Council Will Purchase North West Corner of Park Square as a Site For the Armory

Moved by Deputy-Reeve Lewis and Ald. Gray: "That this council hereby accept the option obtained on the property held by private parties in the block bounded by Kent, Sussex, Peel-sts., and Victoria-ave, and that a sufficient site for the armory be allotted within the boundaries named, said site to be located on the north-west part of the block outlined above."

The question will not be submitted to the people, as the statute provides that a municipality has the power to purchase a site for the armory. Those present last night were His Worship Mayor Wood, Reeve Babcock, Deputy-reeves Dobson and Lewis, Ald. Gray, Horn, Howe, McWatters.

Glasses or Spectacles

Which ever you prefer. A nice effect is produced by rimless spectacles—artistic in appearance and perfectly secure. But the lenses are the principal thing to think about.

Mr. McWatters asked if the town had the authority to purchase the site without submitting the question to the people. Mayor Wood said the council was clothed with that power.

CHEESE PRICES AT PETEBORO BOARD

Examiner: The Cheese Board meeting Wednesday was featured by Keene and Myrtle's refusal to accept 12 1/2c. when nearly all the other factories were receiving 12 1/2c. and Mr. W. H. Hammons's thoughtfulness in presenting a large section of an old cheese to the members for their declaration and opinions. This cheese was made in September, 1910, and has been kept in Mr. Hamilton's cellar on Simcoe street. The cheese was made by the Central Smith factory, and was certainly as smooth as silk. It was just the kind that melts in your mouth, and the members of the Board were pleased with it. "Warminster can turn it out, just as good," said the representative of that factory. "You should taste Keene's cheese"

FRANKLIN (Special to The Post.)

Quite a serious run off occurred on the new C.P.R. grain line west of here on Sunday afternoon last, when six cars left the rails. Fortunately the van did not turn over as some of the other cars did or there would altogether likely have been some loss of life. The accident occurred a short distance north of the 13th con., in Mr. Thomas Steward's swamp, caused no doubt by the soft condition of the roadbed, the rails spreading out and letting the cars run on the ties, doing a lot of damage to the road. By the aid of the auxiliary and a gang of men, the track was in running shape by Tuesday. One car, which was filled with western oats, was turned completely over, scattering the oats badly, which were gathered up by some of our farmers for their feed.

Mr. Fred Thompson and Walter Saunders who have been in the employ of the C.P.R. constructing a house at Franklin west for the use of the section foreman, have gone to Balsam Lake to work on the new station there. Mrs. Jos. Brown, of Lindsay, is spending a week at the home of Mrs. F. Veals. The Misses Mattie and Lillie Thompson entertained a number of the young people of the neighborhood on Thursday evening last. Mrs. H. Bradley, of Omenee, was a visitor at the home of her sister, Mrs. Jos. Gardiner this week. Our teacher, Mr. R. H. Grandy, as well as his three pupils, viz., Harry Lee, Rita Speer, Ruth Grandy and Alta James are to be congratulated on their success at the recent Entrance examination. Mr. James Spier was successful in catching a fine swarm of bees which passed over the village on Saturday last. The boundary hill is in a rather
