## Hopeful Conditions Exist in the West

Mr. Boxall Found a Feeling of Confidence in His Tour of the West

Mr. and Mrs. James Boxall returned home last Tuesday from their trip to the west. While in the west Mr. Boxall visited many towns and cities and says the feeling of confidence in a good crop is general, and while business is at present dull there, the business men look for very much better conditions when the crop is harvested.

In speaking of the Sons of England, in whose interest he visited the west, he said the society was making wonderful strides, and had shown an increase of over 20 per cent. during the past year, and the enthusiasm among its members was very encouraging. The advancement and business prosperity of Winnipeg was such as to cause him much surprise, and all the towns he visited were going ahead by leaps and bounds.

## Hot Weather Drives 'Em Out

Old Sol's Labors Result in Increase to Tourist Traffic

The hot weather which the people of this district are enjoying just now is again bringing up the tourist trade on the Kawartha Lakes. To-day both the Esturion and the Kathleen took large crowds up the river to enjoy a day's outing. The captain of the Esturion also reports that there is also picking up on the lower lakes.

## Smiling

When the weather suits you not, Or your relatives all hot, Try smiling.

When you're coffee isn't hot, Try smiling.

When your neighbors don't do right, Or your relatives all fight, Try smiling.

When you're hard to get in with your might, Try smiling.

Doesn't change the things, of course, Just smiling.

But it cannot make them worse— Just smiling.

And it seems to help your case, Brightens up a gloomy place; Then it sort of rests your face— Just smiling.

## They've All Gone a Huckleberrying

Many years ago, when boundary lines between different states were being arranged, the final settlement of a line carried a house that had always stood in one state, but a rod over into another. In the house lived a good, old woman. She used to live in South Carolina, but was thus suddenly made a resident of North Carolina. When she heard of the change she said, "Now I am clear glad on't. It's a good thing I've got into another State, I always heard South Carolina was a desperate unhealthy place to live in."
