring the fatherless and the widowed and in its fraternal aspect. He was a strong believer in fraternal insurance for the poor man and the man in moderate circumstances, and wished for this organization the fullest measure of success.

The Rev. gentleman then took for his text the 4th chapter of Genesis, at the 6th verse, "Am I my brother's keeper?" from which he preached a most appropriate sermon on the brotherhood of man and the responsibilities which lie upon all in connection therewith.

On the return of the Foresters to their hall resolutions of thanks were passed in recognition of the services of Rev. Mr. Tompkins, and the choir, after which the visitors were entertained at lunch at the Temperance house.

### Reaboro Hobos Trimmed by Clippers

Hill Head Boys Show Their Antagonists a Few

Had Shakespeare been living at the present time and had he been a spectator at the baseball match between Hill Head and Reaboro, he certainly would have mentioned the said match in his "Comedy of Errors."

In the first innings the Clippers succeeded in securing three runs, one being a "home" by Joe. Hickson. In this innings the Reaboro bunch only managed to cross the home plate once.

In the second innings the Clippers went out, 1, 2, 3. Then the Reaboro Hobos secured an additional pair of runs, tying the score. In this innings Hart, who was catching for the Clippers, became so excited when someone mentioned Powles' Corner, that he threw the ball over first base and let a man in from second.

In the third innings the balloon went up, and before "Hesterfer" Reeds, the Hobo pitcher, descended in his parachute the Clippers had added 13 more counters. Reaboro could only score 2 runs. The score then stood 16 to 5, and Umpire Hickson declared it too dark to continue the fireworks.

The line-up:  
Hobos: E. O. Hart, catcher; N. C. Hart, 2. Reeds, pitcher; J. Hickson, W. Moore, 1 base; P. Hawkins, W. Arkwright, 2 base; D. Reeds, B. Blacnevan, 3 base; F. McMann, H. Macnevan, 3 base; T. Hawkins, J. Crown, 1 base; C. C. Deyell, K. Reid, 1 base; L. Jones, Umpire, G. Kieckson; scorer, F. Arkasay.

Clippers: N. C. Hart, catcher; J. Hickson, W. Moore, 1 base; P. Hawkins, W. Arkwright, 2 base; D. Reeds, B. Blacnevan, 3 base; F. McMann, H. Macnevan, 3 base; T. Hawkins, J. Crown, 1 base; C. C. Deyell, K. Reid, 1 base; L. Jones, Umpire, G. Kieckson; scorer, F. Arkasay.

Geese, those clippers did hit the horsehide some.

Pat Hickson had his peepers on the ball and gave his decisions in sonorous tones.

N. C. Hart slightly injured his finger, but hopes to recover before the next game.

S. Reeds, a second Hesterfer, was slightly off color, but will show his colors next time.

Joe. Hickson had a sort of combination between a "Hoater-lob" and Rudolph's spit ball.

Return match at Reaboro on July 28th, when the Hobos expect to administer a dose of calomine to the clippers.

**Pym House Sold to Toronto Man**  
Transfer Takes Place on August 3rd—Mr. McCrohan New Proprietor

The well known and popular hotel, the Pym house, on Saturday last, was sold to E. O. McCrohan, of Toronto. Mr. McCrohan is well known to the travelling public, having for a number of years kept hotel in Oshawa, and is well spoken of. He will take possession on August 3rd.

### A Very Creditable State of Affairs

Peterboro Orange Demonstration Was a Highly Respectable One

Monday last an Orange demonstration took place in the City of Peterboro. It is estimated that over 16,000 visitors came to the city, which with the present population of over 16,000, totals up to over 32,000 people. At the police court the following morning eight men only, were charged with drunkenness, of which four cases were dismissed, two were remanded, and the remaining two were fined \$2 each. Of the latter four not a single man was an Orangeman and of the original eight charged not a man was a resident of Peterboro. Can any other town or city in the continent beat this record?

### Caught a Big One In the River

Mr. Ed. Geary Hooked a Twenty Pounder Above Cemetery

While trolling in the river above the cemetery on Friday afternoon Mr. Ed. Geary, of Melbourn-st., landed a fish which tipped the scales at nearly twenty pounds. Mr. Geary had much trouble in landing his prize but after a short struggle he conquered.

### East Oakwood Items of Interest

News Notes Relating to People, Matters and Things

Miss Minnie Graham, of East Oakwood, is to be congratulated on the success of her entrance pupils. Of the twelve successful candidates at Oakwood, five were from the East Oakwood school.

Several from this neighborhood attended the Institute meeting held at Fenelon Falls on July 9th. All found the meeting very instructive, and had a fine trip, arriving home about sunset.

Mr. and Mrs. Frank Hardy, who have lately returned from British Columbia, are visiting friends here.

In the entrance examination results recently published the name M. Train should have been M. Frain, of No. 7, Mariposa, and not No. 13.

The Sunday School excursion to Orillia was very largely attended, and every one seemed to enjoy themselves, although it was a rainy day.

We are glad to see Mr. W. Wakely able to be around again after his recent illness.

The new telephone line is about completed, and will be ready to use next week.

Mr. J. Thompson has just completed the foundation of his stable.

The members of the Women's Institute in this vicinity attended the social at Mr. Moses Webster's last Wednesday. Mr. C. Shannon and Miss Frain assisted at the tables, and Miss Eva Richardson helped in the programme.

