makes it especially desirable for Preserving. The recipes work out right when ST. LAWRENCE GRANULATED is used—and the Jams, Jellies and Sweet Pickles are sure to keep.

St. Lawrence Sugar is sold in convenient 20 pound bags—also by the pound and barrel.

The St. Lawrence Sugar Refining Co. Limited MONTREAL

CENTRAL ONTARIO POWER CO. WILL PLACE POWER PROPOSITION BEFORE CITIZENS

The meeting held in the Council Chamber last night to discuss the proposition of the Electric Development Co., or, as it is called, in this district, the Central Ontario Power Co., was very well attended by the influential citizens of the town.

MR. MCCOMB systematizing engineer, was the first speaker. He said the committee had been disappointed in the John Deer Co. order, because certain peculiar conditions in the implement business, and the Deer Company's relations with another drill manufacturer, Negotiations were next commenced with the International Harvester Co. but an order from them would require a lot more money than he thought the town could raise.

Just about this time, Mr. McComb said he met the Central Ontario Power Co. officials. They have 60,000 h.p. of developed electrical energy for sale. There is not a great deal of manufacturing in this part of the Province, so it behooves this Company to secure consumers of their power. To do this they are willing to come here and operate the Sylvester Mfg. Co.'s plant provided they get permission to sell light and power to the citizens of Lindsay.

The first proposition that was laid before you regarding the Sylvester Mfg. Co., necessitated the expenditure

of your own money. Now, this Company will put up all the money necessary to run the business, and you may invest or not, whichever you like. If they take hold of it they will back the concern with \$250,000.

I went to these people—they did not come to me. I knew they had money to invest, and I also knew this territory well enough to know that they would have to back up concerns that would use power. A good many of you would like to see Lindsay own her own electric plant. This is all right, but did you ever stop to consider what it really means to operate and maintain an isolated power plant, especially when you have it after making a very large investment. I know what it means. I am interested in a plant to-day where we are getting power at an extremely low cost, \$9.50 per h. p. This is because we have no investment in the plant, but we are dependent on this one plant alone, and subject to all the physical risks of consequential breakdown and shut-down and if we could buy from a power company having a number of plants we would shut down this isolated plant to-morrow, and we would do this if we had to pay \$18 per h.p. or practically what it is costing us now. Again you can readily understand that the power business is like any other manufacturing business—you can do it cheaper on a whole-sale scale than you can in a single isolated plant. A number of years ago I was called on to reorganize and consolidate a gas and electric plant and my investigation then showed that after the first ten years of the life of the plant the electrical generating part and the transmission and distributing system had to be renewed every ten years. Mr. McComb then asked that Mr. Kerry be called.

J. J. G. KERRY, manager and engineer of the Central Ontario Power Co., addressed the meeting. He said the Central Ontario Power Co., as a power company, would not be allowed by the government to engage in any other business. Some of the shareholders of the Company would form an independent com-

pany if they decided to take over the Sylvester Co. Mr. Kerry thought it would be more satisfactory if he were to answer questions than to try to make a speech.

G. H. WILSON asked Mr. Kerry what kind of franchises were granted in other towns, and what kind of a franchise they would be willing to operate under here.

D. CINNAMON wanted to know what the maximum rate would be.

MR. MCCOMB said he thought Mr. Wilson's question a good one. Lindsay will be granted a term franchise, which is the same as other towns in the district are getting. At any time at the end of the given terms of five or ten years the town can buy the plant. The Power Company don't ask the people to bind themselves to them. The Power Company was willing to put themselves on trial.

MAYOR BEAL wanted to know why they wanted a thirty year franchise when they were willing to sell out at the end of the given term. Give us the proposition.

MR. MCCOMB asked him if, as the chief magistrate of the town, he would welcome a proposition from the Central Ontario Power Co.

JOS. STAPLES Yes, we will.

MR. MCCOMB They are willing to put up a mortgage for \$25,000 as a guarantee to carry out their agreement if they decide to take over the Sylvester Co. works. (Applause).

R. KYLIE At a public meeting held a few weeks ago it was decided to consider the Central Ontario Power Company's proposition as well as the question of buying the local plant and Fenelon Falls and Minden powers.

MR. MCCOMB said he went to the general manager of one of the banks in Toronto to look up the financial standing of this Company. The general manager said if we could induce them to locate in Lindsay he would be willing to advance money on the proposition till the Central Ontario Power Co. could get the agreement completed. Lindsay can be made a good manufacturing town if the people will put their shoulders to the wheel.

