COST OF LIVING IS STATIONARY

Ottawa, Ont., July 15.—The high cost of living has ceased to trend upwards. On the other hand it shows no signs at the present of sagging downwards. In the Department of Labor the index number, employed to indicate fluctuations of the cost of living, has remained between 136 and 127. This means that the people pay 37 per cent. more for living now than they did ten years ago. The department does not at present anticipate any decrease in the high cost of living. Many factories are cutting down their staffs, while building is not as brisk as formerly. However, it is believed that there will be little change in the present record, for some time at least.

After considerable figuring they accepted our Spot Cash Price, we have the goods and they have our Money.

CHANCE TO SEE TRACTION DITCHER

What are the hardware merchants going to do with the supply of shovels which they got in for the farmers this spring? This is a question which will puzzle anyone who goes out to see the National Concrete Syndicate traction ditcher working. They started the big machine today at noon, and this evening had moved up the field 50 acres, digging a 3 ft. 6 in. ditch. It is operating on the farm of Mr. John McNevin, Reaboro, and is being run by the Buckley's ditching machine expert, Mr. Perrin, formerly of Powies' Corners. Mr. Perrin says he intends to dig 120 rods tomorrow. This length of ditch if done by hand would take one man over two weeks. It is not necessary to state what this means to the farmer. Now there are a few places where the ditching machine will not work, and also some people wish to put their drains in immediately and cannot wait for the machine. There is going to be a drainage demonstration on Mr. McNevin's farm at Reaboro on Tuesday, July 22, at 1.30, conducted by the Dept. of Agriculture, Lindsay. Simple methods of digging true to grade, taking your own levels over a ditch and practical drainage problems will be demonstrated. This demonstration will give you an opportunity of seeing the ditcher work and hearing its merits and prices of digging discussed. The farm is near the G.T.R. station, Reaboro, and you will exper-

ience no difficulty in reaching the farm from the railway station. The ladies of the Baptist church are holding a lawn social conveniently near so that it will not be necessary to go home hungry. You are invited to attend.

Cloudburst in Minneapolis. MINNEAPOLIS, July 16.—A rain-storm has assumed the proportions of a cloudburst and swept over Minneapolis late yesterday, flooding basements and doing heavy damage. In some instances street cars were derailed by the water. According to the weather bureau 1.09 inches of rain fell in 35 minutes, eight-tenths of an inch came down in 18 minutes. Much damage and inconvenience were caused by wind and rain in St. Paul and other nearby places during the day.

Disinfect Every House. NORTH BAY, July 16.—H. C. Parker, of Toronto's Health Department, who was loaned to the Provincial Board of Health for service in the townships east of North Bay, has completed the work of disinfecting every house in two townships where there were fifty-eight cases of smallpox without quarantine.
