## Good Fishing At Fenelon Falls

Visitors at Cataract Village Making Fine Catches

Fenelon Falls, August 3.—During the past week some of the finest catches of small mouth black bass that the writer has ever seen has been brought into the Hotel Kawartha. Three of them are quite out of the ordinary and deserving of special mention.

The first was brought in by Mr. Jos. Swope, of Dallas, Texas, and his guide, and consisted of 16, the limit allowed. They ranged from 2 to 4 pounds each and made a fine showing.

The next was brought in by Mr. J. W. Jamieson and Mr. E. Miller, of St. Louis, and consisted of 14, also all small mouth, black bass. One of these weighed five pounds and all of them were a good size. This catch on the whole about equalled the first mentioned, but the third has seldom been equalled—12 small mouthed bass not varying over 1/2 a pound and the lot weighing nearly 56 lbs. Think of that, ye fisherman, as pretty a sight as one could wish to see. This catch is also credited to Mr. Swope, and Colonel Pirie, of Dallas, Texas.

The following catches were also made: Mr. A. F. West, 6 bass, one of them weighing 5 pounds.

J. P. Heighton, 5 bass, one also of nearly 5 lbs. Mr. Geaside, catches of 5 or 6 good sized fish besides several others. All of these gentlemen are from Toronto.

Several maskinonge were brought in but they were of ordinary size, except in one case where Mr. Swope landed with a six ounce casting rod, one of 13 1/2 lbs.

In the trout fishing Mr. J. A. Rogers, of New York, one of the Kawartha guests, reports from Gull Lake, large fish and a catch to the limit on four consecutive days.

Mrs. Rogers, who accompanied him, performed a feat to be proud of. She landed what is said by the guides to be the largest trout ever taken out of Gull Lake. It weighed 12 1/2 pounds, and has been sent to Peterboro for mounting.

The miser who has money to burn ought to take it with him when he dies.

## MUST FACE THE JURY

McKelvie Committed to Trial, for Bribery

WOMAN WAS AN AGENT

Mrs. Burwash at Preliminary Hearing in Haileybury Says She Acted as Agent Between John Piche and McKelvie While Former Was in the West—Expected Money, Says Piche—Got \$1,000.

Haileybury, Aug. 4.—Andrew McKelvie, a director in the Temiskaming & Hudson Bay Mining Co., prominent in the Cobalt district, was yesterday committed to trial by Magistrate Atkinson on a charge of having bribed John Piche to leave the country and avoid giving evidence in a suit intended to prove that the company's claim had been "blanketed."

Two witnesses, Mrs. Elizabeth Burwash and her brother John Piche swore that McKelvie had given him \$1,000, and 100 shares of the company's stock to disappear.

Magistrate Atkinson in giving the decision said, "It is better that I should commit Mr. McKelvie for trial, as in a higher court his innocence, if he is innocent, can be established, whereas, if I were to let the matter drop now, there always would be more or less doubt in regard to his sending Mrs. Burwash (Piche's sister), out west."

There was a large attendance in the magistrate's court yesterday, and intense interest was manifested. A. G. Slaght appeared for Mr. McKelvie. Crown Attorney Browning prosecuted. Mr. Slaght objected that, as the alleged offence occurred three years ago, the prosecution was debarred. He was overruled.

Mrs. Burwash swore that relations between the company and Piche, its original prospector, became strained on account of the filing of certain affidavits. She then became the agent through which Piche and McKelvie got together and arranged the terms, \$1,000 cash, and one hundred shares of stock.

She had seen McKelvie and then wired for her brother. She had not taken part in the conversation, as the men were inclined to be quarrelsome.

"McKelvie wanted to come to a settlement and my brother would not listen to him," she said. Asked to relate what had been said, she could not remember, nor whether an agreement was reached that night. She had seen McKelvie and demanded \$2,000 and the stock, but McKelvie had only agreed to \$200 cash and a check for \$800 on the Union Bank, in addition to the stock, which was made out in her name. She said she sent the proceeds to her brother in the west. The check had been signed by one McCamus, payable to her.

She also said that she got \$200 from McKelvie later to go out west and tell Piche there was a warrant out for his arrest, and have him keep out of the way.

After an hour and a half Piche was called. He was asked: "Are you the man who made the discoveries on the Hudson Bay?" and replied "Yes."

During cross-examination Piche said he knew he was to be the chief witness in the case of the Attorney-General vs. Thompson, and said that William Pinkerton of the law firm of Pinkerton, Clute & Bartram, Toronto, was dickering with him for the purpose of having him withhold certain evidence which he had. Piche said he was going to leave the country, anyway, as he was afraid of Pinkerton, as the former had got him to sign a paper that he had not read, and he also did not want to go on and stand against the company and without evidence.

Mr. Browning: "Tell me again the exact reason for your leaving."