JOHN MCRAE What have they done for other towns—what industries have they taken over and operated?

JOS. STAPLES We don't care a snap what they have done for other towns if they do something for us.

W. B. SPARLING, I have contended that we should get the fullest information. I would move that the Central Ontario Power Co. place a definite proposition before the committee in five days. The motion was seconded by Mr. Jos. Staples.

H. DOBSON I have no objection to the motion, but it seems to me a strange thing that they have power to sell and yet did not come up to us and offer to sell it.

J. O'REILLY

They ask us if we want a proposition. If they have one let us have it. Let them tell us about the Sylvester Co.; let them tell us their highest rate.

MAYOR BEALL said we were under agreement to consider the proposition of buying the local plant and we should not break our agreement by dealing with this company.

JOS. STAPLES Are we under obligation to consider the proposition of buying the local Company's plant and none other?

J. B. GRAHAM I would like to know what position the town would be in regarding charges as compared with other towns. The charges as compared with other towns. The charges should not exceed those of any other town.

J. J. G. KERRY I can assure you that you will receive good rates—the same as other towns to which power has been transmitted. I would like to make the confusion of names clear. The Electric Development Co. bought up several companies operating in this district and these companies have retained their original names. The Company as it is operating in this district is known as the Central Ontario Power Co.

The speaker quoted rates as follows—Light, 8 cents net or 10 cents per room and 3 cents net. We cannot say which will be the most satisfactory to the customer. In our franchise we have left it with the customer to decide. Power, \$25 per h.p., for 24-hr. service. The general rate is what is known as "stand-by charge." It is a fixed rate and remainder a metre rate. On stand-by charge 12 h.p. will cost 3-8c per h.p. per hour. Our rates are subject to the approval of the Government. (Applause).

J. B. GRAHAM The town of Lindsay, like all other towns, is anxious to do the best they can for themselves. We should hesitate before granting a franchise to a Company that is going to charge us more for our light and power than is being charged some of the other towns in the district.

Mr. Kerry explained that our charge was higher because of the long distance the power would have to be sent. G. H. HOPKINS reviewed the power situation very thoroughly. Mr. Hopkins thought it would be a good thing to have the two committees act together. The suggestion was adopted by the meeting. The speaker said it was worth something to the town to have the Sylvester Co. started on a good footing, but let every man on the committee go as carefully as if he were making an investment of his own funds.

Messrs. Sparling and Staples, mover and seconder of the resolution, agreed with Mr. Hopkins in having the committees combined. This clause was added to the resolution, which carried unanimously.

J. J. G. KERRY I want no misapprehension. We have been considering this power question for several months, and are prepared to draw up a franchise on short notice. I do not promise to lay before you the Sylvester Co. proposition in that time.

I. E. WELDON If they have got anything under heaven that can possibly do us any good, let them bring it along.

R. KYLIE The time limit for the option on the power plant is 10 days and whatever we do we must do quickly. The meeting then adjourned, the two committees to meet together and organize during the coming week as a single joint committee.

FINE PICTURE OF CANADIAN CONTINGENT

Coi.-Sergeant W. Mitchell, and Sergeants R. Henley, and Thos. Prestige, who accompanied the Canadian military contingent to the Coronation ceremonies in England have in their possession a picture of B. Co., to which they were attached. It was taken in front of Chelsea School, and the 94 members of the company are grouped in such a manner as to be easily distinguished. The picture is 14x20, and was taken by Gale and Polden, of Aldershot. The three representatives of the 45th Regiment occupy positions in the front row.

Motor Boat Damaged

Fenelon Falls, July 13.—When going up the canal on Tuesday afternoon, Mr. A. Spence's new motor boat struck against a log with such violence as to bend the shaft and propeller, which will have to be removed and sent to Lindsay for repairs.

Constipation is the root of many forms of sickness and of an endless amount of human misery.

Dr. Morse's Indian Root Pills,

thoroughly tested by over fifty years of use, have been proved a safe and certain cure for constipation and all kindred troubles. Try them. 25c. a box.

LINDSAY BOY WITH CAMERON HIGHLANDERS

A Lindsay boy in the person of Mr. J. N. Armstrong, of Winnipeg, is home for a short holiday, visiting his parents, Mr. and Mrs. R. Armstrong. William-st. Mr. Armstrong went to the Coronation with the 79th Cameron Highlander, Winnipeg. The regiment comprised fifty-six non-commissioned officers and men and six officers and were the guests of the 79th Queen's Own Cameron Highlanders, of Aldershot, during the Coronation ceremonies. While in England they were attached to the 9th regiment of the regulars. The Regiment left Winnipeg June 1st and sailed to England in the Allan line steamer Corsican, returning in the Victorian and landing at Montreal July 15th.

