THE END OF THE GREAT CONTEST WINNERS OF THE FREE TRIP

One of the Greatest Successes Ever Achieved in the Midland District

The great Free-Trip-to-Quebec Contest is over, and there were thirteen delighted girls in the county Monday evening.

Never in the history of the Midland district has there been such an interest taken in any contest as has been manifested by the people of all shades of politics and all branches of society in this for The Post's great free trip. From the most northern corner of Haliburton to the most southern part of Emily practically nothing else has been talked of for weeks but the contest in which The Post of-Mr. Jas. Thorndyke spent Sunday | fered to send eleven young ladies free of all expense on an excursion

trip to Quebec. Friends of the young ladies in all parts of the country have been unremitting in their efforts to secure the success of their favorite and scarcely a house remains where a call has not been made in the interests of some one or more of the candidates, and the result has been most gratifying. The number of new subscriptions added to our list has been phenomenal and far exceeds our wildest anticipations, one of the young ladies alone having secured the almost incredible number of 95 subscriptions in the last three days, others pleted and have given the best of sat- having done almost as equally well, showing how highly The Post tisfaction. Never was there a better is regarded by the people of the county. Sixty years of consisten cleanness and always a high moral standing have done so much to give The Post a position in the estimation of all right-thinking people that our contestants and their friends have reported day by day along Mr. A. Parsons and family, how pleasant it was to solicit subscriptions for it. This is very

gratifying to us and was decidedly helpful to the young ladies. Froman early hour in the morning on into late in the afternoon long strings of vehicles could be seen wending their way to town, the occupants all earnestly bent on learning at the earliest possible moment the names of the winners of the contest, and throughout the of day the business effice of The Post was thronged with anxious enher sister Mrs. R. Miss Lottie Hutchison..... 163,999 When the figures were scanned and analyzed by the management it was seen that the efforts put forth by the two next leading candidates had been so great and their standing was so high that they were fully deserving of recognition, and of it was promptly decided that these two should be included in the party. They have therefore been included in the list of winners and have been notified to