Piche: "It was because I expected to get something out of the hundred shares given to Mrs. Burwash, and at the same time, that I would not appear in court concerning the pending suits."

Mr. Slaght in arguing for a dismissal, said that as no date had ever been fixed for the Attorney-General's action against the company, it could not be said that there was any occasion on which Piche was to appear as a witness. Hence Piche had been perfectly free to go where he pleased. He declared Piche had not been in concealment and charged that Piche and his sister were "accomplices up to the hilt."

## Tribute Paid to Former Teacher

North Ontario School Inspector Man of Sterling Character

The first Public School Inspector to be appointed under the new regulations is Mr. R. H. Walks, B.A., of Brooklin, who has been chosen by the County Council to take charge of the northern division of Ontario county. The action of the Council is likely to meet with widespread approval, not only in the county itself, where he was born, but in the widening educational circle where Mr. Walk's merits were rapidly becoming known.

The new inspector is a graduate of Toronto University and took a specialist course in English at Queen's. During the past eight years his promotion has been rapid, due not only to his intelligent, successful and highly conscientious work in the class room, but to his sterling character as a man and his strong influence over his pupils. At first he was assistant master in English at Lindsay Collegiate Institute, then English master at Whitby, then called back to Lindsay to take charge of his old department, and finally one year ago to Kingston, where he not only managed the department of English in the Collegiate but delivered lectures to the students of the faculty of education in connection with the Queen's University.

## Mr. R. Sylvester Home From West

Mr. Richard Sylvester returned from the West Monday evening, where he attended the Winnipeg and Brandon fairs. He is loaded up with enthusiasm of the West. The threshold which he exhibited this year at the fair, have met with the highest commendation of the Western farmers, and its prospects and possibilities are almost unlimited, as it has been proven beyond a doubt that it is the machine for the West.

There wouldn't be enough worms to go round if all the birds were early.

## SWEEDEN HAS HER TROUBLES

Country on Eve of Big Labor Struggle

THOUSANDS ARE IDLE

Impending Labor War Is Causing Consternation in Capital and Young Socialists Are Trying to Make a Revolution Out of It—Diet Moves to Stockholm and the Troops Are Called Out.

Stockholm, Aug. 4.—A labor war throughout Sweden, scheduled to begin to-day, threatens to develop in Stockholm into something approaching a miniature revolution.

The trouble will be enormously aggravated by the present general strike and lockout. The members of the Young Socialists party are striving to give the movement a revolutionary character and the Government, warned that a political campaign is going on at the same time, has taken steps to nip expected disorders in the bud.

The authorities have decided, at the first signs of insurrection, to declare Stockholm in a state of siege. Soldiers are being quartered in different sections of the city and suburbs, and the entire standing army of Sweden is ready for eventualities.

King Gustave has summoned the members of Parliament to Stockholm, and a special session of the Rigsdag is expected.

Great consternation prevails in the capital at these unexpected and dangerous developments in the situation. A civil guard corps is being organized for the protection of property, and the banks are closed and carefully guarded. All the ferries running out of Stockholm have ceased operations, and the large steamers engaged in the summer in the seaside resorts in the Archipelago have suddenly stopped running, discharged their crews, and are being laid up for the winter. This summer traffic is usually continued until the month of October.

It is expected that the present total of about 100,000 idle workmen will be largely increased by to-morrow. It is anticipated also that the cab and street car services in Stockholm will stop running Wednesday, and arrangements are being made to-day to run the waterworks and the electric light plants by soldiers.

The bridges leading to the islands adjacent to Stockholm are closely guarded. Many stores already have been closed and no milk is being delivered in the city. The sale of spirits, beer and wine has been prohibited in both shops and restaurants.

The labor conflict that is at the bottom of this trouble originated in a dispute over wages in the woollen and cotton industries. In the beginning 13,000 men were locked out and other industries since have become involved, until to-day the employers' federation declared a lockout of the iron foundry hands, numbering about 30,000 men. A total of 80,000 men were reported locked out yesterday.

The employees of the Stockholm municipality and the state telegraph linemen have joined the strike movement, but the railwaymen's union have declined to do so.

Home-seekers' Excursions

## Steamer Naiad Was in Port

Unscrupulous Poachers Will Be Dealt With Without Mercy

The fisheries protective steamer "Naiad" visited Lindsay yesterday. This trim, majestic looking craft is cruising the waters of the Trent Canal and the poacher who has thrived in the past on his ill-gotten gains had better have a care. Capt. Carson is courteous and genial, but firm and unflinching when duty calls. For many years illegal poaching has been carried on by unscrupulous poachers. Nets, guns, and spears have been used for the capture of the finny tribe, but happily this state of things must now come to an end. The department is deserving of the united support of the citizens in their efforts to enforce the law and preserve the game and fish for the people of Ontario.