The first day of the Coronation procession the Winnipeg regiment of Cameron Highlanders was stationed in the Mall outside Buckingham Palace. The second day they were in front of Whitehall Palace. They also had the honor of guarding the colors.

The regiment was inspected by General Smith Darie, first in command at Aldershot, General Sir Ian Hamilton, second in command at Aldershot, and Lord Strathcona. Lord Strathcona presented each non-commissioned officer and man with £30, and each officer with £50. Mr. Armstrong has in his possession a picture of the company representing the 79th Cameron Highlanders, Winnipeg. The men had two weeks to see the sights in London.

Owing to the fact that the trip was gotten up by the regiment themselves only three coronation medals were presented to them. One was given to the captain, another to a non-commissioned officer, and the third to Mr. Armstrong, because he has been with the regiment longer than any other man as a private. Mr. Armstrong has a brother in the regiment, Mr. G. M. Armstrong. Mr. Cyril McAlpine, son of Dr. McAlpine, William-st., is a lieutenant in the regiment at Winnipeg. Neither of these gentlemen took in the trip to Winnipeg.

LARGEST WHEAT CROP IN CANADA'S HISTORY

Fifty Thousand Men Will Be Required For the Harvest. The wheat crop of 1911 is the largest ever known in the history of the country—a low estimate of the crop of Manitoba, Saskatchewan and Alberta being at least two hundred million bushels and the Government of the respective provinces state that fifty thousand men will be required for the harvest this year. These will have to be principally recruited from Ontario, and the prosperity of Canada depends on securing them promptly. The Canadian Pacific, on whom will practically fall the entire task on transporting the men to the West is already making special arrangements for this year. Excursions from Ontario points to Manitoba, Saskatchewan and Alberta will be run at the same rates and conditions as last year and special trains from Toronto and Ontario points through to Winnipeg and West will be run, making the trip practically in thirty six hours, avoiding any change of cars or transfers—this will be a day shorter than any other route. Dates of the excursion will be announced as soon as possible and all C.P.R. agents can supply full information concerning this year's excursions.

MARRIED

CROSBERRY—JONES.—At the residence of the bride, Eden, Mariposa, on July 20th., 1911, by the Rev. F. H. Howard, Elijah Crossberry, of Cannington, to Elizabeth Jones, of Mariposa.

DESPATCHING TRAINS BY TELEPHONES

It was announced to the Globe by Mr. W. W. Ashald, Superintendent of Grand Trunk telegraphs, Montreal, last night at the Queen's Hotel that the company would adopt, in the near future, the despatching of trains by telephone over its entire system, displacing the telegraph for this purpose. The company has had two telephone circuits in operation during the past eighteen months, and these have given entire satisfaction. These circuits embrace the northern division with one despatcher, from North Parkdale to Burlington Junction via Allandale, a distance of 140 miles and the division from Allandale to North Bay, a distance of 165 miles, with one despatcher.

The entire system of the railway totals about 4,700 miles, and the telephone despatching department will include 31 circuits. The same number of operators will be required as in the present telegraph service. Mr. Ashald said that the telephone system was much superior to the telegraph, and in flexibility of operation it was considered much safer. A rough estimate of the cost of installing the system and placing it in operation is \$105 a mile. This will bring the entire cost of installation for the system to be \$500,000.

"We use a copper metallic circuit," said Mr. Ashald, "having two wires of No. 9 gauge of hard ground copper. Each wire weighs 210 pounds per mile. It costs 75 per cent more than the telegraph to install, but the railways consider it so much superior to the telegraph that they readily adopt the telephone." A special telephone will be used. Mr. Ashald also estimates that the telephone saves 50 per cent over the telegraph in time. In issuing orders over the telephone, the numerals are first given and then spelled out.

WEDDING BELLS

LOVE—MACMILLAN The residence of Trainmaster and Mrs. McMillan, Lindsay-st., was the scene on Wednesday afternoon of a quiet wedding, when their eldest daughter, Carolins, was united in the holy bonds of matrimony to Dr. C. H. Love, of Brooklyn, N. Y. The house was beautifully decorated for the occasion with flowers and ferns. The bride entered the drawing room on the arm of her father, the wedding march being played by Miss Love, sister of the groom, the hymeneal knot being tied by Rev. Jas. Wallace, and Rev. R. L. Love, of Brooklyn, assistant pastor of Plymouth church, and father of the groom. The following guests were present from out of town: Mr. Wm Piggott, and Mr. and Mrs. James Piggott, of Midland; Mr. and Mrs. Jas. McDow, of Midland; Mr and Mrs. Roderic McMillan, of Hamilton, Mr. and Mrs. W. J. Green, of Peterboro, Miss Love of Brooklyn; and Mr. and Mrs. Wm. Pears, of Toronto. The happy couple left on a trip to New York State.