Haying here is almost over, and the berry pickers are quite busy this past week.

A band concert is to be given on the lawn of Mr. Wm. Channon. A hearty invitation is extended to every one to come and enjoy the evening.

### Sturgeon Point Association

Officers Elected and Details of Regatta Arranged

An adjourned meeting of the Sturgeon Point Association was held in the rain shelter on Friday, Mr. A. O. Hogg called the meeting to order. The report of the nominating committee was accepted, electing the following:

President—F. Holmes Hopkins. Sec'y.—J. E. Anderson. Regatta committee—Arch. McIntyre, chairman; Robt Miller, J. C. Grace, Jos. Brown, W. H. Simpson, G. H. Hopkins, F. E. Daggit, J. D. Flavell, A. O. Hogg, Bruce Wilson, Blake Catruthers, Lloyd Wood, Carlton Warner.

After considerable discussion it was decided to hold the regatta on Thursday, August 6th.

Messrs. Bruce Wilson, Bruce Hopkins and Lloyd Wood were appointed to assist the treasurer in the collecting.

Messrs. Geo. Goodwin, Daggit the president and secretary were appointed to make arrangements in regard to the regatta pin.

On motion of Geo. Goodwin, seconded by Bruce Hopkins, it was decided that there must be at least three starters in any event in order to have a race.

Last year's programme of events was carefully revised and the following will probably be the program for this year.  
1. Gasoline power boats, open.  
2. Sailing race for Sturgeon Lake championship flag.  
3. Dinghy race, 5 miles.

- 4. Canoe paddling, girls' tandem and under.
- 5. Swimming race, 16 and under.
- 6. Gunwale race.
- 7. Swimming race, open.
- 8. Upset race.
- 9. Canoe paddling, ladies' tandem and under.
- 10. Canoe paddling, boys' tandem and under.
- 11. Gasoline launch race, 8 horse power, and over 3 h. p.
- 12. Gasoline launch race.
- 13. Canoe paddling, mixed tandem.
- 14. Crab race.
- 15. Open launch race, 3 miles.
- 16. Canoe paddling, 4 in canoe.
- 17. Tug of war, 4 in canoe.
- 18. Tilted tournament.
- 19. Canoe paddling, ladies' open.

Lindsay aquatic sports should be on hand to clean things up in a number of the events. The four in a canoe, the tilting the tug of war, the gasoline launch events and many others should be won by local competitors.

### Enjoying the Camp at Balsam Lake

Cambay Party Goes Fishing and has a Good Time

Mr. Weldon and a party of campers from Cambay consisting of Messrs. McIntyre, Routley Tompkins and Downes, of Hamilton are camped on Balsam Lake. Fishing is so good on Balsam Lake, that the party are enjoying themselves.

On Tuesday Messrs. Gilbert and Webster, of Cambay spent the day with the campers. On Wednesday a party of ladies consisting of Mrs. Gilbert, Misses McIntyre, Weldon, Sinclair Rogers had a very enjoyable time hunting and boating and returned to Cambay in the evening well pleased with their trip.

Mr. and Mrs. Wicks, of Warkent are camping at the lake shore, with their family.

Mr. Hogg, of Toronto is visiting Mr. Hayzard.

Mr. Butler and Mr. Lomas, of thechester have a cottage at Long Point this Summer. It is situated on Lake View Farm. They are well pleased with the locality.

### Five Pounder at Bobcaygeon

Mrs. Frank of Buffalo Succumbs to Landing a Beauty

Bobcaygeon July 17—Mrs. E. Frank, of Buffalo, was out fishing with her husband on Thursday and while on the lake with her Nichols as guide, they stopped at one of the piers and threw a line. Mrs. Frank almost at once got a white and there was business from that time go. The line ran out with a splash and Mrs. Frank had to put on her plugging and jumping and she had to exert all her skill in hauling the reef was wound in and there other spurge ran out the line again.

It was a great struggle but Mrs. Frank got the fish tired, and brought him within reach of her net, and the finest bass of the season was safely landed. This was in the evening, when it was brought to the village and weighed. It scaled 5 lbs. 10 oz. Its length from the nose to the tail was 20 1/2 inches, and its girth 15 1/2 inches. The weight measurements were vouched for by Mrs. Frank and two witnesses.

**The Question of Habit.**  
Habit is a mighty force, and either tend toward that which is good or that which is evil. It is with us whether it shall be one of our best friends or one of our worst enemies.

**The Cat's Pins**  
Martha had tormented Dinah, a kind old cat, for more than a half hour without an interval of peace when she gave Dinah's tail such a unmerciful pull that the poor old cat decided that forbearance had come to a virtue, so she resorted to her claws for the first time in her life when with the child, Dinah scratched the blood flying tribulation and she, with tears and blood streaming, went to Dinah with all the words in her voice she could command. "Give me those pins out of your hand this minute, miss!" The August Delineator.

### Ontario Marble and Granite Works

Kent-st., Lindsay, Opposite the Library. W. H. CRESSWELL, Proprietor. Formerly Cresswell & Jordan.

Dealers in all kinds of Foreign and Domestic Marble and Granite, Monuments, etc., of the latest designs and best workmanship. A call solicited on interior work. Intending purchasers can interview W. W. Jordan whose good will is in the business.

**Black Watch**  
Black Plug  
The Chewing Tobacco of Quality.

2272
