On motion of Messrs Smithson and Mark, the following motions received the assent of council:—
Mark—Smithson—That the Clerk prepare a by-law to be passed at next meeting regulating the rates of wages paid for certain kinds of work in this municipality containing among other sections the following viz: for general road work, man per hour 17c; on crusher 20c, and for man and team 35c per hour.
Lee—Mark—That the Clerk write to the Minister of Railways and Canals asking that the dredged road between Cameron and Lindsay be completed.
Mark—Lee—That A. Rutherford and A. Stockdale be notified to move their road fence to line surveyed by Mr. Dickson before Aug. 20, 1914, or council will move the same at their expense.
Lee—Smithson—That orders amounting to \$578 be paid, the principal orders being to Mickle & Dymont for lumber \$91.55; to McKee & Kehoe for bridge steel \$139.50; to J. H. Brandon for cement \$102; to C. Sackhouse for tile \$50.25; for gravel \$56.40.
Lee—Smithson—That Council now adjourn to meet at Cameron on Monday, Aug. 24.

GUNRUNNING IN COUNTRY WICKLOW

DUBLIN, Ireland, July 29. — A consignment of 4,000 rifles for the Irish Nationalist Volunteers was landed during the night at Newcastle on the coast of County Wicklow. The gun-runners evaded the coast guards and police and conveyed the weapons to Dublin in motor cars. Two gunboats were in the bay at the time flashing their lights about.
Another 1,000 rifles was landed near Killecol, also in Wicklow.
The coroner's inquest on the victims of Sunday's fighting between the King's Own Scottish Borderers and the mob was adjourned till Thursday at the request of the lawyers representing the soldiers, who asked for time to prepare their evidence.

London Lineman Killed.
LONDON, Ont., July 29. — John Christy, 50, a lineman in the employ of the London Electric Co., was almost instantly killed on Dundas street yesterday morning when one of the company's poles, from which he was removing the wires, broke off at the bottom and the man was hurled 60 feet to the cement sidewalk below.

DOCUMENTS MISSING IN MONTREAL

MONTREAL, July 29. — The discovery of the stealing of the official documents connected with the Notre Dame de Grace sewer scandal, at the City Hall, was followed yesterday morning by the announcement that other documents, which related to the Doreville street land deal, have disappeared. In connection with both the Notre Dame de Grace and the Doreville street affairs serious charges are now being investigated by the courts.
As a result of the latest developments, the charges against former Engineer Etienne Pelland, who was arrested some time ago and is now out on bail in connection with the Notre Dame de Grace scandal, may be interfered with, and another case in which an alderman respecting the Doreville street deal is affected.
Mayor Martin issued a proclamation yesterday warning heads of departments of the need of keeping a strict eye on the documents placed in their charge.
It is a mighty good thing this world is as big as it is, else a good many persons might feel cramped.

CROP OUTLOOK IS SERIOUS

Winnipeg, July 27 — During the past twenty days there has been a very serious depreciation in the general condition throughout the three Prairie Provinces. The Free Press will say tomorrow: From 147 points heard from the following percentages are shown:
Seventy-seven points report that an average crop of wheat will be harvested if they have immediate rain. It is noticeable, however, that the average is dependent on the rain coming immediately.
Fifty-four points report a crop as below the average.
This runs all the way from 75 per cent. of an average crop down to 50 per cent. of an average, and six districts report an almost total failure.
MANY POINTS NEED RAIN
One hundred and twenty-seven points need rain very badly. At 14 points it is not badly needed, and three points report abundance of rain and two that the crop is suffering from too much rain. These last are in northern Alberta.
With reference to coarse grains, 21 points report the oat crop as good; 32 points as fair if they have immediate rain, and the balance of the reports that the crop is very poor.
Sixty-five points report on flax, and of these 34 state that the crop is fair to good if it gets rain immediately.
Barley is generally reported short and light, though a very few points report a good crop. Only 17 points report damage from hail and none of it of a serious character, except at one point where 15,000 acres were destroyed. About half a dozen points report a small amount of early wheat being cut, and almost all the districts indicate that harvesting will be early in August. Only one point—namely Lyleton—reports rust and Hessian fly.
Quite a number of points report that large areas have been plowed down, particularly of oats.
CONDITIONS NOT CHEERFUL
To sum up the condition, they are certainly not cheerful. These reports indicate that in Saskatchewan there will be even less than 75 per cent. of an average crop, which was the amount indicated by the last Government report. In Manitoba conditions are a little better, a larger number of points reporting a crop fully up to the average. In southern Alberta the indications are that there will be only about 50 or at most 55 per cent. of an average crop. In the north, where the wheat acreages are, however, comparatively small, the indications are for something rather above an average.
A few points report that the quality of the wheat will be materially affected by the heat filling too rapidly. A number of points declare, however, that the heads are plump, and the quality will be good. Last year's wheat crop for the west was about 189,000,000 bushels, and it was an average crop, that is, about 18 bushels to the acre for the whole country.
While the conditions are very unsatisfactory, it must always be borne in mind that the conditions change very quickly in the west, and good general rains within the next few days will materially improve matters.
It is gratifying to note that, apart from the fact of the drought, the crop is reported clean and without damage of any kind.
Mr. A. J. Ford, of Vancouver is spending a few days in town looking up old friends.
DEAFNESS CANNOT BE CURED
by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of mucous surfaces.
We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

WHITBY HORSE SHOW NEXT BIG EVENT

Prizes for the second annual event in the Whitby Horse Show, Aug. 12, 13 and 14, aggregate \$3000.00. The Hon. Clifford Sifton is sending his best horses including the greatest string of high jumpers in Canada. Mr. Jos. Kilgour's splendid hunters are coming. Crow and Murray, Sir Henry Pellatt, the Cumberland Stables, and the Dominion Transfer Co., are other leading exhibitors at this three day show. The "Pig Pen Jump", high jumping over tied poles and all the fancy jumps that go with this exceedingly difficult, but most amusing feature of the programme will be given an elaborate setting. The beautiful town park where the Whitby Horse Show had such a record-breaking opening is being prepared for the reception of many more than the thousands of delighted visitors who attended last year. Ample stabling accommodation is assured for all exhibitors and others who will drive their horses to Whitby for the show.
Write T. Cussion, Secy, for prize lists and all information.

LIQUOR CASE WAS HEARD IN PRIVATE

The Post has been informed that a private session of the police court was held on Tuesday at which a local hotelkeeper was fined \$43.70 for selling liquor after hours. This information was laid as a result of a visit made to the hotel by the License Inspector, when several well known citizens were found in the bar. As the case was tried in camera, the Post is unable to give particulars.