STIRRETT—MEDIARMI. A very pretty and fashionable wedding took place this afternoon at the Cambridge-st. Methodist Church when Miss Ruby Evangeline McDiarmid, daughter of the late Rev. Dr. McDiarmid and Mrs. McDiarmid, Bond street, was united in the holy bonds of matrimony to Mr. Gordon Park Stirrett, Petrolia. The ceremony was performed by the Rev. Dr. S. J. Shorey, pastor of the Cambridge Street Methodist Church. Intimate friends and relatives of the contracting parties were present during the ceremony. The bride looked very charming in a dress of white crepe de soie, and carried a bouquet of lily of the valley and white roses. She was given away by her brother, Mr. F. A. McDiarmid City Solicitor for Victoria, B.C. After the ceremony at the Church, a reception was held at the home of the bride's mother, Mrs. McDiarmid, Bond Street, where refreshments were served. The bride travelled in a navy blue and white tailored suit, with a jaunty little hat touched with cerise to match. The happy couple left on the 4.35 C.P.R. train for Victoria, B.C., where they will reside in future. The Post joins with their many friends in wishing them a long and happy wedded life.

NOTICE Respecting Increase of Capital Stock of THE VICTORIA LOAN & SAVINGS COMPANY

In pursuance of the Loan Corporations Act, and by the direction of the Registrar of Loan Corporations, NOTICE IS HEREBY GIVEN that the directors of the Victoria Loan & Savings Company, have on the 7th day of July inst., passed a Resolution increasing the authorized Capital of the said Company from Three Hundred Thousand Dollars to Five Hundred Thousand Dollars, in shares of \$100 each. And that such By-Law will be submitted to the Shareholders of the said Company for their consideration, at a special general meeting of the said Company to be held on the 25th day of July instant, at thirty minutes past 10 o'clock, in the afternoon, at the Head Office of the Company, in the City of Lindsay, Ontario. Dated at Lindsay, this 7th day of July, 1911. JAMES LOW, Manager

\$3,600 in Cash Prizes for Farmers

ARE you going to build that new horseblock, sidewalk or dairy house of cement? Then insist on your dealer supplying you with the "CANADA" Cement. Not only will this ensure your getting a pure, uniform and strictly high-grade cement, that will guarantee the lifelong permanency of the thing you build, but it will also entitle you to enter our Prize Contest. And in this contest you stand a good chance of winning a prize that will perhaps more than pay you for the cost of the work. Every farmer in Canada who uses "CANADA" Cement is eligible to compete. Four prizes will be awarded in each Province and these prizes will be divided as follows: PRIZE "A"—\$100.00 to be given to the farmer in each Province who will use during 1911 the greatest number of barrels of "CANADA" Cement. PRIZE "B"—\$100.00 to be given to the farmer in each Province who uses "CANADA" Cement on his farm in 1911 for the greatest number of purposes. PRIZE "C"—\$100.00 to be given to the farmer in each Province who furnishes us with the photograph showing the best of any particular kind of work done on his farm during 1911 with "CANADA" Cement. PRIZE "D"—\$100.00 to be given to the farmer in each Province who submits the best and most complete description, of how any particular piece of work shown by photograph sent in, was done.

Notice how we have purposely planned and imposed certain necessary conditions in order to give large and small users of cement an equal opportunity. As an illustration of this: In prizes "C" and "D" the quantity of cement used has no bearing whatever on the result. The farmer who sends us the best photograph of as small a thing as a watering trough or a gate post, has as much chance for prize "C" as a man who sends a photograph of a house—and the same applies to prize "D." Don't hold back from entering because you think you don't know anything about concrete work. It's very simple. Besides, we have a 160-page book that we will send you free on request, which tells you all about concrete and how to make and use it. In this book, you'll find complete instructions for the making of almost everything you can think of in the way of farm utilities, floors, vats, troughs, stairs, posts, etc. This free book—entitled "What the Farmer Can Do With Concrete"—will not only inform you—it will also greatly interest you. So send for it at once, whether you intend to try for one of the prizes or not.
