WANTED—Qualified teacher for S. S. No. 1, Digby. Apply stating salary and qualifications to Joshua L. Bailey, Head Lake, Ont.

ADVERTISE IN THE POST.

BURGLARY WAS NIPPED IN BUD

Continued from page 1.

One man climbed up a ladder toward Mr. Brown's bathroom window and putting his head in said in a stage whisper, "Hello, is anybody here?"

Constable Woods rang up Mr. Welsman at half past one o'clock, and an investigation was made at once of the store, but nothing inside had been disturbed.

PRINCE ALBERT HAD DESTRUCTIVE BLAZE

(Special to The Post.)

PRINCE ALBERT, Sask., July 22.—Fire yesterday morning gutted the McKay and Adam block, destroying the Manville Hardware Co. stock, the McKay and Adam law offices, the office of McMaster and Christie, surveyors, office of the West Lumber & Supply Co. and part of the furniture of the Carlton Club.

The losses which total \$118,000, are as follows: McKay and Adam block \$40,000, insurance \$24,000; Manville Hardware Co. stock \$40,000, insurance \$25,000; McKay and Adam, probably \$25,000, not much insurance. The \$10,000 law library of James McKay, M.P., was destroyed with no insurance.

GUARD AGAINST CHOLERA INFANTUM

Cholera infantum is one of the most fatal ailments of childhood and during the hot summer months thousands of little lives are lost by its ravages.

B. J. GOUGH WHERE THE GOOD CLOTHES COME FROM

CROP AND MARKET SITUATION REVIEWED

In the current issue, Canadian Grocer deals with the crop and market and crop situation as follows: For the first time in weeks there is in the reports which have been received by Canadian Grocer this week a note of improvement. It is significant that this comes particularly from the West. Those who are in touch with financial and business conditions have figured that the tide would first turn in Western Canada and it has also been the idea that the grocery trade, dealing in staples, would be one of the first to note the change.

not very noticeable, the tone is very satisfactory for the season of the year in view of general conditions. There is a big difference in the nature of the crop reports which come from the West, but there does not appear to be any real reason to believe that there has been wide damage. The end of the week brought torrential rains in Manitoba, and also in other prairie sections further west. In Saskatchewan reports indicate a crop of from 17 to 20 bushel to the acre on the average with some sections where there will only be about 5. The crop is a week or ten days ahead of last year, and is beginning to head out in some sections of the south. Hail has done little damage and an early harvest should prevent serious harm from frost. Prices continue to decline, and the flour market is easy with prices much out of line for export business; lower prices are only quoted on big orders. Mill feeds are very firm for the season on account of short grinding and poor hay crop. Cornmeal is hard to get on deliveries, and higher prices are talked of.

general outlook for other varieties of fruits and vegetables has changed little. Sugar has advanced ten cents in New York and while there is a demand in Canada, it has been delivered rather than created in sales; no advance is looked for in this country at present. Raisins and currants are getting into close compass, and prices are advancing fractionally. The Mexican war has had the effect of an advance of about 20 per cent in the price of scrub and other brushes made of Tampico or other root fibre. Fresh eggs are dearer, grade 1 and cheaper, which emphasizes the need for caudling. Butter and cheese, however, will have to come down to encourage export business; butter is now a couple of cents under a year ago, the big influence being lack of demand in the West. New potatoes are a couple of dollars a barrel above the price at the date a year ago, and the balance of the New Brunswick stock is clearing at two dollars and better to the 10. An insect plague, which in some districts amounts to little short of a disaster, has within the week hit the pea fields of the eastern part of the province. The exact extent of the damage cannot be learned, but some of the packers are not looking for more than half a pack. One estimate is that the new prices will be 20 to 30 per cent above what had been looked for. The ravages of the fly were only discovered when the harvest commenced—it seemed to come over night, as it were. Raspberries are now being packed and here appears to be a good crop, while the
